Nebraska: The Cornhusker State

NEBRASKA

The Cornhusker State

Early explorers once described Nebraska and the surrounding area as a “Great Desert.” Little did they realize that the state would later become a breadbasket for the nation and much of the world.

The pioneers who settled Nebraska in the late 1800s deserve much of the credit for transforming the state from a land considered unfit for cultivation to an agricultural oasis. Promised free land by the federal government under the 1862 Homestead Act, farmers stubbornly fought economic hardships, droughts and insects. In later years, scientific farming methods and irrigation dramatically increased farmers’ yields and brought prosperity to the state. Today, Nebraska ranks among the leading states in many agricultural production categories.¹

¹See table of Nebraska agricultural rankings on Page 466.

Notable facts about Nebraska include:

The American Institute of Architects declared Nebraska’s State Capitol to be one of the modern architectural wonders of the world.

- The U.S. Strategic Command, which manages the nation’s nuclear forces in order to deter military attacks on the United States, has its headquarters at Offutt Air Force Base near Bellevue.
- Nebraska has the western hemisphere’s largest area of sandhill grasslands, one of the most productive cattle-raising areas in the United States.
- Nebraska was the home or birthplace of William Jennings Bryan, George Norris, Willa Cather, Mari Sandoz, John Neihardt, John J. Pershing, Edward J. Flanagan, William “Buffalo Bill” Cody, Henry Fonda, Johnny Carson, Dick Cavett, Darryl F. Zanuck, Marlon Brando, Fred Astaire, Malcolm X and Gerald Ford.
- Many pioneer and cattle trails crossed Nebraska, with people using such landmarks as Scotts Bluff (now a national monument) and Chimney Rock, both in western Nebraska. Chimney Rock was the landmark mentioned most frequently in journal entries by travelers on the Oregon Trail.

NEBRASKA'S STATE SYMBOLS³

State Seal and State Motto

The Nebraska Constitution provides for a state seal that is to be kept by the secretary of state and used by him or her officially as directed by law. Legislation creating the original state seal was passed in 1867.

The seal's design is as follows: On the right, a steamboat is ascending the Missouri River. The Rocky Mountains are on the left. In the background, a train of cars is heading toward the Rocky Mountains. The mechanic arts are represented by a smith with hammer and anvil. Agriculture is represented by a settler's cabin and sheaves of wheat. In the top of the circle is the state motto: "Equality Before the Law." The circle is surrounded with the words, "Great Seal of the State of Nebraska, March 1st, 1867."

State Flag

Nebraska's state flag was designated by legislative action in 1925. It consists of a reproduction of the state seal, charged on the center in gold and silver on a field of national blue.

State law says no part of the state flag is to be used as a business advertisement or trademark, and insulting the flag is forbidden. State law also requires the flag to be displayed under or to the left of the U.S. flag on or near the State Capitol, the governor's mansion, all courthouses, city or village halls, schoolhouses and other public administrative buildings.

The original flag is displayed in the Office of the Secretary of State in the Capitol. A historical scrapbook about the flag, compiled by Mrs. B.C. Miller of Crete, is on microfilm at the Nebraska State Historical Society.

³Except where noted, sources for state symbol information are: Nebraska State Historical Society; Nebraska Game and Parks Commission; Conservation and Survey Division, University of Nebraska-Lincoln; Nebraska Secretary of State's Office; Nebraska Governor's Office.

State Name

Nebraska has had two official state names: the “Tree Planters’ State” and the “Cornhusker State.”

Nebraska was designated the “Tree Planters’ State” by legislative action in 1895. Nebraska’s claim to tree-planting fame includes the founding of Arbor Day in 1872 by J. Sterling Morton of Nebraska City, the Timber Culture Act of U.S. Sen. Phineas W. Hitchcock in 1873 and the millions of trees planted by early settlers as windbreaks, woodlots and orchards.

The 1945 Legislature changed the official state name to the “Cornhusker State,” thus repealing the 1895 act. The name is derived from the nickname for the University of Nebraska athletic teams, the Cornhuskers. The term “cornhusker” comes from the method of harvesting or “husking” corn by hand, which was common before the invention of husking machinery.

State Flower

The goldenrod (*Solidago serotina*) was declared the state flower by legislative action in 1895. Numerous species of goldenrod grow throughout the state. The goldenrod is an erect, coarse-looking perennial herb that is usually about two or three feet tall. The small flower heads, which are almost always yellow but sometimes have cream-colored or white rays, are grouped into either elongated or flattish clusters. The flowers appear from July through October.

State Bird

The western meadowlark (*Sturnella neglecta*) was designated the state bird by legislative action in 1929. The western meadowlark is abundant throughout the state and is noted for its joyous song. The birds are eight to 11 inches long and are brown and streaked above, with bright yellow underparts interrupted by a bold crescent of black across the upper breast and white outer tail feathers. The birds nest on the ground in grassy fields or meadows and feed largely on insects.

State Tree

The American elm (*Ulmus Americana L.*) was named Nebraska's first state tree in 1937, but the 1972 Legislature named the cottonwood (*Populus deltoides*) as the state tree. The cottonwood often is associated with pioneer Nebraska. Several famous early landmarks were cottonwood trees, and their shoots often were collected by settlers who planted them on their claims. Today, the cottonwood grows throughout the state.

State Fossil

The mammoth was named Nebraska's state fossil by legislative action in 1967. Various species of the mammoth crossed the Bering Strait land bridge and spread throughout most of North America. Mammoths were elephants, but some were larger than the modern elephant. Early prehistoric people hunted the mammoth and found the animal's ivory tusks useful in making tools and realistic etchings. Mammoth remains have been found in most Nebraska counties. One mammoth found in Lincoln County, *Archidiskodon imperator maibeni*, was one of the world's largest elephant fossils. It is displayed in the University of Nebraska State Museum in Lincoln.

State Gemstone

Blue chalcedony, commonly called the blue agate, was named Nebraska's state gemstone by legislative action in 1967. A pale stone, blue chalcedony sometimes has a dark internal form with bands of blue and white and often has a colorless streak. Blue agates often are used to make jewelry. The blue agate can be found in northwestern Nebraska, where it formed in wind-blown silt and claystone deposited in the Chadron Formation of Oligocene Age.

State Rock

The prairie agate was declared the Nebraska state rock by legislative action in 1967. Agate is a semiprecious stone, and Nebraska has an abundance of it, especially in the Oglala National Grassland. Agate is a variegated quartz noted for its layered varieties. In most specimens, the bands are coarse and differ in color and translucency, as well as in compactness and porosity. The prairie

agate, distinguished from most other agates because it seldom has these bands, is still colorful, has a rounded irregular shape and is popular for jewelry.

Prairie agate is not native to Nebraska. It formed in sedimentary rocks in Wyoming and South Dakota and subsequently eroded from these deposits and was carried into Nebraska by streams.

State Grass

Little bluestem (*Schizachyrium scoparium*) was designated the official state grass by legislative action in 1969. Little bluestem, a vigorous native prairie grass, grows throughout the Great Plains and beyond. In central and western Nebraska, it grows in bunches and is sometimes called “bunch grass.” In some areas, it also is known as “beard grass.” The grass is an important native hay and forage grass.

State Insect

The honeybee (*Apis mellifera*) was named the official Nebraska state insect by legislative action in 1975. Honey production is a \$3.1 million industry in Nebraska. In 2006, according to the National Agricultural Statistics Service, there were about 47,000 colonies of honeybees in the state producing more than 3 million pounds of honey.

State Soil

The 1979 Legislature designated the official state soil to be soils of the Holdrege series, classified as *Typic Argiustolls*, which are slightly to moderately alkaline and fine-silty in texture. The mean average temperature of Holdrege series soil ranges from 50 to 56 degrees Fahrenheit. The mean average precipitation ranges from 18 to 24 inches per year. Holdrege soils are ideal for growing crops such as sorghum, wheat and corn. This soil is most commonly found in south-central Nebraska and north-central Kansas.

State Mammal

The 1981 Legislature designated the white-tailed deer (*Odocoileus virginianus*) as the state mammal. The white-tailed deer is a herbivorous hoofed mammal found in farmlands, brushy areas and woods. If alarmed, this deer raises its tail, exhibiting a conspicuous flash of white that can communicate danger to other deer or help a fawn to follow its mother in flight. The feeding habits of white-tailed deer are flexible: they graze on green plants; eat acorns, nuts and corn in the fall; and browse on woody vegetation in the winter. White-tailed deer hunting is a popular recreational activity in Nebraska.

State Fish

On Sept. 13, 1997, Gov. Ben Nelson declared the channel catfish (*Ictalurus punctatus*) to be the official state fish. The channel catfish is a popular sport fish that often is used for food. It has distinctive barbels or “whiskers” that are covered with taste buds. Its diet consists of aquatic insects, crayfish, fish, frogs and plant material. Channel catfish spawn during summer in cavities created by tree roots or rocks and often defend their nests.

State American Folk Dance

On Sept. 19, 1997, Gov. Ben Nelson declared the square dance to be the official state American folk dance. Square dancing developed as the nation progressed toward the west. It became a popular diversion from the hardships settlers faced. Square dancing is called, cued or prompted to dancers. Related forms include round dancing, clogging, contra dancing and line dancing.⁴

State Ballad

On Oct. 9, 1997, Gov. Ben Nelson declared “A Place Like Nebraska” to be the official state ballad. Sol Kutler composed the words and music.

A Place Like Nebraska
 When I dream of my home
 And the good folks I've known
 I'm glad I've grown up
 In Nebraska

'Cause the good life is there
 With sun and fresh air
 And neighbors who care
 In Nebraska

Wherever you go, they all want to know
 And someday someone will ask ya
 So turn on your smile
 Tell them life is worthwhile
 When you're bred and corn-fed in Nebraska

With cool winding streams
 And good football teams
 And jobs that are there for the asking

 Some real famous ones
 All proud to be called a Nebraskan

'Cause wherever you go, they all want to know
 And someday someone will ask ya
 So turn on your smile
 Tell them life is worthwhile
 When you come from a place like Nebraska

A soft falling snow
 A warm fire's glow
 And a lifetime of memories to last ya

Of a cool summer's breeze
 And bright autumn leaves
 Each season a joy in Nebraska

So wherever you go, you just let them know
 'Cause someday someone will ask ya
 So turn on your smile
 Tell them life is worthwhile

State Historic Baseball Capital

On Oct. 9, 1997, Gov. Ben Nelson declared St. Paul to be the official historic baseball capital of Nebraska.

State Baseball Capital

On Oct. 9, 1997, Gov. Ben Nelson declared Wakefield to be the official baseball capital of Nebraska.

State Village of Lights

On Dec. 11, 1997, Gov. Ben Nelson declared Cody to be Nebraska's official Village of Lights.

State River

On Feb. 26, 1998, Gov. Ben Nelson declared the Platte River to be the official state river. The Platte, formed by the junction of the North Platte and South Platte rivers near the city of North Platte, flows east through central Nebraska into the Missouri River. The stream is 310 miles (500 kilometers) long.

The Platte is too shallow for navigation, but it is an important source of water for farm irrigation, municipal and industrial uses, recreation and hydroelectric power production. The river also provides habitat for sandhill cranes, other migratory birds, fish and other wildlife.

The Platte River valley has been an important east-west human transportation corridor throughout history. The Oregon, Mormon and California trails, the Pony Express route, the Union Pacific transcontinental railroad, the first transcontinental paved highway (U.S. Highway 30) and Interstate 80 all have followed the Platte.

State Soft Drink

On May 21, 1998, Gov. Ben Nelson declared Kool-Aid to be the official state soft drink. The fruit-flavored drink was developed in Hastings in 1927 by Edwin E. Perkins, founder and president of the Perkins Products Co.⁵

State Beverage

On Sept. 10, 1998, Gov. Ben Nelson declared milk to be the official state beverage. The dairy industry is an important part of Nebraska's agricultural economy.

State Poet Laureate⁶

The 1921 Legislature named John G. Neihardt (1881-1973) as Poet Laureate of Nebraska. Neihardt's first book of poetry was published in 1908. In 1912, he began writing "The Epic Cycle of the West," consisting of five long narrative poems, and this became his chief literary work. These poems are Neihardt's substantial and unique contribution to the history of Nebraska and the West.

State Poet⁷

Twyla Hansen was named Nebraska's second state poet by proclamation of Gov. Dave Heineman on Nov. 14, 2013. Hansen is the first woman to hold the post, which had been vacant since the death of William Kloefkorn in 2011. Raised on a farm near Lyons in northeast Nebraska, Hansen received an undergraduate degree in horticulture and a master's degree in agroecology from the University of Nebraska-Lincoln. Hansen has published extensively and received numerous awards and honors for her poetry, including the High Plains Book Award and the WILLA Literary Award. She also has twice received the Nebraska Book Award. Hansen,

who lives in Lincoln, was appointed to the position for a five-year term.

U.S. Poet Laureate

The Library of Congress named Garland resident Ted Kooser the U.S. Poet Laureate for 2004-06. Kooser is the author of 12 poetry collections, including "Delights and Shadows," which won the 2005 Pulitzer Prize, "Weather Central" and "Flying at Night." He also has published three books of prose, including "Local Wonders; Seasons in the Bohemian Alps." Kooser has won many honors and awards, including four honorary doctorate degrees and two fellowships from the National Endowment for the Arts. Ground-breaking for the Ted Kooser Elementary School in Lincoln was held in April 2008. Kooser is Presidential Professor of English at the University of Nebraska-Lincoln.

State Song

The 1967 Legislature declared "Beautiful Nebraska," composed by Jim Fras, to be the state's official song.

⁶The title "poet laureate" remains with Neihardt. For more information and a photograph of Neihardt, see his Nebraska Hall of Fame listing on Page 72.

SPECIAL DAYS IN NEBRASKA

Arbor Day⁹

Arbor Day is a nationally celebrated observance that encourages tree planting and tree care. The first Arbor Day was celebrated in Nebraska in 1872, in response to a state proclamation urging settlers and homesteaders to plant trees that would provide shade, shelter, fruit, fuel and beauty for residents of the largely treeless plains. On that first Arbor Day, more than 1 million trees were planted in Nebraska.

The Arbor Day idea was promoted by J. Sterling Morton, editor of the *Nebraska City News*. He later helped the idea spread to neighboring states and eventually to all U.S. states and many other nations.

Today, Arbor Day celebrations are held all over the United States, with the date determined by the best tree planting times in each area. In Nebraska, Arbor Day is observed on the last Friday in April, which is also when National Arbor Day is observed. The Arbor Day Foundation, which encourages tree planting and environmental stewardship, has its headquarters in Morton's hometown of Nebraska City.

To learn more about the foundation and how to celebrate Arbor Day, visit www.arborday.org.

LAND AND CLIMATE¹¹

Size

Nebraska measures 459 miles (740 kilometers) across at its widest point, following a diagonal from southeast to northwest. Nebraska's total area, including land and water, is 77,358 square miles (200,358 square kilometers) — almost 20 percent larger than New England. The state's land area alone is 76,878 square miles (199,113 square kilometers). Nebraska ranks 16th among the states in land and water area and 15th in land area alone.

Elevation

Nebraska's elevation rises gradually from southeast to northwest in a series of rolling plateaus. The lowest point, 840 feet (256 meters) above sea level, is in southeastern Richardson County at the Missouri River. The highest point, 5,424 feet (1,654 meters) above sea level, is in southwestern Kimball County. Nebraska's average elevation is 2,600 feet (793 meters).

Geographic Regions

Nebraska has two major geographic regions — the Dissected Till Plains and the Great Plains. The Great Plains can be divided into smaller areas, among them the Loess Plains, the Loess Hills, the Sandhills and the High Plains.

The Dissected Till Plains formed when Ice Age glaciers left behind a rich soil-forming material, called till, over the eastern fifth of the state. Windblown dust (loess) later settled on the till, and over the years, streams dissected the region, forming a rolling terrain. Along the Missouri River, the terrain includes bluffs and river-deposited lowlands. This combination makes the Dissected Till Plains well-suited for farming.

The Great Plains stretch west across the rest of the state. The largest of its subregions is the nearly 20,000 square miles of sand hills north of the North Platte and Platte rivers that stretch to South Dakota. The Sandhills, the largest stabilized sand dune area in North America, were formed by wind whipping sand into hills and ridges interspersed with valleys that contain streams, lakes and wetlands. Grasses have stabilized the dunes. The abundant water and grasslands make this area ideal for raising cattle.

The Loess Plains consist of windblown silt (loess) that covers about 7,948 square miles of relatively flat, intensively farmed land in south-central Nebraska interspersed with lakes and wetlands. This region is sometimes called the "Rainwater Basin" or "Rain-basin." The Loess Hills lie north of the Platte River and south and east of the Sandhills. Here, windblown silt has formed rolling hills where farms and ranches predominate.

¹¹ Information for this section compiled from the following sources: Conservation and Survey Division, University of Nebraska-Lincoln; Nebraska Department of Natural Resources; Nebraska Game and Parks Commission; Natural Resources Conservation Service, U.S. Department of Agriculture; Nebraska State Climate Office, High Plains Climate Center; National Oceanic and Atmospheric Association, U.S. Department of Commerce; *Statistical Abstract of the United States*, Bureau of the Census, U.S. Department of Commerce; *The Nebraska Databook*, Nebraska Department of Economic Development.

The High Plains lies northwest, southwest and due west of the Sandhills. In its 12,000 square miles are the scenic Wildcat Hills and Pine Ridge areas in the southern and northern Panhandle, respectively. A small area of the Badlands, which are mostly in South Dakota, extends into Nebraska. This unusual landscape in the northwestern part of the state has been carved by erosion and is characterized by steep, mostly bare hills of siltstone and sandstone and by mushroom-like cap rocks on more narrow pedestals. These rocks are especially distinctive in Toadstool Park.

Toadstool Park in Northwest Nebraska's Badlands

Mineral Resources

Petroleum and natural gas fields lie in the Panhandle and southwestern and southeastern parts of Nebraska.¹² Sand and gravel deposits are found along the Platte and Republican rivers, their tributaries and elsewhere. These deposits are mined largely for construction purposes. Limestone quarries lie near the Missouri River in the southeast. Other minerals produced in Nebraska include sandstone; clay, usually for brick or tile; shale; and uranium, which is mined as a slurry in one location in northwestern Nebraska.

Water and Soil Conservation

Nebraskans have long realized that using soil and water resources wisely is important, particularly because of the state's agricultural economy. Irrigation ditches were constructed in Nebraska as early as 1856. However, Nebraska's extensive irrigation system stems from the droughts of the 1890s and 1930s.

Initially, Nebraska received all its irrigation water from streams and rivers. These waterways continue to supply water for Nebraska's cropland today. The Platte, Loup and Republican rivers are especially important.

Since 1940, irrigation from wells has increased dramatically. As of June 2014, the state had 98,558 existing registered irrigation wells. In 2012, there were 8.3 million acres of irrigated land in Nebraska.¹³

During the drought of the 1930s, the federal government created extensive soil conservation programs. By 1950, all of Nebraska's farm and ranch land was included in soil conservation districts. Local watershed groups were organized by 1954 legislation.

Today, Nebraska is divided into 23 natural resources districts (NRDs).¹⁴ These governmental units have local responsibility for soil and water conservation and protection. The state has given NRDs a variety of regulatory tools to deal with contamination, groundwater shortages and user conflicts that occur.

Rivers and Lakes

Nebraska is the only state that lies entirely within the drainage area of the Missouri River, which flows along Nebraska's northern and eastern borders for about 450 miles. Its major tributary in Nebraska is the Platte River, which flows across the state from west to east.

The Platte River begins where the North and South Platte rivers meet near the city of North Platte. The Platte, which is too shallow for navigation, was described as "a mile wide and an inch deep" by early explorers and pioneers crossing Nebraska. Today, the river is used for irrigation, municipal water supply, recreation and hydroelectric power production.

Niobrara River near Valentine

The Platte's main tributaries are the Loup and Elkhorn rivers, which originate in the Sandhills and flow southeast across north-central Nebraska. The Niobrara River drains northern Nebraska; the Republican, Big Blue, Little Blue and Nemaha rivers drain southern and southeastern Nebraska, respectively.

Nebraska has about 2,500 small lakes, both natural and man-made. Hundreds of natural, shallow lakes dot the landscape of the Sandhills. Lake McConaughy, the state's largest lake (about 55 square miles), was formed by the construction of the Kingsley Dam on the North Platte River. Other large man-made lakes include Jeffrey and Sutherland reservoirs on the Platte River system; Swanson, Medicine Creek and Harlan County reservoirs on the Republican River; Enders Reservoir on the Frenchman River; Calamus Reservoir on the Calamus River system; and Lewis and Clark Lake on the Missouri River system.

One of Nebraska's greatest water resources lies not above, but below ground. The state's vast underground water supply, accumulated over thousands of years, is about 1.9 billion acre-feet, enough to cover the state with an estimated 34 feet of water. This water supply — much of it part of the Ogallala Aquifer — is used extensively for irrigation.

Climate

An old expression about weather in Nebraska is that if you don't like it now, wait five minutes and it will change.

Nebraskans often experience extremes in temperature and frequent changes in the weather. Tornadoes, thunderstorms, blizzards and hailstorms are part of hot summers and severely cold winters. Temperature and rainfall vary greatly from year to year. The spring and fall seasons usually are pleasant. The temperature gradually drops from southeastern to northwestern Nebraska, except in the coldest part of the year.

The highest temperature ever recorded in Nebraska, 118 degrees Fahrenheit (48 degrees Celsius), was on July 15, 1934, at Geneva; on July 17, 1936, at Hartington; and on July 24, 1936, at Minden. The lowest temperature on record, minus 47 F (minus 44 C), was at Camp Clarke near Northport on Feb. 12, 1899, and at Oshkosh on Dec. 22, 1989.

Like the temperature, precipitation and humidity decrease gradually from east to west across Nebraska. The unpredictable nature of rain results in drought some years and flooding in others.

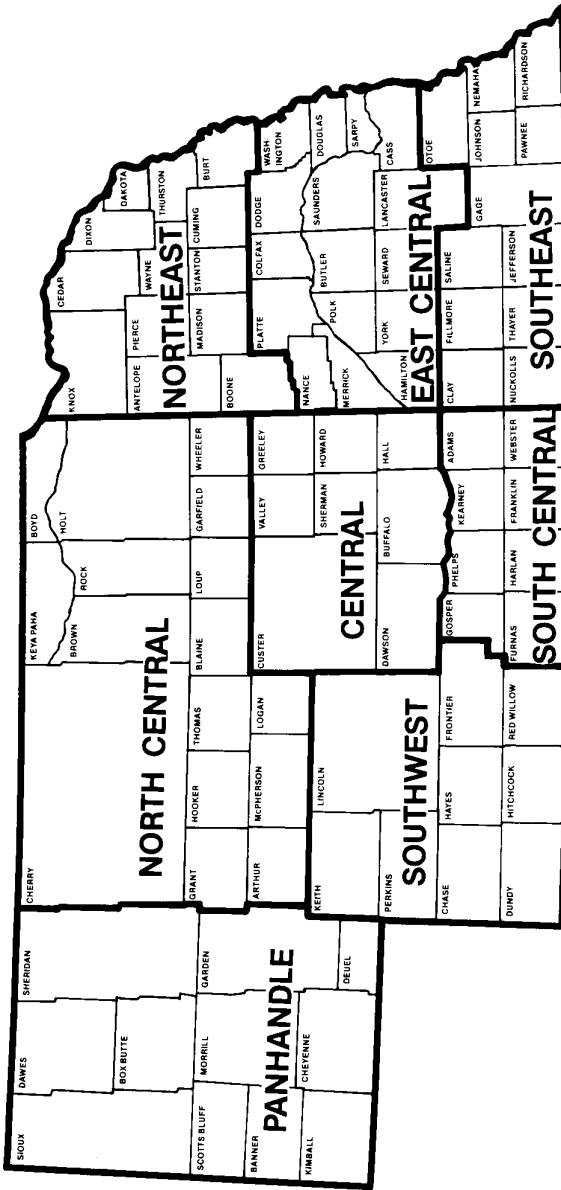

Thunderstorm Building Over the Plains

Nebraska's growing season ranges from about 165 days in the southeast to 120 days in the northwest. Killing frosts usually occur from about Oct. 15 to April 25 in the southeast and about Sept. 20 to May 20 in the northwest.

Prevailing winds blow across Nebraska from the northwest between October and April, and from the south and southeast during other times. Average wind velocity is about 10 miles (16 kilometers) per hour. Tornadoes are not uncommon in the spring and summer. According to the National Climatic Data Center, Nebraska averaged 57 tornado touch downs each year between 1991 and 2010.

Plant and Animal Life

Nebraska's most abundant native vegetation is grass. In eastern Nebraska, tall prairie grasses flourish, especially bluestem. In the west, the dominant types are perennial short grasses, such as grama and buffalo grass.

When settlers first came to Nebraska, only 3 percent of the land was covered with forests. In 1872, Nebraska became the first state to establish Arbor Day, and tree planting has been an important part of Nebraska's conservation efforts ever since.²¹ Ash, box elder, cottonwood, locust, oak, walnut, elm and willow trees are common to eastern and central Nebraska. In the western part of the state, pine and cedar are prevalent varieties.

Native shrubs include wild plums and chokecherries, found throughout Nebraska.

Sandhill Cranes²²

Each spring, the Platte River valley in central Nebraska comes alive with the sights and sounds of nearly half a million sandhill cranes. It is the largest gathering of sandhill cranes in the world.

The cranes stop at the Platte River during their annual northern migration from their wintering areas in the southern United States and Mexico. The birds concentrate between Kearney and Grand Island, the last area of the Platte still offering the open channels and sandbars they need. Thousands of people visit the area each year to view the concentration of cranes.

The birds begin arriving in central Nebraska in mid-February, and numbers peak around mid- to late March. After April 1, the cranes move out steadily until about mid-April, when the last of them head to breeding grounds in Canada, Alaska and Siberia.

The cranes come to the Platte to build up nutrient reserves that will sustain them through the summer nesting season. They eat waste grain from area cornfields and invertebrates plucked from wet meadows near the river. While in the fields and meadows, the cranes engage in animated dances, probably courtship rituals.

A variety of flowers, such as goldenrod, larkspur, columbine, wild roses and sunflowers, thrive throughout the state.

Before white settlers arrived in Nebraska, buffalo and beaver populations were significant. Today, buffalo are never seen outside game preserves. The beaver population, after being diminished by trappers, has become more plentiful in recent years. Other animals in Nebraska include white-tail and mule deer, elk, bighorn sheep, antelope, bobcats, foxes, coyotes, badgers, squirrels, prairie dogs, muskrats, skunks, raccoons, rabbits and opossums.

Game birds, especially pheasants, grouse, ducks, geese and quail, are plentiful in Nebraska. The state's waters yield a variety of fish, including bass, carp, catfish, crappie, perch, pike, trout and walleye. The Platte River and lakes in the Sandhills serve as "rest stops" for many migratory birds, including the famous Sandhill cranes (see previous page).

Another migration rest stop of international significance is the Rainwater Basin district in south-central Nebraska. Within this district, the U.S. Fish and Wildlife Service manages more than 23,000 acres of wetlands and adjacent tall-grass prairie to provide habitat for migratory birds and resident wildlife.²³

ECONOMY²⁴

Agriculture

Nebraska's economy revolves around its agriculture industry. In 2014, 93 percent of the state's land — 45.6 million acres — was farm and ranch land.

Producers have utilized the state's fertile soil, abundant water and technological advances to produce record-high crop yields in recent years. In 2012, gross cash receipts from farm marketing totaled over \$24 billion, and Nebraska had 49,696 farms.

Crop Production²⁵

Nebraska is a national leader in crop production. In 2013, Nebraska led the nation in production of Great Northern beans, grown in the western one-third of the state, and in popcorn production. The state ranked second in pinto bean production; third in all dry edible bean, corn for grain and proso millet production; fifth in soybean production; seventh in grain sorghum production; and eighth in alfalfa hay production. Sugar beets and potatoes also play a significant role in the state's agricultural economy.

Nebraska's top cash crop is corn. Each year, more than 8 million acres of the state's land is planted in corn. The state's livestock, poultry and ethanol industries are the largest corn consumers.

²⁵ See Page 466 for a complete set of Nebraska's rankings in agriculture production.

Products relating to agriculture, such as irrigation systems and farm equipment, are manufactured in the state. Agricultural businesses are an important part of Nebraska's economy, with one in three jobs in the state relating to the agricultural industry.

Livestock Production

Nebraska also is a leader in livestock production and livestock and poultry can be found on half of the state's farms. In 2012, Nebraska was fourth in cash receipts from all livestock and livestock products. In 2013, Nebraska ranked first nationally in commercial red meat production and commercial cattle slaughter; sixth in all hogs and pigs on farms; and seventh in commercial hog slaughter. In 2014, Nebraska was first in all cattle on feed and second in all cattle and calves.

Turkey, poultry, dairy, sheep and goat production add diversity and play an important role in the state's economy.

Other Industries

Although agriculture dominates Nebraska's economy, more of Nebraska's income has come from other industries in recent years.

Manufacturing, which employed almost 96,000 workers in 2013, is a major employer among nonfarm industries, with most manufacturing sites located in the state's large urban areas. Food processing is the leading type of manufacturing, followed by the manufacturing of machinery and fabricated metal products.

The service sector, which includes health services and business services, generates the most earnings in Nebraska. Government ranks second in earnings generated, while manufacturing is third.

The service sector also employs more workers than any other industry. Government jobs, many of which are in Lincoln, employ the second-highest number of workers. Wholesale and retail trades, taken together, employ the third-highest number of workers, with general merchandise stores being the largest employer among retail establishments in the state.

Lincoln is a major employer in education, led by the University of Nebraska-Lincoln and other institutions of higher education. Omaha is a major center for food processing, healthcare, insurance, trade, transportation and telecommunications. Livestock and grain exchanges also are in Nebraska's largest city.

Five Nebraska-based businesses are in the Fortune 500, *Fortune* magazine's annual list of the largest industrial and service corporations in the United States based on revenue. These five are:

- Berkshire Hathaway, a diversified holding and investment firm
- Union Pacific, a railway network operating in the western two-thirds of the United States
- ConAgra, a food processing and marketing company
- Peter Kiewit Sons', an engineering and construction firm
- Mutual of Omaha, an insurance and financial services company

These corporations have their headquarters in Omaha.

PEOPLE³¹

In 1800, before Lewis and Clark traveled past Nebraska, several Native American tribes, mainly the Pawnee, Ponca, Omaha, Oto, Sioux, Cheyenne and Arapaho, lived in the area. The largest and most powerful tribe, the Pawnee, had about 6,000 members. In 1913, only 4,784 Indians of all tribes remained in Nebraska because others were moved to reservations in other states. About 16,100 Native Americans live in Nebraska today, with about 35 percent residing on the state's three reservations — the Santee Sioux, Omaha and Winnebago reservations, all in northeastern Nebraska. These reservations are supervised by the federal Bureau of Indian Affairs.

The first Nebraska census in 1854 counted 2,732 residents. At the time, the area was a territory that included parts of present-day North Dakota, South Dakota, Colorado, Montana, Idaho and Wyoming. The 1870 census, taken after Nebraska achieved statehood in 1867, counted 122,993 people.

In the late 19th century, many European immigrants came to Nebraska seeking free land under the federal Homestead Act of 1862. By 1900, Germans accounted for 15 percent of the state's entire population. Other ethnic groups included the Swedes, Danes, Bohemians, German Russians, Poles, French, Irish, English and Italians. State-wide railroad construction spurred development of the communities where immigrants settled. Following the Civil War, black people migrated to Nebraska, and some of them tried homesteading. Most were lured to urban areas, where chances for finding work were better. The 1880 census showed a total of 2,385 black people living in the state. By 1900 that number had increased to 6,269. Omaha's black population doubled between 1910 and 1920.

Nebraska's Population Today³²

In 2013, the U.S. Bureau of the Census reported 1,868,516 people living in Nebraska, an increase of 9.2 percent since 2000. Nebraska is the 37th most populous state.

Census data from 2013 showed that 64.4 percent of Nebraskans were born in Nebraska. The data also showed that over half of the state's residents live in the three largest counties — Douglas, which includes Omaha, the state's largest city; Lancaster, which includes Lincoln, the state's capital city; and Sarpy, which has a growing suburban population. Douglas County alone contains more than a quarter of the state's population.

Nebraska's population is mostly white.

In 2013, 89.7 percent of the state's people were white, compared to 77.7 percent for the entire nation. 2013 census data also showed the main ancestry of Nebraskans to be German (38.2 percent), Irish (13.8 percent), English (8.6 percent), Czech (4.8 percent), Swedish (4.5 percent) and Polish (3.6 percent).

People of Latino origin accounted for 9.9 percent of Nebraska's population in 2013 and are the state's fastest growing ethnic group. Blacks were 4.8 percent of the state's population; Asians, 2.1 percent and American Indians and Alaska Natives, 1.3 percent. In addition, 2.0 percent of the state's population reported two or more races.

In 2013, Nebraskans younger than 18 made up 24.9 percent of the state's population, while people 65 and older accounted for 14.1 percent of the population. The state's population was 50.4 percent female and 49.6 percent male.

Nebraska's 10 largest cities, according to the 2013 population estimates, are:

Omaha	434,353	Fremont	26,340
Lincoln	268,738	Hastings	25,093

Trends in Nebraska's Population

Since Nebraska became a state, its total population has grown steadily, with the 2010 population higher than in any previous census. The only decade in which Nebraska lost population was 1930 to 1940, when the Great Depression and drought created economic hardships.

³² For more detailed population figures for counties and municipalities, see Pages 801 and 806.

In 1870, most of Nebraska's population was rural. However, urban living has become the norm. In 2010, about two-thirds of Nebraska residents lived in urban areas, defined as municipalities of 2,500 or more residents. Between 2000 and 2010, 68 of the state's 93 counties lost population. While rural populations dwindle, Nebraska's larger cities and counties continue to grow. Between 2000 and 2010, the population of Douglas County—home of Omaha—increased 11.5 percent, while neighboring Sarpy County grew 29.6 percent.

Nebraska's population is becoming more racially and ethnically diverse. The most significant growth has occurred in the Latino population, which is now the state's largest minority group. From 2000 to 2010, the state's Latino population increased from 5.5 percent to 9.2 percent, growing at a rate of slightly more than 77 percent. The black population also grew from 3.9 percent to 4.4 percent during that time.

While Nebraska's median age increased from 35.3 in 2000, to 36.2 in 2010—the number of Nebraskans age 65 and older decreased slightly during the same time period, from 13.6 percent in 2000, to 13.5 percent in 2010.

RECREATION AND PLACES OF INTEREST³³

National Areas³⁴

Nebraska has two national forest areas with hand-planted trees: the Bessey Ranger District of the Nebraska National Forest in Blaine and Thomas counties, and the Samuel R. McKelvie National Forest in Cherry County. The Pine Ridge Ranger District of the Nebraska National Forest in Dawes and Sioux counties contains native ponderosa pine trees. The U.S. Forest Service also administers the Oglala National Grassland in northwest Nebraska. Within it is Toadstool Geologic Park, a moonscape of eroded badlands containing fossil trackways that are 30 million years old. The Hudson-Meng Bison Bonebed, an archaeological site containing the remains of more than 600 prehistoric bison, also is located within the grassland.

Agate Fossil Beds National Monument in Sioux County contains animal fossils. Homestead National Monument of America near Beatrice was built on one of the first pieces of land claimed under the U.S. Homestead Act of 1862. Scotts Bluff National Monument near Scottsbluff is an 800-foot bluff that was a landmark for pioneers on the Oregon Trail. Chimney Rock National Historic Site, a 500-foot spire carved by the elements, is near Bayard. It also served as a landmark for Oregon Trail travelers. The Niobrara National Scenic River is a popular canoeing river. The Missouri/Niobrara/Verdigré Creek National Recreational Rivers and the Missouri National Recreational River offer land and water recreation and views of the waterways similar to those the Lewis and Clark expedition saw as they crossed the Great Plains.

State Areas³⁵

Nebraska's eight state parks are Eugene T. Mahoney and Platte River in Cass County, Smith Falls in Cherry County, Chadron in Dawes County, Fort Robinson in Dawes and Sioux counties, Indian Cave in Nemaha and Richardson counties, Niobrara in Knox County and Ponca in Dixon County.

Arbor Lodge in Otoe County is one of the state's most popular historical parks. J. Sterling Morton, who founded Arbor Day, built a four-room house in 1855 that was transformed into an elegant 52-room mansion. More than 200 varieties of trees are planted on the estate's grounds.

Other Nebraska historical parks include:

- Ash Hollow (Garden County), a rest stop for Oregon Trail travelers
- Ashfall Fossil Beds (Antelope County), a working paleontological dig of ancient rhinoceroses
- Fort Atkinson (Washington County), the first U.S. military post built west of the Missouri River
- Arthur Bowring Sandhills Ranch (Cherry County), a working Sandhills cattle ranch donated by Nebraska's first female U.S. senator
- Buffalo Bill Ranch (Lincoln County), the home of William "Buffalo Bill" Cody, Army scout and showman
- Champion Mill (Chase County), the last water-powered mill to operate in Nebraska
- Fort Hartsuff (Valley County), a restored 1870s military post
- Fort Kearny (Kearney County), an Army frontier outpost to guard the Overland Trail
- Rock Creek Station (Jefferson County), a stop on the Pony Express route where Wild Bill Hickok killed David McCanles

Other Places of Interest

Thousands of travelers pass through Nebraska each year on highways that follow the Oregon, California and Mormon trails. In some places, ruts from the pioneers' wagon wheels can be seen from the road.

The Fontenelle Forest Nature Center at Bellevue, site of Nebraska's oldest settlement, was established as a trading post by John Jacob Astor's American Fur Company around 1832.

Omaha's Henry Doorly Zoo has the world's largest indoor rain forest, the world's largest indoor desert, the Kingdoms of the Seas aquarium, a nocturnal exhibit and indoor swamp, and an IMAX theater. The zoo also operates a conservation park and wildlife safari near Ashland. The Hastings Museum of Natural and Cultural History has the world's largest diorama of whooping cranes and Sandhill cranes in the world, a planetarium and the Lied Super Screen Theatre.

The State Capitol in Lincoln is considered an outstanding example of modern architecture.

Willa Cather, Nebraska's most famous writer, is honored with a pioneer memorial at Red Cloud.

Lake McConaughy, Nebraska's largest lake, is a popular recreational area. Campers and hikers visit the rugged Pine Ridge area in northwestern Nebraska. Other scenic spots are found along the Platte, Niobrara, Big Blue, Loup, Republican, Dismal and Missouri rivers. Fishing, hunting, horse racing and rodeos also are popular pastimes in Nebraska.

Special Events

One of the state's largest events is Nebraskaland Days. The weeklong celebration, which features parades, an old-time Wild West show and a rodeo, is held each June in North Platte. Other rodeos include the Burwell Rodeo and Omaha's Ak-Sar-Ben (Nebraska spelled backwards) River City Rodeo and Stock Show. The Nebraska State Fair is held in late August and early September.

Many of the state's ethnic groups hold annual festivals that feature native costumes, dances and foods. Among the most popular events are Germanfest in Syracuse, the Swedish Festival in Stromsburg, the Danish Festival in Dannebrog and the National Czech Festival in Wilber. Many people attend powwows of the Ponca Tribe in Niobrara, the Omaha Tribe in Macy, the Santee Sioux Tribe in Niobrara and the Winnebago Tribe in Winnebago. Other events include Oregon Trail Days in Gering, Sandhill Crane Migration Days and Husker Harvest Days in Grand Island and Kool-Aid Days in Hastings.

Husker Football³⁶

For 40 years, the University of Nebraska has ranked among the most dominant powers in college football. Since Coach Bob Devaney arrived in 1962, the Cornhuskers have become one of the most recognizable symbols of the state.

Since winning its first game on Nov. 27, 1890, the Nebraska football program has amassed more than 830 victories. Since 1970, Nebraska has won five national championships. Under the direction of Coach Tom Osborne, the Huskers posted the best five-year record in NCAA football history — 60-3 from 1993 to 1997, including three unbeaten and untied seasons.

Husker football fans are widely known as some of the most devoted fans in sports. Starting on Nov. 3, 1962, there have been 340 consecutive sellouts of Memorial Stadium — an NCAA record.

Besides football, Nebraska has fielded national championship teams in men's gymnastics, volleyball and women's indoor track and bowling. With several College World Series appearances, most recently in 2005, both the baseball and softball programs have excelled at a national level. The men's track, women's gymnastics, wrestling and rifle teams have all earned top-10 finishes at the national championships in recent years.

EDUCATION AND CULTURE³⁹

Education⁴⁰

**One-Room Schoolhouse Replica

in Grand Island**

Missionaries established the first Nebraska schools to assimilate Indians into white culture. The U.S. Army started the first schools for white people at Fort Atkinson (near present-day Fort Calhoun) in the 1820s. In 1855, the first Legislature of the Nebraska Territory adopted a free-school law, one year after the territory was established.

Nebraska's present public education system is based on the state constitution adopted in 1875. The state constitution directs the Legislature to offer free instruction in public schools for people between 5 and 21 years of age. School attendance is mandatory for children 6 to 18 years of age. Public schools also provide special education for children with disabilities.

Nebraska's education system is supervised by an eight-member nonpartisan board of education with members elected to four-year terms. A board-appointed commissioner oversees administration of the state school system.

Nebraska has 246 public school districts.

Most Nebraskans send their children to public schools.

Nebraska's largest higher education institution is the University of Nebraska, with campuses in Lincoln, Omaha, Kearney and Curtis. The state also supports three state colleges in Chadron, Peru and Wayne, plus a statewide community college system. Independent private colleges and trade schools are other higher education options. In November 1990, voters passed a constitutional amendment empowering the Nebraska Coordinating Commission for Postsecondary Education to coordinate and oversee the programs and activities of all colleges and universities in the state.

Libraries⁴¹

Nebraska's first library was established at the Fort Atkinson military post in 1820. The federal Kansas-Nebraska Act of 1854 provided for a territorial library in Nebraska, which later became the state law library. Omaha was the site of the state's first public library in 1871. In 1877, the Legislature authorized incorporated towns to establish and maintain free public libraries and reading rooms. The 1901 Legislature established a state library commission to promote, develop and coordinate Nebraska's public library services.

Today, Nebraska has 57 postsecondary academic libraries, 269 public libraries and reading rooms, about 894 elementary and secondary school libraries, 23 institutional libraries, 102 special libraries, 93 county law libraries and 9 state agency libraries. All libraries can share materials through a statewide network of six regional multitype library systems, supported by the Nebraska Library Commission.

The University of Nebraska-Lincoln library system, which consists of Love Library and seven branch libraries, is the largest research library in the state. Its holdings include more than 3.5 million volumes, 46,056 current periodicals, 3.7 million microform pieces, over 400,000 e-books, more than 162,000 audio visual materials and computer workstations with e-books, online journals and databases. Other larger libraries include the Nebraska Library Commission, the Nebraska State Library-Supreme Court Law Library at the State Capitol, the Lincoln City Libraries, the Omaha Public Libraries, and academic libraries at Creighton University, the University of Nebraska at Kearney, the University of Nebraska Medical Center and the University of Nebraska at Omaha.

Museums, Art and Culture

The Joslyn Art Museum's collection in Omaha ranges from ancient to modern art, including art objects created by American Indians and western frontier art. The Durham Western Heritage Museum also is in Omaha. The Sheldon Art Gallery on the University of Nebraska-Lincoln campus features a comprehensive collection of American art. The Museum of Nebraska Art in Kearney features works of artists who were born in Nebraska or who reside in the state. The University of Nebraska State Museum at UNL has one of the largest fossil collections in the United States, including a prehistoric mammoth skeleton display. The Lied Center for the Performing Arts at UNL offers a variety of stage, music and dramatic performances.

The Nebraska State Historical Society maintains the Museum of Nebraska History in Lincoln, as well as the John G. Neihardt State Historic Site in Bancroft, the Neligh Mill State Historic Site in Neligh, the Fort Robinson Museum in Crawford, the Sen. George W. Norris State Historic Site in McCook, the Willa Cather State Historic Site in Red Cloud, the Chimney Rock National Historic Site near Bayard, Courthouse and Jail Rocks near Bridgeport, the Gerald R. Ford Conservation Center in Omaha and the Thomas P. Kennard House-Nebraska Statehood Memorial in Lincoln.⁴²

The Strategic Air and Space Museum near Ashland has warplane and aviation history and missile displays. In Minden, the Harold Warp Pioneer Village has more than 30,000 displays depicting U.S. life since 1830. In Grand Island, the Stuhr Museum of the Prairie Pioneer, built partially on an island in a man-made lake, features a restored 1800s railroad town. A museum at Scotts Bluff National Monument displays the history and art of the Oregon Trail. The U.S. Indian School in Genoa is a historical museum. Chadron's Museum of the Fur Trade has Indian artifact exhibits, guns and other fur trade relics.

Communication⁴³

Thomas Morton began issuing the first newspaper in Nebraska, the *Nebraska Palladium* and *Platte Valley Advocate*, in 1854. A newspaper targeted for black audiences, *The Progress*, was first published in Omaha in 1889.

Today, Nebraska has 177 general interest newspapers, including 17 dailies and 11 college newspapers. Other newspapers published include special interest newspapers, such as farm and business newspapers, legal notice newspapers and newspapers aimed at specific ethnic or religious groups. The largest daily newspapers are the *Omaha World-Herald* and the *Lincoln Journal Star*. More than 50 magazines and journals are produced in Nebraska.

Nebraska's first commercial radio station, WOAW (now WOW) in Omaha, began broadcasting in 1923. Television came to Nebraska in 1949, when KMTV and WOW-TV in Omaha began on-air operations. The University of Nebraska established educational television in 1954 and a statewide public radio network in 1988.

⁴³ See Pages 927-929 for a list of Nebraska newspapers and Pages 930-931 for a list of Nebraska radio and television stations.

Nebraska has 201 commercial and noncommercial radio stations, including nine statewide public radio stations; 25 commercial and noncommercial TV stations, including nine statewide public TV stations.

Nebraska also has an Associated Press wire service operation based in Omaha, with bureaus in Omaha and Lincoln. The AP is an international news organization that compiles news from and distributes news to its members, which include all daily newspapers and most broadcasting outlets.

GOVERNMENT⁴⁴

Federal Government

Nebraska is represented in Congress by two senators and three representatives, giving Nebraska five votes in the Electoral College, which elects the U.S. president and vice president. Senators serve six-year terms, while representatives serve two-year terms. Nebraska members of Congress have offices and residences in Nebraska as well as in Washington, D.C.

The federal executive branch is represented in Nebraska by agency branch offices and other entities, many of which are in Lincoln and Omaha. Cabinet-level agencies with a presence in Nebraska include the departments of Agriculture, Commerce, Defense, Energy, Health and Human Services, Homeland Security, Housing and Urban Development, Interior, Justice, Labor, Transportation, Treasury and Veterans Affairs. A major federal presence in the state is Offutt Air Force Base, which employs approximately 12,000 military and civilian personnel. Offutt, located near Bellevue, is home to the Air Force's 55th Wing, as well as the U.S. Strategic Command, which manages the nation's strategic forces in order to deter attacks on the United States. About a dozen independent federal agencies also have Nebraska branch offices, including the U.S. Postal Service, which maintains post offices in almost every community.

The U.S. judicial branch includes courts of appeals and district courts. Nebraska is part of the 8th U.S. Circuit Court of Appeals, and the entire state makes up a single district in the district court system. Nebraska presently has two U.S. 8th Circuit judges and five U.S. district judges, including those with senior judge status.

State Government

Nebraska's first constitution, adopted in 1866, served as the basis for the state's admission to the Union in 1867. This constitution was replaced in 1875 by one that strictly limited state government power. In 1920, Nebraskans approved 41 amendments proposed by a constitutional convention.

See "Nebraska Political Parties and Elections" for information on Nebraska's voting requirements and election dates.

The Unicameral Legislature⁴⁵

Nebraska is the only state in the nation with a unicameral (one-house) legislature. All other state legislatures have two houses. Nebraska's 49 legislators, called state senators, are elected from 49 districts, each with approximately the same number of residents.

Nebraska also has the nation's only nonpartisan legislature. Senators are elected with no party affiliation next to their names on the ballot, and the Legislature's speaker and committee chairpersons are selected without regard to their party membership.

Before 1937, Nebraska had a two-house, partisan legislature. In 1934, Nebraska voters adopted a constitutional amendment providing for a one-house, nonpartisan legislature. This proposal was submitted to voters through an initiative petition effort. The leading advocate of the proposal was U.S. Sen. George W. Norris, who said the two-house system was outdated and inefficient. For more information about the Nebraska Legislature, see Pages 270-312.

Constitutional amendments may be proposed by the state Legislature, by a constitutional convention or by the people. Amendments must be approved by voters at a regular or special election in order to be adopted.

The state constitution gives the people the power of initiative, which allows them to propose, by petition, constitutional amendments or statutory changes. The people also have the power of referendum, which may be invoked, by petition, against acts of the Legislature.

Like the federal government, Nebraska's government is divided into three branches: legislative, executive and judicial. Nebraska is the only state in the nation with a unicameral (one-house) legislature and the only state with a nonpartisan legislature. The 49 legislators, called state senators, serve four-year terms.

Nebraska's chief executive is the governor, who is elected for a four-year term. Other elected four-year term officials are the lieutenant governor, secretary of state, auditor of public accounts, treasurer and attorney general. Within the executive branch are various departments and agencies that perform a variety of functions.

Nebraska's judicial system is lead by a Supreme Court, comprised of a chief justice selected at large and six judges selected from six judicial districts in the state. Beneath this court are the Court of Appeals, district courts, county courts, a workers' compensation court, and separate juvenile courts in Douglas, Lancaster and Sarpy counties. Judges are appointed by the governor and must be approved periodically for retention by voters.

Since Nebraska's constitution allows no indebtedness, government expenses must be met on a pay-as-you-go basis. Most state revenues are generated through sales and income taxes. Other revenue sources include taxes on insurance premiums, gasoline, tobacco and liquor.

Nebraska State Capitol

The seat of state government in Nebraska is the State Capitol. Nebraska had two territorial capitols in Omaha. Since achieving statehood, Nebraska has had three capitols in Lincoln. The current Capitol is considered one of the nation's greatest architectural achievements. The building was designed by architect Bertram G. Goodhue as both a practical working environment for state government and an inspiring monument for Nebraskans.

Goodhue assembled a three-person team to decorate the building: Lee Lawrie, sculptor; Hildreth Meiere, tile and mosaic designer; and Hartley B. Alexander, thematic consultant for inscription and symbolism. Clad in Indiana limestone, the Capitol's base is a cross within a square creating four interior courtyards. The square base measures 437 feet on each side. From the base's center rises a 400-foot domed tower, crowned with a 19-foot bronze figure, designed by Lawrie, called "The Sower," which represents agriculture, Nebraska's chief industry. A thematic progression of ornamentation extends from the principal second-floor entrance on the north, around the building's exterior and through its interior.

The building, furnishings and landscaping cost just less than the \$10 million budget. The money was secured by a special capitol levy, and all building expenses were paid upon completion in 1932. The four-phase construction was completed in 10 years. The building's construction was overseen by the original 1919

Local Government⁴⁶

Nebraska has 93 counties, 67 of which have a commissioner form of government. These 67 are each governed by a board of commissioners with three, five or seven members, elected for four-year terms. The rest of the counties have a supervisor-township form of government. These are governed by seven-member boards of supervisors, also elected to four-year terms.

There are 530 cities and villages, or municipalities, in Nebraska. Most cities have a mayor-council form of government, while exceptions like Nebraska City have a commissioner form of government, and several others use the council-manager form. Most villages are governed by a five-member board of trustees. Nebraska's constitution grants the option of home rule to cities with more than 5,000 residents, meaning they may operate under their own charters. Only Lincoln and Omaha use this option.

Tribal/Sovereign Governments⁴⁷

Within Nebraska are four sovereign Native American tribes that have democratic forms of government. These tribes are the Omaha, Ponca, Santee Sioux and Winnebago. Tribal governments are governed by tribal constitutions, bylaws, ordinances and laws. The governing bodies are the tribal councils, made up of elected council members who serve a term as determined by the tribal constitution. Elections are held regularly as dictated by the tribal constitution, and tribal members are allowed to vote. Membership for the Omaha, Santee Sioux and Winnebago tribes is determined by a set blood quantum percentage, as determined by documented lineal descent. Membership in the Ponca Tribe, which has no blood quantum requirement, is determined solely by documented lineal descent.

Nebraska is a Public Law 280 state and did assume Public Law 280 jurisdiction over the tribes. Public Law 280 is the federal law that gave the states extensive jurisdiction over tribes, if the state chose to assume such jurisdiction. Nebraska has chosen to retrocede some Public Law 280 jurisdiction back to the federal government. The effect of this retrocession is that the Omaha, Winnebago and Santee tribes have their own judicial and law enforcement agencies, and the Ponca tribe has no such agencies.

HISTORY⁴⁸

Earliest Records

Nebraska's fossil beds and glacial deposits show that it once was an inland sea bed that later was elevated above water. The area once had a tropical climate, but during a later period, glaciers covered the land. Archaeologists estimate that prehistoric people inhabited the area between 10,000 and 25,000 years ago, based on discoveries of stone tools and weapons. The earliest inhabitants were nomadic hunters, but centuries later, others came to the grasslands to hunt, fish and farm.

People entered and abandoned Nebraska as the climate fluctuated between long periods of drought and times of plentiful moisture. About one thousand years ago, a culture known as the Village Farmers came to the Plains and the population increased. The Village Farmers became more dependent on agriculture and lived in small villages made of square or rectangular earth-covered dwellings. The Plains population dwindled after A.D. 1300, possibly because of climate change, warfare or disease.

Native American Tribes

Through the centuries, people entered and abandoned the Nebraska area as the climate fluctuated between long periods of drought and times of plentiful moisture. This constant movement created a diverse mixture of Native American languages and cultures.

The Pawnees and their northern relatives, the Arikaras, lived in the area the longest. They came from the south about four or five centuries ago and established villages along the Platte, Loup, Republican and other central Nebraska waterways. The Pawnees hunted buffalo on the plains and farmed beans, corn and squash. In the 18th century, the Omaha, Ponca and Oto tribes entered eastern Nebraska and lived near the Missouri River. Other tribes, such as the Teton Sioux (Lakotas), Arapahoes and Cheyennes, migrated westward from forested areas north and east of the Missouri River. Altogether, the various tribes living in the Nebraska area may have numbered about 40,000 people in 1800.

The Native Americans understood the world to have a unity or coherence. The Native Americans made no distinction between practical and religious activities. For example, among the Pawnees, sacred ceremonies were as essential as hoeing was to make corn grow.

In the 17th and 18th centuries, plains Native American cultures were profoundly influenced when Spanish intruders introduced horses. The Pawnees and Omahas quickly adapted horses for use on their long seasonal bison hunts into western Nebraska and central Kansas. Completely nomadic tribes such as the Lakotas developed cultures centered around horses. These tribes lived in tepees year-round and became dependent on bison for food, clothing, tools and other items.

When white explorers and fur traders began to penetrate the area in the 18th century, the Native Americans usually welcomed them and eagerly exchanged furs for

guns, blankets, clothing, alcohol and other items. Such contacts also spread diseases such as measles. Epidemics devastated the Native Americans.

Traditional Native American culture thrived in Nebraska until the 1830s. As white penetration of Nebraska increased, the U.S. government began negotiating with various tribes for cessions of Native American lands in Nebraska. These negotiations were not yet completed in the 1850s when Nebraska became a territory and land was made available to whites for ownership.

Spanish and French Explorers

In 1541, Spanish explorer Francisco Vasquez de Coronado led an expedition across the U.S. Southwest into Kansas. He claimed the entire territory for Spain, although Spaniards never established settlements in Nebraska.

French explorer Rene Robert Cavalier, Sieur de La Salle, traveled down the Mississippi River to its mouth in 1682. He claimed all the land drained by the Mississippi, as well as its tributaries, for France. The land, which included Nebraska, was named “Louisiana” in honor of French King Louis XIV. During the 1690s and early 1700s, French traders and trappers moved into the Louisiana region. In 1714, French explorer Etienne Veniard de Bourgmont traveled up the Missouri River to the mouth of the Platte River.

Spain objected to France’s presence in the regions it claimed. In 1720, a Spanish expedition of 45 soldiers and 60 Pueblo Indian allies, led by Pedro de Villasur, marched into Nebraska to gain information on French activities. But in a battle by the Platte River, Pawnee Indians attacked and killed most of the Spaniards and several of the Pueblos.

In 1739, two French explorers, Pierre and Paul Mallet, set out from Illinois to Santa Fe, N.M., with a party of six Frenchmen. They named the Platte River and traveled nearly the entire length of present-day Nebraska.

In 1763, at the close of the Seven Years’ War in Europe, France gave up all its claims east of the Mississippi River to England and west of the Mississippi to Spain. However, French fur traders continued to operate in Nebraska. In 1800, French ruler Napoleon Bonaparte forced Spain to return the Louisiana Territory to France. He then sold the entire territory, which included Nebraska, to the United States in 1803. This transaction is commonly known as the Louisiana Purchase.

U.S. Explorers and Fur Traders

The first U.S. expedition to visit Nebraska in 1804 to 1806 was led by Meriwether Lewis and William Clark, who traveled up the Missouri River and explored the state's eastern edge. In 1806, Lt. Zebulon Pike visited south-central Nebraska as part of a U.S. government program to explore the Louisiana Purchase.

The Spanish-American trader Manuel Lisa established trading posts along the Missouri River between 1807 and 1820. One established in 1812 was near the site where Lewis and Clark held council with the Native Americans, in present-day Washington County.

In 1811, the Hunt party of Astorians skirted Nebraska on its way to Oregon. The following year, fur agent Robert Stuart set out for New York City from the Astoria trading post in Oregon, entering Nebraska early in 1813. Stuart's seven-man party followed the North Platte River to its junction with the South Platte, then along the Platte to the Missouri River. This route later came to be known as the Oregon Trail.

In 1819, the U.S. Army established Nebraska's first military post, Fort Atkinson (near the present town of Fort Calhoun in Washington County), to protect the frontier. The fort, with more than 1,000 people, also became the site of Nebraska's first school, library, grist mill and brickyard before it was abandoned in 1827. The village of Bellevue, founded as a trading post on the Missouri River in 1823, became Nebraska's first permanent white settlement.

In 1820, Maj. Stephen Long, with a 20-man party, traveled from the Missouri River up the Platte River to the South Platte headwaters near present-day Denver. In his reports, Long described the area including western Nebraska as a "barren and uncongenial district" and "almost wholly unfit for cultivation, and of course uninhabitable by a people depending upon agriculture for their subsistence." A map drawn by the cartographer of Long's expedition labeled the region a "Great Desert."

Family in Covered Wagon

Beginning in 1824 and continuing through the 1840s, fur traders used the Platte River route heavily. In 1830, traders took the first wagons to the Rocky Mountains, showing the way for later emigrant caravans.

Missionaries

The Rev. Moses Merrill and his wife, Eliza Wilcox Merrill, were the first resident missionaries to Nebraska's Native Americans. They arrived in Bellevue in 1833 and continued their work until Rev. Merrill's death in 1840. Samuel Allis and the Rev. John Dunbar, who arrived in Bellevue in 1834, served as missionaries to the Pawnee Tribe for 12 years. Father De Smet, a Catholic missionary, came to Nebraska in 1835, ministering to Native Americans west of the Missouri River for 35 years.

The "Great Migration"

In the early 1840s, Nebraska's Platte River valley began to play an important role in the "Great Migration," the westward movement of thousands of pioneers. They followed trails crossing Nebraska, including the Oregon and California trails, which followed the Little Blue and Platte River valleys, and the Mormon Trail (Council Bluffs Road), which started from present-day Omaha and traveled along the north bank of the Platte River.

These trails were traveled extensively until railroad construction reached the Pacific Coast. Between April 3, 1860, and Oct. 24, 1861, Pony Express riders also followed the Platte River valley, carrying mail to the west coast. Fort Kearny was established in 1848 near the present-day city of Kearney to protect travelers crossing Nebraska.

The Pony Express

In 1831, the steamboat *Yellowstone* began the first annual fur-trading voyages up the Missouri River, stopping at points along the Nebraska border. The steamboat was an important form of transportation until the construction of railroads in the 1860s, with 40 to 50 steamboats involved in river trade.

From 1834 until the Nebraska Territory was established in 1854, the U.S. government designated the area as “Indian country,” refusing to allow white families to settle there. Between 1830 and 1854, rugged frontier conditions prevailed. The only white settlements of any size were Fort Kearny, Fort Laramie and Bellevue.

Nebraska Territory

The word “Nebraska” first began to appear in publications in 1842, when Lt. John C. Fremont explored the plains and mountains of the western United States. His report mentions the “Nebraska River,” the Oto Indian name for the Platte River. The term was taken from the Oto word “Nebrathka” meaning “flat water.” U.S. Secretary of War William Wilkins, in his report of Nov. 30, 1844, stated: “The Platte or Nebraska River being the central stream would very properly furnish a name to the (proposed) territory.”

The first bill to organize the new Nebraska Territory, introduced in Congress on Dec. 17, 1844, by Illinois Congressman (later Senator) Stephen Douglas, failed to pass. Douglas and other Midwestern politicians wanted the territory organized so a future transcontinental railroad could be built across the Plains. Another bill, called the Kansas-Nebraska Act, was passed after a long, bitter struggle and signed by President Franklin Pierce on May 30, 1854. The struggle between the slave and free states for control in the Nebraska region gave rise to the Republican Party and caused border conflicts before the Civil War. Slaves were first bought and sold in the 1850s in Nebraska City and, at one time, the Underground Railroad may have operated in Nebraska.

The Kansas-Nebraska Act officially created the Kansas and Nebraska territories, opening the area to settlement west of the Missouri River. The Nebraska Territory’s boundaries extended from the 40th parallel to the Canadian border and from the Missouri River to the Continental Divide, including parts of present-day Montana, North and South Dakota, Wyoming and Colorado, as well as Nebraska. By 1863, Congress created several more new territories from this region, reducing the Nebraska Territory to about the state’s present size.

President Pierce appointed Francis Burt of South Carolina as the first governor of the Nebraska Territory. When Burt died two days after taking the oath of office on Oct. 16, 1854, the territory’s secretary, Thomas Cuming, became acting governor. Cuming organized the territorial government and took a census so that legislative elections could be held.

A struggle between the new town of Omaha and the old town of Bellevue to be the territorial capital was decided in favor of Omaha by Cuming, who called the first session of the Legislature to meet there. However, the issue was not settled until Nebraska achieved statehood in 1867, when the capital was moved to Lancaster, now known as Lincoln.

During Nebraska's early territorial days, settling the countryside, land and currency laws, the proposed transcontinental railroad, the capital's location, the rivalry between regions north and south of the Platte River, the Republican Party formation, and the defeat of the first efforts to make Nebraska a state were the prevalent issues of the time. The territory's population grew from 2,732 in November 1854 to 28,841 in 1860.

Effect of the Civil War and Railroad Construction

The election of Abraham Lincoln as president and the Civil War that followed had a significant effect on Nebraska. The First Nebraska Infantry, led by Col. John M. Thayer, was raised for service in the Union Army. Nebraska's entry into the Union was delayed until after the Civil War ended.

In 1865, the Union Pacific Railroad began building a line extending westward from Omaha. This line stretched across Nebraska two years later. By the mid-1880s, the Burlington Railroad lines crisscrossed the state. Many railroads received land grants from state and federal governments to offset construction costs. These lands were sold to new settlers through extensive advertising campaigns. The railroads sent company representatives and pamphlets, which included glowing descriptions of Nebraska's farmland, to people in the eastern United States and even Europe. These campaigns, plus an influx of Civil War veterans seeking land, swelled Nebraska's population to 122,993 by 1870.

Statehood

In early 1867, Congress passed an act admitting Nebraska to the Union, provided that the Nebraska Legislature remove a clause in its proposed state constitution that limited the right to vote to free white males. President Andrew Johnson, convinced that the imposition of this condition on the state constitution was a violation of the U.S. Constitution, vetoed the act, but Congress overrode his veto. Johnson, a Democrat, also did not want Nebraska admitted to the Union because the territory had a Republican majority.

Nebraska joined the Union as the 37th state on March 1, 1867. The people elected David Butler as the first governor, and Lincoln was selected as the site of the state capital on July 29. A state university and agriculture college were established on Feb. 15, 1869.

Hard Times

Beginning in 1873, a combination of problems slowed the state's growth and development. Between 1874 and 1877, swarms of grasshoppers severely damaged farmers' oat, barley, corn and wheat crops. Discouraged, many settlers left their land and returned to the East. However, another wave of settlers took their place in the 1880s.

Nebraska settlers were tested by falling land prices in the 1890s. Land prices, which

had soared during the 1880s, collapsed in 1890 because of drought, overuse of credit and low prices for farmers' products.

Farmers blamed the railroads, banks and other business interests for their problems. Many farmers joined the new Farmers' Alliance organization, which opposed high freight costs imposed by the railroads.

Many Nebraska farmers also joined the Populist Party, which advocated agricultural reforms. The Populists nearly carried the state in the presidential election of 1892, and from 1895 to 1901, they held the governor's office.

Nebraska also supplied national leadership for the Populist movement. William Jennings Bryan of Nebraska won election to Congress and served two terms (1891-95). In 1896, he unsuccessfully ran for president as a Democrat on an essentially Populist platform. He was nominated twice more as the Democratic presidential candidate but was not elected, although he served as U.S. secretary of state.

African Americans in Nebraska after the Civil War

Following the Civil War, African Americans began establishing themselves in Nebraska. In 1860, there were an estimated 82 African Americans in the state. By 1900 that number had risen to 6,269. Most African Americans moved to Omaha, where chances were greater of finding work. Most opportunities for employment were found with the railroads, packing houses or other labor fields. The 1910 census, however, indicates that one physician and surgeon, 25 musicians and teachers of music, and 14 clergymen of African American descent lived in Nebraska.

History books indicate that African Americans contributed to the settlement of Nebraska. In 1870, Robert Anderson was the first African American to file a homestead claim in Butler County. Other homesteaders included L.B. Mattingly, who resided near David City; David Patrick, who lived in Hamilton County; and the Speece and Shores families, who settled in Custer County.

African American organizations such as the Women's Club in 1895 began to emerge in Omaha, as did newspapers such as *The Progress*, the *Afro-American Sentinel* and *The Enterprise* in the 1880s and 1890s.

Many African Americans distinguished themselves in public life: Dr. Matthew O. Ricketts was the first African American to serve in the Nebraska Legislature in 1892, Silas Robbins was the first African American to be admitted to the Nebraska State Bar Association in 1895, and Clarence W. Wigington was the first African American to design a home in Nebraska.

Settlement of Western Nebraska

The development of irrigation and new dryland farming methods during the 1890s and early 1900s greatly contributed to the settlement of western Nebraska. Congress passed the Reclamation Act of 1902, which earmarked federal aid for irrigation projects. New crops, such as winter wheat, alfalfa and sugar beets, also helped make farming viable in western Nebraska.

The Shores Family, 1887, Custer County

Settlers wishing to farm in western Nebraska were frequently opposed, sometimes with armed violence, by ranchers who had preceded them. The farmers rejoiced when Congress passed the Kinkaid Act of 1904, which provided for 640-acre homesteads in western Nebraska. The act triggered a new population boom in the Sandhills area. But when the new settlers found much of the land unsuitable for farming, they sold their homesteads to cattle ranchers.

World War I and the Great Depression

World War I had a notable effect on life in Nebraska. The state furnished 47,801 men for the war, and about 1,500 soldiers were killed in the line of duty. The state also gave about \$300 million to war causes and contributed food to the war effort. Demand for the state's farm products brought new economic prosperity.

But when the war was over, the economic boom collapsed. The 1929 stock market crash caused farm prices to fall even further. The Great Depression that followed, together with a severe drought that hit the Great Plains, created economic disaster for farmers. Many faced bankruptcy and loss of their land to banks and insurance companies.

However, some farmers refused to give up their land. By 1932, conditions had become so desperate that groups of farmers began preventing foreclosures by threatening physical violence at public land sales. Sympathetic sheriffs often refused to carry out court orders for the public sale of land marked for foreclosure. In 1933, Gov. Charles Bryan imposed a moratorium on farm foreclosures. Federal aid came to Nebraska farmers through New Deal long-term, low-interest loans and other relief programs.

Progressive Legislation

Many progressive laws were enacted in Nebraska between 1890 and 1940. Among the measures adopted were provisions for the Australian ballot, direct primary election, and initiative and referendum. (The Australian ballot is an official ballot, on which the names of all candidates and proposals appear, that is distributed only at the polling place and marked in secret.) Nebraska women gained the right to vote in 1920 after Congress passed and states ratified the 19th amendment. The state's educational system was greatly expanded. High school education was made available to all students, and a public-ownership-of-textbooks law was passed. A state highway system was built from money raised by a new gasoline tax and federal aid. During the 1930s, the state enacted Social Security legislation and imposed new liquor and head taxes, along with other gasoline taxes, to furnish funds for state aid. Another significant development during this period was the creation of a unicameral (one-house) legislature, the first of its kind in the nation.⁴⁹

World War II

With the advent of World War II, which created new demand for farm products, Nebraska's economy began to improve significantly. Farmers increased beef cattle production and produced millions of tons of corn, potatoes, oats and wheat to help meet food shortages. Besides food, the state sent some 128,000 soldiers to the war, 3,839 of whom died in the service. Nebraskans bought more than \$1 billion worth of war supplies and contributed more than \$8 million to the Red Cross and the National War Fund. Manufacturing plants in the state produced more than \$1.2 billion worth of war supplies.

Developments Since World War II

The end of World War II ushered in prosperity which has, for the most part, continued to the present day. In 1944, Congress passed the Pick-Sloan Missouri Basin Project, which authorized the creation of flood control dams, reservoirs and hydroelectric plants in states drained by the Missouri River, including Nebraska. Spectacular growth in irrigation has occurred across the state and, with the invention of the pivot system, thousands of acres of dry land have been made productive. However, intensive irrigation and water pollution have caused concern about the future of the state's water supply, generating controversy between land developers and environmentalists.

Since the 1950s, Nebraska farms have become larger in size and fewer in number. The average farm size has grown from 444 acres in 1950 to 885 acres in 1997, while the total number of farms has dropped from 109,000 to about 51,500. Machinery and modern farming methods have made agriculture more efficient, thereby decreasing the need for farm workers. This trend has caused many rural residents to move to larger communities in search of jobs.

⁴⁹ See Pages 55 and 272 for further information about the establishment of Nebraska's unicameral legislature.

This population shift has generated new efforts to increase industry in Nebraska. During the 1960s, manufacturing employment increased sharply, partly as a result of campaigns to attract new businesses to the state. Service industries also have experienced rapid growth. Expanding and diversifying Nebraska's economy remains a top priority in state government today.

Nebraskans experienced some of the racial unrest more commonly associated with the country's larger urban areas. Civil rights demonstrations in Omaha in 1963 led to the creation of the Omaha Human Rights Commission, and in 1966, 1968 and 1969, race riots required intervention by the military and the National Guard.

Many changes in education have occurred in Nebraska since World War II. The University of Nebraska was reorganized to include campuses in Lincoln and Omaha, with central administration in Lincoln. Kearney State College was added to the university system in 1991. A state-supported system of community colleges was created in 1971. Following passage of the Nebraska Educational Television Act in 1963, Nebraska became one of the first states to broadcast educational programming to the entire state. At the elementary and secondary level, many school districts have been consolidated, reflecting the decline in rural Nebraska's population.

In the mid-1970s, many Nebraska farmers borrowed heavily to expand their operations. But with the nationwide recession of the early 1980s, land values collapsed, and many farmers were unable to repay their loans in full. Many people have left farming altogether, thereby weakening the economic base of many rural communities. As a result, these communities have stepped up efforts to attract new industries and expand existing ones. To stimulate economic growth, the 1987 Legislature adopted two measures that authorized tax incentives for businesses intending to create new jobs in Nebraska.

The 1998 legislation also provides that no person can be considered for the Hall of Fame until at least 35 years after his or her death. U.S. House of Representatives: The Capitol, Washington, D.C. 20515, phone (202) 225-3121, website — www.house.gov

The Congress of the United States was created by Article 1, Section 1 of the U.S. Constitution, which provides that “All legislative Powers herein granted shall be vested in a Congress of the United States, which shall consist of a Senate and House of Representatives.”

The Senate has 100 members, two from each state, who are elected for six-year terms. There are three classes of senators, and a new class is elected every two years.

The House of Representatives has 435 members. The number representing each state is determined by population, and every state is entitled to at least one representative. Each representative serves for a two-year term.

Senators and representatives must be residents of the state from which they are elected. In addition, a senator must be at least 30 years old and have been a U.S. citizen for at least nine years. A representative must be at least 25 years old and have been a citizen for at least seven years.

Nebraska’s Congressional Delegates

Nebraska has two senators and three representatives based on recent U.S. Census figures. In the past, the number of Nebraska representatives has been as few as one and as many as six. From 1867 to 1883, the state had one representative. The state had three from 1883 to 1893, six until 1933, five until 1943, four until 1963 and three since 1963.²

The map on Page 85 shows current congressional districts. These district boundaries are redrawn, based on population, after each U.S. census.

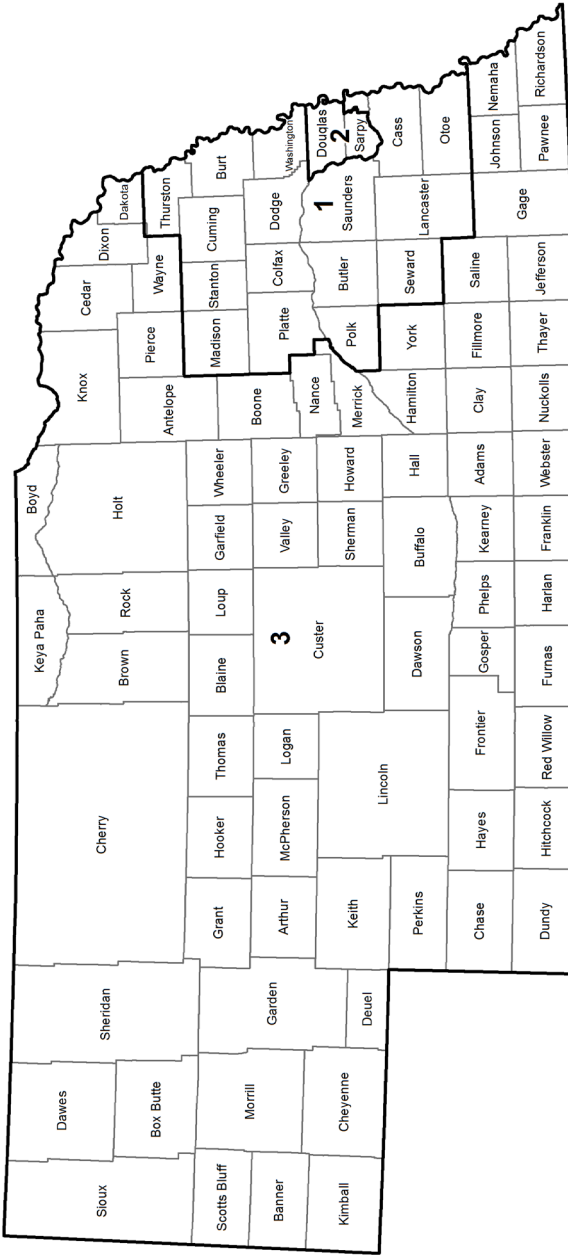

Nebraska senators and representatives maintain offices and residences in Nebraska, as well as in Washington, D.C.³

U.S. EXECUTIVE BRANCH

U.S. EXECUTIVE BRANCH¹

PRESIDENT AND VICE PRESIDENT

White House Office: 1600 Pennsylvania Ave. N.W., Washington, D.C. 20500, phone (202) 456-1414

President of the United States: Barack H. Obama

Vice President of the United States: Joseph R. Biden, Jr.

Article II, Section 1 of the U.S. Constitution provides that “the executive Power shall be vested in a President of the United States of America. He shall hold his Office during the Term of four Years, ... together with the Vice President, chosen for the same Term ...” In addition to the powers set forth in the Constitution, federal statutes have conferred upon the president specific authority and responsibility covering a wide range of matters.

The president is the administrative head of the U.S. government’s executive branch, which includes numerous agencies, both temporary and permanent, as well as the 15 executive departments — Agriculture, Commerce, Defense, Education, Energy, Health and Human Services, Homeland Security, Housing and Urban Development, Interior, Justice, Labor, State, Transportation, Treasury and Veterans Affairs.

The Cabinet, a creation of custom and tradition dating back to George Washington’s administration, functions at the pleasure of the president. Its purpose is to advise the president upon any subject, relating to the duties of the respective offices, on which he or she requests information. The Cabinet is composed of the heads of the 15 executive departments and other officials to whom the president has accorded Cabinet-level rank.

Editor’s note: The following is a list of U.S. government departments and agencies that maintain one or more offices in Nebraska. Other U.S. departments and agencies serve Nebraska from offices outside of the state.

For information on other offices, the U.S. government has a federal information center hot line. The toll-free number is (800) 333-4636. The U.S. government also maintains a website at www.pueblo.gsa.gov/call/phone listing commonly requested federal toll-free numbers. For hearing-impaired people, TTY numbers also are listed. More information about U.S. government departments and agencies can be obtained from the latest edition of *The United States Government Manual*.

¹Information about the executive branch, Cabinet-level agencies and federal independent agencies was gathered from the following sources: *The United States Government Manual 2013-14* and information provided by the agencies listed.

CABINET-LEVEL AGENCIES

Department of Agriculture

The U.S. Department of Agriculture (USDA) works to improve and maintain farm income and develop and expand markets abroad for agricultural products. The department works to curb and cure poverty, hunger and malnutrition. It works to enhance the environment and maintain production capacity by helping landowners protect the soil, water, forests and other natural resources. Rural development, credit and conservation programs are key resources for carrying out national growth policies. The department, through inspection and grading services, works to safeguard and ensure standards of quality in the daily food supply.

Office of Inspector General

Office of Audit: 276 Denney Federal Building, 100 Centennial Mall North, Lincoln, NE 68508, phone (402) 437-5271

Senior Auditor: Anne C. Morrison

Senior Auditor: Keith Arnold

Office of Investigation: 282 Denney Federal Building, 100 Centennial Mall North, Lincoln, NE 68508, phone (402) 437-5249

Resident Special Agent: Martin Dahlke

The Office of Inspector General conducts audits and investigations designed to promote economy and efficiency in the administration of USDA programs and to prevent and detect fraud and abuse in the operation of such programs.

Animal and Plant Health Inspection Service

The Animal and Plant Health Inspection Service conducts regulatory and control programs to protect and improve animal and plant health for the benefit of humanity and the environment. These programs are carried out in cooperation with state governments, foreign governments, other federal agencies, farmers and ranchers, and private organizations. The agency administers federal laws and regulations pertaining to animal and plant health and quarantine, humane treatment of animals, and the control and eradication of pests and diseases. The service also enforces regulations to prevent the introduction or interstate spread of certain animal or plant pests or diseases. APHIS also carries out research and operational activities to reduce crop and livestock damage caused by birds, rodents and predators.

Plant Protection and Quarantine Programs

Nebraska Office: 5940 S. 58th St., P.O. Box 81866, Lincoln, NE 68501, phone (402) 434-2345, fax (402) 434-2330, email address —vicki.b.wohlers@aphis.usda.gov, website — www.aphis.usda.gov/plant_health

State Plant Health Director: Vicki B. Wohlers

Plant protection officials are responsible for programs to control or eradicate plant pests and diseases. Agricultural quarantine inspection officials administer federal regula-

tions that prohibit or restrict the entry of foreign pests and plants, plant products, animal products and byproducts, and other materials that may harbor pests or diseases.

Other responsibilities include the inspection and certification of domestic commodities for export; regulation of the import and export of endangered plant species and of genetically engineered organisms and products that present a plant pest risk; and ensuring that imported seed is free of noxious weeds.

Veterinary Services

Nebraska Office: 5940 S. 58th St., Lincoln, NE 68516, phone (402) 434-2300, email address — vsne@aphis.usda.gov, website — www.aphis.usda.gov

Area Veterinarian in Charge: Dr. Kathleen Jan Akin

Veterinary Services is the animal health arm of APHIS. Agency officials are responsible for protecting and improving the health, quality, productivity and marketability of U.S. animals and animal products and for facilitating agricultural trade.

Veterinary Services regulates the entry of imported animals and animal products and is prepared to take emergency action against foreign diseases. In cooperation with the states and industry groups, the agency also operates eradication programs for domestic animal diseases. When diseases are found, the agency regulates the interstate movement and transport of infected and exposed animals. Veterinary Services provides health certification for exported animals and animal products. It also issues licenses for veterinary biological products and manufacturers and monitors quality control.

Wildlife Services²

Nebraska Office: 5940 S. 58th St., P.O. Box 81866, Lincoln, NE 68501-1866, phone (402) 434-2340, fax (402) 434-2339

State Director: Tim Veenendaal

Officials with Wildlife Services, formerly Animal Damage Control, work to reduce crop and livestock damage caused by birds, rodents and predators.

Wildlife Services officials work to educate and advise farmers and ranchers on proper uses of control methods and techniques; suppress serious nuisances and threats to public health and safety caused by birds, rodents and other wildlife; and work with airport managers to reduce risks of bird strikes. Wildlife Services also conducts research on predator-prey relationships, new control methods, and more efficient and safe uses of present methods.

Farm and Foreign Agricultural Services

Through the Farm Service Agency, this mission area administers farm commodity, crop insurance and resource conservation programs for farmers and makes loans through a network of state and county offices. Agency programs are directed at agricultural producers or, in the case of loans, at those with farming experience.

²For more information on Wildlife Services, see Page 463.

Farm Service Agency

Nebraska State Office: 7131 A St., Lincoln, NE 68505-4202, phone (402) 437-5581

State Executive Director: Dan Steinkruger

FSA State Committee: Bill Armbrust, Fred Christensen, Susan Frazier, Leo Hoehn and Linda Kleinschmit

The Farm Service Agency administers farm loans, conservation programs, marketing assistance loans and loan deficiency payments, as well as other commodity programs including direct and countercyclical payments. FSA also administers emergency programs to address crop disasters and livestock losses. Other programs are administered by the FSA as provided by Congress.³

The FSA delivers programs to agricultural producers through 71 offices in Nebraska.⁴ The agency was created during the 1994 USDA organization. The parent organizations for the FSA were the Agricultural Stabilization and Conservation Service and the Farmers Home Administration.

The FSA administers the Supplemental Agricultural Disaster Assistance programs as authorized by Congress. These programs provide loss payments when producers suffer serious crop losses, livestock forage losses, livestock death losses in excess of normal mortality and emergency relief for livestock producers.

The FSA also offers eligibility and payment limitation programs. These include Adjusted Gross Income (AGI) criteria that vary by program. AGI and payment limits apply differently for FSA and Natural Resource Conservation Service programs.

The Conservation Reserve Program takes highly erodible land out of crop production and reserves it for growing grasses, trees and forage for 10 to 15 years. In return for participating in the program, the owner receives a rental payment each year.

The Conservation Reserve Enhancement Program became effective January 2003 in 37 counties in southeast and eastern Nebraska. Conservation practices include planting filter strips and riparian buffers to protect streams, lakes and rivers from sedimentation and pollution from agricultural chemicals and to restore wetlands and ground cover to provide habitats for threatened wildlife species. In 2005, a second Conservation Reserve Enhancement Program project was authorized primarily to enroll irrigated land in the Republican and Platte rivers in 22 western Nebraska counties.

The Emergency Conservation Program provides financial assistance to farmers and ranchers for the restoration of farmlands where natural disasters have impeded normal farming operations.

The FSA Farm Loan Program offers direct and guaranteed financing for family farmers and beginning farmers and ranchers who are unable to obtain affordable commercial credit for farm ownership, improvements and operating purposes. When natural disasters occur, emergency loan authorities are available to help producers who have incurred losses.

Agricultural price support operations, including marketing assistance loans, loan deficiency payments, Farm Storage Facility loans and the purchase and sale of agricul-

tural commodities by the Commodity Credit Corporation are offered by FSA. The FSA also provides rural youth operating loans, which are available to youth ages 10 to 20 to establish and operate income-producing projects.

Food, Nutrition and Consumer Services

The mission of Food, Nutrition and Consumer Services is to ensure access to nutritious, healthy diets for all U.S. residents. Through food assistance and nutrition education, FNCS encourages people to make healthful food choices. Rather than just providing food, FNCS works to give people knowledge of the link between diet and health, providing dietary guidance based on research.

Food and Nutrition Service

Mountain Plains Regional Office: 244 Speer Blvd., Suite 903, Denver, CO 80204-3581

Regional Administrator: Darlene Barnes

The Food and Nutrition Service administers the USDA domestic food assistance programs. These programs, which serve one in four Americans, provide a federal safety net to people in need. The goals of the programs are to provide needy persons with access to a more nutritious diet, improve the eating habits of children and provide America's farmers with an expanded customer base.

The FNS works in partnership with the states in all of its programs. State and local agencies determine most administrative details regarding distribution of food benefits and eligibility of participants, and FNS provides commodities and funding for additional food and to cover administrative costs. In Nebraska, the state Department of Health and Human Services and the state Department of Education help administer most FNS programs.

FNS programs include:

- the Supplemental Nutrition Assistance Program (SNAP), formerly known as the Food Stamp Program, which provides food benefits through state and local welfare agencies to needy people to increase their food purchasing power. The benefits are used to buy food at approved retail stores.

- the Special Supplemental Nutrition Program for Women, Infants and Children (WIC), which provides food supplements, nutrition education and healthcare referrals to low-income pregnant women, postpartum women, and infants and children up to 5 years old

- the WIC Farmers' Market Nutrition Program, which provides WIC participants with coupons to buy fresh fruits and vegetables from authorized farmers

- the Commodity Supplemental Food Program, which provides an extensive package of foods monthly to low-income pregnant, postpartum and breast-feeding women; their infants and children younger than age 6; and the elderly. The program also provides nutrition education.

- the National School Lunch Program, which supports nonprofit food services in elementary and secondary schools and in residential childcare institutions. More than half the meals served through these institutions are available free or at reduced cost.

- the School Breakfast Program, which supports schools in providing needy children with breakfasts for free or at reduced cost
- the Special Milk Program for Children, which provides milk for children in those schools, summer camps and childcare institutions that do not have federally supported meal programs
- the Child and Adult Care Food Program, which provides cash and commodities for meals for children in childcare facilities and for functionally impaired adults in nonresidential care facilities
- the Summer Food Service Program for Children, which helps various organizations get meals to needy children during the summer months and during school vacations
- the Emergency Food Assistance Program, which provides state agencies with commodities for distribution to food banks, food pantries, soup kitchens and other charitable institutions
- the Food Distribution Program on Indian Reservations and the Trust Territories, which provides commodities to low-income households on or near Indian reservations in lieu of SNAP benefits

Food Safety and Inspection Service

The Food Safety and Inspection Service is the public health agency in the U.S. Department of Agriculture responsible for ensuring that the nation's commercial supply of meat, poultry and egg products is safe, wholesome and correctly labeled and packaged.

PDD, formerly known as the technical service center, assists decision making by providing all parties with the standards and other technical information needed to understand, implement, apply and enforce regulatory requirements.

Marketing and Regulatory Programs

This mission area includes marketing and regulatory programs other than those concerned with food safety.

Agricultural Marketing Service

The Agricultural Marketing Service administers: standardization, grading, inspection, certification, market news, marketing orders, and research, promotion and regulatory programs. Two branches of the AMS Livestock and Seed Division — the Livestock and Grain Market News Service and the Meat Grading and Certification Branch — have offices in Nebraska.

Livestock and Grain Market News Service

Livestock and Seed Division Branch Office: 4009 Sixth Ave., Suite 47, Kearney, NE 68845-2393, phone (308) 390-5399, email address — kearney.lpgmn@ams.usda.gov, website — www.marketnews.usda.gov

Officer in Charge: Tom Walthers

The AMS Livestock and Grain Market News Service provides current market information to producers, processors, distributors and others to assist them in the orderly marketing and distribution of farm commodities. Information is collected on supply, demand, prices, movement, location, quality, condition and other market data on farm products in specific markets and marketing areas. The data is disseminated nationally via a modern satellite system and is shared internationally. The service also has assisted countries in developing their own market information systems.

The Kearney office of the Livestock and Grain Market News Service reports daily movement, trade activity, price trends and livestock prices. Grain prices are collected daily from about 40 locations in the state. This office also produces a weekly report of hay prices for Nebraska, Iowa and parts of South Dakota and Iowa. The Kearney office supervises the reporting of 10 of the largest volume feeder cattle auctions through a cooperative program with the Nebraska Department of Agriculture.

Livestock and meat reports are released throughout the trading day through radio, television and newspapers. Market news reports are transmitted by Market News Communication Systems to national and international market interests via the MNCS system and the AMS website.

The news service also receives reports from other market news offices across the nation, keeping livestock and grain producers and marketing agencies informed of the movement and price of livestock, meat and grain at all marketing areas.

The news service also grades and certifies livestock to fill Chicago Mercantile Exchange livestock futures trading contracts.

Meat Grading and Certification Branch

Omaha Area Contact: Alan Kohles, 412 S. 127th St., Omaha, NE 68154, phone (402) 218-6768, email — alan.kohles@ams.usda.gov

Grade standards have been established for nearly 240 agricultural commodities to help buyers and sellers trade on agreed-upon quality levels. Standards are developed with the benefit of views from those in the industries directly affected and others interested. The AMS also participates in developing international standards to facilitate trade.

The Meat Grading and Certification Branch of the Livestock and Seed Division interprets the federal grade and class standards and performs meat grading services

upon the request of federally inspected and recognized nonfederally inspected meat slaughtering and wholesale plants.

Meat grading includes three types of services:

- the meat grading service, which provides quality and yield grading to allow a common language for the industry to market meat carcasses or cuts;
- the certification service, which examines, accepts and certifies fresh-chilled meats, prepared meats and meat food products. The Meat Grading and Certification Branch has an Omaha office that covers Omaha, Dakota City, Gibbon, Grand Island, Hastings, Lexington, Norfolk, Schuyler and West Point;
- the carcass data service, which evaluates carcass characteristics by applicable official U.S. standards. The carcass data service also records and transmits data to the service's applicants. An applicant also can direct the service to send the data elsewhere.

Natural Resources and Environment

This mission area is responsible for fostering sound stewardship of 75 percent of the nation's total land area. Ecosystems are the underpinning for the USDA's operating philosophy in this area. This approach is intended to ensure that products, values, services and uses desired by people are produced in ways that sustain healthy, productive ecosystems.

U.S. Forest Service

The U.S. Forest Service is responsible for national leadership in forestry. Its mission is to achieve quality land management under the sustainable, multiple-use management concept to meet the diverse needs of people.

U.S. Forest Service operations in Nebraska are handled by three branches: the national forest system branch, which is administered by a forest supervisor at Chadron; the research branch, represented by the National Agroforestry Center in Lincoln; and the state and private branch in Lincoln. U.S. Forest Service state and private forestry cooperative programs are carried out in states by the state forestry agency, headed by the state forester. The Nebraska Forest Service/State Forester's Office is part of the University of Nebraska-Lincoln.

Charles E. Bessey Tree Nursery: 40637 River Loop, P.O. Box 39, Halsey, NE 69142, phone (308) 533-2257

Nursery Manager: Richard Gilbert

The U.S. Forest Service manages 155 national forests, 20 national grasslands, and eight land utilization projects on more than 191 million acres in 44 states, the Virgin Islands and Puerto Rico. The intent is to balance the nation's need for wood and paper products with the other resources or benefits that the national forests and grasslands provide, such as recreation and natural beauty, wildlife habitat, livestock forage and water supplies.

The 90,400-acre Bessey Ranger District of the Nebraska National Forest, which is in Thomas and Blaine counties, contains a completely man-made forest. Dr. Charles E. Bessey, an eminent University of Nebraska botanist, generated public interest in the idea of growing trees on parts of the Great Plains. The Bessey District administers another area with hand-planted trees, the 116,000-acre Samuel R. McKelvie National Forest in Cherry County. These two national forest areas were established by presidential proclamation in 1902.

About 22,000 acres of coniferous trees have been planted on the Bessey District, and 2,500 acres have been planted on the Samuel R. McKelvie National Forest. Techniques developed at the Charles E. Bessey Tree Nursery increased knowledge about tree propagation, helped countless farms establish tree windbreaks, and helped the federal government to implement a shelterbelt program from 1935 to 1942.

The 51,000-acre Pine Ridge Ranger District of the Nebraska National Forest is in Dawes and Sioux counties in northwest Nebraska. The district contains about 25,000 acres of natural ponderosa pine forests growing along the Pine Ridge.

The 94,000-acre Oglala National Grassland in northwest Nebraska, administered by the Pine Ridge District, demonstrates rangeland conservation techniques and practices. Range managers, ranchers and conservationists are working together to improve the grassland resources.

The 7,794-acre Soldier Creek Wilderness Area and the 6,600-acre Pine Ridge Recreation Area were created by the Nebraska Wilderness Act of 1985.

The Bessey Nursery is the oldest federal tree nursery. Nearly 3.5 million trees are produced there each year. The seedlings are distributed to national forests for rehabilitation plantings and through natural resource districts in Nebraska and neighboring states to private landowners for conservation projects.

The forest supervisor at Chadron is responsible to the regional forester in Denver for the administration of the Nebraska National Forest; the Samuel R. McKelvie National Forest; Oglala National Grassland; Bessey Nursery; and the Buffalo Gap and Fort Pierre National Grasslands in South Dakota. Also, the forest supervisor represents the U.S. Forest Service in Nebraska activities except for research.

Human Resource Programs

Pine Ridge Job Corps Civilian Conservation Center: 15710 Highway 385, Chadron, NE 69337, phone (308) 432-3316

Center Director: Clyde Franklin

The U.S. Forest Service operates the Youth Conservation Corps and the Volunteers in the National Forests programs and participates with the U.S. Department of Labor on several human resource programs that involve citizens, both young and old, in forestry-related activities.

In Nebraska, the forest supervisor administers the Pine Ridge Job Corps Civilian Conservation Center in cooperation with the U.S. Department of Labor. The center is 12 miles south of Chadron on U.S. Highway 385. It is a certified Nebraska high school and offers nine learning areas for 16- to 24-year-olds.

National Agroforestry Center

Contact Person: Andy Mason, Center Director, East Campus, University of Nebraska-Lincoln, Lincoln, NE 68583-0822, phone (402) 437-5178, website — www.nac.unl.edu

The USDA National Agroforestry Center is a partnership between the Forest Service and the Natural Resources Conservation Service. It conducts research on how to design and install forested buffers to protect water quality and develops and delivers technology on a broad range of agroforestry practices, such as alley cropping, forest farming, riparian forest buffers, silvopasture and windbreaks. Its primary audience is the more than 8,000 natural resource professionals who directly assist landowners and communities throughout the nation. The partnership draws upon Forest Service expertise with forestry and trees and harnesses it to NRCS expertise in agriculture and its technology delivery system to farmers, ranchers and communities. The NAC gathers and packages research conducted by universities and state and federal agencies into technology transfer materials. NAC products include field demonstrations, training workshops, a quarterly newsletter, technology “how to” notes, videos and brochures with coordinating displays.

Agroforestry technologies provide cost-effective ways to diversify production and increase income, while simultaneously enhancing natural resource conservation. The Farm Bill recognizes and supports many agroforestry practices in its conservation programs.

Key issues address by NAC are:

- Carbon — Agroforestry often involves afforestation. Planting linear forests on farms and ranches can store large amounts of carbon due to an extensive agricultural land base.
- Communities — Trees at the community/agriculture interface provide visual screening, abate dust and noise, manage stormwater, modify temperatures and provide greenways and recreational settings.
- Economics — Agroforestry practices such as alley cropping and forest farming diversify production systems and generate additional on-farm income.
- Livestock — Trees shelter livestock from harsh weather and reduce visual and odor problems associated with concentrated feedlots. Agroforestry systems allow for forage production and livestock grazing in the understory of conifer stands that are managed for timber production.
- Snowfences — Trees and shrubs used as living snowfences control drifting snow

along roadways, distribute snowmelt in fields, protect farmsteads and communities and provide wildlife habitat.

- **Water** — Forested riparian buffers improve water quality by controlling soil and streambank erosion and by reducing the input of agricultural fertilizers, pesticides and animal wastes into waterways.

- **Windbreaks** — Many field windbreaks have aged and deteriorated. They need to be replanted or rehabilitated in ways that provide for erosion reduction, crop production and wildlife habitat.

Cooperation With the States

State Forester: Dr. Scott J. Josiah

Through its cooperative State and Private Forestry Program, the U.S. Forest Service provides national leadership and financial and technical assistance delivered through state forestry agencies to nonfederal forest landowners, operators, processors of forest products and community forestry interests. These cooperative programs work to protect and improve the productivity and health of forests, air, water, and soil and encourages the use of natural resources on nonfederal lands that best meet the needs of the nation while protecting the environment.

Cooperative programs are carried out by the Nebraska State Forester and Director of the Nebraska Forest Service, who receives federal grant funding under the Cooperative Forestry Assistance Act of 1978, as well as state funding support. The Nebraska Forest Service implements a portfolio of programs mandated by Nebraska state statute that provide rural forestry assistance to owners of over 2 million acres of forested lands, forest health protection, community forestry assistance, rural fire protection to 483 rural fire districts and mutual aid associations, state forest resource planning, and development, marketing and utilization of forest products and biofuels. Funding and technical assistance are provided to rural volunteer fire departments for training, planning, and fire prevention programs and equipment. The Federal Excess Property Program operated by the state forester provides reconditioned heavy-duty vehicles on loan to rural fire districts for use as fire trucks. The Nebraska Community Forestry Program provides assistance and funding to communities that want to improve community forest resources.

The Nebraska Forest Service is part of the University of Nebraska, and is administratively housed in the Institute of Agriculture and Natural Resources, University of Nebraska-Lincoln.

The Natural Resources Conservation Service has national responsibility for helping farmers, ranchers and private landowners develop and carry out voluntary efforts to protect the nation's natural resources. NRCS is USDA's technical delivery arm for conservation. Many NRCS programs are conducted in cooperation with other federal agencies, state and local agencies, universities, natural resource districts, commercial businesses and private groups. NRCS provides service through 77 offices in Nebraska.⁶ Programs include:

- Conservation Technical Assistance. This is the foundation program of NRCS. Under this program, NRCS provides technical assistance to land users and units of government for the purpose of sustaining agricultural productivity and protecting and enhancing the natural resource base. This assistance is based on the voluntary cooperation of private landowners and involves comprehensive approaches to reduce soil erosion, improve irrigation water management, improve soil and water quantity and quality, improve and conserve wetlands, enhance fish and wildlife habitat, improve air quality, improve pasture and range condition, reduce upstream flooding and improve woodlands. Every year nationally, more than 1 million land users receive these technical services, which are channeled through nearly 3,000 conservation districts across the United States and its territories. Nebraska's state and field offices provide assistance to individuals, groups, organizations and government units, but much of this help is given through the state's natural resource districts.

- the Natural Resources Inventory, a report issued every five years on how well the nation is sustaining natural resources on nonfederal land

- the National Cooperative Soil Survey, which provides the public with local information on the uses and capabilities of soils⁷

⁶ See the list of USDA service centers on Pages 116-117.

⁷ For more information visit <http://websoilsurvey.nrcs.usda.gov>.

- the Plant Materials Program. At 26 plant materials centers across the country, NRCS tests, selects and ensures the commercial availability of new and improved conservation plants for erosion reduction, wetland restoration, water quality improvement, streambank and riparian area protection, coastal dune stabilization, biomass production, carbon sequestration and other needs.

- River Basin Surveys and Investigations. This program involves river basin surveys and investigations, flood hazard analysis and flood plain management assistance.

- the Small Watersheds Program, which helps local groups plan and install watershed protection projects on private lands

- the Small Watersheds Rehabilitation Program, formed in 2002, to repair, restore or replace older structures, such as dams, built since the 1950s

- the Flood Prevention Program, which applies to 11 flood prevention projects covering about 35 million acres in 11 states, including Nebraska

- the Emergency Watershed Protection Program, which provides emergency help to safeguard lives and property in jeopardy because of sudden watershed impairment by natural disasters; includes flood plain easement for restoration as wetlands

- the Resource Conservation and Development Program (RC&D), which is a locally driven program, gives civic-oriented groups an opportunity to work together by sharing knowledge and resources to solve common problems facing their region. A USDA coordinator helps each designated RC&D council plan, develop and carry out programs for resource conservation, water management, community development and environmental enhancement.

- the Wetlands Reserve Program. Under this program, USDA purchases easements from agricultural landowners who voluntarily agree to restore and protect wetlands.

- the Wetlands Reserve Enhancement Program, started in 2004, targets wetland restoration along the Missouri River on the west side.

- the Farm and Ranch Land Protection Program, intends to protect soil by encouraging landowners to limit conversion of their farmland to nonagricultural uses

- the Environmental Quality Incentives Program, which uses two- to 10-year contracts to help producers with environmental and natural resource conservation improvements on their agricultural lands.

- the Conservation of Private Grazing Land Program, which helps owners and managers of private grazing land address natural resource concerns while enhancing the economic and social stability of grazing land enterprises and the rural communities that depend on them

- the Conservation Stewardship Program, which provides financial and technical assistance for the conservation, protection and improvement of soil, water and related resources on tribal and private lands. It provides payments for producers who have practiced good stewardship on their agricultural lands and incentives for those who want to do more

- the Wildlife Habitat Incentives Program, which encourages the creation of wildlife habitats that support wildlife populations of national, state, tribal and local significance⁸

⁸For more information visit www.nrcs.usda.gov.

- the Agricultural Water Enforcement Program, which promotes ground and surface water conservation and the improvement of water quality on agricultural land

Research, Education and Economics

This mission area's main focus is to create, apply and transfer knowledge and technology to provide affordable food and fiber, ensure food safety and nutrition, and support rural development and natural resource needs. These goals are pursued by conducting integrated national and international research, information, education and statistical programs and services.

Cooperative State Research, Education and Extension Service

The Cooperative State Research, Education and Extension Service expands the research and higher education functions of the former Cooperative State Research Service and the education and outreach functions of the former Extension Service.

The service links the USDA's research and education resources and activities. CSREES works with land-grant institutions in each state, territory, and the District of Columbia; more than 130 colleges of agriculture; 59 agricultural experiment stations; 57 cooperative extension services; 63 schools of forestry; 16 historically black land-grant institutions and Tuskegee University; 27 colleges of veterinary medicine; 42 schools and colleges of family and consumer services; 29 American Indian land-grant institutions; and 127 Hispanic-serving institutions.

In cooperation with its partners and customers, CSREES provides the focus to advance a global system of research, extension and higher education in the food and agricultural sciences and related environmental and human sciences.

The service's mission emphasizes partnerships with the public and private sectors to maximize the effectiveness of limited resources. Its programs are intended to increase and provide access to scientific knowledge; strengthen the capabilities of land-grant and other institutions in research, extension and higher education; increase access to and use of improved communication and network systems; and promote informed decision-making by producers and families to improve social conditions in the United States and globally.

The service provides research, extension and education leadership through programs in plant and animal production, protection and processing; natural resources and environment; rural, economic and social development; families, nutrition and 4-H; partnerships; competitive research grants and awards management; science and education resource development; and communications, technology and distance education.

The Cooperative Extension Division at land-grant universities has professional staff located at the state, county and local government levels. These staff work together to assess clients' needs and create educational programs to help farmers, families, individuals, rural businesses and communities develop problem-solving and decision-making skills. Extension staff use computers, video, satellites and teleconferences to develop and deliver educational programs to people. The national Cooperative Extension System also assures access to research findings and information nationwide.

In Nebraska, extension programs' federal funds are combined with state funds, county funds and user fees by the Cooperative Extension Division.

USDA National Agricultural Statistics Service NASS, Nebraska Field Office

Nebraska USDA Field Office: 298 Denney Federal Building, 100 Centennial Mall North, Lincoln, NE 68508, phone (402) 437-5541, email address — nassrfonpr@nass.usda.gov, website — www.nass.usda.gov

State Director: Dean C. Groskurth

The U.S. Department of Agriculture's National Agricultural Statistics Service⁷ operates the NASS, Nebraska Field Office.

The service provides and disseminates agricultural statistics for the state concerning production, supplies, marketing, prices and other related agricultural statistics. The service presents a picture of current and future agricultural product supplies and shows the distribution of agricultural production statewide through county estimates.

The state law calling for gathering agricultural statistics through assessors was approved in 1898 with the duties assigned to the Bureau of Labor. Agricultural statistics work was transferred to the State Board of Agriculture in 1913. In 1919, duties of the Division of Agricultural Statistics were transferred to the Department of Agriculture.

The U.S. Department of Agriculture established an agricultural statistics office in Lincoln on July 3, 1914. The USDA gathered agricultural statistics in Nebraska as

early as 1866.

Informal cooperation between the Agriculture Statistics Division under the State Board of Agriculture and the USDA's statistical office began in 1914, and a cooperative agreement was signed between the two agencies in 1918. This cooperative arrangement provides a more efficient program than two offices could carry out separately.

The service issues more than 500 agricultural production reports each year. These reports are based on data from surveys, using questionnaires sent to farmers and agricultural business firms. This information is supplemented through personal contacts and administrative data from other government agencies.⁹

The most extensive surveys are made near the end of the year, when a sample of farmers and ranchers receive the County Agricultural Production Survey. This data is used for county crop and livestock estimates.

Most state estimates are published in USDA monthly and annual reports, as well as through releases available from the NASS, Nebraska Field Office. Data are available on the website.

Reports include crop production forecasts during the growing season and annual crop estimates after harvest, livestock inventory estimates, monthly cattle on feed reports, quarterly pig crop reports, monthly price reports, quarterly grain stocks reports, annual county estimates of crops and livestock, weekly weather and crop reports and the Census of Agriculture which is conducted every five years.

- facilitates and assists tribes in coordinating health planning, in obtaining and using health resources available through federal, state and local programs, in operating comprehensive health programs, and in evaluating health programs
- provides comprehensive healthcare services, including hospital and ambulatory medical care, preventive and rehabilitative services, and development of community sanitation facilities
- serves as the primary federal advocate for Indians to ensure comprehensive health services for American Indian and Alaska Natives

The Aberdeen Area Indian Health Service was established to serve the Indian tribes in North Dakota, South Dakota, Nebraska and Iowa. The Aberdeen Area Office in Aberdeen, S.D., is administrative headquarters for 22 service units.

Several tribes assume partial or full responsibility for their own healthcare through contractual arrangements with the Aberdeen Area IHS. Tribally managed facilities include the Carl T. Curtis Health Education Center, an ambulatory care and nursing

home facility in Macy managed by the Omaha Tribe.

The five-physician, 30-bed hospital in Winnebago supplies basic healthcare to members of the Winnebago and Omaha tribes and to many Indians living in the Sioux City, Iowa, area.

Department of Homeland Security

Nebraska Contact Person: Mike Foley, Lieutenant Governor, Room 2315, State Capitol, Lincoln, NE 68509-4863, phone (402) 471-2256, website — www.ltgov.ne.gov

On Nov. 25, 2002, President George W. Bush signed the Homeland Security Bill of 2002 into law, which created the Department of Homeland Security. The department's purpose is to protect the United States from terrorist attacks, reduce the country's vulnerability to terrorism and minimize damage and aid recovery if terrorist attacks occur. The legislation combined intelligence analysis and infrastructure protection, border protection and immigration and response-and-recovery resources into one department. The department provides state and local government agencies with a central resource for homeland security issues.

The department's creation marked the largest reorganization of the federal government since World War II. Before the reorganization, more than 100 government organizations performed homeland security duties. The department employs approximately 180,000 federal workers.

The department contains five divisions: Border and Transportation Security; Emergency Preparedness and Response; Science and Technology; Information Analysis and Infrastructure Protection; and Management.

Nebraska has offices within the Border and Transportation division.

Border and Transportation Security

The Border and Transportation Security division secures national borders and transportation systems, which cover 350 official ports of entry. The division manages who and what enters the country and prevents terrorists and weapons of terror from entering the country while ensuring legitimate traffic flows efficiently.

As ordered by the Homeland Security Bill of 2002, the division absorbed these offices: U.S. Customs Service and Federal Law Enforcement Training Center, formerly part of the Department of Treasury; Transportation Security Administration, formerly part of the Department of Transportation; Office for Domestic Preparedness, formerly part of the Department of Justice; and Federal Protective Service, formerly part of the General Services Administration.

The Department of Homeland Security shares duties of the Animal and Health Inspection Service with the Department of Agriculture and shares duties of the Immigration and Customs Enforcement and the Border Patrol with the Department of Justice.

U.S. Immigration and Customs Enforcement

U.S. Immigration and Customs Enforcement is the investigative component of

Border and Transportation Security. It combines the functions and resources of several agencies, including the U.S. Customs Service and the former Immigration and Naturalization Service. ICE enforces immigration and customs laws, protects specified federal buildings and leads air and marine enforcement activities.

The Cutter *Gasconade* is a 75-foot river buoy tender attached to a 90-foot barge that operates on the Missouri River between Glasgow, Mo., and Sioux City, Iowa. The ship deploys aids-to-navigation buoys and day beacons to mark the ever-changing river channel. The ship, which has a crew of 13 active Coast Guard members and 31 reserve members, has its home port at Omaha. The cutter support team in Omaha provides support services to the ship and maintains the port building and grounds.

The recruiting station in Bellevue handles Coast Guard recruiting for all of Nebraska, South Dakota and Iowa.

The Coast Guard Auxiliary operates on four levels: flotillas, divisions, district regions and national. A division of the auxiliary exists in the eastern part of Nebraska. This division supports the activities of five flotillas that primarily conduct public education programs. The flotillas also conduct safety patrols on the Missouri River and area lakes, as well as conduct vessel safety checks and other operations with local law enforcement and state agencies.

U.S. Fish and Wildlife Ecological Services: 203 W. Second St., Federal Building, Second Floor, Grand Island, NE 68801, phone (308) 382-6468

Acting Nebraska Field Supervisor: Eliza Hines

The U.S. Fish and Wildlife Service is responsible for migratory birds, endangered species, certain marine mammals and inland sport fisheries. Its mission is to conserve, protect and enhance fish and wildlife and their habitats. Within this framework, the service strives to foster an environmental stewardship ethic based on ecological principles and scientific knowledge of wildlife; works with the states to improve the conservation and management of fish and wildlife resources; and administers a national program providing opportunities to the public to understand, appreciate and wisely use these resources.

The service has headquarters in Washington, D.C., seven regional offices, and a variety of field units and installations. These include more than 500 national wildlife refuges and 37 wetland management districts totaling more than 93 million acres; 65 national fish hatcheries; and a nationwide network of wildlife law enforcement agents. Federal wildlife law enforcement in Nebraska and the Dakotas is supervised by the resident agent in charge in Ft. Calhoun, Neb.

Law enforcement is essential to virtually every aspect of wildlife conservation. The Office of Law Enforcement contributes to U.S. Fish and Wildlife Service efforts to manage ecosystems, save endangered species, conserve migratory birds, preserve wildlife habitat, restore fisheries, combat invasive species and promote international wildlife conservation.

Service law enforcement focuses on potentially devastating threats to wildlife resource-illegal trade, unlawful commercial exploitation, habitat destruction and environmental contaminants. The Office of Law Enforcement investigates wildlife crimes, regulates wildlife trade, helps Americans understand and obey wildlife protection laws and works in partnership with international, state and tribal counterparts to conserve wildlife resources.

In the area of resource management, the service provides leadership for the protection and improvement of land and water habitats. Activities include surveillance of pesticides, heavy metals and other contaminants; studies of fish and wildlife populations; ecological studies; environmental impact assessments, including hydroelectric dams, nuclear power sites, stream channelization and dredge-and-fill permits; and environmental impact statement reviews.

The service helps fulfill the public demand for recreational fishing while maintaining the nation's fisheries at a level and in a condition that will ensure their continued survival.

Specific wildlife and fishery resource programs include wildlife refuge management for migratory bird production, migration and wintering; migratory bird population, production and harvest surveys; refuge management of resident species of mammals and nonmigratory birds; protection of certain marine mammals; fish hatchery production and stocking; law enforcement; and technical assistance.

The service provides national and international leadership in identifying, protecting and restoring endangered species of animals and plants. This program includes developing the Federal Endangered and Threatened Species List, conducting status surveys, preparing recovery plans, and coordinating efforts nationally and internationally; operating national wildlife refuges; law enforcement; foreign importation enforcement; and consultation with foreign countries.

Public use and information programs include preparing leaflets and brochures; operating environmental study areas on service lands; operating visitor centers, self-guided nature trails, observation towers and display ponds; and providing recreational activities such as hunting, fishing and wildlife photography.

Project Leader: Mark A. Koepsel

Crescent Lake National Wildlife Refuge is a 46,000-acre block of Sandhills rangeland north of Oshkosh in Garden County. It is managed for the preservation of migratory and breeding birds and other wildlife. The refuge is open to limited hunting and fishing.

North Platte National Wildlife Refuge, established by executive order in 1916, was set aside as a “preserve and breeding ground for native birds.” The 2,722-acre refuge, located in northern Scotts Bluff County, is managed as a resting and feeding area for waterfowl and shorebirds. Other important uses include providing nesting habitat for bald eagles and waterfowl and offering wildlife-oriented recreational uses compatible with the management of refuge wildlife.

Fort Niobrara-Valentine National Wildlife Refuge Complex: HC 14, Box 67, Valentine, NE 69201, phone (402) 376-3789, email address — r6rw_ftn@mail.fws.gov, website — www.fortniobrara.fws.gov

Refuge Manager: Steve Hicks

The 19,131-acre Fort Niobrara National Wildlife Refuge is four miles east of Valentine. Buffalo, elk, deer and prairie dogs can be seen along the wildlife drive throughout the year. A visitor center explaining the history and ecology of the area is open from 8 a.m. to 4:30 p.m. every day during the summer and weekdays during the rest of the year. Hiking trails lead to Fort Falls and into the Fort Niobrara Wilderness Area. Canoeing down the refuge through the scenic Niobrara River Canyon is a popular activity.

The 71,272-acre Valentine National Wildlife Refuge is 13 miles south of Valentine. The Hackberry Headquarters on the refuge is along State Spur 16B. Birdwatching, wildlife observation and photography are encouraged. In the spring, observation blinds are provided for viewing prairie chickens and sharp-tailed grouse courtship displays. Fishing and upland game, deer and waterfowl hunting are provided.

phone (712) 642-4121, fax (712) 642-2877, email address — desoto@fws.gov, website — www.fws.gov/midwest/desoto/

Refuge Manager: Tom Cox

DeSoto National Wildlife Refuge, established in 1958, is 25 miles north of Omaha. Fifty-four percent of the 8,362-acre refuge lies in Nebraska and 46 percent lies in Iowa in the Missouri River Valley. Refuge objectives are to protect and enhance habitat for endangered species; provide food, water and cover for migrating waterfowl; provide habitat for other migrating and resident wildlife; protect, preserve and display the salvaged 1860s steamboat *Bertrand* cargo; provide interpretation and environmental educational opportunities; and provide wildlife-oriented recreation. The 788-acre, seven-mile long DeSoto Lake, a former oxbow of the Missouri River, provides opportunities for fishing and wildlife and waterfowl observation.

Boyer Chute National Wildlife Refuge: 3720 Rivers Way, Fort Calhoun, NE 68023, phone (402) 468-4313 or (712) 642-4121 (DeSoto NWR), email address — boyerchute@fws.gov, website — www.fws.gov/midwest/boyerchute/

Refuge Manager: Tom Cox

Boyer Chute National Wildlife Refuge is a 4,039-acre wildlife area converted from agriculture. It is along the Missouri River, three miles east of Fort Calhoun and 15 miles north of Omaha. The project restored a portion of the Missouri River habitat that flows through a 2.5-mile-long channel paralleling the main flow of the river. The refuge may be expanded up to 10,000 acres as part of the federally sponsored “Back to the River” project. The refuge is open during daylight hours and offers fishing, hunting, nature trails and wildlife observation. The refuge opened in 1996 and is a sister refuge to the DeSoto National Wildlife Refuge. Development is being carried out in partnership with the Papio-Missouri Natural Resources District and the U.S. Army Corps of Engineers.

Karl E. Mundt National Wildlife Refuge: c/o Lake Andes National Wildlife Refuge, 38672 291st Street., Lake Andes, SD 57356, phone (605) 487-7603, fax (605) 487-7604, email address — r6rw_lan@fws.gov

Project Leader: Michael J. Bryant

Karl E. Mundt National Wildlife Refuge is in Boyd County and in Gregory County, S.D., along the Missouri River. The refuge was established for wintering bald eagles; however, nesting bald eagles recently have begun using the refuge. The refuge contains 780 acres of river bottomland, 20 acres of which lie in Nebraska. An additional 300 acres of woodlands in South Dakota are protected by perpetual easement. Along with the bald eagle, a variety of resident and migratory species use the refuge. It is closed to the public because of the potential for disturbance to the bald eagles. However, the U.S. Army Corps of Engineers has a viewing area on its property below Fort Randall Dam.

Rainwater Basin Wetland Management District Office: 2610 Ave. Q, P.O. Box 1686, Kearney, NE 68848, phone (308) 236-5015, fax (308) 237-3899, email address — rainwater@fws.gov, website — www.fws.gov/rainwater

Project Leader: Gene Mack

The Rainwater Basin Wetland Management District is a field office with the U.S. Fish and Wildlife Service. The office manages 24,210 acres in 61 locations in 14 counties

in south-central Nebraska. Lands are primarily wetlands and adjacent upland areas that have been restored to tall-grass prairie. The areas are managed to provide habitat for migratory birds, endangered species and resident wildlife. The areas are open to public use for wildlife observation, hunting and trapping, environmental education and hiking. Two hiking trails, four visitor contact stations and two blinds are available for wildlife observation. The office also provides help to private landowners who wish to manage wetlands on their own lands through the Partners for Wildlife Program.

The United States Geological Survey (USGS) collects, compiles and disseminates data on water, energy, biological and geological resources in Nebraska as well as geography and geospatial information. The USGS gathers, interprets and presents data that enable resource planners and others to make decisions based on objective research. As the nation's leading earth science agency, the USGS works with federal, state and local agencies to address issues related to Nebraska's earth resources. The USGS provides reports, maps and information to help others manage, develop and protect America's water, energy, mineral, biological and land resources. It publishes the results of its investigations in thousands of new reports and maps each year.

The USGS Nebraska Water Science Center (NEWSC) is one of the state-level Water Science Centers in the Water Resources Discipline and is dedicated to hydrologic data collection, scientific research, applied science and information dissemination. The district office helps USGS conduct nationwide assessments of the quality, quantity and use of the nation's water resources. The other USGS Disciplines are Biological Resources, Geology, Geography, and Geospatial Information Disciplines. The director of the NEWSC serves as the USGS state representative because the other four disciplines do not have offices in Nebraska.

Acting Superintendent: Ernest F. Pourier

Santee Field Office: 425 Frazier Ave., Suite 2, Niobrara, NE 68760, phone (402) 857-2332

The principal objectives of the Bureau of Indian Affairs are to:

- encourage and assist American Indian and Alaska Native people to manage their

own affairs under the trust relationship to the federal government

- facilitate, with maximum involvement of American Indian and Alaska Native people, full development of their human and natural resource potential
- mobilize all public and private aids to the advancement of American Indian and Alaska Native people for use by them
- promote self-determination by using the skills of American Indian and Alaska Native people in the direction and management of programs for their benefit

The bureau works with American Indian and Alaska Native people, tribal governments, American Indian organizations, other federal agencies, state and local governments, and other interested groups.

Nebraska, pursuant to Public Law 280, assumed civil and criminal jurisdiction over Nebraska reservations in 1953. In 1969, the U.S. government granted the Omaha Tribe retrocession on criminal jurisdiction. In 1986, the assistant U.S. secretary for Indian affairs accepted retrocession to the United States of all criminal jurisdiction exercised by the state over the Winnebago Reservation. The 1986 Nebraska Legislature offered the retrocession. By Tribal Resolution No. 86-37, the Winnebago Tribe of Nebraska acknowledged and endorsed the offer of the state to retrocede criminal jurisdiction to the United States.

The Omaha Tribe of Nebraska contracts with the Bureau of Indian Affairs to provide judicial and law enforcement services, as provided by the Indian Self-Determination Act. The Winnebago Tribe of Nebraska contracts judicial services and some of the law enforcement communication services. Winnebago Reservation police officers serving the Winnebago Reservation are federal employees.

In 2000, by Resolution 2001-12, the Santee Sioux Nation requested that Nebraska retrocede civil and criminal jurisdiction to the United States. The retrocession offered by the Nebraska Legislature was accepted in 2001.

The Omaha, Santee Sioux and Winnebago tribes of Nebraska have total jurisdiction over minor children who qualify as eligible descendants of their tribes, as provided by the Indian Child Welfare Act of 1978. The 1985 Legislature passed the Nebraska Indian Child Welfare Act to aid Nebraska's Indian children.

The Winnebago Agency administers services to the Winnebago and Omaha tribes in Thurston County and the Santee Sioux Tribe in Knox County. All three tribes operate under tribal constitutions enacted under the Indian Reorganization Act of 1934. There are 13,400 enrolled members of these three tribes.

Bureau of Land Management

Wild Horse and Burro Center: 5050 100th Road, P.O. Box 160, Elm Creek, NE 68836, phone (308) 856-4498

Facility Manager: Joseph A. Stratton

The Bureau of Land Management is responsible for managing about 270 million acres of public lands. These lands are primarily in the West and Alaska; however, small scattered parcels are in other states. In addition to mineral management responsibilities on the public lands, BLM also is responsible for subsurface resource management of an additional 300 million acres where mineral rights are owned by the federal government.

Resources managed by the bureau include timber, solid minerals, oil and gas, geothermal energy, wildlife habitat, endangered plant and animal species, rangeland vegetation, recreation and cultural values, wild and scenic rivers, designated conservation and wilderness areas and open space. Bureau programs provide for the protection (including fire suppression), orderly development and use of the public lands and resources under principles of multiple use and sustained yield. The bureau also manages watersheds to protect soil and enhance water quality; develops recreational opportunities on public lands; administers programs to protect and manage wild horses and burros; and, under certain conditions, makes land available for sale to individuals, organizations, local governments and other federal agencies when such transfer is in the public interest.

The bureau oversees the development of energy and mineral leases and ensures compliance with applicable regulations governing the extraction of these resources. It has responsibility to issue rights-of-way, leases and permits. The bureau also is responsible for the survey of federal lands and establishes and maintains public land records and records of mining claims.

Five employees are responsible for the care and well-being of animals at the Wild Horse and Burro Center at Elm Creek. The facility is a resting point for up to 5,000 wild horses and burros throughout the year on their way to adopters' homes throughout the country. Several hundred animals are adopted per year through the efforts of local volunteers and facility staff.

The National Park Service is dedicated to conserving the natural and cultural resources and values of the National Park System for the enjoyment, education and inspiration of this and future generations. There are 392 units in the National Park System, including national parks and monuments; scenic parkways, preserves, trails, riverways, seashores, lakeshores and recreation areas; and historic sites associated with important movements, events and personalities of the nation's past.

The Midwest Regional Office in Omaha administers a 13-state area that includes Arkansas, Illinois, Indiana, Iowa, Kansas, Michigan, Minnesota, Missouri, Nebraska, North Dakota, Ohio, South Dakota and Wisconsin. The National Park Service also has a Midwest Archeological Center in Lincoln, which handles archeological work for the Midwest and Intermountain regions.

In Nebraska, three national monuments, two wild and scenic rivers, and a national historic site are under the Omaha office's jurisdiction.¹⁵ Scotts Bluff National Monument in Scotts Bluff County has 300 square acres. The mission of the Bureau of Reclamation is to manage, develop and protect water and related resources in an environmentally and economically sound manner in the interest of the American public.

The reclamation program has helped to settle and develop the West through the development of a water storage and delivery infrastructure. This infrastructure provides water supplies and hydroelectric power for agricultural, municipal and industrial users;

¹⁵ For more about the areas in Nebraska administered by the National Park Service, see Page 44.

protects and improves water quality; provides recreational and fish and wildlife benefits; enhances river regulations; and helps control floods. With this infrastructure largely in place, the reclamation program is focusing greater emphasis on resource management and protection than on development. The Bureau of Reclamation:

- works in partnership with others to develop water conservation plans, provide for the efficient and effective use of water and related resources and improve the management of existing water resources
- designs and constructs authorized water resource projects
- develops and supports recreational uses at reclamation projects
- conducts research and encourages technology transfer to improve resource management, development and protection
- ensures that the lands it manages are free from hazardous and toxic waste and helps other federal and state agencies in protecting surface water and groundwater from hazardous waste contamination
- operates and maintains its facilities to ensure reliability, safety and economic operation to protect the public, property and the nation's investment in the facilities, and to preserve environmental resources
- provides engineering and technical support to federal and state agencies, American Indian tribes, and other nations to accomplish national, regional and international resource management, development and protection objectives

Reclamation project facilities in operation include 348 storage reservoirs, thousands of miles of canals and water conveyances and distribution facilities and 58 hydroelectric power plants.

All of the bureau's geographic area in the 17 western states is included under area offices that have first-level program line authority. The Wyoming Area Office has first line authority for the geographic area that extends from Wyoming into western Nebraska to the confluence of the North Platte and South Platte rivers, forming the Platte River. The Nebraska-Kansas Area Office in Grand Island has first line authority for the remainder of Nebraska.

The NKAO manages four units of the Pick-Sloan Missouri Basin Program and one additional project in Nebraska. The Pick-Sloan units are Ainsworth, Frenchman-Cambridge and Bostwick. The other NKAO-managed project is the Mirage Flats Unit in northwest Nebraska.

Major reclamation facilities in Nebraska include: Trenton Dam and Swanson Lake near Trenton; Enders Dam and Reservoir near Imperial; Red Willow Dam and Hugh Butler Lake near McCook; Medicine Creek Dam and Harry Strunk Lake near Cambridge; Harlan County Dam and Lake (maintained by the U.S. Army Corps of Engineers) near Alma; Box Butte Dam and Reservoir south of Chadron; Merritt Dam and Reservoir near Valentine; Virginia Smith Dam and Calamus Reservoir near Burwell; Davis Creek Dam and Reservoir near Scotia; and Lake Alice and Lake Minatare near Scottsbluff.

The Nebraska projects provide water for farmland, as well as for flood control, recreation, and fish and wildlife purposes. Reservoirs in Nebraska provide 25,000 acres of water surface at normal pool and 40,000 acres of adjacent land for public use. The reservoir recreation areas are managed by the Nebraska Game and Parks Commission.

The Pick-Sloan projects in Nebraska and Kansas were constructed for flood control in the Republican and Solomon River basins. During the 1993 flooding in the Midwest, flood control operations at these dams prevented downstream damages of \$1.2 billion by storing more than 800,000 acre-feet of flood waters. Flood control operations of these facilities are directed by the Army Corps of Engineers.

Department of Justice

As the largest law firm in the nation, the Department of Justice serves as counsel for its citizens. Through its thousands of lawyers, investigators and agents, the department plays the key role in protection against criminals and subversion, in ensuring healthy competition of business, in safeguarding the consumer, and in enforcing drug, immigration and naturalization laws. The department also plays a role in protecting citizens through efforts for law enforcement, crime prevention, crime detection, and prosecution and rehabilitation of offenders.

The department conducts all suits in the Supreme Court in which the United States is concerned. It represents the U.S. government in legal matters generally, rendering legal advice and opinions, upon request, to the president and to the heads of the executive departments. The U.S. attorney general supervises and directs these activities, as well as those of the U.S. attorneys and U.S. marshals in the various judicial districts around the country.

Omaha District Office: 2707 N. 108th St., Suite D201, Omaha, NE 68164, phone (402) 965-3600

Assistant Special Agent in Charge: L.D. Mathews

The Drug Enforcement Administration is the lead federal agency in enforcing U.S. narcotics and controlled substance laws and regulations.

The administration operates on a worldwide basis. It presents cases to the criminal and civil justice systems of the United States — or any other competent jurisdiction — on those significant organizations and their members involved in cultivation, production, smuggling, distribution or diversion of controlled substances appearing in or destined for illegal traffic in the United States. DEA immobilizes these organizations by arresting their members, confiscating their drugs and seizing their assets. The agency also creates and supports enforcement-related programs — domestically and internationally — aimed at reducing the availability of and demand for controlled substances.

The administration's responsibilities include:

- investigation of major narcotic violators who operate at interstate and international levels
- seizure and forfeiture of assets derived from, traceable to or intended to be used for illicit drug trafficking
- enforcement of regulations governing the legal manufacture, distribution and dispensing of controlled substances
- management of a national narcotics intelligence system
- coordination with federal, state and local law enforcement authorities and cooperation with counterpart agencies abroad
- training, scientific research and information exchange in support of drug traffic prevention and control

The Internal Revenue Service is the nation's tax collection agency and administers the Internal Revenue Code enacted by Congress. The IRS has four major operating divisions:

- Wage and Investment, which serves approximately 116 million taxpayers who file individual and joint tax returns
- Small Business and Self-Employed, which serves approximately 45 million small businesses and self-employed taxpayers
- Large and Mid-Size Business, which serves corporations with assets of more than \$10 million
- Tax-Exempt and Government Entities, which serves tax-exempt organizations such as nonprofit charities and government entities and businesses offering employee benefit plans

Other divisions include criminal investigation, appeals, chief counsel and communications and liaison.

The IRS Restructuring and Reform Act of 1998 expanded taxpayers' rights and established the Taxpayer Advocate Service as an independent voice inside the agency on the taxpayer's behalf. The administration carries out its responsibilities by conducting examinations of the various Farm Credit lending institutions, which are Farm Credit Banks, the Bank for Cooperatives, the Agricultural Credit Bank, Federal Land Bank Associations, Production Credit Associations, Agricultural Credit Associations and Federal Land Credit Associations. It also examines the service organizations owned by the Farm Credit lending institutions, as well as the National Consumer Cooperative Bank and its subsidiaries.

The lending institutions of the Farm Credit System were established to provide credit and closely related services to farmers, ranchers and producers or harvesters of aquatic products; persons engaged in providing on-the-farm services; rural homeowners; and associations of farmers, ranchers and producers or harvesters of aquatic products. Initially capitalized by the U.S. government, the Farm Credit lending institutions are organized as cooperatives and are completely owned by their borrowers. Regional State Liaison Officer: William A. Maier

The Nuclear Regulatory Commission (NRC) regulates the use of nuclear materials in the United States to protect public health and safety, the environment, and defense and security. The NRC is not connected with nuclear weapons.

The NRC reviews and issues licenses for the construction and operation of commercial nuclear power plants, research reactors and other nuclear fuel facilities. It licenses the possession and use of nuclear materials for medical, industrial, educational and research purposes. Nebraska is one of 35 states that belongs to the Agreement States Program, under which the NRC gives states authority to license and regulate commercial nuclear materials. The NRC also licenses the import and export of nuclear facilities, equipment and materials.

The NRC conducts inspections and investigations to assure that nuclear plant activities are in compliance with the terms of the license and the agency's other regulations and requirements. The commission has approximately 3,950 employees and an annual budget of about \$985.6 million. The NRC is primarily supported by fees col-

lected from its licensees.

A major share of the NRC's work is regulating the use of nuclear energy to generate electric power. The NRC regulates Nebraska's two commercial nuclear power plants — the Cooper Nuclear Station near Brownville and the Fort Calhoun Station near Fort Calhoun. The Nebraska Public Power District operates the Cooper plant, and the Omaha Public Power District operates the Fort Calhoun plant.

U.S. JUDICIAL BRANCH

U.S. JUDICIAL BRANCH¹

U.S. SUPREME COURT

U.S. Supreme Court Building: 1 First St. N.E., Washington, D.C. 20543, phone (202) 479-3000, website — www.supremecourtus.gov

Chief Justice of the United States: John G. Roberts, Jr.

Article III, Section 1 of the U.S. Constitution provides that “the judicial Power of the United States, shall be vested in one supreme Court, and in such inferior Courts as the Congress may from time to time ordain and establish.”

The Supreme Court is composed of the chief justice of the United States and such number of associate justices as may be fixed by Congress. The current number of associate justices is eight. The U.S. president nominates justices, and appointments are made with the advice and consent of the Senate. Article III, Section 1, further provides that “the Judges, both of the supreme and inferior Courts, shall hold their Offices during good Behaviour, and shall, at stated Times, receive for their Services, a Compensation, which shall not be diminished during their Continuance in Office.” A justice may retire at age 70 after serving for 10 years as a federal judge or at age 65 after serving 15 years.

The term of the court begins, by law, the first Monday in October of each year and continues as long as the business before the court requires, usually until the end of June. Six members constitute a quorum. Approximately 10,000 cases are filed with the court in the course of a term. The court hears oral argument in approximately 75 to 80 cases per term.

According to the Constitution (Article III, Section 2), the Supreme Court has jurisdiction over:

- all cases in law and equity arising under the U.S. Constitution, the laws of the United States and treaties made under their authority
- all cases affecting ambassadors, other public ministers and consuls
- all cases of admiralty and maritime jurisdiction
- controversies to which the United States is a party
- controversies between two or more states, between a state and citizens of another state, between citizens of different states, between citizens of the same state claiming lands under grants of different states, and between a state, or the citizens thereof, and foreign states, citizens or subjects

In all cases affecting ambassadors, other public ministers and consuls, and those in which a state is a party, the Supreme Court has original jurisdiction. In all the other cases mentioned above, the Supreme Court has appellate jurisdiction, with exceptions made by Congress. Congress has no authority to change the original jurisdiction of the Supreme Court.

COURTS OF APPEALS

The courts of appeals are intermediate appellate courts created to relieve the Supreme Court of considering all appeals in cases originally decided by the federal trial courts. Appeal courts are empowered to review all final decisions and certain provisional decisions of district courts. Appeal courts also are empowered to review and enforce orders of many federal administrative bodies. The decisions of courts of appeals are final, except that they may receive discretionary review or be appealed to the Supreme Court.

The United States is divided into 12 judicial circuits, including the District of Columbia. Each circuit has a court of appeals. Each state is assigned to a circuit, and the U.S. territories are assigned variously to the first, third and ninth circuits. A court of appeals for the Federal Circuit, which has nationwide jurisdiction defined by subject matter, also exists. Each court of appeals has six to 28 permanent circuit judgeships (179 in all), depending upon the amount of judicial work in the circuit. Circuit judges hold their offices during good behavior.

The judge senior in commission who is younger than 70 years old (65 at inception of term), has been in office at least one year, and has not previously been chief judge, serves as the chief judge of the circuit for a seven-year term. One Supreme Court justice is assigned as circuit justice for each of the 13 judicial circuits. Each court of appeals normally hears cases in panels of three judges each, but the court may sit with all judges present.

DISTRICT COURTS

U.S. district courts are the trial courts of general federal jurisdiction. Each state has at least one district court, and the larger states have as many as four. Altogether there are 94 U.S. district courts.

Each district court has two to 28 federal district judgeships, depending upon the amount of judicial work within its territory. Usually, only one judge is required to hear and decide a case in a district court, but in some cases it is required that three judges comprise the court. The judge senior in commission who is younger than 70 years old (65 at inception of term), has been in office for at least one year, and has not previously been chief judge, serves as chief judge for a seven-year term.

District judges hold their offices during good behavior. Each district court has one or more magistrate judges and bankruptcy judges, a clerk, a U.S. attorney, a U.S. marshal, probation officers, court reporters and their staffs.⁶

Cases from the district courts are reviewable on appeal by the applicable court of appeals.

The Criminal Justice Act establishes the procedure for the appointment of counsel in federal criminal cases for individuals who are unable to afford adequate representation under plans adopted by each district court. The act also permits district courts to establish federal public defender or federal community defender organizations in districts where at least 200 people annually require the appointment of counsel. Nebraska has had a federal public defender since 1993. The 8th U.S. Circuit Court of Appeals appoints the Nebraska federal public defender for a four-year renewable term.

NEBRASKA STATE GOVERNMENT

NEBRASKA STATE GOVERNMENT

HISTORY OF STATE GOVERNMENT ORGANIZATION¹

Initial movement for statehood. The first movement for a Nebraska state constitution resulted in a territorial election on March 5, 1860, in which the proposition was defeated 2,094 to 2,372. Cass, Otoe and Washington counties were among the movement's strongest supporters, while Douglas, Dakota, Richardson and Sarpy counties were its strongest opponents.

Second movement for statehood. Civil War political issues prompted and sustained the next movement for statehood. Nebraska had become strongly Republican, and there was a call for more Republican senators and representatives in Washington. The 9th Territorial Legislature, by a joint memorial to Congress approved on Jan. 16, 1864, petitioned for legislation to admit Nebraska as a state. The Democratic Party in Nebraska opposed statehood. Eleven of 35 members in the lower house of the Legislature voted against the memorial. Congress responded quickly by passing the Nebraska Enabling Act on April 19, 1864. Through this act, an election took place on June 6, 1864, for delegates to a constitutional convention. The members chosen were equal in number to the Territorial Legislature membership. The convention met at the Capitol on July 4, 1864, and elected Sterling P. Majors of Nemaha County as its president. After completing its organization, the convention voted to "adjourn sine die, without forming a constitution." A majority of convention members pledged to this action before their election, saying they wanted to avoid the expense of state government. Opposition to statehood by the Democrats also played a role.

Drafting and adoption of the constitution of 1866. The assassination of President Abraham Lincoln on April 14, 1865, and the developing controversy between President Andrew Johnson and the Republican leaders in Congress again raised the question of Nebraska statehood. On Feb. 9, 1866, the 11th Territorial Legislature passed a joint resolution calling for a constitution to be submitted to the people. This constitution was hastily drafted by a legislative committee and rushed through both houses. It provided for the most bare framework of government, the fewest possible officers, the lowest salaries and the most meager functions for the new state in order to stop objections to state government's increased expense. Voters approved the constitution on June 2, 1866. The heated campaign resulted in 3,938 to 3,838 approval of the constitution.

1866 constitution delayed statehood. The constitution of 1866 limited suffrage to "free white males," as did many other northern free state constitutions before the Civil War. This language delayed the admission of Nebraska into the Union for about a year. Congress passed a bill admitting Nebraska under this constitution on July 27, 1866, just before adjournment. However, President Johnson withheld his signature, and it failed to become law. Congress tried to amend the bill to require Nebraska to include

voting rights for nonwhite people in its constitution. When Congress reassembled, the bill admitting Nebraska was passed again on Jan. 15, 1867, with the condition that Nebraska should amend its constitution to prevent the “abridgement or denial of the exercise of the elective franchise or any other right to any person by reason of race or color, excepting Indians not taxed.” President Johnson vetoed this bill on Jan. 29, 1867. Congress overrode the veto and provided that the Nebraska Legislature should ratify the amendment insisted on by Congress. This was done in a special session on Feb. 20 and 21, 1867. On March 1, 1867, President Johnson proclaimed Nebraska a state.

Constitutional convention of 1871. The inadequacy of the 1866 constitution became apparent, and the state Legislature, by joint resolution approved on Feb. 15, 1869, submitted to the electors a proposition to have a constitutional convention. On Oct. 11, 1870, the voters, by a 3,968 to 979 vote, approved the convention. An act approved on March 27, 1871, fixed the date for election of convention members as the first Tuesday in May 1871. The act required them to meet in Lincoln on the second Tuesday in June. On June 13, 1871, Silas A. Strickland of Douglas County was chosen as the convention’s permanent president. The 47-day convention covered nearly all the political, social and religious questions of the day. Five different propositions, which most convention members were unwilling to adopt, were submitted separately. They included women’s suffrage, prohibition, compulsory education, municipal aid to corporations and liability of stockholders. By a 7,986 to 8,627 vote, the people rejected this constitution, and they also rejected the separately submitted propositions on Sept. 19, 1871. Voters mostly objected to provisions to tax church property of more than \$5,000 in value and to allow railroad right-of-way to revert to the original owners after it was no longer used for railroad transportation. The original shorthand report of the constitutional convention proceedings of 1871 was discovered in a statehouse vault in 1899. In 1905, the Legislature appropriated money to publish these proceedings. The Nebraska State Historical Society printed them in two volumes.

Constitutional convention of 1875. Agitation for a new constitution grew stronger as settlement extended to western Nebraska. The Legislature, by a joint resolution approved Feb. 26, 1873, again submitted the proposition for a constitutional convention. At an October 1874 election, the proposition carried by a 18,067 to 3,880 vote. On Feb. 20, 1875, the Legislature passed an act to elect members of the constitutional convention on April 6 and require the 69-member convention to meet in Lincoln on May 11. John L. Webster of Douglas County was made permanent president, and Guy A. Brown of Lancaster County was secretary. The convention adjourned on June 12. This constitution, which would be the fundamental law of the state until Jan. 1, 1921, was adopted on Oct. 12, 1875, by a vote of 30,332 to 5,474. Much of the 1875 constitution was the same as the rejected constitution of 1871. The executive, legislative and judicial departments were enlarged, and officers’ salaries were increased. State officers were prohibited from appropriating fees for their own use. Supreme Court judges were relieved from duty as district judges. Special legislation was forbidden. Provision was made for regulating corporations, and taxation power was limited. The Nebraska State Historical Society published the journal of the 1875 constitutional convention.

Apparently there was no provision for a shorthand report of the proceedings. If such a report was made, it has been lost.

Constitutional amendments proposed from 1875 to 1918.² Thirty-nine constitutional amendments — 36 by the Legislature and three by initiative — were submitted to the people from 1875 to 1918. The most persistent subjects were increases in the number and salaries of judges, considered as six amendments at three elections; the creation of a railway commission, considered four times; and legislators' salaries, considered three times.

These 11 amendments were adopted:

- Increased pay of legislators in 1886
- Creation of a Railway Commission in 1906
- Increased number and pay of judges in 1908
- Investment of school funds in 1908
- Initiative and referendum provisions in 1912
- Increased pay of legislators in 1912
- Creation of the Board of Commissioners for State Institutions in 1912
- Establishment of biennial elections in 1912
- Home rule charter provisions for cities of more than 5,000 inhabitants in 1912
- Establishment of prohibition of liquor traffic in 1916
- Forbidding suffrage to aliens in 1918

Party circle law and primary law. With the exception of the first increased legislative pay amendment (the Legislature recounted the vote), all successful amendments submitted by the Legislature had the aid of the "party circle" law and the primary law. These laws were passed because the constitution required all proposed amendments to receive a majority of all the votes cast at the election, making it nearly impossible to amend the fundamental law of Nebraska except through the initiative. Thousands of voters were failing to vote on proposed amendments. The party circle law and primary law allowed amendments to be adopted as part of a party ticket. If a party endorsed an amendment at the primary, all the straight party votes at the general election were counted as votes in favor of the amendment.

Deputyships. Growth of state government activities and functions was slowed by a provision in the constitution that forbade the creation of additional executive offices. Thus, the burden of all new executive activity was forced on officers elected or appointed under the constitution. This resulted in deputyships, which were official positions that separated power from performance and thrust many dissimilar responsibilities upon constitutional officers, whose duties grew with the state's development.

Proposals for constitutional conventions. The need for constitutional revision was felt as early as 1903, and the Legislature, by joint resolution approved on April 6, 1903, submitted to the electors a proposal for a constitutional convention. At the general election of Nov. 8, 1904, the voters approved the convention on a 32,820 to 23,497 vote out of a total of 232,457 votes. However, the measure was defeated because of the constitutional requirement that such proposals must receive a majority of the total votes cast in the election. No other proposal for a convention was submitted until the

Legislature, by a joint resolution approved April 21, 1917, again gave the electorate a chance to vote on the question. The proposal was adopted at the general election of Nov. 5, 1918, by a 121,830 to 44,941 vote out of a total vote of 225,717. By an act approved March 24, 1919, the Legislature provided for a special election to elect convention members and required them to meet in Lincoln on Dec. 2, 1919.

Constitutional convention of 1919-1920. The constitutional convention lasted from Dec. 2, 1919, to March 25, 1920. It submitted 41 amendments to the people, and at a special election on Sept. 21, 1920, all 41 amendments were adopted.³ A committee had been appointed by the convention before it adjourned to incorporate the adopted amendments into the constitution of 1875. On Oct. 19, 1920, the convention met and signed the amended document.

Constitutional amendments adopted since 1920. Since the constitutional convention of 1919-20, 180 amendments have been adopted and incorporated into the state constitution.⁴

Sec. 12. No person shall be compelled, in any criminal case, to give evidence against himself, or be twice put in jeopardy for the same offense.

Sec. 13. (Amended 1996.)

Sec. 28. (1) A victim of a crime, as shall be defined by law, or his or her guardian or representative shall have: The right to be informed of all criminal court proceedings; the right to be present at trial unless the trial court finds sequestration necessary for a fair trial for the defendant; and the right to be informed of, be present at, and make an oral or written statement at sentencing, parole, pardon, commutation, and conditional release proceedings. This enumeration of certain rights for crime victims shall not be construed to impair or deny others provided by law or retained by crime victims.

(2) The Legislature shall provide by law for the implementation of the rights granted in this section. There shall be no remedies other than as specifically provided by the Legislature for the enforcement of the rights granted by this section.

(3) Nothing in this section shall constitute a basis for error in favor of a defendant in any criminal proceeding, a basis for providing standing to participate as a party to any criminal proceeding, or a basis to contest the disposition of any charge. (Adopted 1996.)

Sec. 29. Only marriage between a man and a woman shall be valid or recognized in Nebraska. The uniting of two persons of the same sex in a civil union, domestic partnership, or other similar same-sex relationship shall not be valid or recognized in Nebraska. (Amended 2000.)

Sec. 30. (1) The State shall not discriminate against, or grant preferential treatment to, any individual or group on the basis of race, sex, color, ethnicity, or national origin in the operation of public employment, public education, or public contracting.

(2) This section shall apply only to action taken after the section's effective date.

(3) Nothing in this section prohibits bona fide qualifications based on sex that are reasonably necessary to the normal operation of public employment, public education, or public contracting.

(4) Nothing in this section shall invalidate any court order or consent decree that is in force as of the effective date of this section.

(5) Nothing in this section prohibits action that must be taken to establish or maintain eligibility for any federal program, if ineligibility would result in a loss of federal funds to the state.

(6) For purposes of this section, state shall include, but not be limited to: (a) the State of Nebraska; (b) any agency, department, office, board, commission, committee, division, unit, branch, bureau, council, or sub-unit of the state; (c) any public institution of higher education; (d) any political subdivision of or within the state; and (e) any government institution or instrumentally of or within the state.

(8) This section shall be self executing. If any part or parts of this section are found to be in conflict with federal law or the Constitution of the United States, this section shall be implemented to the maximum extent that federal law and the Constitution of the United States permit. Any provision held invalid shall be severable from the remaining portions of this section. (Adopted 2008).

ARTICLE II: DISTRIBUTION OF POWERS

Sec. 1. (1) The powers of the government of this state are divided into three distinct departments, the legislative, executive, and judicial, and no person or collection of persons being one of these departments shall exercise any power properly belonging to either of the others except as expressly directed or permitted in this Constitution.

(2) Notwithstanding the provisions of subsection (1) of this section, supervision of individuals sentenced to probation, released on parole, or enrolled in programs or services established within a court may be undertaken by either the judicial or executive department, or jointly, as provided by the Legislature. (Amended 2006.)

ARTICLE III: LEGISLATIVE POWER

Sec. 1. The legislative authority of the state shall be vested in a Legislature consisting of one chamber. The people reserve for themselves the power to propose laws and amendments to the Constitution and to enact or reject the same at the polls, independent of the Legislature, which power shall be called the power of initiative. The people also reserve power at their own option to approve or reject at the polls any act, item, section, or part of any act passed by the Legislature, which power shall be called the power of referendum. (Amended 1912, 1934, 2000.)

Sec. 2. The first power reserved by the people is the initiative whereby laws may be enacted and constitutional amendments adopted by the people independently of the Legislature. This power may be invoked by petition wherein the proposed measure shall be set forth at length. If the petition be for the enactment of a law, it shall be signed by seven percent of the registered voters of the state, and if the petition be for the amendment of the Constitution, the petition therefor shall be signed by ten percent of such registered voters. In all cases the registered voters signing such petition shall be so distributed as to include five percent of the registered voters of each of two-fifths of the counties of the state, and when thus signed, the petition shall be filed with the Secretary of State who shall submit the measure thus proposed to the electors of the state at the first general election held not less than four months after such petition shall have been filed. The same measure, either in form or in essential substance, shall not be submitted to the people by initiative petition, either affirmatively or negatively, more often than once in three years. If conflicting measures submitted to the people at the same election be approved, the one receiving the highest number of affirmative votes shall thereby become law as to all conflicting provisions. The constitutional limitations as to the scope and subject matter of statutes enacted by the Legislature shall apply to those enacted by the initiative. Initiative measures shall contain only one subject. The Legislature shall not amend, repeal, modify, or impair a law enacted by the people by initiative, contemporaneously with the adoption of this initiative measure or at any time thereafter, except upon a vote of at least two-thirds of all the members of the Legislature. (Adopted 1912. Amended 1920, 1988, 1998, 2004.)

Sec. 3. The second power reserved is the referendum which may be invoked, by petition, against any act or part of an act of the Legislature, except those making appropriations for the expense of the state government or a state institution existing at the time of the passage of such act. Petitions invoking the referendum shall be signed by not less than five percent of the registered voters of the state, distributed as required for initiative petitions, and filed in the office of the Secretary of State within ninety days after the Legislature at which the act sought to be referred was passed shall have adjourned sine die or for more than ninety days. Each such petition shall set out the title of the act against which the referendum is invoked and, in addition thereto, when only a portion of the act is sought to be referred, the number of the section or sections or portion of sections of the act designating such portion. No more than one act or portion of an act of the Legislature shall be the subject of each referendum petition. When the referendum is thus invoked, the Secretary of State shall refer the same to the electors for approval or rejection at the first general election to be held not less than thirty days after the filing of such petition.

When the referendum is invoked as to any act or part of act, other than emergency acts or those for the immediate preservation of the public peace, health, or safety, by petition signed by not less than ten percent of the registered voters of the state distributed as aforesaid, it shall suspend the taking effect of such act or part of act until the same has been approved by the electors of the state. (Adopted 1912. Amended 1920, 1988, 1998.)

Sec. 4. The whole number of votes cast for Governor at the general election next preceding the filing of an initiative or referendum petition shall be the basis on which the number of signatures to such petition shall be computed. The veto power of the Governor shall not extend to measures initiated by or referred to the people. A measure initiated shall become a law or part of the Constitution, as the case may be, when a majority of the votes cast thereon, and not less than thirty-five per cent of the total vote cast at the election at which the same was submitted, are cast in favor thereof, and shall take effect upon proclamation by the Governor which shall be made within ten days after the official canvass of such votes. The vote upon initiative and

referendum measures shall be returned and canvassed in the manner prescribed for the canvass of votes for president. The method of submitting and adopting amendments to the Constitution provided by this section shall be supplementary to the method prescribed in the article of this Constitution, entitled, "Amendments" and the latter shall in no case be construed to conflict herewith. The provisions with respect to the initiative and referendum shall be self-executing, but legislation may be enacted to facilitate their operation. All propositions submitted in pursuance hereof shall be submitted in a non-partisan manner and without any indication or suggestion on the ballot that they have been approved or endorsed by any political party or organization. Only the title or proper descriptive words of measures shall be printed on the ballot and when two or more measures have the same title they shall be numbered consecutively in the order of filing with the Secretary of State and the number shall be followed by the name of the first petitioner on the corresponding petition. (Adopted 1912. Amended 1920.)

Sec. 5. The Legislature shall by law determine the number of members to be elected and divide the state into legislative districts. In the creation of such districts, any county that contains population sufficient to entitle it to two or more members of the Legislature shall be divided into separate and distinct legislative districts, as nearly equal in population as may be and composed of contiguous and compact territory. One member of the Legislature shall be elected from each such district. The basis of apportionment shall be the population excluding aliens, as shown by the next preceding federal census. The Legislature shall redistrict the state after each federal decennial census. In any such redistricting, county lines shall be followed whenever practicable, but other established lines may be followed at the discretion of the Legislature. (Amended 1920, 1934, 1962, 1966, 2000.)

Sec. 6. The Legislature shall consist of not more than fifty members and not less than thirty members. The sessions of the Legislature shall be annual except as otherwise provided by this constitution or as may be otherwise provided by law. (Amended 1920, 1934, 1970.)

Sec. 7. At the general election to be held in November 1964, one-half the members of the Legislature, or as nearly thereto as may be practicable, shall be elected for a term of four years and the remainder for a term of two years, and thereafter all members shall be elected for a term of four years, with the manner of such election to be determined by the Legislature. When the Legislature is redistricted, the members elected prior to the redistricting shall continue in office, and the law providing for such redistricting shall where necessary specify the newly established district which they shall represent for the balance of their term. Each member shall be nominated and elected in a nonpartisan manner and without any indication on the ballot that he or she is affiliated with or endorsed by any political party or organization. Each member of the Legislature shall receive a salary of not to exceed one thousand dollars per month during the term of his or her office. In addition to his or her salary, each member shall receive an amount equal to his or her actual expenses in traveling by the most usual route once to and returning from each regular or special session of the Legislature. Members of the Legislature shall receive no pay nor perquisites other than his or her salary and expenses, and employees of the Legislature shall receive no compensation other than their salary or per diem. (Amended 1886, 1912, 1920, 1934, 1960, 1962, 1966, 1968, 1988.)

Sec. 8. No person shall be eligible to the office of member of the Legislature unless on the date of the general election at which he is elected, or on the date of his appointment he is a registered voter, has attained the age of twenty-one years and has resided within the district from which he is elected for the term of one year next before his election, unless he shall have been absent on the public business of the United States or of this State. And no person elected as aforesaid shall hold his office after he shall have removed from such district. (Amended 1972, 1992, 1994.)¹

Sec. 9. No person holding office under the authority of the United States, or any lucrative office under the authority of this state, shall be eligible to, or have a seat in the Legislature. No

(Amended 1972, 2000.)

Sec. 10. Beginning with the year 1975, regular sessions of the Legislature shall be held annually, commencing at 10 a.m. on the first Wednesday after the first Monday in January of each year. The duration of regular sessions held shall not exceed ninety legislative days in odd-numbered years unless extended by a vote of four-fifths of all members elected to the Legislature, and shall not exceed sixty legislative days in even-numbered years unless extended by a vote of four-fifths of all members elected to the Legislature. Bills and resolutions under consideration by the Legislature upon adjournment of a regular session held in an odd-numbered year may be considered at the next regular session, as if there had been no such adjournment. The Lieutenant Governor shall preside, but shall vote only when the Legislature is equally divided. A majority of the members elected to the Legislature shall constitute a quorum; the Legislature shall determine the rules of its proceedings and be the judge of the election, returns, and qualifications of its members, shall choose its own officers, including a Speaker to preside when the Lieutenant Governor shall be absent, incapacitated, or shall act as Governor. No member shall be expelled except by a vote of two-thirds of all members elected to the Legislature, and no member shall be twice expelled for the same offense. The Legislature may punish by imprisonment any person not a member thereof who shall be guilty of disrespect to the Legislature by disorderly or contemptuous behavior in its presence, but no such imprisonment shall extend beyond twenty-four hours at one time, unless the person shall persist in such disorderly or contemptuous behavior. (Amended 1934, 1970, 1974.)

Sec. 11. The Legislature shall keep a journal of its proceedings and publish them, except such parts as may require secrecy, and the yeas and nays of the members on any question shall at the desire of anyone of them be entered on the journal. All votes shall be viva voce. The doors of the Legislature and of the committees of the Legislature shall be open, except when the business shall be such as ought to be kept secret. The yeas and nays of each member of any committee of the Legislature shall be recorded and published on any question in committee to advance or to indefinitely postpone any bill. (Amended 1934, 1998.)

Sec. 12. (1) No person shall be eligible to serve as a member of the Legislature for four years next after the expiration of two consecutive terms regardless of the district represented.

(2) Service prior to January 1, 2001, as a member of the Legislature shall not be counted for the purpose of calculating consecutive terms in subsection (1) of this section.

(3) For the purpose of this section, service in office for more than one-half of a term shall be deemed service for a term. (Amended 2000.)

Sec. 13. The style of all bills shall be, Be it enacted by the people of the State of Nebraska, and no law shall be enacted except by bill. No bill shall be passed by the Legislature unless by the assent of a majority of all members elected and the yeas and nays on the question of final passage of any bill shall be entered upon the journal. (Amended 1912, 1920, 1972.)

Sec. 14. Every bill and resolution shall be read by title when introduced, and a printed copy thereof provided for the use of each member. The bill and all amendments thereto shall be printed and presented before the vote is taken upon its final passage and shall be read at large unless three-fifths of all the members elected to the Legislature vote not to read the bill and all amendments at large. No vote upon the final passage of any bill shall be taken until five legislative days after its introduction nor until it has been on file for final reading and passage for at least one legislative day. No bill shall contain more than one subject, and the subject shall be clearly expressed in the title. No law shall be amended unless the new act contains the section or sections as amended and the section or sections so amended shall be repealed. The Lieutenant Governor, or the Speaker if acting as presiding officer, shall sign, in the presence of the Legislature while it is in session and capable of transacting business, all bills and resolutions passed by the Legislature. (Amended 1920, 1934, 1996.)

Sec. 15. Members of the Legislature in all cases except treason, felony or breach of the peace, shall be privileged from arrest during the session of the Legislature, and for fifteen days next before the commencement and after the termination thereof.

Sec. 16. No member of the Legislature or any state officer shall have a conflict of interest, as defined by the Legislature, directly in any contract, with the state or any county or municipality thereof, authorized by any law enacted during the term for which he shall have been elected or appointed, or within one year after the expiration of such term. The Legislature shall prescribe standards and definitions for determining the existence of such conflicts of interest in contracts, and it shall prescribe sanctions for enforcing this section. (Amended 1920, 1968, 1972.)

Sec. 17. The Legislature shall have the sole power of impeachment, but a majority of the members elected must concur therein. A notice of an impeachment of the Chief Justice or any Judge of the Supreme Court shall be served by the Clerk of the Legislature, upon the clerk of the judicial district within which the Capitol is located, and he or she thereupon shall choose, at random, seven Judges of the District Court in the State to meet within thirty days at the Capitol, to sit as a Court to try such impeachment, which Court shall organize by electing one of its number to preside. The trial shall be conducted in the manner of a civil proceeding and the impeached civil officer shall not be allowed to invoke a privilege against self-incrimination, except as otherwise applicable in a general civil case. No person shall be convicted without the concurrence of two-thirds of the members of the Court of impeachment that clear and convincing evidence exists indicating that such person is guilty of one or more impeachable offenses, but judgment in cases of impeachment shall not extend further than removal from office and disqualification to hold and enjoy any office of honor, profit, or trust, in this State, but the party impeached, whether convicted or acquitted, shall nevertheless be liable to prosecution and punishment according to law. No officer shall exercise his or her official duties after he or she shall have been impeached and notified thereof, until he or she shall have been acquitted. (Amended 1972, 1986.)

If the Legislature is not in session, the Governor shall make a temporary appointment until the next session of the Legislature, at which time a majority of the members of the Legislature shall have the right to approve or disapprove the appointment. All appointees shall hold their office until their successors shall be appointed and qualified. No person after being rejected by the Legislature shall be again nominated for the same office at the same session, unless at request of the Legislature, or be appointed to the same office during the recess or adjournment of the Legislature. (Amended 1972.)

Sec. 13. The Legislature shall provide by law for the establishment of a Board of Parole and the qualifications of its members. If then three-fifths of the members elected agree to pass the bill with objections it shall become a law, or if three-fifths of the members elected agree to repass any item or items disapproved or reduced, the bill with such repassage shall become a law. In all cases the vote shall be determined by yeas and nays, to be entered upon the journal. Any bill which shall not be returned by the Governor within five days (Sundays excepted) after it shall have been presented to him, shall become a law in like manner as if he had signed it; unless the Legislature by their adjournment prevent its return; in which case it shall be filed, with his objections, in the office of the Secretary of State within five days after such adjournment, or become a law. The Governor may disapprove or reduce any item or items of appropriation contained in bills passed by the Legislature, and the item or items so disapproved shall be stricken therefrom, and the items reduced shall remain as reduced unless the Legislature has reconsidered the item or items disapproved or reduced and has repassed any such item or items over the objection of the Governor by a three-fifths approval of the members elected. (Amended 1972, 1974, 1976.)

Sec. 16. In case of the death of the Governor-elect, the Lieutenant Governor-elect, the Speaker of the Legislature and such other persons designated by law shall become Governor in that order at the commencement of the Governor-elect's term. If the Governor or the person in line of succession to serve as Governor is absent from the state, or suffering under an inability, the powers and duties of the office of Governor shall devolve in order of precedence until the absence or inability giving rise to the devolution of powers ceases as provided by law. After January 1, 1975, the Lieutenant Governor shall serve on all boards and commissions in lieu of the Governor whenever so designated by the Governor, shall perform such duties as may be delegated him by the Governor, and shall devote his full time to the duties of his office. The powers and duties of such commission shall include the regulation of rates, service and general control of common carriers as the Legislature may provide by law. But, in the absence of specific legislation, the commission shall exercise the powers and perform the duties enumerated in this provision. (Adopted 1906. Amended 1962, 1972.)

Sec. 21. Repealed 1972.

Sec. 22. The Legislature shall provide by statute for the keeping of accounts and the reporting by those agencies of the state which are required to administer cash funds not subject to appropriation by the Legislature, and an annual report thereof shall be made to the Governor under oath; and any officer who makes a false report shall be guilty of perjury and punished accordingly. (Amended 1964.)

Sec. 23. All expending agencies of the state as the Legislature may provide shall at least ten days preceding each regular session of the Legislature severally report to the Governor, who shall transmit such reports to the Legislature, together with the reports of the Judges of the Supreme Court of defects in the constitution and laws, and the Governor or the Legislature may at any time require information, in writing, under oath, from the officers of all expending agencies, upon any subject relating to the condition, management and expenses of their respective offices. (Amended 1964.)

Sec. 24. There shall be a seal of the state, which shall be called the "Great Seal of the State of Nebraska," which shall be kept by the Secretary of State and used by him officially as directed by law.

The Tax Commissioner shall serve at the pleasure of the Governor. (Adopted 1920. Amended 1996.)

ARTICLE V: JUDICIAL

Sec. 1. The judicial power of the state shall be vested in a Supreme Court, an appellate court, district courts, county courts, in and for each county, with one or more judges for each county or with one judge for two or more counties, as the Legislature shall provide, and such

other courts inferior to the Supreme Court as may be created by law. In accordance with rules established by the Supreme Court and not in conflict with other provisions of this Constitution and laws governing such matters, general administrative authority over all courts in this state shall be vested in the Supreme Court and shall be exercised by the Chief Justice. The Chief Justice shall be the executive head of the courts and may appoint an administrative director thereof. (Amended 1920, 1970, 1990.)

Sec. 2. The Supreme Court shall consist of seven judges, one of whom shall be the Chief Justice. A majority of the judges shall be necessary to constitute a quorum. A majority of the members sitting shall have authority to pronounce a decision except in cases involving the constitutionality of an act of the Legislature. No legislative act shall be held unconstitutional except by the concurrence of five judges. The Supreme Court shall have jurisdiction in all cases relating to the revenue, civil cases in which the state is a party, mandamus, quo warranto, habeas corpus, election contests involving state officers other than members of the Legislature, and such appellate jurisdiction as may be provided by law. The Legislature may provide that any judge of the Supreme Court or judge of the appellate court created pursuant to Article V, section 1, of this Constitution who has retired may be called upon for temporary duty by the Supreme Court. Whenever necessary for the prompt submission and determination of causes, the Supreme Court may appoint judges of the district court or the appellate court to act as associate judges of the Supreme Court, sufficient in number, with the judges of the Supreme Court, to constitute two divisions of the court of five judges in each division. Whenever judges of the district court or the appellate court are so acting, the court shall sit in two divisions, and four of the judges thereof shall be necessary to constitute a quorum. Judges of the district court or the appellate court so appointed shall serve during the pleasure of the court and shall have all the powers of judges of the Supreme Court. The Chief Justice shall make assignments of judges to the divisions of the court, preside over the division of which he or she is a member, and designate the presiding judge of the other division. The judges of the Supreme Court, sitting without division, shall hear and determine all cases involving the constitutionality of a statute and all appeals involving capital cases and may review any decision rendered by a division of the court. In such cases, in the event of the disability or disqualification by interest or otherwise of any of the judges of the Supreme Court, the court may appoint judges of the district court or the appellate court to sit temporarily as judges of the Supreme Court, sufficient to constitute a full court of seven judges. Judges of the district court or the appellate court shall receive no additional salary by virtue of their appointment and service as herein provided, but they shall be reimbursed their necessary traveling and hotel expenses. (Amended 1908, 1920, 1968, 1970, 1990.)

Sec. 3. At least two terms of the supreme court shall be held each year, at the seat of government.

Sec. 4. The Chief Justice and the Judges of the Supreme Court shall be selected as provided in this Article V. They may reside at the place where the court is located but shall reside within the state, and no Chief Justice or Judge of the Supreme Court shall be deemed thereby to have lost his or her residence at the place from which he or she was selected. The offices of the Chief Justice and Judges of the Supreme Court shall be at the place where the court is located. (Amended 1908, 1920, 1962, 1998.)

Sec. 5. The Legislature shall divide the state into six contiguous and compact districts of approximately equal population, which shall be numbered from one to six, which shall be known as the Supreme Court judicial districts. The Legislature shall redistrict the state after each federal decennial census. In any such redistricting, county lines shall be followed whenever practicable, but other established lines may be followed at the discretion of the Legislature. Such districts shall not be changed except upon the concurrence of a majority of the members of the Legislature. Whenever the Supreme Court is redistricted, the judges serving prior to the redistricting shall continue in office, and the law providing for such redistricting shall where necessary specify the newly established districts which they shall represent for the balance of their terms. (Amended 1908, 1912, 1920, 1962, 1970.)

Sec. 6. The Chief Justice shall preside at all terms and sittings of the supreme court, and

in his absence or disability the judges present shall select one of their number chief justice pro tempore. (Amended 1908, 1920.)

Sec. 7. No person shall be eligible to the office of Chief Justice or Judge of the Supreme Court unless he shall be at least thirty years of age, and a citizen of the United States, and shall have resided in this state at least three years next preceding his selection; nor, in the case of a Judge of the Supreme Court selected from a Supreme Court judicial district, unless he shall be a resident and elector of the district from which selected. (Amended 1920, 1962.)

Sec. 8. The Supreme Court shall appoint such staff as may be needed for the proper dispatch of the business of the court. The court shall prepare and recommend to each session of the Legislature a budget of the estimated expenses of the court. The copyright of the state reports shall forever remain the property of the state. (Amended 1920, 1972, 1990.)

Sec. 9. The district courts shall have both chancery and common law jurisdiction, and such other jurisdiction as the Legislature may provide; and the judges thereof may admit persons charged with felony to a plea of guilty and pass such sentence as may be prescribed by law.

Sec. 10. The state shall be divided into district court judicial districts. Until otherwise provided by law, the boundaries of the judicial districts and the number of judges of the district courts shall remain as now fixed. The judges of the district courts shall be selected from the respective districts as provided in this Article V. (Amended 1920, 1962.)

Sec. 11. The Legislature may change the number of judges of the district courts and alter the boundaries of judicial districts. Such change in number or alterations in boundaries shall not vacate the office of any judge. Such districts shall be formed of compact territory bounded by county lines. (Amended 1920, 1972.)

Sec. 12. The judges of the district court may hold court for each other and shall do so when required by law or when ordered by the Supreme Court. The Legislature may provide that any judge of the district court who has retired may be called upon for temporary duty by the Supreme Court. (Amended 1920, 1970.)

Sec. 13. The chief justice, the judges of the supreme court and the judges of the district court shall receive such salaries as may be provided by law. (Amended 1908, 1920.)

Sec. 14. No judge of the Supreme or district courts shall act as attorney or counsellor at law in any manner whatsoever. No judge shall practice law in any court in any matter arising in or growing out of any proceedings in his own court. (Amended 1920, 1970.)

Sec. 15 to 18. Repealed 1970.

Sec. 19. The organization, jurisdiction, powers, proceedings, and practice of all courts of the same class or grade, so far as regulated by law and the force and effect of the proceedings, judgments and decrees of such courts, severally, shall be uniform. (Amended 1920.)

Sec. 20. All officers provided for in this Article shall hold their offices until their successors shall be qualified and they shall respectively reside in the district or county from which they shall be selected. All officers, when not otherwise provided for in this Article, shall perform such duties and receive such compensation as may be prescribed by law. (Amended 1920, 1962, 1970.)

Sec. 21. (1) In the case of any vacancy in the Supreme Court or in any district court or in such other court or courts made subject to this provision by law, such vacancy shall be filled by the Governor from a list of at least two nominees presented to him by the appropriate judicial nominating commission. If the Governor shall fail to make an appointment from the list within sixty days from the date it is presented to him, the appointment shall be made by the Chief Justice or the acting Chief Justice of the Supreme Court from the same list.

(2) In all other cases, any vacancy shall be filled as provided by law.

(3) At the next general election following the expiration of three years from the date of appointment of any judge under the provisions of subsection (1) of this section and every six years thereafter as long as such judge retains office, each Justice or Judge of the Supreme Court or district court or such other court or courts as the Legislature shall provide shall have his right to remain in office subject to approval or rejection by the electorate in such manner as the Legislature shall provide; *Provided*, that every judge holding or elected to an office described in subsection (1) of this section on the effective date of this amendment whether by election or appointment, upon

qualification shall be deemed to have been selected and to have once received the approval of the electorate as herein provided, and shall be required to submit his right to continue in office to the approval or rejection of the electorate at the general election next preceding the expiration of the term of office for which such judge was elected or appointed, and every six years thereafter. In the case of the Chief Justice of the Supreme Court, the electorate of the entire state shall vote on the question of approval or rejection. In the case of any Judge of the Supreme Court, other than the Chief Justice, and any judge of the district court or any other court made subject to subsection (1) of this section, the electorate of the district from which such judge was selected shall vote on the question of such approval or rejection.

(4) There shall be a judicial nominating commission for the Chief Justice of the Supreme Court and one for each judicial district of the Supreme Court and of the district court and one for each area or district served by any other court made subject to subsection (1) of this section by law. Each judicial nominating commission shall consist of nine members, one of whom shall be a Judge of the Supreme Court who shall be designated by the Governor and shall act as chairman, but shall not be entitled to vote. The members of the bar of the state residing in the area from which the nominees are to be selected shall designate four of their number to serve as members of said commission, and the Governor shall appoint four citizens, not admitted to practice law before the courts of the state, from among the residents of the same geographical area to serve as members of said commission. Not more than four of such voting members shall be of the same political party. The terms of office for members of each judicial nominating commission shall be staggered and shall be fixed by the Legislature. The nominees of any such commission cannot include a member of such commission or any person who has served as a member of such commission within a period of two years immediately preceding his nomination or for such additional period as the Legislature shall provide. The names of candidates shall be released to the public prior to a public hearing.

(5) Members of the nominating commission shall vote for the nominee of their choice by roll call. Each candidate must receive a majority of the voting members of the nominating commission to have his name submitted to the Governor. (Amended 1920, 1962, 1972.)

Sec. 22. The state may sue and be sued, and the Legislature shall provide by law in what manner and in what courts suits shall be brought.

Sec. 23. The several judges of the courts of record shall have such jurisdiction at chambers as may be provided by law.

Sec. 24. All process shall run in the name of "The State of Nebraska," and all prosecutions shall be carried on in the name of "The State of Nebraska."

Sec. 25. For the effectual administration of justice and the prompt disposition of judicial proceedings, the supreme court may promulgate rules of practice and procedure for all courts, uniform as to each class of courts, and not in conflict with laws governing such matters. To the same end, the court may, and when requested by the Legislature by resolution shall, certify to the Legislature its conclusions as to desirable amendments or changes in the general laws governing such practice and proceedings. (Adopted 1920. Amended 2000.)

Sec. 26. If the foregoing amendment shall be adopted by the electors, all existing courts which are not in the foregoing amendment specifically enumerated and concerning which no other provision is herein made, shall continue in existence and exercise their present jurisdiction, and the judges thereof shall receive their present compensation, until otherwise provided by law; and such judges or appointees to fill vacancies shall hold their offices until their successors shall be elected and qualified. (Adopted 1920.)

Sec. 27. Notwithstanding the provisions of section 9 of this Article, the Legislature may establish courts to be known as juvenile courts, with such jurisdiction and powers as the Legislature may provide. The term, qualification, compensation, and method of appointment or election of the judges of such courts, and the rules governing proceedings therein, may be fixed by the Legislature. The state shall be divided into juvenile court judicial districts that correspond to district court judicial districts until otherwise provided by law. No such court shall be established or afterwards abolished in any juvenile court judicial district unless approved by a majority of those

voting on the issue. (Adopted 1958. Amended 1972.)

Sec. 28. The Legislature shall provide for a Commission on Judicial Qualifications consisting of: (1) Three judges, including one district court judge, one county court judge, and one judge of any other court inferior to the Supreme Court as now exists or may hereafter be created by law, all of whom shall be appointed by the Chief Justice of the Supreme Court; (2) three members of the Nebraska State Bar Association who shall have practiced law in this state for at least ten years and who shall be appointed by the Executive Council of the Nebraska State Bar Association; (3) three citizens, none of whom shall be a Justice or Judge of the Supreme Court or judge of any court, active or retired, nor a member of the Nebraska State Bar Association, and who shall be appointed by the Governor; and (4) the Chief Justice of the Supreme Court, who shall serve as its chairperson. (Adopted 1966. Amended 1980.)

Sec. 29. The commission shall act by a vote of the majority of its members and no action of the commission shall be valid unless concurred in by the majority of its members. (Adopted 1966. Amended 1980.)

Sec. 30. (1) A Justice or Judge of the Supreme Court or judge of any court of this state may be reprimanded, disciplined, censured, suspended without pay for a definite period of time, not to exceed six months, or removed from office for (a) willful misconduct in office, (b) willful disregard of or failure to perform his or her duties, (c) habitual intemperance, (d) conviction of a crime involving moral turpitude, (e) disbarment as a member of the legal profession licensed to practice law in the State of Nebraska, or (f) conduct prejudicial to the administration of justice that brings the judicial office into disrepute, or he or she may be retired for physical or mental disability seriously interfering with the performance of his or her duties if such disability is determined to be permanent or reasonably likely to become permanent. Any citizen of the State of Nebraska may request the Commission on Judicial Qualifications to consider the qualifications of any Justice or Judge of the Supreme Court or other judge, and in such event the commission shall make such investigation as the commission deems necessary and shall, upon a finding of probable cause, reprimand such Justice or Judge of the Supreme Court or other judge or order a formal open hearing to be held before it concerning the reprimand, discipline, censure, suspension, removal, or retirement of such Justice or Judge of the Supreme Court or other judge. In the alternative or in addition, the commission may request the Supreme Court to appoint one or more special masters who shall be judges of courts of record to hold a formal open hearing to take evidence in any such matter, and to report to the commission. If, after formal open hearing, or after considering the record and report of the masters, the commission finds that the charges are established by clear and convincing evidence, it shall recommend to the Supreme Court that the Justice or Judge of the Supreme Court or other judge involved shall be reprimanded, disciplined, censured, suspended without pay for a definite period of time not to exceed six months, removed, or retired as the case may be.

(2) The Supreme Court shall review the record of the proceedings and in its discretion may permit the introduction of additional evidence. The Supreme Court shall make such determination as it finds just and proper, and may order the reprimand, discipline, censure, suspension, removal, or retirement of such Justice or Judge of the Supreme Court or other judge, or may wholly reject the recommendation. Upon an order for retirement, the Justice or Judge of the Supreme Court or other judge shall thereby be retired with the same rights and privileges as if he or she had retired pursuant to statute. Upon an order for removal, the Justice or Judge of the Supreme Court or other judge shall be removed from office, his or her salary shall cease from the date of such order, and he or she shall be ineligible for judicial office. Upon an order for suspension, the Justice or Judge of the Supreme Court or other judge shall draw no salary and shall perform no judicial functions during the period of suspension. Suspension shall not create a vacancy in the office of Justice or Judge of the Supreme Court or other judge.

(3) Upon order of the Supreme Court, a Justice or Judge of the Supreme Court or other judge shall be disqualified from acting as a Justice or Judge of the Supreme Court or other judge, without loss of salary, while there is pending (a) an indictment or information charging him or her in the United States with a crime punishable as a felony under Nebraska or federal law or (b)

a recommendation to the Supreme Court by the Commission on Judicial Qualifications for his or her removal or retirement.

(4) In addition to the procedure set forth in subsections (1) and (2) of this section, on recommendation of the Commission on Judicial Qualifications or on its own motion, the Supreme Court (a) shall remove a Justice or Judge of the Supreme Court or other judge from office when in any court in the United States such justice or judge pleads guilty or no contest to a crime punishable as a felony under Nebraska or federal law, and (b) may suspend a Justice or Judge of the Supreme Court or other judge from office without salary when in any court in the United States such justice or judge is found guilty of a crime punishable as a felony under Nebraska or federal law or of any other crime that involves moral turpitude. If his or her conviction is reversed, suspension shall terminate and he or she shall be paid his or her salary for the period of suspension. If he or she is suspended and his or her conviction becomes final the Supreme Court shall remove him or her from office.

(5) All papers filed with and proceedings before the commission or masters appointed by the Supreme Court pursuant to this section prior to a reprimand or formal open hearing shall be confidential. The filing of papers with and the testimony given before the commission or masters or the Supreme Court shall be deemed a privileged communication. When the Commission on Judicial Qualifications determines that disciplinary action is warranted, whether it be a reprimand or otherwise, the Commission on Judicial Qualifications shall issue one or more short announcements confirming that a complaint has been filed; stating the subject and nature of the complaint, the disciplinary action recommended or reprimand issued, or the date of the hearing; clarifying the procedural aspects; and reciting the right of a judge to a fair hearing.

When the Commission on Judicial Qualifications determines that disciplinary action is not warranted, and the existence of any investigation or complaint has become publicly known, the judge against whom a complaint has been filed or investigation commenced may waive the confidentiality of papers and proceedings under this subsection.

The Supreme Court shall by rule provide for procedure under this section before the commission, the masters, and the Supreme Court.

(6) No Justice or Judge of the Supreme Court or other judge shall participate, as a member of the commission, or as a master, or as a member of the Supreme Court, in any proceedings involving his or her own reprimand, discipline, censure, suspension, removal, or retirement. (Adopted 1966, 1980, 1984.)

(Amended 1920.)

Sec. 4. Sec. 5. The capital stock of public utility corporations or common carriers shall not be increased for any purpose, except after public notice for sixty days, and in such manner as may be provided by law. Sec. 8. No railroad corporation organized under the laws of any other state, or of the United States and doing business in this state shall be entitled to exercise the right of eminent domain or have power to acquire the right of way, or real estate for depot or other uses, until it shall have become a body corporate pursuant to and in accordance with the laws of this state.

ARTICLE XI: MUNICIPAL CORPORATIONS

Sec. 1. No city, county, town, precinct, municipality, or other subdivision of the state shall ever become a subscriber to the capital stock, or owner of such stock, or any portion or interest therein of any railroad, or private corporation, or association, except that, notwithstanding any other provision of this Constitution, the Legislature may authorize the investment of public endowment funds by any city which is authorized by this Constitution to establish a charter, in the manner required of a prudent investor who shall act with care, skill, and diligence under the prevailing circumstance and in such investments as the governing body of such city, acting in a fiduciary capacity for the exclusive purpose of protecting and benefiting such investment, may determine, subject to such limitations as the Legislature may by statute provide. (Amended 2008).

Sec. 2. Any city having population of more than five thousand (5000) inhabitants may frame a charter for its own government, consistent with and subject to the constitution and laws of this state, by causing a convention of fifteen freeholders, who shall have been for at least five years qualified electors thereof, to be elected by the qualified voters of said city at any general or special election, whose duty it shall be within four months after such election, to prepare and propose a charter for such city, which charter, when completed, with a prefatory synopsis, shall be signed by the officers and members of the convention, or a majority thereof, and delivered to the clerk of said city, who shall publish the same in full, with his official certification, in the official paper of said city, if there be one, and if there be no official paper, then in at least one newspaper published and in general circulation in said city, three times, and a week apart, and within not less than thirty days after such publication it shall be submitted to the qualified electors of said city at a general or special election, and if a majority of such qualified voters, voting thereon, shall ratify the same, it shall at the end of sixty days thereafter, become the charter of said city, and supersede any existing charter and all amendments thereof. A duplicate certificate shall be made, setting forth the charter proposed and its ratification (together with the vote for and against) and duly certified by the City Clerk, and authenticated by the corporate seal of said city and one copy thereof shall be filed with the secretary of state and the other deposited among the archives of the city, and shall thereupon become and be the charter of said city, and all amendments of such charter, shall be authenticated in the same manner, and filed with the secretary of state and deposited in the archives of the city. (Adopted 1912.)

Sec. 3. But if said charter be rejected, then within six months thereafter, the mayor and

council or governing authorities of said city may call a special election at which fifteen members of a new charter convention shall be elected to be called and held as above in such city, and they shall proceed as above to frame a charter which shall in like manner and to the like end be published and submitted to a vote of said voters for their approval or rejection. If again rejected, the procedure herein designated may be repeated until a charter is finally approved by a majority of those voting thereon, and certified (together with the vote for and against) to the secretary of state as aforesaid, and a copy thereof deposited in the archives of the city, whereupon it shall become the charter of said city. Members of each of said charter conventions shall be elected at large, and they shall complete their labors within sixty days after their respective election. The charter shall make proper provision for continuing, amending or repealing the ordinances of the city. (Adopted 1912.)

Sec. 4. Such charter so ratified and adopted may be amended, or a charter convention called, by a proposal therefor made by the law-making body of such city or by the qualified electors in number not less than five per cent of the next preceding gubernatorial vote in such city, by petition filed with the council or governing authorities. The council or governing authorities shall submit the same to a vote of the qualified electors at the next general or special election not held within thirty days after such petition is filed. In submitting any such charter or charter amendments, any alternative article or section may be presented for the choice of the voters and may be voted on separately without prejudice to others. Whenever the question of a charter convention is carried by a majority of those voting thereon, a charter convention shall be called through a special election ordinance, and the same shall be constituted and held and the proposed charter submitted to a vote of the qualified electors, approved or rejected, as provided in Section two hereof. The City Clerk of said city shall publish with his official certification, for three times, a week apart in the official paper in said city, if there be one, and if there be no official paper, then in at least one newspaper, published and in general circulation in said city, the full text of any charter or charter amendment to be voted on at any general or special election.

No charter or charter amendment adopted under the provisions of this amendment shall be amended or repealed except by electoral vote. And no such charter or charter amendment shall diminish the tax rate for state purposes fixed by act of the Legislature, or interfere in any wise with the collection of state taxes. (Adopted 1912.)

Sec. 5. The charter of any city having a population of more than one hundred thousand inhabitants may be adopted as the home rule charter of such city by a majority vote of the qualified electors of such city voting upon the question, and when so adopted may thereafter be changed or amended as provided in Section 4 of this article, subject to the Constitution and laws of the state. (Adopted 1920.)

any mutual or cooperative company or association may, in its articles of incorporation, limit the number of shares of stock any stockholder may own, the transfer of such stock, and the right of each stockholder or member to one vote only in the meetings of such company or association. The Secretary of State shall monitor corporate and syndicate agricultural land purchases and corporate and syndicate farming and ranching operations, and notify the Attorney General of any possible violations. At such election said amendments shall be submitted to the electors for approval or rejection upon a ballot separate from that upon which the names of candidates appear. If a majority of the electors voting on any such amendment adopt the same, it shall become a part of this Constitution, provided the votes cast in favor of such amendment shall not be less than thirty-five per cent of the total votes cast at such election. When two or more amendments are submitted at the same election, they shall be so submitted as to enable the electors to vote on each amendment separately. (Amended 1920, 1952, 1968.)

⁷Article XV, sections 20 to 24, of the Constitution of Nebraska, added by Initiative 408 in 1994, have been omitted because of the decision of the Nebraska Supreme Court in *Duggan v. Beermann*, 249 Neb. 411, 544 N.W.2d 68 (1996).

Sec. 2. When three-fifths of the members elected to the Legislature deem it necessary to call a convention to revise, amend, or change this constitution, they shall recommend to the electors to vote at the next election of members of the Legislature, for or against a convention, and if a majority of the electors voting on the proposition, vote for a convention, the Legislature shall, at its next session provide by law for calling the same; *Provided*, the votes cast in favor of calling a convention shall not be less than thirty-five per cent of the total votes cast at such election. The convention shall consist of not more than one hundred members, the exact number to be determined by the Legislature, and to be nominated and elected from districts in the manner to be prescribed by the Legislature. Such members shall meet within three months after their election, for the purpose aforesaid. No amendment or change of this constitution, agreed upon by such convention, shall take effect until the same has been submitted to the electors of the state, and adopted by a majority of those voting for and against the same. (Amended 1952.)

ARTICLE XVIII: TERM LIMITS ON CONGRESS

Sec. 1. The people of the State of Nebraska want to amend the United States Constitution to establish term limits on Congress that will ensure representation in Congress by true citizen lawmakers. The President of the United States is limited by the XXII Amendment to the United States Constitution to two terms in office. Governors in forty states are limited to two terms or less. Voters have established term limits for over two thousand state legislators as well as over seventeen thousand local officials across the country. Nevertheless, Congress has ignored our desire for term limits not only by proposing excessively long terms for its own members but also by utterly refusing to pass an amendment for genuine congressional term limits. Congress has a clear conflict of interest in proposing a term limits amendment to the United States Constitution. A majority of both Republicans and Democrats in the 104th Congress voted against a constitutional amendment containing the term limits passed by a wide margin of Nebraska voters. The people, not Congress, should set term limits. We hereby establish as the official position of the citizens and State of Nebraska that our elected officials should enact by constitutional amendment

⁸Legislative Bill 30, corresponding to Chapter 25 of the Session Laws of 1939 and consisting of three sections, proposed an amendment to the Constitution. Section 2 of the bill provided that an additional section should be inserted in Article XVII "to be known and numbered" as section 10. The amendment was rejected in the election of 1940. Legislative Bill 179, corresponding to Chapter 109 of the Session Laws for 1939, likewise proposed an amendment that was adopted. Section 2 of this bill provided that an additional section should be inserted in Article XVII "to be known and numbered" as section 11. For this reason there is no section 10 of Article XVII.

congressional term limits of three terms in the United States House of Representatives and of two terms in the United States Senate.

The career politicians dominating Congress have a conflict of interest that prevents Congress from being what the founders intended, the branch of government closest to the people. The politicians have refused to heed the will of the people for term limits; they have voted to dramatically raise their own pay; they have provided lavish million-dollar pensions for themselves; and they have granted themselves numerous other privileges at the expense of the people. Most importantly, members of Congress have enriched themselves while running up huge deficits to support their spending. They have put the government nearly \$5,000,000,000,000.00 (five trillion dollars) in debt, gravely threatening the future of our children and grandchildren.

The corruption and appearance of corruption brought about by political careerism is destructive to the proper functioning of the first branch of our representative government. Congress has grown increasingly distant from the people of the states. The people have the sovereign right and compelling interest in creating a citizen Congress that will more effectively protect our freedom and prosperity. This interest and right may not effectively be served in any way other than that proposed by this initiative.

We hereby state our intention on behalf of the people of Nebraska, that this initiative lead to the adoption of the following amendment to the United States Constitution:

CONGRESSIONAL TERM LIMITS AMENDMENT TO THE UNITED STATES CONSTITUTION

Section 1. No person shall serve in the office of United States Representative for more than three terms, but upon ratification of this amendment no person who has held the office of United States Representative or who then holds the office shall serve for more than two additional terms.

Section 2. No person shall serve in the office of United States Senator for more than two terms, but upon ratification of this amendment no person who has held the office of United States Senator or who then holds the office shall serve for more than one additional term.

Section 3. This article shall have no time limit within which it must be ratified to become operative upon the ratification of the legislatures of three-fourths of the several states.

Therefore, we the people of the State of Nebraska, have chosen to amend the Constitution of Nebraska to inform voters regarding incumbent and nonincumbent federal and state candidates' support for the congressional term limits amendment provided for in this section. (Adopted 1996.)

Sec. 2. (1) We, the voters of Nebraska, hereby instruct each member of our congressional delegation to use all of his or her delegated powers to pass the congressional term limits amendment set forth in Article XVIII, section 1, of this Constitution.

(2) All primary and general election ballots shall have printed the information "DISREGARDED VOTERS INSTRUCTION ON TERM LIMITS" adjacent to the name of any United States Senator or United States Representative who:

(a) Fails to vote in favor of the proposed congressional term limits amendment set forth in Article XVIII, section 1, of this Constitution, when brought to a vote;

(b) Fails to second such proposed congressional term limits amendment if it lacks for a second before any proceeding of the legislative body;

(c) Fails to propose or otherwise bring to a vote of the full legislative body such proposed congressional term limits amendment if it otherwise lacks a legislator who so proposes or brings to a vote of the full legislative body such proposed congressional term limits amendment;

(d) Fails to vote in favor of all votes bringing such proposed congressional term limits amendment before any committee or subcommittee of the respective house upon which he or she serves;

(e) Fails to reject any attempt to delay, table, or otherwise prevent a vote by the full legislative body of such proposed congressional term limits amendment;

(f) Fails to vote against any proposed constitutional amendment that would establish longer term limits than those in the proposed congressional term limits amendment set forth in Article

XVIII, section 1, of this Constitution, regardless of any other actions in support of such proposed congressional term limits amendment;

(g) Sponsors or cosponsors any proposed constitutional amendment or law that would increase term limits beyond those in the proposed congressional term limits amendment set forth in Article XVIII, section 1, of this Constitution; or

(h) Fails in any way to ensure that all votes on congressional term limits are recorded and made available to the public.

(3) The information “DISREGARDED VOTERS INSTRUCTION ON TERM LIMITS” shall not appear adjacent to the names of incumbent candidates for Congress if the congressional term limits amendment set forth in Article XVIII, section 1, of this Constitution, is before the states for ratification or has become part of the United States Constitution. (Adopted 1996.)

Sec. 3. (1) Nonincumbent candidates for the United States Senate, the United States House of Representatives, and the Legislature should be given an opportunity to take a “Term Limits Pledge” regarding term limits each time they file to run for such offices. Any such person who declines to take the “Term Limits Pledge” shall have the information “DECLINED TO PLEDGE TO SUPPORT TERM LIMITS” printed adjacent to his or her name on every primary and general election ballot.

(2) The “Term Limits Pledge” shall be offered to nonincumbent candidates for the United States Senate, the United States House of Representatives, and the Legislature until a constitutional amendment which limits the number of terms of United States Senators to no more than two and United States Representatives to no more than three has become part of our United States Constitution.

(3) The “Term Limits Pledge” that each nonincumbent candidate, set forth in subsections (1) and (2) of this section, shall be offered is as follows: I support term limits and pledge to use all my legislative powers to enact the proposed constitutional amendment to the United States Constitution set forth in Article XVIII, section 1, of this Constitution. If elected, I pledge to vote in such a way that the designation “DISREGARDED VOTERS INSTRUCTION ON TERM LIMITS” will not appear adjacent to my name. Signature of Candidate (Adopted 1996.)

Sec. 4. (1) We the voters of Nebraska, hereby instruct each member of the Legislature to use all of his or her delegated powers to pass an application pursuant to Article V of the United States Constitution as set forth in subsection (2) of this section, and to ratify, if proposed, the congressional term limits amendment set forth in Article XVIII, section 1, of this Constitution.

(2) Application: We, the people and the Legislature, due to our desire to establish term limits on Congress, hereby make application to Congress, pursuant to our power under Article V of the United States Constitution, to call a convention for proposing amendments to the United States Constitution.

(3) All primary and general election ballots shall have the information “DISREGARDED VOTERS INSTRUCTION ON TERM LIMITS” printed adjacent to the name of any respective member of the Legislature who:

(a) Fails to vote in favor of the application set forth in subsection (2) of this section when brought to a vote;

(b) Fails to second the application if it lacks for a second;

(c) Fails to vote in favor of all votes bringing the application before any committee or subcommittee upon which he or she serves;

(d) Fails to propose or otherwise bring to a vote of the full legislative body the application if it otherwise lacks a legislator who so proposes or brings to a vote of the full legislative body the application;

(e) Fails to vote against any attempt to delay, table, or otherwise prevent a vote by the full legislative body on the application;

(f) Fails in any way to ensure that all votes on the application are recorded and made available to the public;

(g) Fails to vote against any change, addition, or modification to the application;

(h) Fails to vote in favor of the congressional term limits amendment if it is sent to the

states for ratification; or

(i) Fails to vote against any term limits amendment with longer terms if such an amendment is sent to the states for ratification.

(4) The information “DISREGARDED VOTERS INSTRUCTION ON TERM LIMITS” shall not appear adjacent to the names of candidates for the Legislature as required by subdivisions (3)(a) through (3)(g) of this section if the State of Nebraska has made an application to Congress for a convention for proposing amendments to the United States Constitution pursuant to this initiative and such application has not been withdrawn or the congressional term limits amendment set forth in Article XVIII, section 1, of this Constitution, has been submitted to the states for ratification.

(5) The information “DISREGARDED VOTERS INSTRUCTION ON TERM LIMITS” shall not appear adjacent to the names of candidates for the Legislature as required by subdivisions (3)(h) and (3)(i) of this section if the State of Nebraska has ratified the proposed congressional term limits amendment set forth in Article XVIII, section 1, of this Constitution.

(6) The information “DISREGARDED VOTERS INSTRUCTION ON TERM LIMITS” shall not appear adjacent to the names of candidates for the Legislature as required by subdivisions (3)(a) through (3)(i) of this section if the proposed congressional term limits amendment set forth in Article XVIII, section 1, of this Constitution, has become part of the United States Constitution. (Adopted 1996.)

Sec. 5. (1) The Secretary of State shall be responsible to make an accurate determination as to whether a candidate for the United States Senate, the United States House of Representatives, or the Legislature shall have placed adjacent to his or her name on the election ballot the information “DISREGARDED VOTERS INSTRUCTION ON TERM LIMITS” or “DECLINED TO PLEDGE TO SUPPORT TERM LIMITS.”

(2) The Secretary of State shall consider timely submitted public comments prior to making the determination required in subsection (1) of this section.

(3) The Secretary of State, in accordance with subsection (1) of this section, shall determine and declare what information, if any, shall appear adjacent to the name of each incumbent member of Congress if he or she was to be a candidate in the next election. In the case of United States Representatives and United States Senators, this determination and declaration shall be made in a fashion necessary to ensure the orderly printing of primary and general election ballots with allowance made for all legal action provided in subsections (5) and (6) of this section, and shall be based upon his or her action during his or her current term of office and any action taken in any concluded term, if such action was taken after the determination and declaration was made by the Secretary of State in a previous election. In the case of incumbent members of the Legislature, this determination and declaration shall be made not later than thirty days after the end of the regular session following each general election, and shall be based upon legislative action in the previous regular session.

(4) The Secretary of State shall determine and declare what information, if any, will appear adjacent to the names of nonincumbent candidates for Congress and the Legislature, not later than five business days after the deadline for filing for the office.

(5) If the Secretary of State makes the determination that the information “DISREGARDED VOTERS INSTRUCTION ON TERM LIMITS” or “DECLINED TO PLEDGE TO SUPPORT TERM LIMITS” shall not be placed on the ballot adjacent to the name of a candidate for the United States Senate, the United States House of Representatives, or the Legislature, any elector may appeal such decision within five business days to the Nebraska Supreme Court as an original action or shall waive any right to appeal such decision; in which case the burden of proof shall be upon the Secretary of State to demonstrate by clear and convincing evidence that the candidate has met the requirements set forth in this article and therefore should not have the information “DISREGARDED VOTERS INSTRUCTION ON TERM LIMITS” or “DECLINED TO PLEDGE TO SUPPORT TERM LIMITS” printed on the ballot adjacent to the candidate’s name.

(6) If the Secretary of State determines that the information “DISREGARDED VOTERS INSTRUCTION ON TERM LIMITS” or “DECLINED TO PLEDGE TO SUPPORT TERM

LIMITS” shall be placed on the ballot adjacent to a candidate’s name, the candidate or any elector may appeal such decision within five business days to the Nebraska Supreme Court as an original action or shall waive any right to appeal such decision; in which case the burden of proof shall be upon the candidate or any elector to demonstrate by clear and convincing evidence that the candidate should not have the information “DISREGARDED VOTERS INSTRUCTION ON TERM LIMITS” or “DECLINED TO PLEDGE TO SUPPORT TERM LIMITS” printed on the ballot adjacent to the candidate’s name.

(7) The Nebraska Supreme Court shall hear the appeal provided for in subsection (5) of this section and issue a decision within sixty days. The Nebraska Supreme Court shall hear the appeal provided for in subsection (6) of this section and issue a decision not later than sixty-one days before the date of the election. (Adopted 1996.)

Sec. 6. At such time as the congressional term limits amendment set forth in Article XVIII, section 1, of this Constitution, has become part of the United States Constitution, sections 1 through 6 of this article automatically shall be repealed. (Adopted 1996.)

Sec. 7. Any legal challenge to this initiative shall be filed as an original action before the Nebraska Supreme Court. (Adopted 1996.)

Sec. 8. If any portion, clause, or phrase of this initiative is, for any reason, held to be invalid or unconstitutional by a court of competent jurisdiction, the remaining portions, clauses, and phrases shall not be affected, but shall remain in full force and effect. (Adopted 1996.)

STATISTICS ON CONSTITUTIONAL AMENDMENTS, INITIATED AND REFERRED MEASURES

Vote on Constitutional Amendments, September 1920

At a special election on Sept. 21, 1920, Nebraska voters considered the 41 proposals submitted by the constitutional convention of 1919-20. Separate ballot boxes were provided for female voters because there was a legal question about whether women were entitled at that time to vote on constitutional amendments. The men rejected Proposal No. 6, permitting the Legislature to increase the membership of the Senate. Women voters gave a majority of 4,458 votes for the measure. Their votes were allowed, and the proposal was approved. On the other propositions, the men's and women's votes resulted in a favorable majority.

The following tabulation gives men's and women's votes separately and the combined vote.

Vote on Constitutional Amendments, 1882-2014

Following is an explanation of the percentages of votes needed for adoption of constitutional amendments.

Amendments proposed by the Legislature. From 1875 to 1920, an amendment proposed by the Legislature could be adopted only if a majority of the people voting in the election approved the amendment. This explains why many early amendment proposals were rejected, even when a majority of those voting on the question voted in favor of it. The constitution was changed in 1920, allowing an amendment to be approved by a majority of those voting on the question, provided the affirmative vote was no less than 35 percent of the total votes cast at the election. This requirement has continued to the present.

Amendments proposed by initiative petition. An amendment proposed by initiative petition and placed on the ballot is adopted if a majority of those voting on the amendment vote in favor of it, provided the affirmative vote is no less than 35 percent of the total votes cast at the election. This has been the requirement since 1912, when initiative provisions were added to the constitution.

Amendments proposed by a constitutional convention. An amendment proposed by a constitutional convention need only be approved by a majority of those voting on the amendment. This has been the requirement since 1875, when the constitution was first written. This explains why all 41 amendments submitted by the constitutional convention of 1919-20 were approved, even though none of the amendments received more than 72,000 votes in an election with 390,833 total voters.

STATE GOVERNMENT APPROPRIATIONS*

State appropriations for the 2013-14 fiscal year totaled \$9,631,149,483 for the operation of state government, including capital construction and aid to individuals, local governments and other entities. This amount includes supplemental appropriations (deficits) provided by the 2014 Legislature.

Of the total 2013-14 appropriation, \$3,841,239,521 was appropriated from the state general fund, which is financed by sales and use taxes, corporate and individual income taxes, and several other taxes, including liquor, cigarette and pari-mutuel taxes. Other appropriation amounts were: \$2,067,532,874 from cash funds, which include receipts from motor fuel taxes, hunting and fishing licenses, tuition at the University of Nebraska and state colleges, commodity checkoff collections and other fees and charges; \$2,896,508,843 from federal funds; and \$825,868,245 from revolving funds, which account for financial transactions between state agencies.

Fiscal year 2014-15 appropriations totaled \$9,944,184,621, consisting of \$4,105,825,530 from the state general fund, \$2,137,520,186 from cash funds, \$2,913,518,349 from federal funds and \$787,320,556 from revolving funds. Under biennial budgeting, these appropriations originally were made by the 2013 Legislature, with adjustments during the 2014 legislative session. These appropriation figures for 2014-15 do not, however, include supplemental appropriations that may be provided by the 2015 Legislature.

Editor's Note: The charts on the following five pages show appropriation figures for the biennium beginning July 1, 2013, and ending June 30, 2015. The General Fund column lists each agency's budget for agency operations. For those agencies responsible for distributing aid to individuals, local governments and/or other entities, the agency's budget for state aid also is listed. In the All Funds column, the figures for fiscal year 2013-14 include supplemental appropriations (deficits) provided by the 2014 Legislature. However, the figures for fiscal year 2014-15 do not include supplemental appropriations that may be provided by the 2015 Legislature.

STATE LEGISLATIVE BRANCH

STATE LEGISLATIVE BRANCH

THE NEBRASKA LEGISLATURE: HISTORY AND ORGANIZATION¹

History

Territorial Legislature

The Organic Act of May 30, 1854, provided for the Nebraska Territory's first legislative assembly. The act established a 13-member council, elected to two-year terms, and a 26-member house of representatives, elected for one-year terms. The act called for annual legislative sessions of 40 days, except for the first session, which could be lengthened to 60 days. Lawmakers received \$3 a day and \$3 more for every 20 miles they had to travel to the capital in Omaha. The following Jan. 16, the legislators convened for the first time.

The number of voters determined legislative apportionments. The territorial governor was directed to have a census taken to make the initial apportionments and to call an election. The assembly had the power to change the number of representatives, make appointments and fix regular session dates on which to convene.

An act approved on March 16, 1855, ordered the marshal to take a census and the governor to order a new apportionment. The number of representatives was limited to 29 for the second session, and another act determined that, until changed by law, annual sessions would begin on the first Tuesday in December. The succeeding session, however, was to convene on the third Tuesday in December 1855. At this session, lawmakers decided that the next regular session should meet on the first Monday of January 1857 and the first Monday in January every year thereafter. A Jan. 26, 1856, act directed the marshal to take another census and the governor to order another apportionment, this time limiting the number of representatives to 35.

By joint resolution of Jan. 25, 1856, the territorial assembly petitioned the delegate in Congress to secure amendment to the Organic Act, basing the apportionment on the increased white population instead of the number of voters. The convening date for the fourth session was changed to the second Tuesday in December 1857, but the opening date was restored to the first Monday in January for the next session. An act approved on Nov. 3, 1858, fixed the number of representatives at 39.

The fifth session was a special session called by Gov. William Richardson to consider adopting parts of the criminal and civil codes and general affairs of the state. The secretary of the territory refused to pay for this session from current expense appropriations. The assembly, by joint resolution, requested Congress to make an early appropriation to pay for the session. By legislative act, the sixth, seventh and eighth sessions began on

the first Monday in December of each year. A temporary apportionment was made by this session that also called for the ninth session to begin on Jan. 7, 1864.

Adoption of 1866 State Constitution and Early State Legislative Sessions

The 11th Legislature drafted the constitution of 1866, which voters adopted on June 2, 1866. The constitution provided for the state Legislature's first session to convene July 4, 1866. When the first session met (which is listed as the first state Legislature assembled), Congress had not yet passed the bill admitting Nebraska to the Union. Congress rejected the 1866 constitution until Nebraska agreed to an amendment allowing black people to vote. The 12th session of the territorial Legislature met Jan. 10 and adjourned Feb. 18. Two days later, the governor called a special session to consider the black suffrage amendment to the 1866 constitution.

Lawmakers met on Feb. 20 and 21, 1867. This is listed as the second state legislative session, although Nebraska was not admitted as a state until March 1. Thus, the first session after statehood was the third session, a special session called by Gov. David Butler on May 16, 1867, to establish general legislation for the new state.

The constitution of 1866 made no changes in the two legislative houses, which had 13 senators and 39 representatives. Biennial legislative sessions were to begin the first Thursday after the first Monday in January in odd-numbered years.

The fourth session was a special session, held on Oct. 27 and 28, 1868, called to provide for the election of presidential electors, a detail that had been previously overlooked.

The fifth session (erroneously called the first "regular session") was the first session held at Lincoln on the constitutional date. The sixth session was a special session called by the governor to ratify the 15th Amendment to the U.S. Constitution, provide for construction of a penitentiary, and other purposes. After the Legislature adjourned without passing all the legislation the governor wanted, he immediately called another special session, which saw passage of a herd law and an amendment of an act to govern the keeping of identical funds in the state treasury, among other legislation.

The eighth regular session saw impeachment proceedings brought against Gov. David Butler. Because of impeachment proceedings brought against auditor John Gillespie, the Legislature in June 1871 adjourned until Jan. 9, 1872, when they resumed in adjourned session.

The 10th session was a special session, called on March 27, 1873, by Gov. Robert Furnas to amend laws governing county boundaries and to consider assessments in new counties and incorporation of cities.

Constitution of 1875 and Legislative Sessions of 1875-1934

The constitution of 1875 limited legislative membership to 100 in the House and 33 in the Senate. It changed the convening date of the regular session to the first Tuesday in January. Before 1880, under the 1875 constitution, the House had 84 members and the Senate had 30.

The 12th and 13th sessions were special ones, both called on Dec. 5, 1876, to canvass the vote of presidential electors and to appoint an elector to fill an alleged vacancy.

In 1881, the Legislature increased Senate membership to 33 and House membership to 100.

Under an 1886 constitutional amendment, lawmakers' pay was increased from \$3 to \$5 a day. The Senate president was paid \$10 a day.

The 17th session, a special one, convened on May 10, 1882, to reapportion U.S. congressional districts and to provide money for the militia to suppress a riot at Omaha, among other issues.

A 1912 amendment boosted lawmakers' salary to \$600 for each regular session and doubled the pay for the Senate president.

The 36th session was a special session called on March 26, 1918, to pass war legislation. The 38th session, also a special one, was called on July 29, 1919, to ratify the women's suffrage amendment to the U.S. Constitution. The 39th session was a special session called on Oct. 14, 1919, to enable Douglas County to repair its courthouse.

A constitutional amendment adopted on Sept. 21, 1920, increased Senate membership to 50, but the Legislature did not change the number of senators. Another constitutional amendment adopted the same day increased lawmakers' pay to \$800 for each regular session.

The 41st session was a special session called on Jan. 24, 1922, to reduce appropriations and correct errors in certain laws. The 46th session, also a special one, was called on March 4, 1930, to revise guaranty of bank deposit laws. The 48th session, another special session, was called on June 9, 1931, to make appropriations to maintain state government.

Establishment of a Unicameral Legislature

On Nov. 6, 1934, Nebraska voters adopted a constitutional amendment providing for a one-house, or unicameral, Legislature. This initiative amendment, drafted by a citizens' committee, passed on a 286,086 to 193,152 vote. The amendment required the 1935 Legislature to divide the state into at least 30 legislative districts, but no more than 50.

Interest in unicameralism began in 1913 as a reaction against the more popular two-house system of lawmaking. Political reform demanded by the Progressive Movement caused a joint legislative committee that year to make several recommendations to the 1915 Legislature on ways to improve state government, including a plan to create a unicameral legislature. No action was taken on this proposal.

During the 1917 legislative session, Rep. J.N. Norton of Osceola, a longtime advocate of unicameralism and a member of the first Unicameral Legislature in 1937, introduced a joint resolution proposing a constitutional amendment to create a one-house legislature of 60 members. The proposal reached the floor, but it was indefinitely postponed as it languished behind other bills awaiting consideration.

Norton, a delegate to the 1919-20 constitutional convention, introduced a proposal providing for a one-house legislative body to consist of at least 100 members, but not to exceed 133. Approved by the committee on the convention floor, it was suggested that it be submitted before voters as a separate and alternative proposal. The final vote

on this proposition was 43 to 43. Thus, Nebraska voters were narrowly denied a chance to vote on unicameralism at a special election in September 1920.

Three other attempts to change to unicameralism failed before a successful campaign in 1934. An initiative petition campaign to place the issue on the ballot failed in 1923, and a legislative proposal by J.D. Lee of Lynch for a single chamber of 100 or fewer members was indefinitely postponed. A 1933 proposal by Sen. John Boelts of Central City in 1933 to create a legislature “consisting of a House of Representatives only” came to a final vote by senators. It failed on a 15-14 vote with four members not voting.

Although efforts to switch to a one-house legislative system continually failed, the issue was kept alive by George W. Norris. Norris had served in the U.S. House of Representatives, was a leader of the Progressive Republicans, and had been a U.S. senator since 1912. Nebraskans of all political persuasions held him in esteem, and his accomplishments and influence in national affairs gave credibility to his views. Two-house lawmaking was a favorite target for Norris. He denounced it in a *New York Times* article on Jan. 28, 1923, and he continued his indictments of state legislatures until 1934.

Norris and other supporters said unicameralism had basic advantages over two-house legislatures. Its benefits and principles, as expressed by its supporters, are summarized as follows:

- The principal criticism of the bicameral legislature was the conference committee — a joint committee appointed to iron out differences in bills that had passed both chambers, but in different forms. These committees met in secret, no records were kept of their proceedings, conference reports could not be amended when they were returned to the respective houses, and the need to compromise to “get something” often resulted in laws that included provisions not supported by a majority of the legislators. This “take all or nothing” procedure does not exist in a unicameral system. Proponents of unicameralism say eliminating the conference committee results in a more open legislative process.

- Unicameralism proponents argue that instead of one house acting as a check upon the other (a traditional defense of the bicameral legislature), one house too often shifts responsibility to the other house. In one of his later writings, Norris penned a colorful rebuttal to this “checks and balances” argument: “In every two-house legislature, after the close of the session, if we post the checks and balances we shall find that the politicians have the checks and the special interests have the balance.” Unicameralism’s supporters say there are ample checks on the one-house legislature through judicial review, the governor’s veto and the referendum.

- It was believed that a one-house legislature would be smaller in number. This would avoid some of the frustrations of lawmakers in larger legislative bodies, such as giving legislative rights to committees, the difficulty in offering amendments to bills and curtailing the right to freely debate. Legislative proceedings in a one-house legislature can be much more open, advocates said.

- Norris and other advocates were convinced that corruption was more likely under bicameralism because it was easier for corrupt legislators to cover their tracks. Under unicameralism, Norris argued, lobbying would be more open, more personal and less

likely to be kept under cover.

- On a more recent note, it could be argued that because of the “reapportionment revolution” of the 1960s, bicameralism makes less sense than before. Courts have held that both houses of state legislatures must conform to the “one person, one vote” standard, and thus both represent essentially the same constituencies. Norris and other early proponents of unicameralism made this same point. They argued that a two-house system was redundant because both houses of state legislatures were elected from the same groups of people and were granted the same legislative authority.

Organization

State Senators

Nebraska’s one-house Legislature has 49 members, called senators, who are elected on a nonpartisan basis. The number of senators increased from 43 to 49 in 1965. Approximately 37,000 people live in each district, according to 2010 census figures. Half of the senators are elected every two years. Senators served two-year terms from 1937 to 1964. In 1964, half the senators were elected to four-year terms, and half were elected to two-year terms. Since 1966, all senators have been elected to four-year terms. Senators are limited to serving two consecutive terms. According to the Nebraska Constitution, senators must be registered voters, must be at least 21 years old and must have lived for one year in the district they represent. Senators are paid \$12,000 a year. In 1984, the state Supreme Court upheld a law permitting senators to be paid for expenses during legislative sessions. Senators also are paid for actual expenses when the Legislature is not in session.

Officers

Lieutenant Governor (President of Legislature): Mike Foley

Speaker: Sen. Galen Hadley, Kearney

Clerk: Patrick J. O’Donnell

Assistant Clerk: Richard Brown

Sergeant at Arms: Ron Witkowski

According to the state constitution, the lieutenant governor serves as president of the Legislature. In the Nebraska Revised Statutes, the law providing for legislative officers is 50-111.

Members of the Legislature elect the speaker, clerk, assistant clerk and sergeant at arms in odd-numbered years. The speaker is a member of the Legislature. The other officers, who are not members of the Legislature, are elected upon recommendation by the Executive Board of the Legislative Council. The Legislature chooses the Executive Board at the beginning of each regular session in odd-numbered years.

Publications

Publications produced by the Legislature include:

- the Legislative Journal (daily during legislative sessions and in bound form after each session ends)
- bills, resolutions and amendments

- indexes to bills and resolutions
- session laws
- *Unicameral Update* (published weekly during legislative sessions)
- *Nebraska Blue Book* (official state reference manual)
- informational pamphlets about the history, organization and membership of the Legislature

Many publications are available both in print form and on the Legislature's website at www.nebraskalegislature.gov

The bound journal and the bound session laws, compiled by the Office of the Clerk of the Legislature, may be purchased in the State Court Administrator's Office, Room 1220, State Capitol.

Legislative Sessions

Before 1970, regular legislative sessions were held in odd-numbered years and began on the first Tuesday in January. In 1970, a constitutional amendment was adopted that directed the Legislature to meet annually. Regular sessions in odd-numbered years meet for 90 legislative days and in even-numbered years for 60 legislative days. A four-fifths vote of the members may extend a session's length. The constitution was amended in 1974 to provide that the Legislature convene at 10 a.m. on the first Wednesday after the first Monday in January every year.

During a regular session, the Legislature may consider any subject relating to state government functions. Between regular sessions, the governor may call the Legislature into a special session, or two-thirds of the Legislature may require the governor to call a special session. Only those issues specifically mentioned in the call can be considered during a special session.

Committees

After bills are introduced, they are referred to legislative committees, which hold public hearings on the bills. There are 14 standing committees:

- Agriculture
- Appropriations
- Banking, Commerce and Insurance
- Business and Labor
- Education
- General Affairs
- Government, Military and Veterans Affairs
- Health and Human Services
- Judiciary
- Natural Resources
- Nebraska Retirement Systems
- Revenue
- Transportation and Telecommunications
- Urban Affairs

Four select committees help in the administration of the Legislature:

- Committee on Committees, which recommends appointments to committees at the beginning of each regular session in odd-numbered years and fills committee vacancies created when members die or resign

- Enrollment and Review, which oversees the incorporation of adopted amendments into bills and reviews the legislation for technical and grammatical accuracy

- Reference (consisting of Executive Board members), which refers bills, resolutions and gubernatorial appointments to appropriate committees

- Rules, which considers and recommends proposed changes to the rules governing legislative procedure

Special committees may be established to consider other issues. These committees include:

- Committee on Building Maintenance (statutory reference: 81-185), which oversees maintenance of state-owned buildings

- Education Commission of the States (statutory reference: 79-1501), an interstate organization that facilitates cooperative educational research and development and has three Nebraska state senators as members²

- Executive Board of the Legislative Council (statutory reference: 50-401.01), which supervises all legislative services and employees

- Legislative Performance Audit Committee (statutory reference: 50-1204), which evaluates state agency programs for effectiveness, adherence to legislative intent and potential duplication or overlapping of services

- Legislature's Planning Committee (statutory reference: 50-1402), which identifies long-term issues of significance to the state and proposes legislation to address those issues

- Midwestern Higher Education Commission (statutory reference: 85-1301), an interstate organization that promotes cooperation and resource sharing in higher education and has two Nebraska state senators as members³

- State-Tribal Relations Committee (statutory reference: 50-445), which was established to foster better relationships between the federally recognized Indian tribes within Nebraska and the state

All state senators, except the speaker and members of the Appropriations Committee, serve on more than one standing committee. Members, including the speaker, may serve on any number of select or special committees.

The Lawmaking Process

When a senator decides he or she wants to change or create a law, the senator's research staff looks at possible legislative remedies to the problem. Much of the research, conducted by senators' research staff as well as a central research division, takes place between regular legislative sessions, when legislative committees study issues outlined in interim study resolutions introduced during the session.

²For more information about the Education Commission of the States, see Page 742.

³For more information about the Midwestern Higher Education Commission, see Page 743.

Once research is completed, a senator takes his or her idea to a bill drafter, who helps the senator turn the idea into the proper legal form of a bill. In Nebraska, bills may contain only one subject. Once the regular session starts each January, most bills are introduced during the session's first 10 days. To introduce a bill, a senator files it with the clerk of the Legislature, who assigns it a number, reads the bill's title into the record and authorizes copies to be printed for public and legislative use. The Legislative Fiscal Office prepares a fiscal note for each bill. The fiscal note contains estimates of the monetary effect the bill would have if it became law. The fiscal office also prepares appropriation bills, often called A-bills, which must be voted on separately and accompany bills that will cost the state money.

Except for a few technical measures, bills must receive public hearings before a legislative committee. The Reference Committee assigns each bill to the appropriate committee — usually one of the 14 standing committees. After the hearing, the committee can either take no action on the bill, kill it or send it to first-round debate — called general file — before the full Legislature.

Once bills are placed on general file, the Legislature can debate, amend and vote on them. If a bill receives majority approval (25 votes), it is advanced to second-round debate, called select file. On select file, if the bill again receives majority approval, it is advanced to a final vote, called final reading. After both general and select file votes, bills go through an enrollment and review process — often called “E & R” — in which adopted amendments are incorporated into the bill, and the entire bill is checked for technical and grammatical accuracy.

Bills on final reading are read aloud in their entirety by the clerk of the Legislature, unless three-fifths of the senators vote to dispense with the reading. Senators must be in their seats in the legislative chamber during final reading. Bills may not be amended or debated on final reading, but they can be returned to select file for specific amendment. The vote on final passage of a bill may not take place until at least five legislative days after the bill is introduced and two legislative days after it is placed on final reading. Printed copies of the bill must be available to senators for at least one legislative day before final reading.

After the Legislature passes a bill on final reading, it goes to the governor for final approval. The governor has five days, excluding Sunday, to decide the fate of the bill. If the governor signs the bill or fails to act on it, the bill becomes law. If the governor vetoes the bill, it is returned to the Legislature with the governor's objections to the bill listed. A three-fifths vote (30 votes) of the Legislature is needed to override a gubernatorial veto. The governor also may make specific reductions, or line-item vetoes, to budget bills.

Bills usually become effective three months after the Legislature adjourns. A bill may go into effect earlier if it is passed with an emergency clause attached, which takes a two-thirds majority, or 33 votes.

LEGISLATIVE COUNCIL

Statutory Reference: 50-401

Website: www.nebraskalegislature.gov

The Legislative Council, created by the 1937 Legislature, originally consisted of 16 senators. In 1949, all senators were made members of the council. The 1967 Legislature placed all services and personnel under the council. The Legislative Council considers legislative policies between sessions and carries out other duties found in Section 50-402 of state law. The council’s Executive Board represents the council in managing legislative services and staff.

In addition to the personal staff of each senator and committee staff, the council’s support offices are the Clerk of the Legislature, the Revisor of Statutes, the Legislative Fiscal Office, the Legislative Audit Division, the Legislative Research Division and the Ombudsman (Office of Public Counsel). Other staff include the Accounting and Budget Office and the Coordinator of Legislative Services.

Executive Board of the Legislative Council

Chairman: Sen. Bob Krist, Room 2010, State Capitol, P.O. Box 94604, Lincoln, NE 68509-4604, phone (402) 471-2642

Statutory Reference: 50-401.01

The Legislative Council is governed by an executive board, which supervises all legislative services and employees. By law, the board hires employees and sets salaries as needed “to carry out the intent and activities of the Legislature or the board.”

The Executive Board consists of a chairperson, a vice chairperson, the speaker and six other state senators. Board members are chosen at the beginning of each regular session in odd-numbered years and serve two-year terms. The Legislature elects the chairperson and vice chairperson at large. Two board members are chosen by caucus from each of the following groupings of districts:

- legislative districts 2, 3, 15, 16, 19, 21 to 29, 45 and 46
- legislative districts 4 to 14, 18, 20, 31, 39 and 49
- legislative districts 1, 17, 30, 32 to 38, 40 to 44, 47 and 48

The chairperson of the Appropriations Committee is a nonvoting ex officio member when the board considers fiscal matters.

STATE EXECUTIVE BRANCH¹

The executive branch of Nebraska's state government has six officers, several departments and other governmental agencies and bodies.

Executive officers authorized by the state constitution, Article IV, Section 1, are the governor, lieutenant governor, secretary of state, auditor of public accounts, treasurer and attorney general. Other elected executive officials are the members of the State Board of Education, the Board of Regents of the University of Nebraska and the Public Service Commission.

Executive officers are elected by popular vote to four-year terms, except the lieutenant governor, who is appointed by the governor as part of the election process. The governor and treasurer may serve only two consecutive terms; other executive officers may serve an unlimited number of terms.

The executive branch has departments, agencies, boards, commissions, committees, councils, authorities and other governmental bodies. Some were established in the state constitution, others were established by statute or created by executive order of the governor.

The full-fledged departments and agencies of state government are either code agencies or noncode agencies. Code agencies are subject to the governor's direct control. The directors of code agencies serve at the pleasure of the governor and are directly accountable to him or her. Noncode agencies are not subject to the governor's direct control. The offices of the lieutenant governor, secretary of state, auditor of public accounts, attorney general and treasurer are considered to be noncode agencies. Both code and noncode agencies are full-fledged agencies, meaning they have their own staff, are affiliated with no other agency and appear as distinct items in the state budget.

Editor's note: The following descriptions of state government departments, agencies, offices and other entities were compiled with help from the Governor's Policy Research Office, the Legislature's Office of the Revisor of Statutes, the Legislative Fiscal Office and the agencies and offices themselves. All statutory references in this section indicate the location in the Nebraska Constitution or the Revised Statutes of Nebraska where each governmental body was established.

According to Nebraska's constitution, the supreme executive power of the state is vested in the governor. It is the governor's duty "to take care that the laws be faithfully executed and the affairs of the state efficiently and economically administered."

The governor is the chief budget officer and must present the Legislature with a complete budget for all expenditures used in running the state's regular business. The Legislature may, by a three-fifths majority vote, appropriate more than the governor recommends for any given purpose.

By law, the governor also must:

- give information by message to the Legislature
- give accounts of all money received and spent
- appoint certain officers as required by the constitution and statutes and fill vacancies in state offices
 - serve as commander-in-chief of the national and state guards
 - sign or veto bills passed by the Legislature
 - call elections to fill vacancies for members of the U.S. Congress
 - certify notaries
 - issue requisitions for the return of accused persons to Nebraska and other states and countries
 - enforce criminal laws

The governor is the chairperson of the Board of State Canvassers and the Board of Pardons. The governor is a member of the State Records Board, Nebraska Capitol Commission, Education Commission of the States, State Board of Health, Interstate Oil and Gas Compact Commission, Nebraska Hall of Fame Commission, Nebraska Commission on Law Enforcement and Criminal Justice and other groups as provided by law.

When Nebraska was a territory, the U.S. president appointed the governor to a four-year term. The territorial governor received a \$2,500 salary.

Nebraska's first state constitution, adopted in 1866, called for the people to elect a governor to a two-year term. The governor's duties were prescribed by an act approved on June 24, 1867.

In 1962, voters approved a constitutional amendment providing that the governor

would be elected to a four-year term beginning in 1966. A 1966 general election vote provided that the governor could serve only two consecutive terms. To run for governor, a person must be a resident of Nebraska for at least five years before the election and be at least 30 years old.

The governor's salary was \$1,000 until raised by the constitution of 1875 to \$2,500. The constitution of 1920 fixed the governor's salary at \$7,500 until otherwise provided by law. The 1933 Legislature reduced the salaries of the governor and certain constitutional officers, but the Nebraska Supreme Court declared the act unconstitutional (129 Neb. 669-699). In 1947, the Legislature increased the governor's salary to \$10,000, and the 1951 Legislature raised the salary to \$11,000 effective in 1957. The delayed increase was because Article IV, Section 25 of the state constitution provided that no constitutional officer salary could be changed more than once in eight years. In 1956, a general election vote repealed this salary restriction. Lawmakers boosted the salary to \$14,000 in 1963. Since then, senators have gradually increased the salary to its current level of \$105,000.

From 1889 to 1899, the state paid the rent on a residence for the governor, except during the incumbency of Gov. Lorenzo Crouse (1893-95), who refused to accept the additional payments. In 1899, the Legislature spent \$25,000 to buy and furnish an executive mansion. Of this sum, \$21,385.30 was spent. The 1945 Legislature approved a new Georgian Colonial-style mansion to be built at a cost of \$200,000 and completed in early 1958.

By 1997, 40 years of use had taken a toll on the mansion. First Lady Diane Nelson led a fund-raising effort to restore the governor's mansion to its original condition. After renovations were completed, the mansion was reopened to the public in August 1998.

Gov. Mike Johanns and First Lady Stephanie Johanns launched a landscaping renewal project for the governor's residence grounds in November 2001. Private donations paid for most of the project. The state allocated money to make the mansion wheelchair accessible and to comply with the Americans with Disabilities Act.

First Lady Sally Ganem established the Friends of the Governors Residence in 2006, which raised funds for technology modernization projects including a virtual tour of the residence.

In August 2007, Gov. Dave Heineman and First Lady Ganem celebrated the 50th anniversary of the governor's residence by hosting a week-long celebration for Nebraskans. The anniversary was commemorated with the release of "Inspired Recipes from Nebraska," featuring favorite recipes from governors, senators and other Nebraska leaders.

In 2008, the residence was added to the National Registry of Historic Places.

Statutory Reference: 84-133

The Governor's Policy Research Office, created by the 1979 Legislature, replaced the Office of Planning and Programming, created in 1969. The office helps the governor develop and review state government policy. When needed, the office coordinates and directs multiagency programs or special programs not fitting any particular agency. The office enhances the governor's executive capability.

A small professional staff assist the governor to analyze policy options, promote executive branch cooperation and efficiency, review proposed rules and regulations, respond to public inquiries and research state and national trends. The office monitors all federal legislation that impacts state government and serves as the governor's representative to the National Governors Association. The office monitors legislative bills, coordinates legislative activities of code agencies and coordinates the development and promotion of the governor's legislative agenda.

The agency is organized on a functional basis. Advisors in assigned policy areas serve as liaisons for the governor with state and federal agencies, local political subdivisions, constituents and other public and private entities. Advisors attend legislative briefings and hearings, meetings with state senators, legislative staff, agencies and registered lobbyists representing the governor and the interests of the state. Lieutenant Governor: Mike Foley

Statutory Reference: Nebraska Constitution, Article IV, Section 1

Salary: \$75,000

The Nebraska Constitution of 1875 made the first provision for a lieutenant governor. By law, the lieutenant governor:

- presides over the Legislature
- acts as governor when the governor is out of the state or incapacitated
- becomes governor in case of a vacancy or when the governor is permanently incapacitated
- performs duties assigned by the governor

Nebraska's lieutenant governor also serves as director of homeland security for the state, chairman of the Nebraska Information Technology Commission and chairman of the Governor's Homeland Security Policy Group.

Before 1971, the office of lieutenant governor was part-time except during the biennial legislative session. When the Legislature began meeting annually, the office became full-time.

In 1962, voters approved a constitutional amendment providing that the lieutenant governor would be elected to a four-year term beginning in 1966. Before then, lieutenant governors were elected to two-year terms. From 1974 until 2002, the governor and lieutenant governor, by constitutional amendment, secured nominations at the primary election in their respective parties, then ran in the general election on one ticket from the same political party. Beginning in 2002, gubernatorial candidates choose their nominee for lieutenant governor after winning their respective parties' primary elections.

Nebraska's constitution of 1875 provided that the lieutenant governor receive twice the compensation of a state senator. The lieutenant governor's salary advanced from \$6 per day during the session of the 1875 Legislature to \$7,500 per year in 1969. The lieutenant governor's salary was increased to \$25,000 per year in 1975, to \$32,000 in 1979, to \$40,000 in 1987, to \$47,000 in 1991, to \$60,000 in 2003 and to \$75,000 in 2006.

Salary: \$85,000

Publications: Nebraska Constitution, Canvassing Board Report, State Election Law Manual

The Office of the Secretary of State dates to 1854, when the first territorial secretary was appointed. In 1964, voters approved a constitutional amendment changing the term of the secretary of state from two years to four years beginning with the 1966 general election.

Since its beginning, the office has functioned as a filing office and repository of official state records. Over time, the office has acquired numerous other duties. The office oversees the following areas: elections, business registry services, occupational licensing, state agency rules and regulations, records management and international relations.

The secretary of state serves as the state's chief election officer. Working with election officials in the state's 93 counties, the office's Elections Division oversees election law, the conduct of elections in the state, election tabulation equipment and the state voter registration system. The division accepts candidate filings and tabulates results for statewide, legislative, judicial retention and certain district elections. The division oversees filings for statewide initiative and referendum petitions.

The secretary of state's office actively promotes election law reform, voter education and voter turnout. The office reaches over 100,000 students in every statewide election year through various programs designed to teach the practices of good citizenship, such as voting and community service. The office sponsors Nebraska Student Vote, Honor a Veteran and Youth Election Services. The office also promotes voter registration and voting at Nebraska college campuses and participates in Cornhusker Boys State.

The office's Business Services Division provides several important functions for businesses in the state. Registrations are recorded for corporations, limited liability companies, limited partnerships, limited liability partnerships, trade names and trademarks. The division is the repository of Uniform Commercial Code, agriculture-related and other security interest filings. The division regulates notary public commissions and handles apostilles and authentications (documents going to other countries). The office also has launched 35 online services to ease access to record keeping and banking for entities doing business in Nebraska.

The office's Licensing Division protects the public interest by licensing or registering several occupations. The division oversees collection agencies, debt management agencies, credit services organizations, private detectives, truth and deception examiners, athlete agents and nonrecourse civil litigation funding companies.

The office maintains the Nebraska Administrative Code. The office is responsible for the filing and certification of state agency rules and regulations, and making them available for public inspection.

The secretary of state serves as the state records administrator. The office's Records Management Division assists state and local government agencies in managing the creation, use, storage and disposal of records in an efficient and economical manner. The division provides services and does consulting for government agencies. Services include the storage of state records and the conversion of records into different formats for storage. The division facilitates and publishes the creation and update of records retention and disposition schedules for all Nebraska government entities.

The secretary of state also serves as the state's chief protocol officer for international relations. In that role, the secretary serves as a goodwill ambassador and promotes commerce, educational studies and cultural exchanges between Nebraska and the world. The office has hosted five diplomatic conferences where diplomats have come to Nebraska to learn about the state, and two foreign affairs symposiums to discuss Nebraska trade practices. The office also cooperates with the Nebraska Department of Agriculture and the Nebraska Department of Economic Development on additional trade and protocol events.

The secretary of state is the official keeper of the Great Seal of the State of Nebraska, affixing it to official government documents to validate them. The office is the repository for all public acts, laws and resolutions passed by the Legislature, and bonds and oaths of state elected and appointed officers.

Salary: \$95,000

The attorney general is the state's chief law officer, with duties authorized by the state constitution, statutory enactments and the common law.

The attorney general has been a constitutional officer since 1875. A 1919 legislative act created the Department of Justice to be administered by the attorney general. This department has "general control and supervision of all actions and legal proceedings in which the State of Nebraska may be a party or be interested, and has charge and control of all legal business of all departments and bureaus of the state, or of any office thereof, which requires the services of attorney or counsel in order to protect interests of the state."

The attorney general has the same powers and prerogatives in each county as county attorneys do. Nearly 400 statutes direct the attorney general to perform duties. The attorney general:

- appears in court to defend actions and claims against the state
- consults with and advises county attorneys, upon their request, in criminal and public revenue matters
- writes opinions, without a fee, upon questions of law submitted to the office by the governor, by the head of any executive department, or by any state senator
- prosecutes or defends the state, at the request of the governor or the head of any executive department, in all actions and proceedings, civil or criminal, relating to matters of their departments
- ensures that various state funds receive the money the Legislature has appropriated to them and prosecutes the misuse of such funds
- prepares, when requested by the governor or other executive officers, proper drafts for contracts, forms or other writings for state use
- appears for the state and prosecutes and defends all actions and proceedings, civil or criminal, in the Supreme Court in which the state is interested or a party, and when requested by the governor
- appears for the state by request of the governor or the Legislature to prosecute or defend any action, or conduct any investigation, in which the state is interested or a party, before any court, officer, board, tribunal or commission
- administers the State Tort Claims Act and advises the State Claims Board
- advises and represents state agencies, boards, commissions and officials
- administers a Child Protection Division to assist county attorneys in the preparation of cases involving crimes against children

- investigates complaints of consumer fraud and antitrust activities
- files proceedings to test the constitutionality of any legislative act that in the attorney general’s opinion is unconstitutional
 - compels any state government agency charged with implementing a legislative act to implement the act if it fails or refuses to do so
 - reviews records to determine whether they may be withheld from public inspection pursuant to public record statutes
 - consults with the secretary of state to administer election laws
 - enforces healthcare professional licensing provisions
 - represents the state in criminal appeals and habeas corpus proceedings
 - administers a drug and violent crime prosecution unit to assist local prosecutors
 - represents the state in workers’ compensation and eminent domain proceedings

The attorney general is a member of the Board of State Canvassers, Board of Pardons, State Records Board and Nebraska Commission on Law Enforcement and Criminal Justice.

In 1964, voters approved a constitutional amendment changing the term of the attorney general from two years to four years beginning with the 1966 general election.

The Department of Justice is organized into five main bureaus: the Agriculture, Environment and Natural Resources Bureau; the Civil Litigation Bureau, which includes the General Litigation and Inmate Litigation sections; the Criminal Bureau, which includes the Criminal Appeals and Prosecution sections; the Legal Services Bureau, which includes the Legal Services and Department of Roads sections; and the Public Protection Bureau, which includes the Consumer Protection Division and the Medicaid Fraud and Patient Abuse Unit.

The role of the Materiel Division was established by the 1969 Legislature, which gave the division its responsibility as state purchasing agent. Division offices for surplus property, purchasing and general services (later known as office services) were created. The division was given control of state inventories in 1974.

The division was given authority to obtain leases of articles — including real property — for state agencies in 1975. Leasing of real property was transferred to the State Building Division by the 1992 Legislature for the purpose of consolidating state building leases.

In 1977, the Nebraska Supreme Court ruled that the division's central purchasing and disposal program for property did not apply to the University of Nebraska Board of Regents or the university.

The 1981 Legislature created a forms management center under the division responsible for the form and content of state agency forms, surveys and other documents. In 1983, the office was eliminated and its responsibilities delegated to the agency level.

Printing of state documents before 1919 was established by various acts that had state executive officers as the head of the Bureau of Printing board. Purchasing agent responsibilities were expanded in 1919 to include the Bureau of Printing, which is now known as the State Print Shop.

In 1943, the Legislature made the purchasing agent a governor-appointed position and gave the agent administrative powers over the state's central mailing service. A postage metering machine was installed, and since July 1, 1943, all official outgoing mail from the State Capitol, and later from the Nebraska State Office Building, has been metered and dispatched by this central mailing service. The central mail operation is responsible for transporting material, tracking shipments and making freight claims.

The State Purchasing Bureau buys articles needed by state agencies, except the University of Nebraska. The 1947 Legislature gave the agent authority to buy and sell state surplus property. The State Surplus Property section is responsible for disposing the state's surplus property and maintaining inventory records.

The 1965 Legislature transferred this agency from the state tax commissioner to Administrative Services as the Purchasing Division. The Legislature gave the agent jurisdiction over state university and normal schools' purchasing departments. These

functions then transferred to the newly created Materiel Division in 1965.

The Copy Services area purchases and places copier requirements.

The 1992 Legislature transferred the responsibility of the State Government Recycling Program from the Energy Office to the Materiel Division.

The Office Supply Bureau provides agencies with office supplies, paper and forms.

Director: Greg Ibach

Assistant Director: Bobbie Kriz-Wickham

Statutory Reference: 81-101

The Nebraska Department of Agriculture regulates and works as an advocate for agriculture.

The department was one of six administrative departments created by the Civil Administrative Code Law of 1919. The department was divided into the Bureau of Animal Industry; Bureau of Food, Drugs and Oil; Bureau of Markets and Marketing; Division of Game and Fish; and Clerical and Records Division. In 1933, the department's name was changed to the Department of Agriculture and Inspection. In 1963, it became the Department of Agriculture and Economic Development. In 1967, it became the Department of Agriculture.

The department's duties and organization have changed significantly since 1919. The Division of Game and Fish separated from the department in 1929, and drug inspection was removed in 1941. Licensing of itinerant merchants was removed in 1955.

Many regulatory functions were added to the department's duties. Besides original laws providing for the inspection of all petroleum sold within the state, collection of state gasoline and special fuel taxes was added in 1941, as well as petroleum transport truck regulation and licensing and administration of the Agricultural Refund Law. (Petroleum transport truck regulation and licensing and the Agricultural Refund Law are no longer under the department's jurisdiction.) Licensing of livestock sale rings and frozen food lockers also were added. In 1945, the Division of Potato Development became part of the department.

The 1947 Legislature added the Cigarette Tax Division and the Nebraska Resources Division to the department. It also called for slaughterhouse inspection and antifreeze testing.

The 1955 Legislature added the Oil and Gas Severance Tax Division. The Division of Wheat Development, Utilization and Marketing also was added in 1955, but it later became an agency of its own.

The 1957 Legislature created the Weather Control Commission and assigned its administrative functions to the department.

In 1961, the Legislature created the Auction Livestock Market Board to help administer the auction market licensing law. Corrective legislation in 1963 made several changes, including changing the name to the Livestock Auction Market Board.

In 1965, the Legislature removed petroleum tax collection and inspection and the cigarette and oil severance tax collections from the department.

Also in 1965, the Legislature established the Division of Dairy Trade Practices (no longer a part of the department) and created a predatory animal control program. It authorized the director of agriculture to participate in a rural rehabilitation educational program to help needy farm and ranch youth with education beyond high school.

The 1967 Legislature removed the Resources Division and its role in economic development from the Department of Agriculture and created a new Department of Economic Development. The Legislature also transferred tractor permit and enforcement responsibility from the Railway Commission to the Department of Agriculture.

In 1982, the Legislature discontinued the Weather Control Commission and directed the Department of Agriculture to assume the commission's duties.

In 1988, the Legislature passed the Farm Mediation Act to give agricultural borrowers and lenders a way to resolve financial disputes without litigation. The governor designated the Department of Agriculture to administer the act.

In 1993, the Legislature passed the Nebraska Pesticide Act. This legislation gave the department authority to regulate pesticides in Nebraska.

In 1996, the Legislature repealed the weather modification laws and declared that after Jan. 1, 1997, no new weather control districts could be formed.

In 1998, the Legislature repealed the laws relating to weather control districts and gave natural resources districts the authority to establish weather modification programs. Also in 1998, the Legislature enacted the Buffer Strip Act, which provided incentives to landowners to establish buffer strips on certain types of lands to help reduce the levels of sediment, crop nutrients and pesticides being introduced into surface water resources.

In 1999, the Bureau of Animal Industry was given the authority to establish a more comprehensive Domesticated Cervine Animal Act. That year, the Beginning Farmer Tax Credit Act, directed and developed by the Beginning Farmer Board, also was created to strengthen and share resources between new and established producers.

The Commercial Dog and Cat Operation Inspection Act and the Agricultural Opportunities and Value-Added Partnerships Act were enacted in 2000.

In 2002, the Legislature passed the Agricultural Suppliers Lease Protection Act. The act established a system for resolution of lease disputes arising between railroad property owners and agribusiness tenants and guard against unreasonable lease renewal terms or unjust lease termination.

In 2003, the Legislature enacted a disease control and eradication program for scrapie in sheep. The Legislature also passed a law authorizing the director of agriculture to establish a process to recognize and assist efforts by counties to maintain or expand their livestock sectors. The director is authorized to designate a county as a livestock friendly county.

In 2005, the Legislature re-enacted the Agricultural Opportunities Value-Added Partnerships Act with the Department of Agriculture providing assistance to the Department of Economic Development in administering the act.

The 2006 Legislature enacted a law to regulate exotic animal auctions and swap meets and expanded the Nebraska Poultry Disease Control Act relating to avian influenza in poultry.

In 2007, the Legislature amended the Commercial Dog and Cat Operator Inspection Act by adding additional requirements and enforcement powers, provided for mediation of fence disputes by the farm mediation service when the adjoining land is utilized as agricultural or horticultural land, adopted a new Bovine Tuberculosis Act and changed

the Nebraska Brand Committee to include the Director of Agriculture or his or her designee an ex-officio member. The Legislature also required the Department of Agriculture, for promotion purposes, to collect an excise tax on grapes sold or delivered in Nebraska, established the Riparian Vegetation Management Task Force relating to vegetation management and treatment with the Department of Agriculture providing administrative assistance, and authorized the Department of Agriculture to award grants for management of vegetation to improve streamflow in natural streams.

The 2008 Legislature adopted the Food Supply Animal Veterinarian Incentive Program Act to encourage veterinarians to locate in rural Nebraska and practice food supply animal veterinarian medicine.

In 2009, the Legislature extended the Riparian Vegetation Management Task Force's responsibilities for four more years to June 30, 2013. In addition, the Legislature adopted a new Anthrax Control Act.

The 2010 Legislature expanded the Pesticide Act to include licensing of the aerial pesticide applicator business. In addition, the Legislature repealed assessment of an excise tax on corn and grain sorghum to be used for water resources purposes for the period of Oct. 1, 2012 through Sept. 30, 2019.

In 2011, the Legislature repealed the Agricultural Opportunities and Value-Added Partnerships Act. In addition, the Legislature required the Department of Agriculture to adopt a standard for all honey produced by honey bees. The department also was required to provide a report by Nov. 15, 2011 on actions necessary to implement a state meat and poultry inspection program. The Legislature also eliminated the Nebraska Railway Council, on which a representative of the department served as a member.

In 2012, the Legislature created the Nebraska Invasive Species Council, which includes a representative of the Department of Agriculture.

In 2013, the Legislature eliminated the Livestock Auction Market Board. In addition, the Legislature imposed notification and testing requirements in relation to bovine trichomoniasis in beef or dairy breeding bulls and imposed restrictions on sales or transportation of bulls having a laboratory confirmation of this disease. The Legislature also extended the Riparian Vegetation Management Task Force's authority to June 30, 2015.

The Legislature in 2014 enacted the Exotic Animal Auction or Exchange Venue Act, establishing new requirements on sales of exotic animals and organizers of such events. The Legislature also required the department to provide a report on the dairy industry in Nebraska. Legislation was enacted allowing the growth and cultivation of industrial hemp for research purposes under set parameters and providing the department authority to adopt regulations.

With the 2013-2015 budget, the Legislature approved an agency realignment of the Nebraska Department of Agriculture. This realignment consisted of combining the agency's nine divisions into four focus areas, as follows: Administration and Laboratory are now in the Administration - Shared Services Focus Area; Ag Promotion and Development, Poultry and Egg Development, Utilization and Marketing and Potato Development are now included in the Ag Promotion and Development Focus Area; the Bureau of Animal Industry and the Bureau of Plant Industry are now included in the Animal and Plant Health Protection Focus Area; and the Bureau of Dairies and

Foods and the Bureau of Weights and Measures are now included in the Food Safety and Consumer Protection Focus Area.

Agriculture Laboratories

Contact Person: Dirk Shoemaker, Administrator, 3703 S. 14th St., Lincoln, NE 68502, phone (402) 471-2176, email address — dirk.shoemaker@nebraska.gov

In 1967, the Department of Agriculture Laboratory was removed from the Bureau of Dairies, Foods and Drugs and given independent division status. Another reorganization in 1975 incorporated the Livestock Disease Control Laboratory and the Seed Laboratory into the Laboratory Division. In 1999, these two sections were combined into one laboratory. The laboratories are known collectively as the Department of Agriculture Laboratories. In 2004, the Livestock Disease Control Laboratory was closed. Brucellosis, the main pathogen tested in this section, was eradicated from Nebraska in 1995. Sample numbers have decreased substantially since that time. Those desiring a brucellosis test now send samples out of state.

In 2007, the Seed Laboratory merged with the Nebraska Crop Improvement Association (NCIA) and testing functions now take place at the NCIA laboratory at 267 Plant Science Hall.

The laboratory serves several department focus areas by performing chemical, physical, bacteriological, microscopical and serological analyses. These are used to evaluate foods, beverages, feeds, fertilizers, agricultural lime, seeds, dairy products and environmental samples.

The major divisions of the Agriculture Laboratories are as follows:

Dairies and Foods Laboratory. This laboratory is required to test Grade A milk and milk products and manufacturing milk and milk products. Samples are analyzed for bacteria, somatic cell count, drug residues, proper pasteurization and other parameters.

In addition, water from dairy operations and plants is tested for certain microbiological parameters.

Other food products are analyzed to see if they meet federal laws and manufacturers' label statements. These foods can be analyzed for such things as sodium, fat, cholesterol, dietary fiber, sugars, vitamins, pesticides and pathogenic and nonpathogenic bacteria, along with other parameters. This laboratory also tests foods submitted by the Health and Human Services' State Epidemiologist and other health organizations when a food-borne illness outbreak or bioterrorist act is suspected. The laboratory also is part of the Food Emergency Response Network, a national network of laboratories that maintain homeland security readiness.

Feed, Fertilizer and Agricultural Lime Laboratory. Feeds are analyzed to verify the accuracy of a manufacturer's guarantees. Adulterations, such as drug residues and mycotoxins, are analyzed as needed. Fertilizers are analyzed to see if they match the manufacturer's declared percentage of primary and secondary plant nutrients. Testing for adulterants also is performed when needed. Agricultural lime samples are tested and compared for fineness and effective calcium carbonate equivalence. Animal feed products also are tested for prohibited materials, those feed ingredients not allowed to be placed in feed destined for bovine animals. This testing is done to prevent Bovine Spongiform Encephalopathy (BSE).

Seed Laboratory. The Nebraska Seed Law requires a seed laboratory to perform tests for purity, germination and noxious weeds and other tests as required on agricultural, vegetable, flower and wildflower seed. Wild bird food samples are analyzed for noxious weeds. Staff perform tests on "official" samples, those submitted by department staff, for regulatory purposes. They also perform analysis of "service" samples brought to the laboratory by citizens and seed companies.

Residue Laboratory. Milk and associated products and food products are tested for pesticide residues for the Food Safety and Consumer Protection Focus Area. Feed and grain samples are tested for pesticide contaminants. The laboratory also is part of the Food Emergency Response Network.

Analytical work is performed by the laboratories for other state, federal and local agencies on a limited basis under a program established by law in 2005. The Nebraska Soil and Plant Laboratory Analysis Act is administered and enforced by the laboratory.

Ag Promotion and Development (AP&D) Focus Area staff members work to develop markets by coordinating efforts with farmers and ranchers, ag organizations, university and research institutions, other state and national agencies and private businesses. Through various programs and outreach, AP&D strives to create opportunities for ag-related development and profitability. Such efforts include:

- researching and fostering opportunities for marketing a variety of Nebraska

agricultural products, as well as disseminating information of importance to the agricultural industry in the state

- assisting with international trade by assessing market potential, connecting buyers and sellers, helping host trade teams and other promotional efforts and assisting companies with import problems at the point of entry
- marketing ag-based products in free online directories that provide consumers with access to information about a variety of Nebraska-based businesses, including fresh produce growers, feedlots, food and meat companies, agri-tourism sites, hay producers and Christmas tree growers
- fostering special initiatives, including the Beginning Farmer and Program, the Farm Mediation Program, the Livestock Friendly County Program and the Nebraska Our Best to You Program

In addition, AP&D coordinates several federal grants that help expand marketing opportunities, particularly for specialty crop and organic growers. These programs include the Organic Certification Cost-Share Program, the Specialty Crop Block Grant Program, and the Senior Farmers’ Market and Women, Infants and Children Farmers’ Market Nutrition programs.

The focus area also is responsible for oversight of the poultry and egg checkoff program and the potato checkoff program.

The 2000 Legislature created the Nebraska Grape and Winery Board to create programs that develop and advance the state’s grape and wine industry. These programs provide grape producers and winery owners with the resources to learn how to grow, sell, market and promote their grape and wine products.

The board consists of five members appointed by the governor on a non-partisan basis. Board members must be Nebraska residents who are at least 21 years old and either engaged in or previously engaged in wine or grape production or research in this state. At least two board members must be members of the Nebraska Winery and Grape Growers Association. In addition, the state director of agriculture or his or her designee and the vice chancellor of the University of Nebraska Institute of Agriculture and Natural Resources or his or her designee serve as nonvoting ex officio members.

Since 1988, the Farm Mediation Service has assisted Nebraska landowners, farmers, ranchers, agricultural lenders and state and federal Department of Agriculture agencies in resolving disputes in a confidential and nonadversarial setting outside the traditional legal system. A mediation may be requested by a Nebraska agricultural landowner concerning a property fence dispute, a Nebraska agricultural borrower or creditor concerning an agricultural credit issue or a Nebraska producer concerning an adverse decision given them by a USDA agency.

Mediation is a process in which a neutral third party facilitates discussion between a farmer or rancher and the other party in a dispute. The mediation process identifies issues, develops possible solutions and works out a mutual agreement. Prior to mediation, both parties are offered no-cost education at individual sessions to learn about the mediation process, farm law and financial options that are available to them. A personal financial analysis and preparation for mediation also is offered at no cost to aid in developing options.

The Beginning Farmer Tax Credit Act was passed by the Legislature in 1999 and amended in 2000, 2006, 2008 and 2009. This act provides a personal property tax exemption for a beginning farmer who applies for and receives a Beginning Farmer Eligibility Certificate. The act also provides a tax credit for owners of agricultural assets such as land, machinery and livestock facilities as an incentive to rent their assets to a beginning farmer who has met specific eligibility requirements.

All beginning farmers who meet the eligibility guidelines of the Beginning Farmer Tax Credit Act may apply for the personal property tax exemption. An eligibility certificate is sent upon receipt of an eligible application. This may be presented to their county assessor for acceptance and approval of a personal property tax exemption of up to \$100,000 valuation of their agricultural machinery.

The owner of agricultural assets receives a refundable tax credit equal to 10 percent of the cash rent paid by the beginning farmer or 15 percent of the owner's gross receipts resulting from a share crop rental agreement with the beginning farmer. The owner is encouraged to become a mentor and share his or her expertise with the beginning farmer. The beginning farmer attends a financial management class to ensure his or her knowledge of farm records management and participates in other board-sponsored activities.

The board of directors is appointed by the governor and develops and directs the programs, approves and certifies the participants and advocates for the farmers as part of their duties.

The Nebraska Agricultural Youth Institute (NAYI) is a five-day summer conference designed to introduce high school juniors and seniors to agricultural issues, leadership skills and career opportunities. NAYI is held in July and is organized by the Nebraska Agricultural Youth Council (NAYC) through the Department of Agriculture. Other NAYC projects include ag week promotion, elementary school visits and the Urban Youth Farm Tour.

The Potato Development Program was established as part of the Department of Agriculture by the 1945 Legislature. Under the guidance of the Potato Development Committee, the program contracts with universities for research activities and conducts market promotion and development activities for potatoes for food and seed.

The 1969 Legislature updated a statute calling for a potato inspection grading service. As a service to the potato industry, the program helps the Potato Certification Association of Nebraska conduct an inspection program on Nebraska-certified seed potatoes. In addition, the division provides potato grading services, which are funded by user fees, as requested.

The division's activities are paid for by a tax on Nebraska-grown potatoes. The tax, originally one-half cent per 100 pounds, currently is 1 cent per 100 pounds. The tax is collected from licensed potato shippers. Any shipper selling at least 180,000 pounds of potatoes a year (including growers not selling through licensed shippers) is defined as a shipper for tax purposes.

Nebraska Potato Development Committee

Statutory Reference: 2-1803

The Nebraska Potato Development Committee provides rules, regulations and guidance for the Potato Development Program. The committee advises the director of agriculture on appointing the program head and his or her deputies, if needed.

The committee consists of three potato shippers and four potato growers, appointed by the governor for two-year terms; the director of agriculture, who serves as chairperson; and the vice chancellor of the University of Nebraska Institute of Agriculture and Natural Resources, as an ex officio member.

The committee meets at least two times a year. Members are not paid but are reimbursed for their expenses.

In 2013, the Nebraska Department of Agriculture combined two previously separate divisions into one focus area – combining the Bureau of Plant Industry and the Bureau of Animal Industry to create the Animal and Plant Health Protection (APH) Focus Area.

Livestock health was first vested in a Livestock Sanitary Board created in 1885 that consisted of a three-member, governor-appointed commission and a state veterinary surgeon. The 1901 Legislature repealed the 1885 act and made the governor the state veterinarian with power to appoint a deputy to perform the work of the office. In 1913, power was given to a five-member board with the governor as state veterinarian. The 1919 Legislature created the Bureau of Animal Industry as part of the new Department of Agriculture, with the state veterinarian in charge of the bureau. The state veterinarian

continues to oversee livestock programming duties under the current APHP Focus Area, which includes the control and eradication of diseases that affect Nebraska livestock.

The ongoing work of the animal health protection programming sector of the APHP Focus Area includes regulation of health requirements for animals imported into, or moving within, the state. Animal movement is one of the primary surveillance functions of this area. In conjunction with our state's import program, which collects animal movement data, the focus area also works with the federal animal identification system.

Licensing programs within the animal programming sector of APHP includes annual licensing and inspection processes for livestock dealers, livestock markets, rendering facilities and pet food facilities.

The department collaborates with the U.S. Department of Agriculture to control and eradicate livestock diseases, federally referred to as "program diseases," such as brucellosis, tuberculosis, pseudorabies, scrapie, chronic wasting disease, swine enteric coronavirus disease, equine infectious anemia, avian influenza, equine piroplasmosis and salmonella pullorum.

The animal programs for APHP also are charged with implementing licensing programs for domesticated cervine animal facilities and commercial dog and cat facilities. Homeland security efforts through outreach activities on production biosecurity, management practices, foreign animal disease education and participation in emergency response activities are supported in the agency. These functions also address production food safety issues at different levels from production to slaughter.

Focus area veterinarians serve as consultants for practicing veterinarians in Nebraska on matters such as emerging disease issues, federal and state regulatory requirements, emergency response and auction market work. They also record and monitor animal health issues related to exotic animal auctions and swap meets.

Plant health protection programming areas consist of the following programs: plant certification and inspection; feed, fertilizer and agricultural lime; pesticides; entomology; noxious weed control; and seed.

The focus area administers the apiary, plant protection and plant pest, commercial feed, commercial fertilizer and soil conditioner, agricultural liming materials, pesticide and seed and noxious weed control laws.

The export certification program helps facilitate the export of plants and plant products by inspecting and certifying shipments for interstate and international markets. This program also helps facilitate the shipment of corn, sorghum, broom corn and sudan grass grains to areas with a European corn borer quarantine in effect.

The feed, fertilizer and agricultural lime program has a staff of field inspectors who sample commercial and custom-mixed feeds, fertilizers and agricultural liming materials to assure customers that products meet label guarantees. Samples are submitted to the Nebraska Agricultural Laboratory, where they are analyzed and compared to label guarantees. The inspectors also routinely inspect firms that handle these products to make certain the firms are using good manufacturing practices in their operations.

The focus area also has developed a program to prevent the introduction and spread of BSE, also known as "mad cow disease." Inspections are performed and feeds are tested to make certain that prohibited materials, including meat and bone meal derived

from ruminants, are not being fed to ruminant animals. An outreach program also has been developed to provide information to the public on what can be done to prevent the introduction of BSE.

The entomology program is responsible for preventing harmful plant pests from being introduced and becoming established in Nebraska. This is accomplished by conducting statewide detection surveys for plant pests, inspecting plant material and educating industry on exotic and invasive plant pest issues.

The pesticide program regulates the distribution, use, storage, application and disposal of pesticides. Under a cooperative agreement with the U.S. Environmental Protection Agency, the program enforces provisions of the Federal Insecticide, Fungicide and Rodenticide Act. Programs are developed to implement various provisions of this act that deal with endangered species, worker protection and groundwater.

The 1998 Legislature passed the Nebraska Buffer Strip Act. The intent of the act was to develop a program providing incentives to landowners who establish buffer strips on certain types of lands to reduce the levels of sediment, crop nutrients and pesticides being introduced into surface water resources. Landowners who desire to participate in the buffer strip program are eligible to receive payments of up to \$250 per acre for up to 10 years. Landowners whose lands are accepted into the program are required to enter into agreements with their natural resources districts. This includes agreeing to maintain the lands according to the contact requirements.

The seed program provides for the collection of samples of agricultural seeds, lawn grass seed and vegetable seed. Samples collected are submitted to the Nebraska Agriculture Laboratory, where tests for purity, germination, content of noxious weed seed and other special tests are performed.

The noxious weed program protects Nebraskans from the threat posed by noxious weeds. The director of agriculture designates which plants are considered noxious and determines what control measures to use. The inspection staff evaluates county noxious weed programs, conducts annual county noxious weed surveys and responds to reports of uncontrolled noxious weed infestations. The program provides assistance to county weed control programs when training is needed for county weed superintendents.

Wildlife Services (Animal Damage Control)

The Nebraska Department of Agriculture has a contractual agreement with the U.S. Department of Agriculture's Wildlife Services (formerly Animal Damage Control) to carry out wildlife services in Nebraska.⁴

Wildlife Services provides operational and educational help to requesting landowners and public or private agencies within participating counties to control predatory mammals, field rodents, commensal rodents and birds.

Wildlife Services helps farmers and ranchers protect livestock from predatory animals. Services are provided to municipalities needing assistance with nuisance situations. One example would be the removal of large birds near airports if the birds present safety concerns for aircraft.

⁴For more information about U.S. Wildlife Services, see Page 98.

Market News

Market News is a cooperative effort with USDA Market News Service to expand livestock auction feeder cattle market price reporting at a comparable level to surrounding states. Eleven additional markets were added as a result of this agreement.

Food regulation in Nebraska began in 1899 with the creation of a Food Commission. In 1907, the commission became the Food, Dairy and Drug Commission. The duties of oil inspector, first established in 1887, were added to the commission in 1913. The governor was the commissioner and appointed a deputy, a state chemist and other employees.

The duties of the defunct Hotel Commission were added by the 1917 Legislature. This involved regulation of hotels, rooming houses, apartments and restaurants.

In 1937, the Legislature changed the bureau's name to the Bureau of Dairies, Foods and Drugs when a law concerning milk and cream testing was rewritten. Drug regulation was vested with the Department of Health in 1941.

The bureau enforced bingo laws from 1959 to 1965 after the 1959 Legislature legalized the game. Bingo law regulation was then transferred to the state tax commissioner's office.

The Department of Agriculture was reorganized by the director in 1967 to transfer administration of feed, fertilizer and poison laws to the Bureau of Plant Industry. Administration of livestock remedies law was transferred to the Bureau of Animal Industry. Also, the department laboratory was given division status.

In 1967, the Legislature passed the Nebraska Egg Law, which set standards for eggs consistent with those established by the U.S. Department of Agriculture. The act was paid for by a license fee and an inspection fee based on the volume of eggs handled. The law was updated in 1969 with a new licensing and inspection fee schedule. The 1969 act further required mandatory coding and dating of consumer packages of eggs.

In 1981, all previous food laws, with the exception of the Graded Egg Act, were repealed by the Legislature and replaced by the Nebraska Pure Food Act.

Except for earlier laws covering the grading of eggs, the duties of the Bureau of Dairies and Foods were established by the Nebraska Pure Food Act, last revised in 2012, which regulates commercial food in Nebraska. The types of establishments licensed and inspected include restaurants, taverns, grocery stores, bakeries, food processors, food storage establishments, mobile food units and push carts, vending, temporary food establishments, salvage distributors, salvage processing plants and itinerant food vendors.

In 2007, legislation combined the Manufacturing Milk Act and the Grade A Milk

Law into one, which is now known as the Nebraska Milk Act. The act retains the farm requirements for manufacturing farms, but makes milk processing and various other requirements equivalent to those found in the FDA/PHS Pasteurized Milk Ordinance. In addition, the law modified permit fees and the way inspection fees are calculated. This change is more equitable, spreads costs to all of the industry and provides some flexibility to raise or lower fees as necessary to maintain the program.

In 2013, Nebraska law was brought in line with federal requirements that enable the industry to ship milk and milk products through interstate commerce.

The FSCP contains the Weights and Measures Program, formerly the Weights and Measures Division. When the Department of Agriculture was created in 1919, the Division of Weights and Measures became part of the Bureau of Markets and Marketing. The division checked commercial weighing and measuring devices for statewide accuracy. Though packaged products were not widely used, the division monitored the products for accurate quantity and continues to do so today. Prepackaging now is common with the variety of packaged commodities numbering in the millions.

In the mid-1940s, the division became part of the Bureau of Dairies and Foods, where it remained until 1972. The division's activities were sporadic and were conducted by the Bureau of Dairies and Foods and the Bureau of Plant Industry. In 1970, staff members were hired specifically for weights. In 1971, the Nebraska Standards Laboratory was created with the capability of making precise calibrations of standards of mass, length and volume.

After a new weights and measures law was passed in 1972, inspection duties were given to one section for administration. In 1974, the Weights and Measures Division became a division within the Department of Agriculture. That same year, a regulation for the Voluntary Registration of Service Agencies and Servicemen for Commercial Weighing and Measuring Devices was adopted, as well as a regulation pertaining to requirements for pit scales that set minimum standards for construction. In 1982, the pit regulations were updated, and regulations were added regarding pitless-type scale installations. In 1991, the regulations again were updated to recognize advancements in technology and require only weighing and measuring devices that hold a national-type evaluation program certificate of conformance to be used in commerce.

The current Weights and Measures Program protects the integrity of commercial measurements through certification of weighing and measuring equipment, evaluations of net quantity and pricing representations of packaged commodities and by ensuring that marketing practices provide the ability to make price and quantity comparisons.

The program annually inspects over 36,000 commercial weighing and measuring devices including railroad track and supermarket point of sale scales, meters used to measure bulk deliveries of refined fuels, liquefied petroleum gases and fuel pumps at service stations and convenience stores. In addition, the program annually conducts over 75,000 random inspections of packaged commodities to verify that these packages contain the net quantity represented by the packer.

The Weights and Measures Program is a member of and actively participates in the National Conference on Weights and Measures and the Central Weights and Measures Association.

The Business Development Division's ultimate goal is to expand job opportunities in Nebraska by attracting new business and industry, while encouraging expansion of existing industry. The division helps Nebraska communities seek new business and industry through national and international advertising, direct mail, personal calls to prospective industries and participation in trade shows of targeted industries and special events.

Promotional literature stresses the advantages of locating and expanding new businesses and industries in Nebraska. These advantages include performance-based tax incentives, the state's central location, a productive work force, reliable transportation, a generally positive business climate and low-cost, abundant energy.

Existing business assistance provides direct services, including human resource development, business financing, help in enhancing productivity, market diversification and export assistance. It also serves as a clearinghouse for referrals to other sources, such as the Nebraska Business Development Centers and the Nebraska Manufacturing Extension Partnership.

Staff coordinate labor training with industrial location and expansion through advertising, screening assessment, referral, pre-employment, on-the-job training and post-employment training for hourly employees.

Business finance consultants identify and structure financial resources to meet the needs of new and expanding businesses.

The division's One-Stop Business Assistance Center improves businesses' access to state government and reduces government's response time to business needs. The center provides information on regulations, licenses, state and federal requirements, economic development programs and assistance with marketing, business and financing research.

The Community and Rural Development Division helps communities build development capacity and provides programs and services for housing and community development.

The division has financial and technical assistance for community and economic

development. Financial resources come from the Community Development Block Grant Program, the HOME Investment Partnerships Program, the Nebraska Affordable Housing Trust Fund and the Nebraska Microenterprise Development Program.

Community Development Block Grant awards are made to communities for economic development and community development activities. Community development grants spur local economic development by funding projects that maintain or expand needed public facilities and adequate housing. They also expand the state's economic base by helping businesses bring new income into — and prevent income from leaving — the state.

The HOME funds provide another source for community and economic development. Through the Technical Assistance Review Team, which is composed of private and public housing partners, communities in need of affordable housing may apply for funds and receive valuable technical assistance and funding for their projects.

The Nebraska Affordable Housing Trust Fund serves as a source of affordable housing funding for the state.

The division's efforts in community betterment include the Community Development Assistance Act, which empowers the department to distribute a 40 percent state tax credit to businesses, corporations, insurance firms or financial institutions that make eligible contributions of cash, services or materials to approved community betterment projects.

The Housing and Community Development Consolidated Plan, which is the comprehensive plan that identifies the state's needs in housing, homelessness, and community and economic development, is developed every five years. The Consolidated Plan is revised and reviewed annually in the Annual Performance Report. Both are available from the department.

The division also manages the Nebraska Commission on Housing and Homelessness. The commission is committed to developing housing and policies that foster the creation and preservation of affordable housing for all Nebraskans.

Director: David L. Bracht

Statutory Reference: 81-1601

The office was originally created by executive order in November 1973 as the Fuel Allocation Office within the Department of Revenue. From 1977 to 1987, the Energy Office operated as a separate code agency with a stipulation in its authorizing legislation that the office could be moved into another agency by executive order. In 1987, the Energy Office became a division of the Policy Research Office by executive order. In 1991, both the Energy Office and the Policy Research Office became divisions of the Governor's Office. On July 1, 2008, the governor elevated the Energy Office to a cabinet level code agency and appointed its director.

The vision of the Nebraska Energy Office is to provide leadership that maximizes the benefits of energy efficiency and renewable energy through communication, outreach, technology and partnerships.

The mission of the office is to promote the efficient, economic and environmentally responsible use of energy. The Energy Office accomplishes this mission by administering innovative programs and implementing projects and services that inform, educate and involve energy consumers and decision makers. The Energy Office also collects essential statistical energy data and is the state's lead agency responsible for developing response recommendations during energy related emergencies.

The Energy Office:

- serves as a central repository for energy data relevant to the state
- assesses trends in the availability, use and development of all energy forms
- collects and analyzes data relating to energy needs and specifies these needs for the state
- recommends state energy policies and efficiency measures to the governor and the Legislature and carries out adopted measures
- provides the public with information on energy sources, use and conservation
- accepts and dispenses public and private funds for research studies, demonstration projects and other energy efficiency or development activities
- studies the impact and relationship of state energy policies to those on the regional and national level
- actively seeks Nebraskans' advice on energy policies and programs
- prepares emergency energy allocation plans and makes suggestions to the governor if a serious energy shortage takes place
- designs a state energy conservation program and provides technical assistance to local governments and citizens who seek information on energy efficiency opportunities and the use of renewable energy technologies

The Energy Office administers the federally funded Low Income Weatherization Assistance Program and the State Energy Program as well as other energy efficiency, conservation and renewable energy initiatives. The office also administers and enforces

the Nebraska Energy Code.

The Energy Office administers the state's Petroleum Violation Escrow funds, also known as oil overcharge funds. These funds were received as a result of federal pricing regulation violations by crude oil producers. States were required to provide restitutionary programs with these funds. Nebraska's largest restitution program is the Dollar and Energy Savings Loan Program administered by the Energy Office. This energy efficiency program partners with the state's lending institutions to provide low interest rate loans to residents for energy improvements to their homes, businesses, farms, ranches and nonprofit organizations. Funds also are available for renewable energy and alternate fuel projects throughout the state. Loans are available at more than 898 locations throughout the state and total more than \$306 million.

The department also provides services to towns, industries and citizens through several assistance programs, meetings, training, and conferences.

The Environmental Protection Act also established the Environmental Control Council, now known as the Environmental Quality Council. The department director is appointed by the governor upon recommendation of the council and with the Legislature's consent. The director serves as secretary of the council. The department operates with state general funds, cash funds and federal funds.

Air Quality Division

Air Quality Division objectives are to achieve and maintain the national and state ambient air quality standards, protect the quality of the air in areas of the state that have air cleaner than the standards, and to implement air quality rules and regulations. The division devotes extensive resources towards compliance assistance and outreach activities through its Planning and Development Program.

Permitting Programs

The department has implemented a construction permit program for air contaminant sources since the 1970s. Facilities are required to obtain a construction permit before they construct, reconstruct, or modify any air contaminant source or emission unit where there is a net increase in the potential to emit contaminants above specified levels. The department also implements the federal construction permit program

known as Prevention of Significant Deterioration. This program applies to sources that emit significant levels of air contaminants and requires the application of best available control technology.

Once constructed and operational, most facilities also must obtain an operating permit. Operating permits are issued to both large and small sources of air pollution and are renewed every five years. Operating permits include all previously issued construction conditions and federal and state performance standards.

Compliance Programs

The department operates an air quality monitoring network to determine compliance with national and state air quality standards. Two agencies assist the department with the day-to-day operation of the network: the Douglas County Health Department, and the Lincoln/Lancaster County Health Department. Monitoring is conducted for the following pollutants: particulate matter, sulfur dioxide, nitrogen dioxide, carbon monoxide, ozone, lead, and total reduced sulfur.

The department conducts compliance inspections of air pollution sources, responds to citizen complaints, and observes and evaluates air contaminant emission tests. The department attempts to obtain compliance with regulations through voluntary efforts, but pursues legal enforcement actions when the issues are serious, chronic, or cannot otherwise be resolved.

Field Services and Assistance Division

This division provides a central source of technical information for the public, businesses and industries affected by environmental regulations. The division conducts inspections, provides compliance assistance, maintains monitoring programs and manages specific projects across the state.

The division maintains field offices in Omaha, Norfolk, Holdrege, North Platte, Chadron and Scottsbluff. Field office staff are responsible for conducting compliance inspections, complaint investigations, environmental sampling, project management and providing local compliance assistance for the agency's air quality, water quality and waste management divisions.

The Small Business and Public Assistance Program assists individuals, businesses and industries in complying with air quality, waste management and water quality regulations. The Small Business Compliance Advisory Panel (statutory reference: 81-1505.03) helps businesses comply with requirements of the federal Clean Air Act.

The One-Stop Permit Assistance program serves as a clearinghouse for information related to the department's various permitting processes and Title III — the Community Right-to-Know program — assists businesses subject to the state and federal Community Right-to-Know acts.

The department's Emergency Response Coordinator also is located in this division. Through the Emergency Response Program, department personnel provide technical and regulatory assistance to those responsible for spills, leaks and accidents that pose a hazard to either the environment or public health.

Legal Services Division

This division provides legal support to the director and the agency. Among its responsibilities are preparing legal opinions interpreting laws and regulations, advising the director and agency staff on duties and program responsibilities, and preparing administrative orders and other enforcement actions. The division also assists the Attorney General's office by providing legal expertise in environmental law and participating in court cases.

Management Services Division

This division provides administrative and technical support to department programs. The division is organized into the following areas of support: grants/contracts coordination, public information, human resources, fiscal services, and information technology. This division also includes the department's records management program, which is responsible for managing the agency's public records.

Waste Management Division

To protect Nebraska's land and water resources, Waste Management Division programs ensure that non-hazardous wastes are properly disposed, hazardous waste is managed from creation to disposal, and contaminated sites are investigated and cleaned up according to state and federal standards. The department also administers several waste-related grant programs.

Solid Waste Program

The Solid Waste Program is responsible for permitting and inspecting solid waste disposal areas (municipal landfills, construction and demolition disposal sites, delisted waste disposal areas, fossil fuel ash disposal areas, industrial waste disposal areas) and waste processing facilities (compost sites, material recovery (recycling) facilities, and transfer stations).

Resource Conservation and Recovery Act (RCRA) Program

The RCRA program ensures that hazardous waste is properly managed from the point of generation until final disposal. Among this program's duties are: performing compliance inspections at facilities that generate hazardous waste; reviewing permit applications for treatment, storage and disposal facilities; approving closure and post-closure plans for hazardous waste storage areas and disposal sites; and investigating complaints. The RCRA program also helps hazardous waste generators maintain compliance with regulations through a Compliance Assistance Program.

Superfund Program

This program administers cooperative agreements with the U.S. Environmental Protection Agency (EPA) regarding the federal Superfund program that was established to clean up the most seriously contaminated sites in the nation. The DEQ Superfund Program helps in the identification of potential Superfund sites and assists the EPA with ongoing work at the 15 National Priority List sites in Nebraska.

Voluntary Cleanup Program

This program provides property owners and parties responsible for contamination with a mechanism to develop voluntary cleanup plans that are reviewed and approved by the department. The program provides an avenue for businesses to proceed with cleanup of property and an opportunity for review and oversight that may not be available at the federal level.

Planning and Aid

The Waste Management Planning and Aid Unit administers the following programs:

Waste Reduction and Recycling Incentive Grants Program (to assist in financing sound integrated waste management programs and projects);

Litter Reduction and Recycling Grant Program (to support programs that reduce litter, provide education, and promote recycling);

Illegal Dumpsite Cleanup Program (to assist political subdivisions in the cleanup of solid waste disposed along public roadways or ditches); and

Landfill Disposal Fee Rebate Program (to provide an incentive to political subdivisions to support and encourage the purchase of products, materials, or supplies manufactured or produced from recycled material).

Water Quality Division

To protect Nebraska's surface water and groundwater resources, Water Quality Division programs ensure that petroleum leak and spill sites are investigated and cleaned up if necessary, livestock waste is properly managed and discharges of pollutants into streams and rivers do not exceed levels intended to protect aquatic life. The division conducts surface water monitoring, administers groundwater protection programs and issues permits for wastewater treatment facilities and sanitary sewer systems.

Petroleum Remediation Program

The Petroleum Remediation Program oversees the investigation and cleanup of petroleum contamination resulting from leaking underground and above ground storage tanks and surface spills. The program also administers the Petroleum Release Remedial Action Reimbursement Fund (Title 200), a cleanup assistance fund for persons responsible for cleanup costs due to petroleum releases from tanks.

Agriculture Section

The Livestock Waste Control Program strives to protect Nebraska's surface water and groundwater from contamination by livestock waste by conducting inspections and issuing permits. The program requires many livestock operations to construct livestock waste control facilities. Owners must submit plans and specifications and obtain approval prior to construction and operation of the facilities. Some operations are required to monitor groundwater near their facilities. The Agriculture Section also administers the Chemigation and Agricultural Chemical Secondary Containment programs.

Surface Water and Groundwater Assessment Programs

Surface water monitoring program staff collect physical, chemical and biological water quality samples from streams, lakes and wetlands throughout the state to identify and help remediate water quality problems. Fish tissue samples are collected annually for analysis of toxic pollutants; health advisories are issued if necessary. The program also investigates fish kills and citizen complaints and, since 2004, has monitored over 30 lakes and beaches for the presence of toxic algae.

Groundwater unit assessment programs focus on assessing the quality of the state's groundwater resources and protecting those resources through project reviews, permitting, and voluntary programs. The Groundwater Management Area program focuses on assessing areas where groundwater problems from nonpoint source contaminants exist or are likely to exist. The unit conducts hydrogeologic studies and reviews, reviews and issues permits for wells used to inject fluids underground and administers the state Wellhead Protection program.

Water Quality Planning

Water Quality Planning program staff conduct a variety of planning, assessment, certification and grant activities. This unit develops water quality standards that designate the beneficial uses to be made of surface waters and the criteria to protect these uses; administers the Section 401 certification program to determine if applications for federal permits and licenses involving a discharge comply with state water quality standards; develops Total Maximum Daily Loads (TMDLs) that include pollution control goals and strategies necessary to improve the quality of impaired surface waters; administers the Nonpoint Source Management Program to protect and improve the quality of water bodies impacted by nonpoint source pollution (grants are provided for eligible projects); and administers the Source Water Assessment Program to assist in protecting public drinking water supplies and systems.

Wastewater

The department's Wastewater Section provides a variety of programs all related to wastewater treatment systems and their associated discharges. The Engineering Management program reviews planning documents and issues construction permits for wastewater treatment facilities and sanitary sewer lines. The program also provides assistance and training for wastewater facility operators.

The On-Site Wastewater program focuses on protecting surface and ground water in the area of proposed on-site systems (septic systems and small lagoons) through the certification of on-site professionals and the review of subdivision development plans.

The Wastewater Section administers two permitting programs that regulate dischargers of water pollutants: the National Pollutant Discharge Elimination System (NPDES), and the Nebraska Pretreatment Program. NPDES permits issued to municipalities and industries place limits on the pollutants that can be discharged into Nebraska's rivers and streams. This program also issues permits that limit the discharge of pollutants in storm water from industrial, municipal and construction sites. Pretreatment Program permits protect municipal wastewater systems from damage or overloading by industries.

Financial Assistance

The agency administers the distribution of state and federal assistance through two community aid programs: the Clean Water State Revolving Loan Fund, which provides low-interest loans and small town matching grants for construction of public wastewater treatment facilities and sanitary sewer collection systems; and the Drinking Water State Revolving Loan Fund, which provides low-interest loans for construction of public and private drinking water systems.

Acting Chief Executive Officer: Joseph Acierno

Statutory Reference: 81-3111

LB296, the Health and Human Services Act, was passed by the Legislature in March 2007. LB296 transferred the administration of publicly funded health and human services programs in the State of Nebraska from the Health and Human Services System to the newly created Department of Health and Human Services, effective July 1, 2007. LB296 eliminated the HHS System and its three departments.

LB296 was the next step in a reorganization set forth by LB1044 in 1996, the Nebraska Partnership for Health and Human Services Act. LB1044 eliminated the Aging, Health, Public Institutions and Social Services departments and the Office of Juvenile Services in the Department of Correctional Services and created a system of three agencies beginning January 1, 1997. The agencies were the Department of Health and Human Services, the Department of Health and Human Services Regulation and Licensure, and the Department of Health and Human Services Finance and Support. This system was directed by a Policy Cabinet made up of the three agency directors, a policy secretary and a chief medical officer, if one was appointed.

Under LB296, a Chief Executive Officer of the Department of Health and Human Services is appointed by the Governor, and confirmed by the Legislature, to direct the Department of Health and Human Services. The Department has six divisions whose directors are also appointed by the Governor and confirmed by the Legislature. These are the Divisions of Behavioral Health, the Division of Children and Family Services, the Division of Developmental Disabilities, the Division of Medicaid and Long-Term Care, the Division of Public Health, and the Division of Veterans' Homes. The operations support of the Department of Health and Human Services are placed together organizationally.

Behavioral Health implements mental health, substance abuse and problem gambling programs through community and regional clinical programs and services.

Through its mental health programs, the area administers developmental and regional center clinical programs and services. Community mental-health programs operate under six regional governing boards, which administer or contract with local community mental health programs to provide comprehensive emergency, short-term inpatient, day rehabilitation and treatment, residential, vocational support, service coordination, consultation and education and specialized child and adolescent services.

Changes in the behavioral health system as a result of LB1083, passed in 2004, are intended to create a balance between hospital and community-based services and develop alternative psychiatric residential rehabilitation services that allow people to live in the community when appropriate. The role of the three regional centers is to provide indigent acute care and secure residential services. Community-based alternatives for mental health rehabilitation services, such as assertive community treatment teams, expanded community support and day rehabilitation, will be located in community settings.

A State Advisory Committee on Mental Health Services (statutory reference: 71-814) identifies program needs, offers guidance and acts as an advocate for the interests of consumers and their families, and makes recommendations to DHHS.

The program plans and distributes state general fund money to community-based programs that provide substance abuse prevention, intervention, treatment and aftercare services. It also administers the alcohol and drug abuse portion of the Alcohol, Drug Abuse and Mental Health Services Block Grant. Community alcoholism treatment and rehabilitation programs fall under six mental health and substance abuse governing boards. To ensure services meet minimum quality standards, staff visit sites to certify program compliance.

Two advisory committees assist in the work of the Division of Behavioral Health, including the State Advisory Committee on Mental Health Services (statutory reference: 71-814) and the State Advisory Committee on Substance Abuse Services (statutory reference: 71-815).

State Board of Health

Statutory Reference: 71-2601

The State Board of Health, created by the Legislature in 1891, appoints members to 24 healthcare professional licensing boards and actively recruits applicants. The board reviews initial credentialing and scope of practice changes of health professionals prior to final consideration by the Legislature, which is known as the 407 Process Credentialing Review. They also review rules and regulations.

The State Board of Health views public health as a major initiative and has a recognition program for community preventive health efforts. The board continues to research other issues including alcohol and tobacco use and cessation, indoor air quality, youth violence, obesity, school bus seatbelt use and mental health services.

The board prepares an annual report to the governor, which is also available to senators on the Legislature's Health and Human Services Committee, DHHS, the 24 healthcare professional boards, major healthcare professional associations and other interested parties. The board has representatives assigned to the Nebraska Center for Nursing Board, the implementation committee for the Nebraska Credentialing Reform 2000 and Credentialing Review Technical Review Committees.

DHHS operates four veterans' homes. To live in one of these facilities, veterans must have served in active duty during the war, lived in Nebraska at least two years and be disabled. Disability qualifications include injury during service, old age, inability to earn a livelihood, whole or partial dependence on public assistance or requiring care available only at a state facility. Spouses of veterans and Gold Star Mothers and Fathers are eligible under similar requirements.

The focus of the veterans' homes is on wellness, allowing people to live their lives to the fullest through different levels of care: domiciliary, intermediate and skilled. The homes provide specialized services such as physical therapy and a wide range of recreational and religious services. The homes have a supportive relationship with various veterans' organizations whose members donate time, money and companionship to the people living there.

Publications: *Summary of Insurance Business in Nebraska*

The Department of Insurance is the primary financial solvency regulator for all Nebraska domestic insurers and the market regulator for insurance transactions in Nebraska.

The department enforces statutes and regulations to ensure compliance by individuals and entities subject to the department's jurisdiction; analyzes and drafts appropriate legislation, regulations, bulletins and administrative orders; researches and interprets statutes, case law, regulations and other legal precedents and renders advice to other divisions; represents the department at administrative hearings, legislative hearings and other meetings; and acts as liaison to the attorney general's office regarding pending litigation.

As market regulator of all insurance transactions that take place in Nebraska, the department annually reviews an average of 2,200 various life and health filings. In addition, the department administers licenses for approximately 77,800 producers. The department regulates the performance of insurance transactions by investigating the activities of insurers, such as claims handling, compliance monitoring and insurance producer oversight.

Another major responsibility of the department includes the collection of premium tax and associated retaliatory taxes, fire marshal tax and various renewal fees, and the audit and collection of premium and fire marshal tax for surplus and excess lines. Annually, the department collects approximately \$78.2 million for distribution to the State of Nebraska.

The department investigates referred cases of suspected insurance fraud and educates insurance company and law enforcement personnel on fraud indicators. The department also conducts significant outreach through the Senior Health Insurance Information Program (SHIIP), a federally funded program that informs and advises older Nebraskans regarding Medicare, Medicaid and health insurance. Nebraska's program has consistently ranked in the top five of all SHIIP programs nationwide.

The 1976 Legislature adopted the Nebraska Hospital Medical-Liability Act (Statutory Reference: 44-2829) as an alternative way to address medical professional liability claims. The law ensures the availability of professional liability insurance for health care providers to encourage the availability of health care to Nebraskans. The department collects premiums and qualifies health care providers that seek Excess Liability Fund or Residual Malpractice Insurance Authority coverage. Once health care providers are qualified under the act, the department resolves medical professional liability claims made under the act.

The first complete insurance code in Nebraska, enacted in 1913, provided for an insurance board to administer the code. Before 1913, the territorial auditor and later the state auditor issued certificates to insurance companies and exercised some powers in investigating and inspecting those companies.

The duties of the Insurance Board were given to the Bureau of Insurance in the Department of Trade and Commerce in 1919. In 1933, the bureau became the Department of Insurance. In 1947, the Legislature passed laws that updated the 1913 code.

The Governor’s Crime Control Commission was created in 1967. The name was changed to the Nebraska Commission on Law Enforcement and Criminal Justice with legislation enacted in 1969 to establish the Crime Commission as a state agency. Services and chairperson of the Police Standards Advisory Council to be commission members. The commission meets quarterly to review the activities of its committees, take final action in awarding state and federal grant funds, provide oversight of staff activities and conduct other business as required. The commission's five standing committees are the Education, Research and Planning Committee; the Grant Review Committee; the Crime Victim's Reparations Committee (statutory reference: 81-1802); the Data Processing Committee and the Police Standards Advisory Council (statutory reference: 81-1406).

Federal and State Aid

The Crime Commission administers federal and state aid programs in the areas of anti-drug abuse, violent crime, victim assistance, juvenile justice, law enforcement and criminal justice information systems. The commission awards grant funds to eligible programs that address priority issues and foster improvement in Nebraska's criminal and juvenile justice systems. Grant-funded projects are monitored and evaluated, with continuation funding based on each program's success in achieving its goals and objectives. Aid programs administered by the commission include: federal Justice Assistance Grant funds, federal Residential Substance Abuse Treatment Program funds, federal Project Safe Neighborhoods funds, state Crime Stoppers funds, federal and state Victims of Crime Act funds, federal and state Crime Victim's Reparation Act funds, federal Stop Violence Against Women Act funds, federal Juvenile Justice and Delinquency Prevention Act funds, federal Juvenile Accountability funds, state Juvenile Services Act funds, state Community-Based Juvenile Services Aid funds, federal and state Criminal Justice Information Systems funds and federal discretionary funds.

Byrne/Justice Assistance Grant Funds

Since 1986, the Crime Commission has administered and coordinated federal Justice Assistance (Byrne) funds. Funds have been awarded to state and local programs addressing drug abuse and violent crime, including the state's nine multi jurisdictional task forces that cover 72 of the state's 93 counties, as well as the Nebraska State Patrol's Mid and Upper Level Enforcement (MULE) project. Other funded projects have included drug and violent crime enforcement, offender treatment programs, drug testing, training, prosecution, substance abuse assessments for adult offenders, indigent defense enhancement of the Sexual Offender Registry and a statewide computerized law enforcement intelligence system.

Crime Victim Assistance

Since 1985, the Crime Commission has administered federal and state funds for crime victim assistance programs. These programs provide medical, emotional, financial and legal assistance as well as shelter, support and advocacy to crime victims during a time of crisis.

The Nebraska Crime Victim's Reparations Act, passed in 1979, provides compensation to innocent victims of crime for certain expenses directly related to the criminal act. Victims may be reimbursed up to \$10,000 for medical and \$5,000 for funeral expenses, loss of wages or earning power, counseling fees and residential crime scene cleanup. The commission's executive director serves as a hearing officer for claims received for reimbursement, with the Crime Victim's Reparations Committee responsible for any appeals received regarding the hearing officer's decisions.

In 1995, the commission began administering the federal Stop Violence Against Women Act Formula Block Grant Program. Since the program's inception, grant funds have been awarded to enhance the criminal justice system's response in serving women who have been victims of violence.

In 1999, the commission established a statewide Victim Information and Notification Everyday (VINE) system. The VINE system is a computerized system that automatically notifies victims of crime whenever an offender is released or moved from a jail or prison or transferred to another detention or correctional facility.

Juvenile Justice

The Crime Commission administers state and federal grant funds to juvenile justice and delinquency prevention programs throughout Nebraska and coordinates the development of juvenile justice initiatives and projects. Since 1981, federal Juvenile Justice and Delinquency Prevention Act funding has been awarded to delinquency prevention and juvenile justice programs, such as shelters, staff secure programs, diversion, detention alternatives, tracker programs, disproportionate minority confinement initiatives, counseling and community-based evaluations. The commission monitors and oversees Nebraska's compliance with the federal act and provides technical assistance and training to criminal and juvenile justice practitioners. The Crime Commission also is responsible for administering Juvenile Accountability Incentive Block Grant Program funds to

state and local programs. The commission also administers the requirements of laws relating to Nebraska Community-Based Juvenile Services Aid, including providing state general funds to communities to develop and provide community-based programs as alternatives to incarceration.

Office of Violence Prevention

Contact Person: Chris Harris

Statutory Reference: 81-1447

The 2009 Legislature created the Office of Violence Prevention, which is housed within the Crime Commission. The office's primary responsibility is to help promote, assess and fund statewide violence prevention programs.

The office aids privately funded organizations, local government subdivisions and other advocacy groups in developing proven prevention, intervention, diversion and enforcement programs. In 2013, through a competitive grants process, the office awarded \$350,000 to five separate organizations with a history of success in reducing violent crime. Grant recipients are required to develop goals, objectives and performance indicators and submit quarterly activity reports to the Office of Violence Prevention. Grantees also are required to provide an evaluation report. A portion of the grant funds must be used for a professional evaluator.

A six-member advisory council, appointed by the governor, meets quarterly. The council is required to recommend to the Crime Commission regulations regarding program fundraising, evaluation and coordination and criteria used to assess and award funds to violence prevention programs.

Jail and Juvenile Detention Facility Standards

The Crime Commission's Jail Standards Division annually inspects local jails, temporary holding facilities and juvenile detention facilities for compliance with Nebraska's mandatory standards. The division also provides technical assistance to local jurisdictions in planning, construction and renovation projects, training, operations, management, record systems, policies and procedures and resource development.

Crime Statistics, Research and Data Collection

In 1971, the Crime Commission became responsible for collecting Uniform Crime Reports (UCR) for the Federal Bureau of Investigation. All law enforcement agencies in the state are required by law to submit Uniform Crime Reports detailing the number of crimes reported or known to them and the number of arrests and citations issued on a monthly basis. Crime statistics are compiled by the commission's UCR program and forwarded to the FBI for inclusion in national crime statistics and use by federal, state and local agencies and policy makers. The UCR program publishes preliminary and annual statistical reports. Participating law enforcement agencies receive monthly reports, including a summary of reported data, a trends report for monthly comparisons to the previous year and year-to-date statistics. The UCR program also maintains a central data repository for crimes motivated by hate on the part of the offender as well as domestic assault statistics.

In addition to the UCR program, the commission's Statistical Analysis Center maintains several statewide databases, including the Jail and Juvenile Detention Admission and Release Database, Juvenile Court Database, and Drug and Violent Crime Database, with statistical information compiled and published on a regular basis. Ongoing research is conducted and published. Statistical information and research is available to assist in criminal and juvenile justice initiatives and planning efforts at the local, state and federal levels.

Since 1995, the commission has hosted the Nebraska Criminal Justice Information Systems (CJIS). CJIS is a statewide integrated data system with more than 7,500 users who conduct 6.7 million data searches each year. The CJIS Advisory Committee builds ways for agencies to efficiently and effectively share criminal justice data. The primary purposes of CJIS are to promote the sharing of data among agencies, to implement programs and systems that assist state and local agencies in the performance of their jobs, and to provide a forum to discuss issues.

The commission collects traffic stop data, including the race or ethnicity of the person stopped and the nature of the violation, and issues an annual report.

The Military Department functions as a state department for military and non-military operations.

The Army National Guard, the Air National Guard and the State Guard, when organized (statutory reference: 55-201), make up the state's military forces. They conduct military operations and missions to support civil authority when authorized by the governor, who is commander in chief. The Nebraska Emergency Management Agency, a component of the Military Department, coordinates civil resources to support civil authority in an emergency.

On Feb. 15, 1864, the Legislature established the adjutant general's office for the Nebraska Territory. The territorial militia was organized under an act approved in 1865. However, the initial organization of two regiments took place in 1854.

The militia was first organized in reaction to the Great Sioux and Cheyenne Indian War on the territorial border. The nature of the early militia changed to meet the state's needs from 1854 until the end of the Indian Wars in 1890. By 1881, the office of adjutant general again was established as a separate entity after being part of the secretary of state's office for 10 years. The office has continued in this capacity since that time. Legislation passed in 1974 formally changed the office's name to the Military Department.

The adjutant general, besides commanding the state military forces, is state emergency management director, emergency resource management coordinator, emergency preparedness director and state disaster coordinator.

The governor, as state military force commander in chief, appoints the adjutant general from commissioned officers of the Nebraska National Guard. The adjutant general serves until resignation, reaching the mandatory retirement age of 64 or being relieved. The adjutant general controls Military Department forces and executes the governor's orders.

The adjutant general represents the state at national, regional and area military and

nonmilitary defense conferences. The adjutant general develops all civil and military defense, state emergency preparedness and disaster recovery plans for the state. He coordinates with appropriate regional and national agencies and other states to formulate Army, Air Force, civil defense and emergency plans for the state.

Nebraska National Guard¹

Statutory Reference: 55-105

The Nebraska National Guard is made up of the Army National Guard and the Air National Guard. The Army National Guard comprises three Major Subordinate Commands (MSCs) with an authorized strength of 3,664. The MSCs are the 67th Battlefield Surveillance Brigade, 92nd Troop Command and the 209th Regional Training Institute. Units are located in 28 Nebraska communities. The Air National Guard consists of three major commands with an authorized strength of 900 members: the state headquarters and the 155th Air Refueling Wing, located in Lincoln; and the 170th Operations Support Squadron, located at Offutt Air Force Base.

Service members can be called to state active duty to execute missions within the state when authorized by the governor. The state mission of the Nebraska National Guard is to provide trained and equipped organizations to protect life and property and to preserve peace, order and public safety.

Service members are called to federal service for national defense missions, either in the United States or abroad, when authorized by the president. The federal mission of the Nebraska National Guard is to provide the armed forces with trained and equipped units ready for a national emergency or war, in accordance with U.S. Department of Defense plans.

Most fiscal support for the Nebraska National Guard comes from federal sources. The budget for pay and allowances for Active Guard Reserves, federal technicians and part-time Guard members exceeds \$73 million annually. Other expenses paid by the U.S. government, such as fuel, travel, repairs and construction, supplies and equipment, amount to more than \$37 million each year. The present equipment and real property for both the Army and Air National Guard is valued at more than \$494 million.

NEMA also supports other state agencies and local governments with training and education programs, public information, disaster recovery assistance and disaster planning. NEMA writes plans at the state level, including the State Emergency Operations Plan and the Nebraska Radiological Emergency Response Plans for the state’s two nuclear power plants. The agency coordinates state and federal emergency planning and disaster recovery and homeland security activities in support of the state’s homeland security director.

NEMA occupies the state’s Emergency Operations Center at the Joint Force Headquarters (JFHQ) on the Nebraska National Guard Airbase. The EOC provides a secure location from where Nebraska government can operate during emergencies.

Director: Rhonda K. Lahm

Statutory Reference: 81-101

Publications: Book containing Nebraska motor vehicle laws; driver's license manual; commercial driver's license manual; annual report; instruction manuals for treasurers; motorcycle operator's manual

The Department of Motor Vehicles examines and licenses drivers; administers the driver's license point system, financial responsibility and administrative license revocation laws; issues certificates of title; and registers motor vehicles, including motor carrier proration, fuel tax and reciprocity.

County treasurers act as agents for the department and issue motor vehicle titles and registrations, and collect the fee for driver's licenses.

The department performs functions previously administered by the Division of Motor Vehicles, except those related to the Motor Vehicle Dealer Licensing Act. Under previous law, administration of this act was given to the head of the Department of Roads and Irrigation, acting with a supervisory board. In 1957, a new Motor Vehicle Industry Licensing Board was created, with the director of the Department of Motor Vehicles as its chairperson.

The first motor vehicle laws were enacted in 1905 when vehicles were defined and required to be registered with the secretary of state. Motor vehicle supervision was transferred in 1919 to the Bureau of Roads and Bridges, then to a section of the Department of Public Works. In 1921, responsibility was given to the Department of Public Works, and in 1933, responsibility was transferred to the new Department of Roads and Irrigations. In 1957, the Legislature created a separate Department of Motor Vehicles (DMV).

Today, the DMV houses the office of the director, which oversees operations of the six divisions below that included approximately 190 employees and an annual budget of \$22.4 million in fiscal year 2013-14. Administration includes the deputy director, budget and human resources officers and support staff.

Driver and Vehicle Records Division

Contact Person: Betty Johnson, Administrator, 301 Centennial Mall South, P.O. Box 94789, Lincoln, NE 68509-4789, phone (402) 471-3918, fax (402) 471-8694

Motor vehicles were first registered in June 1905. Individuals made their own plates, and registrations were recorded by the state. In 1915, the state began issuing license plates. In 1922, the state established the practice of using prefix numbers to identify the counties in which vehicles were registered. Each county was assigned a number based on the number of registered vehicles in the county at that time. The county with the most vehicles, Douglas, was assigned the number 1; the county with the second highest number of vehicles, Lancaster, was number 2; and so forth. Beginning with the 2002 license plate issue, Douglas, Lancaster and Sarpy counties began issuing a three-letter, three-number plate.

The 1955 Legislature provided for the slogan “The Beef State” on license plates. From 1966 to 1968, the word “Centennial” replaced “The Beef State.” This was later replaced by “Cornhusker State.”

The 1974 Legislature provided that plates issued during 1972 were valid through 1975. In 1976, specially designed license plates with the inscription “1776 BICENTENNIAL 1976” were issued. At the upper left and right corners were drawings of a covered wagon and an Indian chief in full headdress.

Current law requires a new license plate to be issued every six years. The plates are distinctive for each new issuance. Annual renewal tab stickers are affixed to plates during the six years. This division (DVR) is responsible for the budget and inventory control of the 65 types of license plates throughout all 93 counties and the message and specialty plate programs. The department is responsible for the issuance of 65 different license plate types.

Graphic-designed license plates were first issued in 1988. The plates have no slogans and instead use graphic art designs contained in the reflective sheeting. These plates are issued for general-use passenger vehicles.

Digitally printed flat license plates were introduced with the 2005 plate reissuance.

In addition to license plates and registrations, DVR is responsible for the administration of the statewide Vehicle Titling and Registration System (VTR). VTR is used by all 93 counties for the titling and registration of Nebraska’s approximately 2.3 million motor vehicles. VTR is the system through which all motor vehicle taxes, motor vehicle fees, motor vehicle registration fees, sales tax, wheel tax and other assorted fees are collected. The division reviews applications and issues approximately 120,000 handicapped parking permits and maintains the Motor Vehicle Insurance Database.

DVR also is responsible for the database that maintains the records of 1.5 million licensed drivers and State ID card holders and the Digital Driver License System. The DVR Help Desk provides technology and business support for county officials and the general public. DVR also houses a Fraud Unit, which was created in 2005, that investigates identity theft, driver license fraud, and title and odometer fraud. The unit also manages the facial recognition process that was incorporated into the driver license issuance workflow as a security measure in 2009.

There are 97 exam offices and 100 employees located throughout the state who assist individuals to obtain nine different types of permits and six types of licenses and State ID cards. Thirteen offices are open five days a week. In 2013, over 600,000 applicants were assisted in driver licensing offices statewide. In addition, over 100,000 applicants used online DMV services.

Acting Director: Jim Schneider

Statutory Reference: 61-201

Publications: Biennial report; hydrographic report; quarterly newsletter; periodic special reports; daily river and canal bulletins (May-September); biennial report for the Nebraska Resources Development Fund; Annual Evaluation of Availability of Hydrologically Connected Water Supplies and numerous other reports and brochures.

The Department of Natural Resources was created on July 1, 2000, by a merger of the Department of Water Resources and the Natural Resources Commission (LB900).

The 1895 Legislature created the state Board of Irrigation and gave it jurisdiction

over water rights for irrigation, power and other purposes. In 1911, the name was changed to the state Board of Irrigation, Highways and Drainage. The board's director, the state engineer, was given responsibility in other fields. In 1919, the name was changed to the Department of Public Works. In 1933, it became known as the Department of Roads and Irrigation, with jurisdiction over highways, vehicle registration and law enforcement, besides water rights issues.

The 1957 Legislature created the Department of Water Resources and gave it the powers and duties formerly exercised by the Bureau of Irrigation, Water Power and Drainage, and the Department of Roads and Irrigation. The department carried out the work started by the state Board of Irrigation.

The Natural Resources Commission was originally established in 1937 as the State Soil Conservation Committee. The committee was later known as the Soil and Water Conservation Commission and then was renamed the Nebraska Natural Resources Commission in 1972.

The Department of Natural Resources carries out the functions and programs of the merged agencies. It regulates the use and storage of surface water from Nebraska's streams, lakes and reservoirs and authorizes the transfer of groundwater by industrial and municipal groundwater users. The department also measures and records state streamflows. The department maintains the state water wells registration system and approves requests to waive state water well spacing requirements. The department issues permits to allow the development of geothermal groundwater use and to allow groundwater transfers to another state.

The department's floodplain management duties include administering Nebraska's Flood Plain Regulation Act and providing state coordination of the National Flood Insurance Program. Local governments with zoning jurisdiction have one year after receiving acceptable floodway boundaries to adopt zoning ordinances restricting development and land use within those floodway lines. The department helps local subdivisions meet requirements prescribed by the Federal Emergency Management Agency, which administers the flood insurance program. The department is responsible for reviewing and approving plans and specifications for dams to ensure that the dams will be safe and regularly inspects dams for safety violations.

The Nebraska Ground Water Management and Protection Act requires the department to review the state's water supplies annually and decide if any basins are fully appropriated and, therefore, subject to the integrated management planning process. In the areas of the state that have been declared fully appropriated or overappropriated, the department works with natural resources districts to create integrated management plans that will sustain water uses and supplies.² The department and the natural resources districts may limit water use through a variety of methods including assigning allocations to water use, prohibiting new wells and new surface water appropriations, rotating well use, tougher well-spacing standards, better management practices and educational programs.

The department director is the Nebraska member of several interstate bodies that

administer stream and border compacts.³ The department is responsible for coordinating the state’s efforts to comply with interstate stream compacts.

The Natural Resources Commission carries out certain specific responsibilities in connection with natural resources districts including providing special funds for district projects. The commission created the original NRD boundaries in 1971 and is responsible for approving boundary alterations.

Through passage of LB1098, the 2014 Legislature increased the commission’s size from 16 members to 27. Thirteen commission members represent the state’s recognized river basins and are elected to four-year terms at individual caucuses of the natural resources districts. The 14 other members are appointed to four-year terms by the governor and represent: agribusiness interests, agricultural interests, groundwater irrigators, irrigation districts, manufacturing interests, metropolitan utilities districts, municipal water users from a primary class city, municipal water users from a first or second class city or village, outdoor recreation users, public power districts, public power and irrigation districts, range livestock owners, surface water irrigators and wildlife conservation interests.

The 2000 Legislature passed an act relating to the environment and created the Carbon Sequestration Advisory Committee. The act directed the Department of Natural Resources to prepare a report for the Legislature relating to the atmospheric carbon dioxide buildup (greenhouse gases) and investigate possible means to sequester carbon dioxide in the soil. A statewide assessment of carbon levels in soils and the potential for storing higher levels was issued as a separate report for the Legislature. The report and statewide assessment were completed in 2001 and 2002. The act also established a governor-appointed advisory committee to:

- advise and assist the Department of Natural Resources in report preparation
- recommend policies and programs to enhance the ability of agricultural landowners to participate in carbon trading
- encourage the production of educational and advisory materials on carbon sequestration
- identify and recommend areas of research

In 1937, the Legislature created the Nebraska Safety Patrol, making it a division of the Department of Roads and Irrigation. As amended in 1941, the law named the patrol's chief officer as "superintendent of Law Enforcement and Public Safety." In 1967, the Legislature changed the name to State Patrol and broadened the division's duties. In 1981, the Legislature made the State Patrol a separate agency, removing it from Department of Roads' control.

The superintendent's office directly supervises professional standards, public information and executive protection. Other state patrol duties are classified under three general areas: administrative services, investigative services and field services.

Officers of the state patrol also provide executive protection for the governor and the governor's family, legislative security and Supreme/Appellate Court security.

Administrative Services

This division includes accounting, grants, human resources, information technology, supply, radio engineering, purchasing, CLEIN network administration, research and planning, project management and the training academy.

Internal Affairs Division

The Internal Affairs Division provides the agency a means of maintaining professional conduct within the Nebraska State Patrol. The Internal Affairs lieutenant receives complaints from the public and within the agency and initiates administrative investigations into complaints that allege misconduct. The division also tracks incidents where officers were required to use force or discharge weapons in the performance of their duties.

Investigative Services Division

The Investigative Services Division includes criminal investigations, drug investigations, the Nebraska Information Analysis Center (intelligence sharing of all crimes and hazards), criminal identification (fingerprint and criminal history files) and the following divisions: alcohol/tobacco, auto/fuel fraud, crime lab, cold case, hazardous devices, Internet crimes and the sex offender registry program.

Alcohol/Tobacco Division

The Nebraska State Patrol serves as the primary enforcement agency for the Nebraska Liquor Control Commission. In addition to liquor law enforcement, the patrol investigates the background of liquor license applicants and complaints of alleged violations and conducts licensed premise inspections. The patrol also provides training to retail liquor license holders regarding state law, the rules and regulations of the Liquor Control Commission and methods of detecting false identification.

Auto/Fuel Fraud Division

The Auto Fraud Division tracks stolen vehicles and educates key individuals about identification of false vehicle documents. The division promotes anti-auto fraud and public awareness programs and provides certification training to vehicle title inspectors. Fuel fraud personnel investigate fuel tax fraud, illegal use of dyed diesel fuel and consumer fraud involving fuel quality and quantity. The division also investigates fraud involving the nonpayment of tax and registration fees related to the sale and/or purchase of vehicles in Nebraska.

Crime Laboratory

The mission of the Nebraska State Patrol Crime Laboratory is to serve as a state leader in the field of forensic science serving law enforcement agencies statewide. Key functions include evidence analysis, operation of the state's DNA databank, expert court testimony and evidence collection and preservation training. The crime lab provides all services free of charge to Nebraska law enforcement and the criminal justice system.

Drug Investigations

Nebraska State Patrol drug investigators throughout the state investigate all levels of crime involving the manufacture, sale and distribution of illegal drugs. Investigators increasingly are focusing on identifying, infiltrating and dismantling upper-level drug trafficking organizations through cooperative efforts with the state's Drug Task Force units, most of which have a state patrol investigator assigned on a full time basis.

Hazardous Devices Squad

The Hazardous Devices Squad consists of six hazardous device technicians certified through the Federal Bureau of Investigation's Hazardous Devices School. The squad's responsibilities include responding to explosives calls, providing training in explosive recognition and awareness and enforcing laws regarding the purchase, use and storage of commercial explosives.

Technical Crimes Unit/Internet Crimes Against Children

The Technical Crimes Unit addresses the use of computers and electronic devices to commit fraud, identity theft and other related computer crimes. The Internet Crimes Against Children unit is one of 61 federally funded ICAC task forces in the United States. The unit works proactive and reactive cases involving child pornography and online enticement of children for sexual purposes. The unit also works with other agencies to investigate threats to the State of Nebraska's technology infrastructure.

Sex Offender Registry

The Sex Offender Registry was created to maintain records of convicted sex offenders. Program personnel determine the length of the mandatory registration period for each offender, track offenders' address and employment changes, conduct community notification and investigate violations of registry laws.

Field Services

Field Services include highway patrolling, crash investigations, motor carrier enforcement, SWAT team services and the Aviation Support, Community Policing and Police Service Dog divisions.

Aviation Support

The Aviation Support Division has pilots stationed in Lincoln and Ogallala. Three fixed-wing aircraft and one helicopter are used to enforce motor vehicle laws, conduct surveillance, search for missing persons and assist other law enforcement agencies.

Community Policing Division

The Nebraska State Patrol has officers dedicated to participate in community policing, which is a partnership between police and the communities they serve. The program is designed to identify problems and to develop solutions to these problems. Nebraska State Patrol Community Service Officers conduct or assist with a variety of programs, including the Metro Area Motorist Assist Program, Nebraska Motorist Assist Program, Central Nebraska Motorist Assist Program and Junior Law Program.

Police Service Dog Division

The Police Service Dog Division consists of 11 officers and their police service dogs. The dogs are trained to track suspects or missing persons, search buildings or vehicles for drugs and explosives, protect officers and apprehend suspects.

The Nebraska Department of Revenue, through the tax commissioner, has indirect authority over state revenues and directly administers major state tax revenues except liquor and insurance premium taxes.

A constitutional amendment in 1967 prohibited state government from using property tax revenues. To replace this revenue, the Legislature enacted a state sales and use tax and a state income tax. The sales and use tax became effective in 1967, and the income tax became effective in 1968.

The Department of Revenue prepares an annual report that includes statistical information on collected state taxes. This report is available at revenue.nebraska.gov.

NONCODE AGENCIES

Editor’s Note: Noncode agencies are state government agencies not subject to the governor’s direct control. All are full-fledged agencies, meaning they have their own staff, are affiliated with no other agency and appear as a distinct item in the state budget. All statutory references in this section indicate where each agency was created in the Nebraska Constitution, Revised Statutes of Nebraska or both, unless otherwise noted. Appointees to boards, commissions, councils, committees and other state governmental bodies serve until they resign or are replaced after their terms expire.

Nebraska Accountability and Disclosure Commission

Executive Director: Frank Daley

Statutory Reference: 49-14,105

The 1976 Legislature created the Nebraska Accountability and Disclosure Commission through the enactment of the Nebraska Political Accountability and Disclosure Act. This act became effective July 1, 1977.

The commission is an independent state government administrative agency. Under the act, the commission administers and enforces state ethics laws, campaign finance laws and lobbying laws. The commission has the authority to issue advisory opinions, adopt rules and regulations, conduct investigations into possible violations of the act and assess civil penalties against anyone found to have violated the act.

The ethics provisions of the act require certain public officials and public employees on state and local levels to file annual statements that disclose their personal financial interests. Written disclosures of potential conflicts of interest must be filed by certain categories of public officials and public employees. The ethics provisions of the act also regulate the hiring or employment of immediate family members, prohibit the use of a public position for personal financial gain and prohibit the use of government resources, property, personnel or funds for nongovernmental purposes.

The lobbying provisions of the act require those attempting to influence the actions of the Legislature on behalf of another to register with the Clerk of the Legislature. The registration discloses the identity of the principal for which the lobbyist is lobbying. Lobbyists and principals file quarterly reports disclosing receipts and expenditures for lobbying purposes. Lobbyists must file statements after the legislative session disclosing the issues they lobbied for or against. The lobbying provisions of the act also restrict the gifts that lobbyists and principals may provide to officials and employees in the executive and legislative branches of government.

The commission consists of eight appointed members and the secretary of state. The governor appoints four members of the commission. Two are appointed from lists of not less than five names submitted by the Legislature and two are appointed from the citizenry at large. The secretary of state appoints four members. One is appointed from a list of no less than five names submitted by the chairperson of the state Democratic Party and one from a list of no less than five persons submitted by the chairperson of the state Republican Party. The secretary of state appoints two from the citizenry at large. The act establishes a geographical and political balance for the commission's appointed membership. No more than three of the appointed members may reside in the same congressional district. No more than four of the appointed members may be registered in the same political party and one must be a registered independent. Appointed members serve six-year terms.

The commission meets approximately eight times per year. Members receive reimbursement for expenses.

The 1957 Legislature abolished the Board of Examiners of Public Accountants, which had existed since 1909, and created the Nebraska State Board of Public Accountancy. The board adopts and amends its operating rules within NAC Title 288 and regulations and administers the public accountancy act.

The board also promulgates and amends rules of professional conduct for public accountancy. The board uses the Uniform Certified Public Accountants' Examination to examine candidates and requires two years of experience to become a certified public accountant in Nebraska. Money and fees received by the board are deposited in a separate fund called the Public Accountants' Fund, which is appropriated by the Legislature to operate the board's office.

The board has eight members appointed by the governor to four-year terms. Members include two representatives of the public and six active certified public accountants, two each from the three congressional districts.

In 1991, the Legislature established an educational advisory committee (statutory reference: 1-113) for assisting the board to implement increased educational requirements for candidates taking the CPA examination after Jan. 1, 1998.

The board meets every other month. Members are paid \$100 a day when conducting board business and are reimbursed for expenses.

Commission on Public Advocacy

Office Address: The Apothecary, 140 N. 8th St., Suite 270, P.O. Box 98932, Lincoln, NE 68509-8932, phone (402) 471-7774, fax (402) 471-8087, email — jmowbray@ncpa.ne.gov, website — www.ncpa.ne.gov

Chief Counsel: James R. Mowbray

Statutory Reference: 29-3919

The Nebraska Commission on Public Advocacy was created in 1995 to provide property tax relief to counties that represent indigent defendants charged with first-degree murder and serious violent or drug-related felonies, including juvenile cases at trial and on direct appeal. The commission also provides legal assistance to public defenders and court-appointed attorneys. The system provides property tax relief because counties do not pay for legal services and associated costs. The commission is totally cash funded by court costs and filing fees.

LB729, which became law on Jan. 1, 1998, gave the commission additional duties. The bill created the Legal Aid and Services Fund. The commission uses the fund money to provide civil legal services to eligible low-income persons. The commission has established eligibility criteria and guidelines to assist in annually performing the following: confirming service areas and the priorities for providing the legal services for all service areas; accepting applications for certification from entities interested in providing free civil legal services to eligible low-income persons and certifying one or more service providers for each service area, with such certification entitling the service provider to a distribution of funds.

In the 2013 state budget bill, the Legislature required that \$1 million of National Foreclosure Settlement funds be deposited into the Legal Aid and Services Fund over a two-year period. These funds are to be distributed to civil legal service providers who serve low-income Nebraskans to avoid preventable foreclosures, ameliorate the effects of the foreclosure crisis and fund housing counselors, state and local foreclosure assistance hotlines and foreclosure mediation programs, legal assistance, housing remediation and anti-blight projects. The commission is tasked with establishing application criteria and guidelines, receiving applications and awarding funds to qualified providers.

LB655, the DNA Testing Act, took effect Sept. 1, 2001. The act allows convicted inmates to request DNA testing of biological evidence that might establish their innocence. If the district court grants the request for DNA testing, the act requires the Commission on Public Advocacy to represent indigent prisoners and pay for the DNA testing from the commission’s operating cash budget.

In 2008, LB1014 created the Legal Education for Public Service Loan Repayment Fund to provide educational loan forgiveness to lawyers employed in the area of non-profit public legal service. The fund was to be financed by donations, but none were received. In 2014, LB907 revised the law to provide funding for the Legal Education for Public Service and Rural Practice Loan Repayment Assistance Fund. The purpose of the fund is to strengthen legal assistance for low-income Nebraskans by providing educational loan assistance to attorneys who are employed in nonprofit public legal service; who may have language skills other than English; and who are employed in legal profession shortage areas in Nebraska. Commission duties have been to reassemble the board in order to revise program guidelines and the application packet. Next steps will include informing Nebraska attorneys of the program, receiving and reviewing applications, granting awards and disbursing funds.

LB35, which became law in 2009, turned over operation of the Civil Legal Services Fund to the commission. Previously, the fund was administered by the State Court Administrator’s office. The fund provides grants to civil legal services providers who receive funds from the federal Legal Services Corporation to provide free services to low-income individuals. The money in this fund also is derived from filing fees and court costs.

The commission consists of nine members appointed by the governor from a list of attorneys submitted by the executive council of the Nebraska State Bar Association after consultation with the board of directors of the Nebraska Criminal Defense Attorneys Association. A member is appointed from each of the six state Supreme Court districts, and three members are appointed at large. Members must belong to the Nebraska State Bar Association and have substantial experience in criminal defense work. They may not be prosecutors, law enforcement officials or judges during their terms of office. Members serve six-year terms. The governor designates the chairperson of the commission. Members are reimbursed for expenses.

The commission appoints a chief counsel to manage the Legal Aid and Services Fund, Civil Legal Services Fund, Legal Education for Public Service and Rural Practice Loan Repayment Assistance Fund and the divisions of the commission. The divisions are the capital litigation division, which aids in the defense of Nebraska capital cases; the violent crime and drug defense division, which aids in the defense of such cases; the appellate division, which prosecutes appeals to the Nebraska Court of Appeals and the Supreme Court; the DNA testing division, which aids in representation of such cases and helps pay for DNA testing; and the major case resource center, which helps public defenders, contracting attorneys or court-appointed attorneys in felony representation.

Nebraska Arts Council

Executive Director: Suzanne T. Wise

Statutory Reference: 82-309

The 1965 Legislature created the Nebraska Arts Council to improve the state’s cultural resources. The original act was repealed in 1973 and replaced with new legislation creating a 15-member council, which is charged to “stimulate and encourage throughout the state the study and presentation of the performing and fine arts and public interest and participation therein.”

Council members are appointed by the governor, with legislative approval, for three-year terms. Members must be Nebraskans and known for their professional competence and experience or long-standing interest in the arts. The council oversees agency policy and makes final decisions on grant awards as recommended by review panels. The council meets four times a year. Members are not paid but are reimbursed for expenses.

The Nebraska Arts Council promotes the arts, cultivates resources and supports excellence in artistic endeavors for all Nebraskans by providing grants that support arts activities, developing leadership initiatives and offering publications and reference services available upon request.

The council’s budget from legislative appropriation is supplemented by grants from the National Endowment for the Arts. The council’s budget is granted each year to support arts activities statewide, including basic support grants for local arts councils and arts organizations such as symphonies, art museums, community theaters and dance companies; arts education activities, including artists in the schools; grants for arts and cultural activities organized by schools, community groups and multicultural groups; and fee subsidies for Nebraska performing arts events and exhibitions.

Nebraska Arts Council grants require matching funds or services and are subject to outside review by panels of individuals selected for their expertise in the field. Panelists are selected to represent a balance of geographic, artistic and ethnic interests. Grant review panel deliberations are open to the public, and their recommendations are forwarded to the council for approval.

The NAC supports individual artists with a variety of services. Nebraska artists, writers, composers and choreographers may apply for competitive fellowships, and all Nebraska artists and performers are eligible to apply for inclusion in the artist directory, which schools and communities use to select artists for residencies and performing opportunities. Additionally, the Arts Council has a multicultural initiative and special programs to highlight Nebraska’s traditional artists.

The council is responsible for the Governor’s Arts Awards, the Governor’s Mansion exhibition program and administering the One Percent for Art program for the state. The council collaborates with Mid-America Arts Alliance and other state and federal agencies in a number of activities.

The 1941 Legislature created the Nebraska Brand Committee to protect Nebraska brand and livestock owners from livestock theft through a brand recording, brand inspection and livestock theft investigation staff.

The committee’s hired director keeps a record of all proceedings, transactions,

communications and official committee acts. He or she also keeps committee records and performs other duties as the committee requires. The executive director serves as the chief brand investigator, the chief brand inspector and the Brand Committee head. Currently, the executive director also serves as brand recorder.

The committee records all new brands, brand transfers and brand renewals and keeps a recorded brand book. About 34,000 brands are recorded in Nebraska.

The committee's hired investigative staff reports thefts or missing livestock and identifies the owners of strays or cattle with an unknown owner.

An average of 45 full-time inspectors and 48 intermittent inspectors inspect all cattle moved from any point in a brand area to anywhere outside the area and all cattle that change ownership. Inspection fees pay for the agency's operations. During the 2012-13 fiscal year, 4,032,540 head of cattle were inspected. A total of 10,107 head of cattle were held for proof of ownership during this period.

The Nebraska Brand Committee is composed of five members appointed by the governor to four-year terms. At least three members must be active cattlemen and at least one must be an active feeder in Nebraska's brand inspection area. Members must own cattle within the brand area, be brand owners and have cattle raising or feeding as their principal occupation. The committee meets quarterly. Members are not paid but are reimbursed for expenses.

The secretary of state and the director of agriculture, or their designees, shall be nonvoting, ex officio members of the Brand Committee.

The Board of Trustees of the Nebraska State College System has control of Nebraska's state colleges at Chadron, Peru and Wayne. The mission of the Nebraska State College System (NSCS) is to serve students, communities and the state by providing high quality, accessible educational opportunities.

The state colleges aim to:

- provide a safe, stimulating, caring and enriching learning experience
- meet the changing needs of students and the state

²For more information on Nebraska's three state colleges, see Pages 896-899.

- assure financial and geographic access to NSCS institutions
- offer a variety of academic programs
- maintain affordable tuition and fees
- foster cooperative ventures among NSCS institutions and other agencies and organizations
 - emphasize participation in public service
 - recruit and retain quality faculty and staff.

The Board of Trustees of the Nebraska State College System is responsible for policy oversight of the NSCS. The board governs the system with guidance from the Nebraska Constitution and state statutes. Corporate bylaws, the NSCS Policy Manual and collective bargaining agreements with faculty, professional staff and support staff provide further guidance and structure for system operations.

The board was created by an 1867 law. Through a 1921 constitutional amendment, normal school government was vested in a seven-member board called the Board of Education of State Normal Schools. Normal schools were renamed state schools by the 1936 Legislature. The board’s name was changed to its current name in 1969. Later that year, the Legislature made the board a public corporation so it could issue bonds to build dormitories and other student service buildings.

The board has seven members, six of whom are appointed by the governor to six-year terms with legislative approval. The Nebraska commissioner of education serves as an ex officio member. The governor also annually appoints a nonvoting student board member from each of the state colleges.

The board meets as necessary, generally six times a year. Members are not paid but are reimbursed for expenses.

Publications: Quarterly report; program educational materials

The Corn Development, Utilization and Marketing Board was created by the Corn

Resources Act of 1978. The board administers a self-help program for corn producers that is paid for by a one-half of 1 cent per-bushel checkoff, paid by the corn producer and collected by the first buyer. The board uses this money for market development, research, promotion and education.

To provide an international and domestic market development program for corn producers, the board works with the U.S. Grains Council, the U.S. Meat Export Federation and the National Corn Growers Association. The board publishes a quarterly report and educational materials to tell producers how program money is being spent.

The University of Nebraska’s Institute of Agriculture and Natural Resources conducts research projects on production, environment and development of new industrial uses for corn with the support of checkoff funds.

Eight board members are appointed by the governor, with one each coming from the state’s eight corn districts. The governor selects each appointee from candidates who have filed petitions with the board. Petitions must be signed by 50 growers from their district. Board members must be at least 21 years old and Nebraska citizens who have grown corn in the state for at least five years before their appointment. Members must derive considerable income from growing corn to be qualified. The board chooses an at-large ninth member. Members serve three-year terms.

Ex officio board members include the director of the Nebraska Department of Agriculture, the vice chancellor of the Institute of Agriculture and Natural Resources, and the Nebraska Corn Growers Association president.

The Corn Board meets at least four times a year. Members receive \$25 a day when working on board business and are reimbursed for expenses.

Nebraska Dairy Industry Development Board

Contact Person: Rod Johnson, Administrator, 6409 Tanglewood Lane, Lincoln, NE 68516, phone (402) 853-2028, email address — rjohnson@midwestdairy.com

The Legislature created the Dairy Industry Development Board in 1992 as a contingency measure in the event Congress repeals federal legislation governing dairy promotion programs. The state board was granted authority to act when such a federal

order went into effect.

Currently, 15 cents per hundredweight of milk is collected by “first purchasers” of commercial milk. Ten cents of that amount is remitted to the Nebraska Dairy Industry Development Board, while the remainder is remitted to the National Dairy Board. The funds are used to promote the use of dairy products.

State Board of Education/ State Board of Vocational Education

Contact Person: Matt Blomstedt, Commissioner of Education, Nebraska State Department of Education, 301 Centennial Mall South, Sixth Floor, P.O. Box 94987, Lincoln, NE 68509-4987, phone (402) 471-5020

Statutory References: Nebraska Constitution, Article VII, Sections 2 and 3; and 79-301, 79-321 and 79-740

The State Board of Education is an elected, constitutional body that sets policy and ensures that the State Department of Education functions effectively within the framework developed by the Legislature and the board. By law, the board and the department have broad leadership functions to carry out certain regulatory and service activities. The board also serves as the State Board of Vocational Education.

Statewide oversight of education in Nebraska began in February 1869 when the Legislature created the office of the state superintendent of public instruction. The office was included in the state constitution of 1875. In 1917, the Legislature decided to place the state superintendent on a nonpartisan basis. In 1920, the constitution was changed to have the superintendent serve a four-year term beginning in 1923.

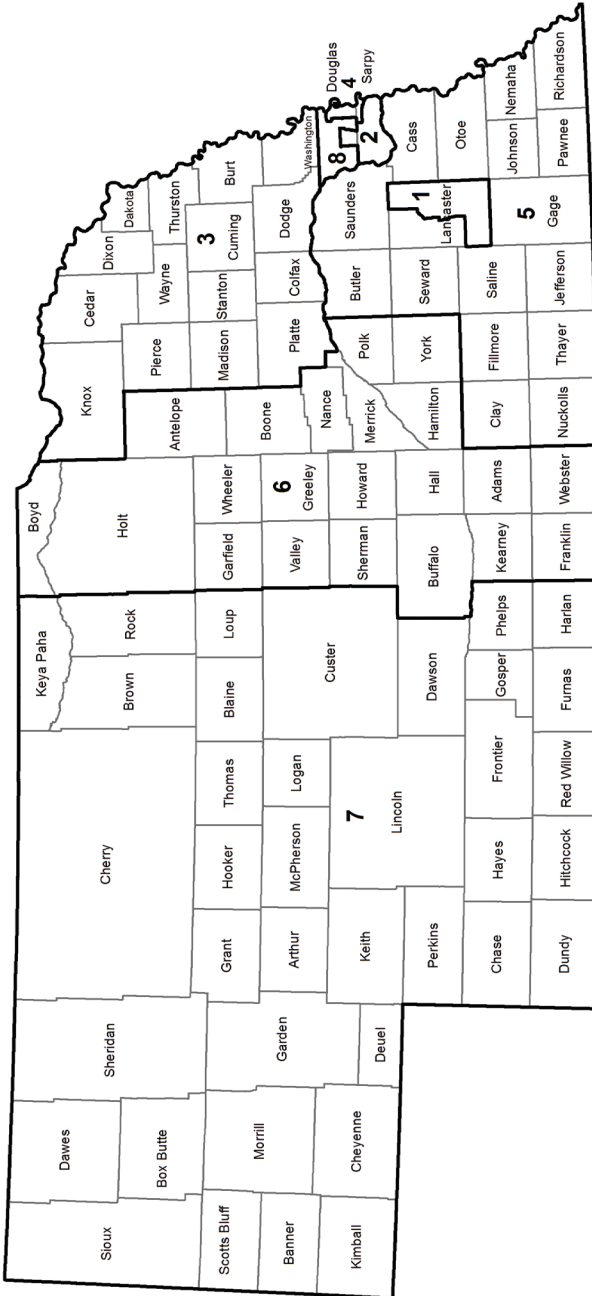

A 1952 constitutional amendment established a State Department of Education, which acts under the authority of the State Board of Education. The role of state superintendent of public instruction was transferred to the Board of Education or the commissioner of education effective in January 1955.

The 1967 Legislature divided the state into eight districts, and the membership of the State Board of Education was increased from six to eight members effective January 1969.

The board is elected on a nonpartisan ballot, with one member from each district. Board members serve four-year terms. Board members are not paid but are reimbursed for expenses.

In 1952, Nebraska voters approved a constitutional amendment proposed by the Legislature to establish the State Department of Education to act under the authority of the State Board of Education. A new state educational structure that began in 1955 transferred the powers and duties held by the state superintendent of public instruction to the State Board of Education, the State Department of Education or the commissioner of education.

The department is organized into teams that interact to operate the agency and carry out the duties assigned by state and federal statutes and the policy directions of

Commissioner of Education

Statutory References: Nebraska Constitution, Article VII, Section 4; and 79-301 and 79-304

The commissioner of education is appointed by the State Board of Education and, acting as the board's executive officer and secretary, the commissioner heads the department. With help from a deputy commissioner and a leadership council, the commissioner of education serves as the chief state school officer and directs the promotion and improvement of education in Nebraska public pre-kindergarten, elementary and secondary schools. The commissioner also is responsible for certain facets of postsecondary education and adult education.

Additionally, the commissioner's responsibilities include:

- internal administration of the department
- interpreting laws that involve schools; ruling in some cases of disputed law; ensuring compliance with school laws
- planning, with the board and staff, a public statement of education goals and developing programs to respond to those goals; training and developing staff in planning and evaluation skills; reporting progress toward goals to the public through evaluation
- providing schools and the public with school and education information and approving department publications
- preparing the agenda for State Board of Education meetings; keeping the board informed; providing the board facts to help it act on issues

By law, the commissioner of education is an ex officio member of the Board of Trustees of the Nebraska State Colleges, the Nebraska Educational Telecommunications Commission and the State Committee for the Reorganization of School Districts.

Commissioner's Office

The commissioner's responsibilities with respect to qualifications of school personnel are exercised through the Certification Investigations Unit of the General Counsel's Office, which provides investigative and legal services to the commissioner on issues pertaining to the issuance, denial, suspension or revocation of Nebraska teaching and administrative certificates. Complaints filed with the commissioner alleging unprofessional conduct by Nebraska school certificate holders are investigated. The General Counsel's Office is responsible for prosecuting those cases the commissioner determines warrant disciplinary action before the Nebraska Professional Practices Commission, the State Board of Education or its hearing officers.

Education System Leadership and Support

The department carries out its duties on behalf of 303,242 students in 246 public school districts and 200 nonpublic school systems. The department also maintains the required records for students educated in settings exempt from state approval or accreditation because of sincerely held religious beliefs (Rule 13) or for reasons associated with parental decisions regarding their child's education (Rule 12). The staff of the department interact with school districts to help develop and refine local school improvement plans. The department provides technical assistance and offers extensive training opportunities. Many improvement efforts are conducted cooperatively with the 17 educational service units that assist schools on a regional basis. The department also collaborates with other state agencies, professional education associations and institutions of higher education to coordinate and improve services to schools. School improvement activities are conducted or facilitated by a number of the department's teams. For current statistics, see the Nebraska Department of Education website at www.education.ne.gov.

Statewide Assessment

Contact Person: Valerie Foy, Director of Statewide Assessment, phone (402) 471-2495

The Statewide Assessment Office develops and supports state testing in Nebraska. From 200-2010, Nebraska operated a system of locally developed assessment for reporting on state standards. A statewide writing assessment was implemented in 2001 and continues in grades 4, 8 and 11.

The Quality Education Act was amended by legislation in 2007 and 2008, and the Nebraska State Accountability (NeSA) system of testing began. The state academic content standards were revised and new state tests are being developed and administered online according to the following schedule: reading in grades 3-8 and 11 in 2010; mathematics in grades 3-8 and 11 in 2011; and science in grades 5, 8 and 11 in 2012.

The assessment team, in conjunction with the special education team, also oversees the development and administration of alternative tests for students with the most severe cognitive disabilities. All testing procedures, protocols and security issues are handled through the assessment office. Additionally, the assessment team is responsible for providing direction to school districts regarding the implementation and reporting of

national assessment instruments and the National Assessment of Educational Progress.

The assessment team is responsible for generating student performance results on state standards that provide accountability. An annual *State of the Schools Report* is produced and results made public. With state performance results generated from NeSA, a new state accountability system is under development and is expected to be released in the next few years.

Executive Secretary and Chief Executive Officer: Richard R. Endacott

Statutory References: Nebraska Constitution, Article VII, Sections 6 - 9 and 72-201

Publication: Biennial Report (in even-numbered years) supplemented by report in the *Nebraska Blue Book* (in odd-numbered years)

In the Enabling Act of Congress passed April 19, 1864, pursuant to which Nebraska became a State on March 1, 1867, and as a condition of statehood, the federal government granted generally every section 16 and 36 in each township in Trust for the support of Nebraska's common (K-12 public) schools. The Trust nature, conditions and obligations of this grant are reflected in Article VII, Sections 6, 7, 8 and 9 of the Nebraska Constitution and have been recited in numerous decisions of the Nebraska Supreme Court including, for example, *State ex rel. Ebke v. Board of Educational Lands and Funds*, 154 Neb. 244 (1951).

Nearly 2.9 million acres have been acquired in trust for the support of Nebraska's K-12 public schools and approximately 1.63 million of these acres have been sold to private sector owners. Approximately 80 percent of the deeded acres were conveyed pursuant to cash sales or contractual purchase rights vested in buyers, prior to 1900 and several decades before the Board of Educational Lands and Funds came into existence. In accordance with Article VII, Sections 7 and 8 of the Nebraska Constitution, the proceeds from all sales of school lands are deposited into the Permanent School Trust Fund where funds are invested primarily in stocks and bonds by the Nebraska Investment Council.

The board's primary duty is to manage nearly 1.27 million acres of land now held in trust for Nebraska's K-12 public schools. In fulfilling this duty, the board serves as both land owner and land manager. In its capacity as land owner, the board makes substantial expenditures for maintenance, conservation and improvement of the land under its care. In its capacity as land manager, the board issues and services surface

leases, primarily for agricultural uses, and subsurface leases permitting exploration for and extraction of oil and gas, minerals and other natural resources. The board manages approximately 3,550 leases. Sales and trades of school trust land also are discretionary with the board. Land sales, condemnations and easements for combined fiscal years 2012-13 and 2013-14 totaled \$110,000.

The primary sources of revenue generated from Nebraska's school trust lands are rentals and bonuses for agricultural leases and rentals, bonuses and royalties for mineral leases. Analysis using valuation data from the University of Nebraska Department of Agricultural Economics established that Nebraska's K-12 school trust lands had a current market value of approximately \$794.7 million for 1.28 million acres as of June 30, 2011, \$999.9 million for 1.27 million acres as of June 30, 2012, \$1.23 billion for 1.27 million acres as of June 30, 2013, and roughly \$1.4 billion for 1.27 million acres as of June 30, 2014. These are conservative valuations solely based on agricultural values and do not include enhanced values due to scenic or recreational lands owned by the School Land Trust.

Effective Jan. 1, 2001, school lands became taxable. The board pays these taxes and collects them from lessees as part of the rent. Pursuant to Article VII, Section 9 of the Nebraska Constitution, the net income of the school trust remaining after tax and overhead payments have been made is distributed to Nebraska's K-12 public schools statewide on a per pupil basis.

Control of Nebraska's school trust lands was vested in a board composed of state executive officers and a commission of public lands and buildings from 1875 to 1936. The Board of Educational Lands and Funds is now the constitutionally established trustee of Nebraska's school trust lands. The board consists of five members, four from Nebraska's congressional districts as they existed on Jan. 1, 1961, and one at large, appointed by the governor and confirmed by the Legislature to rotating five-year terms. Once appointed to the board, members are independent trustees who manage the board's activities and conduct its business operations in a nonpartisan, nonpolitical manner. The board is governed entirely by trust law, and its trustee members are legally bound to fulfill the trust fiduciary duties of maximizing the income and preserving the assets of the school trust for the benefit of the public schools.

The board meets monthly, and its members receive reimbursement for their necessary expenses for each day they are engaged in performing the duties of their office.

Office of the State Surveyor

Office Address: 555 N. Cotner Blvd., Lower Level, Lincoln, NE 68505-2347, phone (402) 471-2566, fax (402) 471-3057, email address — steven.cobb@nebraska.gov

State Surveyor: Steven C. Cobb

Statutory Reference: 84-407

State laws of 1903 require the Board of Educational Lands and Funds to appoint a state surveyor and let the board appoint deputy surveyors as necessary. Under these laws, the state surveyor:

- takes charge, under the board's supervision, of field notes, maps, charts and records of U.S. surveys. A library with these notes and plats is kept in the state surveyor's office. This material is available to the public and copies are provided for a fee.
- prepares and issues, under the board's supervision, instructions to county surveyors. Acting under this directive, the office last provided a complete set of instructions in 1914. Since then, the office has issued instructions on specific items. Directives to county surveyors are currently handled on a question-and-answer basis.
- acts as arbitrator to settle disputes over surveys of boundaries within the state and disputes between surveyors concerning surveys or boundaries. These disputes and requests for surveys have resulted in about 2,000 state application re-surveys. In many cases, disputes can be resolved without re-survey by using advice on surveying issued by the office.
- performs other duties prescribed by the board, including reviews of all educational trust land transfers and giving opinions on the adequacy of trade, sale and condemnation descriptions

After each transfer is completed, the staff supervises changes in the abstracts and provides field staff with plats showing the revised property. The office provides the board with drafting, charts, graphs and court exhibits.

Since 1903, the Legislature has added the following duties to the Office of the State Surveyor:

- In 1961, the Legislature passed a resolution that led to a U.S. Supreme Court case on the boundary between Nebraska and Iowa. The case was decided in 1973, but problems over boundaries still remain. These actions have led to about 20,000 documents filed in the state surveyor's office. The state surveyor serves on the Nebraska

Joint State Boundary Commission.

- In 1982, the Legislature created the State Survey Record Repository in the Office of the State Surveyor. This repository receives copies of most land surveys completed in the state. The office microfilms and files these surveys and provides copies upon request. The Survey Record Repository contains 292,435 documents archived on microfilm, of which approximately 116,701 may be accessed online.

- In 1991, the Legislature created the Geographic Information System Steering Committee. The state surveyor serves as a member of this committee.

- In 1998, the Legislature created the Nebraska Information Technology Commission, now known as the Nebraska GIS Council. The state surveyor’s office provides technical assistance, support and advice to the various counties, cities and other government entities in Nebraska in their endeavors to produce and maintain cadastral and other geo-referenced maps.

The state surveyor’s office also has general governmental responsibility to provide service and information to the public.

Nebraska Educational Telecommunications Commission

Office Address: Terry M. Carpenter and Jack G. McBride Nebraska Educational Telecommunications Center, 1800 N. 33rd St., Lincoln, NE 68503, phone (402) 472-3611, fax (402) 472-1785, website — www.netnebraska.org/television/ (television) and www.netnebraska.org/radio/ (radio)

Secretary/General Manager: Mark Leonard

Statutory Reference: 79-1313

The Nebraska Educational Telecommunications Commission was created by the Educational Television Act, adopted by the 1963 Legislature. In 1984, the Legislature changed the commission's name and broadened its scope to include all educational telecommunications. The commission promotes and provides noncommercial educational telecommunications statewide by satellite, broadcast, fiber optics, computer and other technologies.

Nebraska Educational Telecommunications (NET) is the umbrella designation used to encompass the commission's various services housed at the Terry M. Carpenter Nebraska Educational Telecommunications Center. Among these services is NET Television with its four over-the-air analog and digital TV channels (NET1, NET2, NET3 and NET-HD), NET Radio, NET Learning Services and NET Technology Services including the NET*SAT satellite system.

Public Television. Public television began in Nebraska when KUON-TV signed on the air in November 1954. In April 2003, NET launched its digital television service in accordance with the federal government mandate.

The Nebraska Educational Telecommunications Commission holds the licenses for all nine radio transmitters and five radio translators and for eight television transmitters and 14 television translators. KUON-TV is licensed to the University of Nebraska Board of Regents.

Board of Regents. Through a longstanding agreement with the Board of Regents, station KUON-TV operates as the originating station for NET Television's primary channel, NET1. Station KYNE-TV in Omaha may vary from the NET1 broadcast schedule in order to meet the needs of the Omaha community.

NET Television now has four digital broadcast services, including one high-definition broadcast signal:

- NET1 and NET-HD includes signature Public Broadcasting Service (PBS) programs and award-winning, locally produced public television programs which can be seen in high-definition where applicable.
- NET2 offers the *PBS World* service, a collection of news and public affairs programming. NET2 also offers live coverage of the Nebraska Unicameral.
- NET3 offers *Create*, public television's most popular how-to, travel and lifestyle programs.

The NET Television schedule includes acquired programs from PBS and other national and regional distributors. NET Television also produces local programs featuring Nebraska people, places and history, such as fine arts performances, high school sports championships, and regular series such as *Backyard Farmer*, *Big Red Wrap-Up* and

Nebraska Stories. Recent local documentary productions include *The Recipe Box*, featuring the recipes and stories of nine homegrown Nebraska cooks; *Walk-Ons: Husker's Edge*, about the University of Nebraska football walk-ons program; and *Jazz Cabaret*, featuring the University of Nebraska-Lincoln Jazz Faculty Ensemble. NET Television also produces documentaries that are broadcast nationwide, such as the recent production *Homemade Astronaut: The Clay Anderson Story*.

A percentage of the financial support for local productions comes from the statewide nonprofit citizen support groups, the NET Foundation for Television and the NET Foundation for Radio. NET also receives federal and state funding.

NET's specialized services include Radio Talking Book and the Descriptive Video Service.

Radio Talking Book, Inc. (RTB) is an Omaha-based nonprofit organization that broadcasts nearly 5,000 hours of audio books, magazines and newspapers to 5,000 visually impaired Nebraskans each year. In the summer of 2008, RTB was converted from NET Television's second audio program channel to the NET FM radio network. RTB supplies a free radio receiver to access the FM side band channels.

A number of public television programs are produced with the Descriptive Video Service (DVS) to make them accessible to people who are blind or visually impaired. DVS provides narrated descriptions of a program's key visual elements, such as action, settings, scene changes and body language.

Public Radio. Public radio began in Nebraska in 1986, when the Legislature amended the Nebraska Educational Telecommunications Act to direct the Nebraska Educational Telecommunications Commission to establish a statewide public radio network. In 1988, the commission received studio and transmitter equipment for public radio station KUCV-FM from the Union College Board of Trustees in Lincoln and transferred the license from Union College to the commission. KUCV-FM became the originating station for NET Radio. In 2001, KUCV-FM changed its broadcast frequency to 91.1-FM, increased its power and began broadcasting 24 hours each day.

While NET Radio offers primarily a classical music format, a number of news, public affairs, entertainment and interview programs fill out the schedule. National program services, such as Public Radio International and National Public Radio, make possible such programs such as *A Prairie Home Companion*, *Morning Edition* and *All Things Considered*. NET Radio also produces several local programs, including *Friday Live*, and arts and entertainment "magazine;" *Classics By Request*, *Nebraska Concerts* and *Nebraska News*. NET Radio's staff members consistently win statewide and regional competitions for their coverage of news and events across Nebraska.

Education Services. NET's Education Services is responsible for the design and delivery of educational and interactive media services to supplement and support curriculum based learning and informal education activities. NET's Interactive and Educational Media Group creates digital resource materials such as the online history textbook nebraskastudies.org and CD-ROMS and DVDs for clients across the state and nation. The group also manages all interactive media services for the public television and radio networks. Education Services manages internship and teaching programs conducted at the NET facility and an Educational Outreach component that works

with formal, informal and non-traditional educators throughout the state.

NET Technology Services. NET Technology Services includes the NET*SAT educational satellite and fiber optic networking system. In 1990, the commission replaced its 25-year-old land-based microwave interconnection system with NET*SAT. Nebraska was the first state to lease a full-time satellite transponder for educational and public service and the first to distribute its public broadcasting services via satellite. NET moved to two new satellite transponders in January 2000.

Many of NET’s services are distributed via NET*SAT, a multiple-channel video and audio service that provides real-time, two-way and one-way video and audio throughout the United States. NET Technology Services also operates a fiber optic service to connect groups of elementary, secondary and postsecondary schools for two-way instruction and to provide videoconferencing capabilities for state agencies, colleges and universities and extension offices across Nebraska.

Governance. The Nebraska Educational Telecommunications Commission has 11 members. Nine are appointed by the governor and are subject to legislative approval. The Nebraska commissioner of education, or his or her designee, and the president of the University of Nebraska, or his or her designee, are standing commission positions. Appointed members include:

- a Nebraska state college representative
- a Nebraska community college representative
- a Nebraska private educational institution representative
- six members of the public, two from each congressional district in Nebraska, none of whom are associated with any of the institutions listed above. No more than four may be actively engaged in the teaching profession or administration of an educational institution.

Commissioners are appointed to four-year terms on a staggered basis. The commission meets monthly, when necessary, with most meetings held at the Educational Telecommunications Center. Members are not paid but are reimbursed for expenses.

Equal Opportunity Commission

Office Address: 301 Centennial Mall South, Fifth Floor, P.O. Box 94934, Lincoln, NE 68509-4934, phone (402) 471-2024, toll-free phone (800) 642-6112, website — www.neoc.ne.gov/

Executive Director: Barbara Albers

Statutory Reference: 48-1116

The Equal Opportunity Commission operates under the Nebraska Fair Employment Practice Act, the Equal Pay Act, the Nebraska Age Discrimination in Employment Act, the Fair Housing Act and the Civil Rights Act of 1969 regarding public accommodations.

Fair Employment Practice Act. The commission investigates charges of employment discrimination because of race, color, religion, sex, national origin, disability or marital status. Discrimination charges must be filed within 300 days of the alleged act for all governmental agencies and employers with more than 15 employees. Jurisdiction covers employers, employment agencies, labor organizations and joint labor-management committees. The commission investigates specific complaints, conducts hearings, subpoenas witnesses, administers oaths and takes testimony. The commission may obtain a court decree to enforce an order.

Equal Pay Act. Employers cannot pay employees who do the same job different wages because of their gender. This does not include wage rates established by a seniority system, a merit increase system, or earnings passed on production quality or any factor other than gender. Charges of discrimination can be filed against employers with 15 or more employees.

Nebraska Age Discrimination in Employment Act. Employers cannot discriminate in the workplace because of age, except when the job's demands require employees to be a certain age group. These prohibitions are limited to workers who are at least 40 years of age. Charges of discrimination may be filed against governmental agencies and employers with 20 or more employees within 300 days of the alleged act.

Fair Housing Act. State policy prohibits discrimination based on race, religion, color, sex, disability, family status or national origin in acquiring or owning housing. If the commission determines that a city has a law to administer this act's provisions, the commission may refer housing discrimination complaints of that city to the appropriate local agency. If the local agency does not promptly handle complaints to protect the party's rights, the commission may regain jurisdiction. Complaints should be filed within one year after the alleged act. If the commission determines a complaint has reasonable cause and does not receive voluntary compliance with this act, the commission may file a civil action in the complainant's county in district court.

Civil Rights Act of 1969 (Public Accommodations). This act establishes that all persons are entitled to equal enjoyment of any public place, without discrimination or segregation on the grounds of race, color, sex, religion, national origin or ancestry. Anyone claiming to be harmed by an unlawful discriminatory practice may file a complaint with the commission. A complaint must be filed within 10 days after the alleged act of discrimination. Exceptions include places owned and operated by religious associations and private establishments not open to the public.

The commission’s seven members are named by the governor to three-year terms. Members meet monthly. They are paid \$50 a day when working on commission business and are reimbursed for expenses. The commission appoints an executive director, who can appoint additional staff if the commission deems it necessary.

Foster Care Review Office

Office Address: 521 S. 14th St., Suite 401, Lincoln, NE 68508, phone (402) 471-4420, fax (402) 471-4437, toll-free phone (800) 577-3272, website — www.fcro.nebraska.gov

Director: Kim Hawekotte

Statutory Reference: 43-1302

The agency was created in 1982 with the Legislature’s passage of LB714, the Nebraska Foster Care Review Act. The act was created in response to Public Law 96-272, federal legislation mandating a response to problems in each state’s foster care system. The Nebraska Foster Care Review Act mandates permanency plans for children and oversight by the Foster Care Review Office of all children involved in the state’s foster care system. The foster care system includes children in all types of out-of-home placements, whether they have been abused, neglected, dependent or delinquent.

The purpose of the Foster Care Review Office is to provide information and direct reporting to the courts, the state Department of Health and Human Services and the Legislature regarding the foster care system in Nebraska; to provide oversight of the foster care system; and to make recommendations to the Legislature regarding foster care policy.

Oversight by the office occurs at four levels:

- periodic review of children in out-of-home care by trained agency staff and local board members with reports and case-level recommendations provided to the legal parties to those cases
- an independent tracking system to ensure that children are not lost in the system
- visitation and observation of foster care facilities to ascertain that the individual physical, psychological and sociological needs of each foster child are being met
- preparation of quarterly and annual reports to the Legislature, stakeholders and the public that provide an analysis of child welfare system data and recommendations for system-level improvements

Beginning in 2013, for administrative purposes, the offices of the staff of the Nebraska Children’s Commission are located in the Foster Care Review Office. The commission, with assistance from the executive director of the Foster Care Review Office, employs a policy analyst to provide research and expertise to the commission relating to the state’s child welfare system. The Foster Care Review Office director is a voting member of the Nebraska Children’s Commission, which will terminate June 30, 2016, unless continued by the Legislature.

The Foster Care Review Office is supported by the Foster Care Advisory Committee. It is the committee’s responsibility to hire the director of the Foster Care Review Office.

The Foster Care Advisory Committee has five members selected from lists compiled by the Legislature’s Health and Human Services Committee and appointed by

the governor. Three members are selected from a list of 12 local board members, one from a list of four candidates with data analysis experience and one from a list of four candidates to represent the public at large.

Members are appointed to three-year terms and cannot have a pecuniary interest in the foster care system or be employed by the Foster Care Review Office, the Department of Health and Human Services, a county, child-caring agency, child-placing agency or court.

The committee meets at least four times per calendar year. Members are not paid but are reimbursed for expenses.

The Game and Parks Commission is in charge of managing state parks, wildlife, fish, wildlife lands, boating and all things related to these areas. The commission is funded through permit sales, state general fund allocations and federal funds. This money is held by the state treasury in various cash funds, which are used to administer and develop state fish, game and park resources. The game fund, which includes boat registration money, also is used to enforce and administer state boating laws and support the construction and maintenance of boating facilities. The Park Cash Fund and General Fund appropriations support the state parks. The Land and Water Conservation Fund, a federal grant-in-aid program that is administered by the commission, helps state and local governments acquire and develop outdoor recreation facilities. The commission also administers the Trail Development Assistance Act, another grant-in-aid program.

The commission recognizes state game refuges created by the Legislature in Boyd, Dodge, Douglas, Garden, Holt, Keya Paha, Lincoln, Rock and Saunders counties. The commission also maintains public use areas — including fish hatcheries, recreation areas, state parks and state historical parks — and wildlife management areas.⁵

The commission has its headquarters in Lincoln and has six district offices at Alliance, Bassett, Kearney, Norfolk, North Platte and Lincoln, plus a Metro Information Office in Omaha. Each district office, except District 2 at Bassett, has a supervisory conservation officer, a fisheries manager, a wildlife manager and support staff.

The commission originated in 1879 when a Board of Fish Commissioners was created to increase fish populations and distribution in Nebraska's public waters. In 1901, the governor was made commissioner of a Game and Fish Commission and had two deputies. The commission was disbanded in 1919, and administration of game and fish laws was given to the Department of Agriculture, where it became known as the Bureau of Game and Fish.

The 1921 Legislature created a state Park Board in the Department of Public Works that was attached to the University of Nebraska's Department of Horticulture in 1923. In 1929, the Bureau of Game and Fish and the state board were abolished and replaced with the Game, Forestation and Parks Commission. The governor served as the commission's chairperson. The law was changed in 1935 and again in 1947 and 1949. The 1967 Legislature created the post of state forester for the University of Nebraska. This removed responsibility for forests from the commission, and its name was changed to the Game and Parks Commission.

The 2008 Legislature expanded the number of commission districts to nine by adding one at-large member. Commissioners are appointed by the governor and approved by the Legislature for four-year terms. Lifetime membership is limited to two terms. Commission members must be Nebraska residents and well-informed on wildlife conservation and restoration and at least two members must work in agriculture. No more than five members may belong to the same political party. Political affiliation is

based on a member's voter registration as of the statewide general election prior to his or her appointment.

The commission meets at least four times a year. Members receive \$35 a day when conducting commission business and are reimbursed for expenses.

The commission appoints a secretary, who acts as director and chief conservation officer. The law allows the director to apply civil service rules in appointing conservation officers.

The Geologists Regulation Act, passed in 1998, provides for the certification and licensure of professional geologists in Nebraska whose activities may affect public health and safety. The board accomplishes this through licensure, education, compliance oversight, regulatory services and other duties specified by the act.

The board consists of seven governor-appointed individuals who serve five-year terms. Six members are licensed professional geologists who have at least 10 years of experience. One of the geologist members must be a member of the professional faculty of a geology or related geosciences department of a college or university located in Nebraska. The seventh member represents the public. The board meets at least once a year. Members are not paid but are reimbursed for expenses.

Grain Sorghum Development, Utilization and Marketing Board

Office Address: 301 Centennial Mall South, Fourth Floor, P.O. Box 94982, Lincoln, NE 68509-4982, phone (402) 471-4276, fax (402) 471-3040, email address — sorghum.board@nebraska.gov, website — www.sorghum.state.ne.us

Executive Director: Barbara Kliment

Statutory Reference: 2-4002

The 1981 Legislature passed the Grain Sorghum Resources Act to set up a check-off system and to create the Grain Sorghum Development, Utilization and Marketing Board to administer checkoff funds. The program requires a checkoff of one cent per hundredweight, which is collected at the point of first sale of all grain sorghum sold through commercial channels or delivered in Nebraska. The money is used to help grain sorghum producers finance market development, research, promotion, education and federal legislation.

Overseas market development programs are supported with these funds. In this effort, the board works with the U.S. Grains Council, the United Sorghum Checkoff Program and the National Sorghum Producers. Through worldwide offices, producers investigate new markets while maintaining established ones.

The board cooperates with the University of Nebraska’s Institute of Agriculture

and Natural Resources in conducting research projects.

The board has seven members. Six are appointed by the governor from each of Nebraska's four production districts and two represent the state at large. The board elects the seventh member, who also represents the state at large. All members serve three-year terms and must be Nebraska residents who are at least 21 years old and grow grain sorghum.

The governor chooses appointees from candidates who have completed and filed an application with the governor's office and have submitted a cover letter, two letters of endorsement from sorghum growers and proof of sorghum production. The Nebraska Department of Agriculture director and the vice chancellor of the Institute of Agriculture and Natural Resources are ex officio board members.

The board meets at least once every three months and at other times as needed. Members are not paid but are reimbursed for expenses.

The Nebraska State Historical Society (NSHS) was founded in 1878 and was made a state institution in 1883. The NSHS became a state agency in 1994. NSHS collects and preserves historical information and objects for the state's benefit and administers museums and seven historic sites, the State Archives, the State Historic Preservation Office, the Office of the State Archaeologist and the Gerald R. Ford Conservation Center. NSHS receives Legislative appropriations plus federal and private funds.

Legislative acts in 1905 and 1969 made the Historical Society responsible for preserving public records of state and local government that the State Archives division determines to be historically valuable. The State Archives holds government records

⁷For a list of local historical organizations in Nebraska, see Pages 661-668.

dating back to 1854 along with county, municipal and some federal records about Nebraska’s development. Other archival holdings include 15,000 linear feet of manuscript collections comprising business, political, religious and personal papers that document the state’s development. The photograph collection includes more than 300,000 images relating to Nebraska and its residents. The audio-visual collection consists of over 6.5 million feet of moving images and videotape and several thousand sound recordings.

The Nebraska History Library holds approximately 80,000 volumes pertaining to Nebraska and Great Plains history. Along with books, pamphlets and periodicals, the library has over 3,000 flat maps and atlases, as well as special reference files and indexes on Nebraskans and Nebraska topics. Newspaper holdings date back to 1854 and consist of more than 35,000 reels of microfilm - the largest collection of Nebraska newspapers in existence.

The NSHS’s Nebraska History Museum collects and preserves artifacts that help to document and interpret the cultures of people who have lived in Nebraska and the Great Plains from prehistoric times through the present day.

The Gerald R. Ford Conservation Center, a division of the NSHS located in Omaha, provides conservation of historical documents, textiles and museum objects. The center houses a digital imaging laboratory, which offers the highest quality imaging for cultural collections.

The NSHS determines which historical events, sites and traditions are important to the state, and it procures and maintains historical markers. The society accepts gifts to further carry out the program. Most markers are erected and the sites maintained by the Department of Roads. Currently, there are more than 500 uniform markers statewide.

The NSHS investigates historic and prehistoric archaeological sites. A highway salvage archaeology program, started in 1957, entered into a formal agreement with the Department of Roads in 1960. NSHS staff archaeologists survey, record and excavate sites threatened by road construction or repair.

The NSHS is governed by a board of trustees, 12 of whom are elected by the members from each of the state’s congressional districts. The governor appoints three members to the board, one from each congressional district, who serve three-year terms. The director/CEO of the NSHS is the board’s secretary.

The NSHS trustees meet quarterly. Members are not paid but are reimbursed for expenses.

In 1967, the Nebraska State Historical Society (NSHS) was directed to carry out the provisions of the National Historic Preservation Act for Nebraska (NRS 82-118 as amended). Through this program, the NSHS can nominate places, structures and objects that are significant to history, architecture, archaeology and culture to the National Register of Historic Places. Other program activities involve maintaining a statewide inventory of sites, reviewing federal actions for effects on historic properties, qualifying private development projects for historic preservation tax incentives and certifying local governments to participate in state and federal preservation programs. Nebraska maintains a statewide historic preservation plan. The director of the NSHS serves as state historic preservation officer, and the Nebraska State Historic Preservation Board, consisting of members appointed by the state historic preservation officer, serves in an advisory capacity for the state’s historic preservation program under definition of the National Historic Preservation Act.

The Commission on Indian Affairs, established in 1971, monitors legislation and coordinates activities among tribes, organizations and state and federal agencies. Its members serve to promote Indian rights and address problems common to Nebraska Indians.

The commission consists of 14 American Indians living in Nebraska appointed by the governor to four-year terms. Members come from the following reservations, cities or districts: two from the Omaha Tribal reservation; two from the Winnebago Tribal reservation; two from the Santee Sioux Tribal reservation; two from the Ponca Tribe; one from Lincoln; two from Omaha; one from the district that includes Box Butte, Dawes, Sheridan and Sioux counties; one from the district that includes Banner, Cheyenne, Deuel, Garden, Kimball, Morrill and Scotts Bluff counties; and an at-large member.

The governor selects each appointee from nominees submitted by the tribe or area to be represented. The commission also may have nonvoting, ex officio members, appointed by the commission, who do not have to be Indian.

The commission meets four times a year. Members are paid \$50 a day when conducting commission business and are reimbursed for expenses.

The commission hires and sets the pay of an executive director. The director is a Nebraska Indian tribal member or Nebraska resident of Indian descent.

Commission of Industrial Relations

Office Address: 301 Centennial Mall South, Fifth Floor, P.O. Box 94864, Lincoln, NE 68509-4864, phone (402) 471-2934, fax (402) 471-6597, email address — industrial.relations@nebraska.gov, website — www.ncir.ne.gov/

Clerk/Administrator: Annette Hord

Statutory Reference: Nebraska Constitution, Article XV, Section 9; and 48-803

The Court of Industrial Relations, created by the 1947 Legislature under authority provided in the Nebraska Constitution, has jurisdiction over public utility and state and local government employee labor disputes. The court's powers were expanded in 1969 to give it jurisdiction over all public employees, and the number of judges was increased from three to five.

The 1979 Legislature changed the name from “court” to “commission.” The commission has powers of special impasse and representation and the power to resolve prohibitive practices. In 2007, the Legislature passed LB472, which changed the member's title from “judge” to “commissioner.”

Nebraska public employees, except the Nebraska National Guard or state militia, can be represented by employee organizations of their own choice and can negotiate collectively with their employers to determine the terms and conditions of employment. However, the employees cannot strike. When any industrial dispute exists, an employer, employee or labor organization, or the attorney general (on his or her own or by order of the governor) may file a petition with the commission invoking its jurisdiction. The commission:

- determines if a prohibited practice has occurred
- determines who represents employees during collective bargaining
- resolves disputes by establishing pay rates and employment conditions comparable to the standards set for similar work
- orders good-faith bargaining, mediation or fact finding, and appoints people to carry this out. The commission's final orders may be appealed to the Nebraska Court of Appeals.

The commission has five members appointed by the governor to six-year terms

with legislative approval. Commissioners must represent the public and be appointed based on their knowledge and experience in legal, financial, labor and industrial matters. Commission members are paid \$475 a day when conducting commission business. On July 1 of every odd-numbered year, commissioners elect a presiding commissioner for a two-year term. The presiding commissioner appoints the clerk of the commission.

Nebraska Investment Council

Office Address: 1526 K St., Suite 420, Lincoln, NE 68508, phone (402) 471-2043, fax (402) 471-2498, website — www.nic.ne.gov

State Investment Officer: Michael Walden-Newman

Statutory Reference: 72-1237

The Nebraska Investment Council was established under 1967 and 1969 laws as a central state investment agency. The council provides investment management services for the state. Most provisions governing its activities are contained in the Nebraska State Funds Investment Act and the Nebraska Capital Expansion Act (statutory reference: 71-1237 through 72-1269).

The agency is governed by a seven-member council. Five voting members are appointed by the governor and confirmed by the Legislature. They serve five-year terms, with one expiring each year. The state treasurer and the executive director of the Public Employees Retirement Systems⁹ serve as nonvoting members.

The council establishes necessary and proper policies for the investment of the funds for which it is responsible. Such policies include appropriate investment strategy decisions, selection of external managers and allocation of funds among managers. The council appoints a state investment officer, subject to the approval of the governor and the Legislature. The state investment officer, with the assistance of the agency staff, directs the investment of these funds in accordance with state statutes and the policies of the council.

Funds managed include the state's general and cash funds; retirement plans for the State Patrol, judges, and teachers (with the exception of Omaha); and trust funds such as the Permanent School Fund, the Veterans' Aid Fund and the Health Care Trust Fund. The council also is responsible for investing the state employees' and county employees' retirement systems funds, the deferred compensation plan assets and funds of the Nebraska Educational Savings Plan Trust.

In 2013, assets under the responsibility of the council totaled over \$20 billion, with total net contributions of \$372 million and total net investment earnings of over \$2.45 billion during the year.

The 1957 Legislature created the State Board of Examiners for Land Surveyors. The law provided for the director-state engineer, state surveyor and dean of the University of Nebraska's College of Engineering to serve as an ex officio board. The state surveyor was the board's ex officio secretary.

The 1971 Legislature established the independent State Board of Examiners for Land Surveyors. The board tests and interviews people applying to be registered land surveyors. The board also can revoke registration to conform with the law. The board is financed through registration fees, which are handled by the board's secretary.

The board has five members who are appointed by the governor to five-year terms. Four members must be registered land surveyors who have lived in Nebraska for at least one year and have been practicing surveyors for 10 years. At least five years must have been spent in charge of surveying work. One board member, who is at least 21 years old and a Nebraska resident for at least one year, represents the public. The state surveyor serves as ex officio secretary of the board and any committees board members appoint.

Information and Resource Sharing Services

Nebraska libraries were among the nation's first to develop workable methods for resource sharing. The commission continues this legacy by:

- providing reference, research, consultation and interlibrary loan services to the staff of public, school and special libraries and state government agencies
- providing access to the VHS and DVD collection of the Nebraska Humanities

¹⁰ For additional information on Nebraska libraries, see Pages 52 and 919-926.

Council

- providing assistance and resources in public administration, library operations, librarianship and collection management for staff of all types of libraries and state agencies
- providing government information services through the Nebraska Publications Clearinghouse Service (statutory reference: 51-412). Services include direct loan of over 165,000 Nebraska documents and more than 47,000 federal government publications, convenient public access to electronic state government publications and reference services in person or via email, telephone and internet chat. The Library Commission participates in the Federal Depository Library Program and operates a Nebraska depository library program. Key state publications are accessible electronically or on microfiche via the Nebraska State Publications website and through depository libraries.
- providing NebraskAccess: free 24/7 access to websites selected by librarians, full-text government publications and Nebraska historical resources. Nebraska residents also are provided with free online access to thousands of full-text magazine, journal and newspaper articles, biographical and business information, genealogical resources and more.
- providing access to a worldwide database of over two billion books, CDs, DVDs and other materials including more than eight million holdings in 90 public, academic, school and special libraries in Nebraska. These materials may be requested by libraries through Online Computer Library Center Inc. (OCLC) in Dublin, Ohio, either directly or through the Nebraska Library Commission Reference/Information Services.
- providing Nebraska Memories, a cooperative project to digitize Nebraska related historical and cultural heritage materials and make them available to researchers of all ages via the Internet.

Library Development Services provide coordination and support services to Nebraska libraries and media centers and work with local libraries, institutions, boards and citizen groups to develop improved library services and facilities. For Nebraska library employees or library trustees, Library Development provides:

- training and continuing education programs
- consultation and information regarding library services and issues
- financial grants and aid
- support of regional library systems, providing consulting and continuing education, resource sharing services and library technology support

- library improvement through community-based library planning and evaluation

Talking Book and Braille Service

The Talking Book and Braille Service offers statewide library service to Nebraskans who experience visual or other physical conditions that limit their use of regular

print materials. To provide the same access to informational and recreational reading enjoyed by other Nebraskans, the Talking Book and Braille Service offers books and magazines on digital cartridge or embossed in Braille. The commission circulates talking books and special equipment to play talking books provided by the Library of Congress, National Library Service for the Blind and Physically Handicapped. This includes approximately 16,000 fiction and nonfiction titles in 81,000 volumes. Readers also can download audio and Braille books and magazines directly from a website hosted by the Library of Congress.

Most Nebraskans receive and return talking books and Braille materials (postage-free) through the U.S. Postal Service. Persons who live in or travel to Lincoln also borrow and return materials in person. Other services offered on site include sample magazines in recorded and Braille formats and children's books in twin vision — print, illustrations and Braille in each single volume. Descriptive videos also are circulated. These videos provide narrated descriptions of the key visual elements (actions, settings, characters and costumes) without interfering with the soundtrack or dialogue of a program or movie.

The Adaptive Technology Center offers a public access computer featuring Braille translation and embossing, a sticky-key keyboard option and adaptive keyboards and adaptive mouse. The Library records 24 magazines and newsletters supplementing the national talking magazine program, records Nebraska related books and produces audio materials for state and community service agencies.

Oil and Gas Development in Nebraska

Oil was discovered in Richardson County in 1939; in the Denver-Julesburg Basin in Cheyenne County in 1949; and on the Cambridge Arch of Red Willow County in 1956. Eighteen of Nebraska's 93 counties produce oil or gas. Nebraska's crude oil is primarily transported to market by trucks. Natural gas is produced in the Panhandle and southwestern Nebraska, with Cheyenne County as the leading producer.

A total of 19,980 tests had been drilled in Nebraska by December 31, 2013, with 1,288 oil wells and 111 gas wells operating. A total of 543 wells are shut in and an additional 130 have been approved for plugging and abandonment.

Since the price collapse in late 2008, exploration for oil has greatly increased, especially in southwest Nebraska. As a result of industry success, oil production has significantly increased. More than 37 percent of the oil is produced through secondary recovery, which involves injecting water into reservoirs using 411 injection wells in 103 oil fields.

Severance taxes are levied on the value of resources severed at the rate of 3 percent of the value of oil and natural gas, except for oil from wells that produce 10 or less barrels of crude oil per day. These wells are subject to a 2 percent severance tax. Severance taxes from production go to the Permanent School Fund. A conservation tax, currently 2 mills (0.2 cents), is levied on sales values and is used to fund the commission. The maximum mill levy is 15 mills per dollar.

Board of Parole

Office Address: Correctional Services Building, Folsom and West Prospector Place, Building 1, P.O. Box 94754, Lincoln, NE 68509-4754, phone (402) 471-2156, fax (402) 471-2453, website — www.parole.state.ne.us

Chairperson: Rosalyn Cotton

Statutory References: Nebraska Constitution, Article IV, Section 13; and 83-188

The Board of Parole was created as an independent agency by constitutional amendment in 1968.

The board reviews the status of committed offenders; determines when committed offenders are released on parole; fixes parole conditions, and may revoke parole and issue warrants to arrest parole violators; visits and inspects state and local prisons or jails; and recommends parole legislation to the governor.

The board meets daily to hear and review parole cases. If an offender is granted parole, he or she is referred to the Parole Administration Office within the Department of Correctional Services to find an approved home and job. A parole administrator, approved by the Board of Parole, manages the Parole Administration Office.

If requested, the board advises the Board of Pardons¹² — composed of the governor, attorney general and secretary of state — on the merits of any application for remission, respite, reprieve, pardon or commutation. This advice is not binding.

The board has five, full-time members appointed by the governor to six-year terms with legislative approval. By law, board members must be of good character and just temperament. At least one board member must be a minority, and one must have a professional background in corrections. The governor designates one board member as chairperson.

Interim Executive Director: Dr. Carna Pfeil

Statutory Reference: Nebraska Constitution, Article VII, Section 14; and 85-1403

Originally created by the 1976 Legislature, the Nebraska Coordinating Commission for Postsecondary Education was given constitutional authority by Nebraska voters in the 1990 general election to coordinate the activities of Nebraska's public postsecondary institutions. The commission assumed this power on Jan. 1, 1992.

The commission was given constitutional responsibility to review and approve or disapprove instructional programs at all of the state's public postsecondary institutions, to review these institutions' budgets and modify them or recommend modification to the Legislature or governor, and to review and approve or disapprove capital construction projects.

The commission also was directed by the constitution to complete the state's first Comprehensive Statewide Plan for Postsecondary Education. The commission completed and approved this document in June 1992, and it has been revised as needed since that time.

In addition, the commission has statutory responsibility to:

- administer the state's financial aid programs
- coordinate the federal Improving Teacher Quality and College Access Challenge Grant programs
- approve or disapprove applications from out-of-state institutions wishing to operate in Nebraska
- conduct research and publish reports on higher education issues

The commission's purpose is to be a coordinating body that works closely with public and private institutions in the state. The commission also cooperates with leadership in elementary and secondary schools, as well as with business representatives, local community leaders, state leaders and others interested in the future of postsecondary education in the state.

The commission's 11 members are appointed by the governor, subject to legislative approval. One member is chosen from each of the six state Supreme Court districts, and five others are chosen at large. Members serve six-year terms. Members and their immediate families may not serve on any postsecondary education governing board and may not be employed by any postsecondary education institution, either directly or by contract. The commission meets at least six times a year. Members are not paid but are reimbursed for expenses.

Executive Director: Steve Meradith

Statutory Reference: Nebraska Constitution, Article IV, Section 20

Salary for Public Service Commissioners: \$75,000

Publications: Motor carrier rate tariffs, annual report on telecommunications

The constitutional powers and duties of the Public Service Commission include regulatory authority over certain aspects of the following industries: grain warehouses and grain dealers; manufacturers and sellers of manufactured homes, modular homes and recreational vehicles; motor transportation carriers of household goods and passengers; natural gas utilities; private water companies; railroads; electric transmission lines and telecommunications carriers. The commission is composed of its transportation, communications, grain warehouse and dealers, housing and recreational vehicles, natural gas, and Nebraska Telecommunications Infrastructure and Public Safety departments.

The natural gas department regulates:

- natural gas utilities, not including natural gas utilities owned or operated by a city or metropolitan utilities district, pursuant to the 2003 State Natural Gas Regulation Act (statutory reference: 66-1801 *et seq.*). The commission's oversight includes: regulating rates charged for delivery of natural gas to customers, regulating quality of natural gas service and addressing customer complaints against natural gas utilities. The commission interacts with the public advocate, an attorney charged with representing the interests of residential and small business natural gas customers. Costs of the program are paid by the regulated utilities and passed on to customers in the form of a surcharge on natural gas bills.

- natural gas pipeline extensions in the areas surrounding Omaha, where a metropolitan utilities district and another natural gas utility both serve. The commission resolves disputes regarding new construction of natural gas mains to serve customers in that area.

- the Major Oil Pipeline Siting Program carries out the Commission's responsibilities established by the 2011 Major Oil Pipeline Siting Act (statutory reference: 57-1401 *et seq.*), namely to ensure the welfare of Nebraskans, including protection of property rights, aesthetic values and economic interests; to consider the lawful protection of Nebraska's natural resources in determining the location of routes of major oil pipelines within the state; to ensure that a major oil pipeline is not constructed in Nebraska without receiving the Commission's approval under section 57-1408; to ensure that the location of routes for major oil pipelines is in compliance with Nebraska law; and to ensure that a coordinated and efficient method for the authorization of such construction is provided.

The transportation department regulates:

- railroads (safety laws, track and motive power and equipment inspection, and the compiling and filing of reports required by law)
- household goods and passenger carriers (rates, service, territory, safety and insurance)

The communications department regulates:

- telephone companies (basic local service rates and access charges; boundary limitations; entry into the Nebraska telecommunications market; subscriber complaints against telephone companies; service quality; licensing of long distance companies, including resellers; licensing of automatic dialing-announcing devices; and auditing of local exchange telephone companies)

- the VoIP/Wireless/ISP Registry

- the Nebraska Relay Service, a communication system for the speech and hearing impaired. The Telecommunications Relay System Advisory Committee (statutory reference: 86-1307) consists of seven members appointed by the Commission for the Deaf and Hard of Hearing to advise on issues related to the hearing impaired community.

- high voltage electrical transmission lines (limited to safe installation, operation and maintenance of electrical transmission lines outside incorporated cities and villages)

- private water companies

The grain warehouse department regulates:

- grain storage and grain sales (grain warehouses and dealers, and grain probes and moisture meter testing). Grain examinations are done annually on grain warehouses and grain dealers. Yearly inspections also are performed on all commercial grain moisture meters.

The housing and recreational vehicle department regulates:

- construction of manufactured (mobile) homes, modular housing units and recreational vehicles through plan review, factory production line inspection, dealer lot inspection and consumer complaint investigation.

The Nebraska Telecommunications Infrastructure and Public Safety Department is responsible for:

- ensuring all Nebraskans have access to telecommunications services at affordable prices through the Nebraska Universal Service Fund. The commission accomplishes this through the administration of four programs. The high-cost program keeps local rates affordable in all areas of the state by subsidizing the costs of telephone services in high cost areas. The Nebraska Telephone Assistance Program (NTAP) provides additional assistance to qualifying low-income Nebraskans to obtain and keep telephone service. The Rural Telehealth Program supports the provision of telecommunications services to a statewide telehealth network. The Broadband Pilot Program supports the provision of broadband telecommunications infrastructure in unserved and underserved areas of the state. These programs are administered with the assistance of an advisory board. The Universal Service Advisory Board (statutory reference: 86-1408) consists of nine members appointed by the Public Service Commission.

- regulating wireless enhanced 911 service, which allows 911 call centers to identify and locate emergency calls originating from wireless phones. Funds may be distributed to 911 call centers throughout Nebraska and to wireless carriers for equipment and network upgrades necessary to process wireless calls. Funding for the program is generated by a 45-cent monthly surcharge assessed on each subscriber with a billing address in Nebraska. An 11-member advisory board assists the commission with administration of the program.

The commission's early predecessor was the Railway Commission, established in 1885, which consisted of the attorney general, secretary of state and auditor of public accounts, each of which appointed a secretary. The commissioners supervised railroad operations in the state, including examination of railroad documents, and could issue subpoenas and administer oaths.

The commission lasted two years until the 1887 Legislature created a board of transportation with the attorney general, secretary of state, auditor of public accounts, state treasurer, commissioner of public lands and buildings and three appointed secretaries as its members. This board investigated common carriers and looked into their business management and held hearings on carrier issues. Lawmakers expanded the board's functions in 1891 by placing the licensing and regulation of public warehouses under its jurisdiction. In 1892, the board began classifying and fixing minimum freight rates charged by Nebraska railroads. The board was given jurisdiction over telephone, telegraph and express companies in 1897.

A 1901 Supreme Court ruling found the law creating the Board of Transportation unconstitutional. From 1901 to 1906, the Legislature regulated railroads. In 1906, voters ratified a constitutional amendment that created an elective railway commission of three members serving six-year terms. A Supreme Court ruling the following year held that the amendment was legal.

In January 1964, the commission increased its membership to five, and the state was divided into five districts, with each electing one commissioner for a six-year term. A 1972 general election vote changed the name of the agency to the Public Service Commission in December of that year.

In 2009, the commission was designated by Gov. Heineman as the state entity to apply for federal stimulus funding for a broadband mapping and planning project. In January 2010, Nebraska's grant was approved for \$2.1 million for the first two years of a proposed five-year project. Through a competitive bid process, ApexCovantage was selected to gather and map broadband data for the state for the first two years. In September 2010, the Commission received an additional award of \$3.5 million, and BroadMap was selected through a competitive bid process to gather and map broadband data for the project's final three years. Approximately \$2.5 million of the grant was earmarked for planning activities, which are a collaborative process led by the Nebraska Information Technology Commission, the University of Nebraska, the state Department of Economic Development and the PSC.

The 1973 Legislature passed the Real Estate License Act, which provided for the State Real Estate Commission. The commission licenses real estate brokers and salespersons through written examinations, investigates complaints and applicants for licenses and examines real estate broker trust accounts. Under the act, as amended in 1978, the commission approves real estate courses offered by proprietary real estate schools and approves instructors and monitors schools offering approved real estate courses.

Real estate licensees have had to meet continuing education requirements since 1986 and, by law, are required to complete 18 hours of approved classes every two years before their licenses can be renewed. Inactive licensees may waive the requirement until they activate their licenses. The commission approves instructors, providers and the subject matter of these classes.

The commission consists of seven members, six of whom are appointed by the governor to six-year terms. The secretary of state is the commission chairperson. Four members must be broker licensees with at least five years of broker or associate broker experience. Three of the broker members are appointed from Nebraska’s congressional districts as constituted on Jan. 1, 2006 and one broker member is appointed at large. The two other members are appointed at large. One is a representative of the public, and the other is a licensed salesperson with at least three years of experience in the real estate

business. Members are reimbursed for traveling expenses, and the appointed members are paid \$100 a day while attending monthly commission meetings. The commission employs a director and other staff.

The Public Employees Retirement Board (PERB) was created in 1971 to administer Nebraska retirement plans for school employees, state employees, judges and the State Patrol. The board assumed administration of the retirement system for Nebraska county employees in 1973.

The board has eight voting members appointed by the governor, with legislative approval, to five-year terms. The State Investment Officer serves as a non-voting, ex officio member. Members must be Nebraska residents. Members include six active or retired participants of board-administered retirement systems, and two public representatives who are not state employees or employees of its subdivisions. The board meets monthly. Members receive a \$50 per diem and are reimbursed for actual expenses.

The board hires a director to distribute expenses among the retirement systems it administers. Expenses must be provided from investment income earned by various retirement funds, unless other fund sources to pay expenses are specified by law.

The state auditor audits state retirement systems each year and makes an annual report to the Legislature. The board also annually reports on the actuarial condition of state retirement systems to the Legislature.

Since 1973, all actuarial reports, actuarial assumption statements and methods, and actuarial valuations and experience investigations required for any retirement system that covers employees in any political subdivision at least partly supported by Nebraska tax dollars must be prepared and signed by an actuary certified by the board.

State Plan

The State Employees Retirement plan began on Jan. 1, 1964, and has a defined contribution option and a cash balance option. Employees contribute 4.8 percent of their annual salary by payroll deduction. The state contributes 156 percent of employees' contributions.

Participants employed after Jan. 1, 2003, and employees who have elected to join, participate in the cash balance option. Cash balance provides a hypothetical account which is credited with daily interest credit and also has the possibility of additional dividends when investment performance allows. The interest credit rate is equal to the federal mid-term rate plus 1.5 percent, but not less than 5 percent. Cash balance contributions are held in a comingled fund and investment of the fund is directed by the Nebraska Investment Council.

Participants who began employment before 2003 and who wished to remain in the defined contribution option have 13 investment funds from which to choose. Defined contribution participants individually select their investments and receive the gains and losses of their selections.

A state employee may retire upon reaching age 55. Several payment options are available, including annuities, rollovers and lump sum distributions. The agency administers the plan and record keeping is done by a third party contractor. Plan expenses are deducted from plan earnings.

County Plan

The 1973 Legislature brought the Retirement System for Nebraska Counties under the board's administration. The 1965 County Employees Retirement Act covered county employees not already covered by retirement plans. By 1987, all counties, except for Douglas and Lancaster, were required to belong to the County Retirement System. It has a defined contribution option and a cash balance option as in the State Plan. Members, whether participating in the defined contribution option or in the cash balance option, contribute 4.5 percent of their gross earnings with the employer contributing 150 percent of the employee amount. In the defined contribution option, the employee and employer contributions are invested in 13 different funds as the member may direct.

isters the plan and record keeping is done by a third party contractor. Plan expenses are deducted from plan earnings.

School Plan

The 1945 Legislature established the School Retirement System for Nebraska school employees. All regular public school employees, except those in Class V school districts, are members of the system. Benefits are based on service, the highest three years' average salary and age at retirement. For members initially joining the plan on or after July 1, 2013, benefits are calculated using the highest five years of salary. A school employee may retire as early as age 60 with five years of service and receive a reduced benefit. The normal retirement age for unreduced benefits is 65. In 1998, legislation for a "Rule of 85" benefit was passed. This legislation allows a member who is at least 55 to retire with unreduced benefits when the member's age and years of service equal 85.

State Patrol Plan

The 1947 Legislature created the State Patrol Retirement System. State Patrol employees can retire at age 55 with at least 10 years of service or, on a reduced basis, at age 50 with at least 10 years of service. The normal retirement age is 55. The contribution rate is 16 percent for the employer and 16 percent for the employee. Benefits are based on years of service as a percentage with a maximum of 75 percent of final average salary. Besides normal benefits, the law provides for disability and survivor benefits. Members are not covered by Social Security. Beginning Sept. 1, 2008, a deferred retirement option plan was adopted for members who have reached normal retirement age.

Judges Plan

The 1955 Legislature created a Judges Retirement System. Membership for district and Supreme Court judges became effective Jan. 3, 1957. Workers' Compensation Court judges were added Sept. 20, 1957, county judges and separate juvenile judges on Jan. 5, 1961, municipal judges on Oct. 23, 1967, and Court of Appeals judges were added in September 1991. In 1985, the Legislature combined the municipal and county court systems.

A per case fee is collected from district and county courts to help finance the Judges plan, as well as a percentage charge on certain county court fees. The current contribution rate for the plan is 9 percent of salary for the first 20 years and 5 percent thereafter for members who participate in the spousal benefit option, and 7 percent of salary for the first 20 years and 1 percent thereafter for members who do not participate in the spousal benefit option.

Deferred Compensation Plan

In 1976, the board implemented the State of Nebraska Deferred Compensation Plan. This plan is an optional supplemental retirement plan. It allows eligible employees to defer a portion of their salaries to a later date. Taxes due on the accounts and earnings are deferred until the date of disbursement. This is usually at retirement when most participants are in a lower tax bracket. Other qualifying events for disbursement

are death, disability or termination of employment. Provisions in the plan document allow emergency withdrawals for unforeseen financial hardships with board approval. The investment options the member may select are the same as the ones in the defined contribution option of the State Plan and the County Plan.

Tax Equalization and Review Commission

The Tax Equalization and Review Commission was created on Jan. 1, 1996. The commission has two primary duties. First, the commission serves as an intermediate appellate tribunal, conducting de novo hearings and issuing written decisions to resolve appeals – primarily determinations made by the 93 county boards of equalization. Second, the commission acts as an adjudicative body regarding the equalization of real property assessments within each county before May 15 of each year, commonly known as statewide equalization. The average number of valuation appeals filed with the commission has increased from approximately 500 per year to over 2,200 per year.

The commission hears and decides appeals at single commissioner hearings or panel hearings throughout the year. In all hearings, the taxpayer may present testimony and documentary evidence with or without an attorney. The county assessor or other legal representative of the county may present evidence to defend the county board of equalization’s determination of value and may be represented by the county attorney.

During informal single commissioner hearings, the rules of evidence do not apply and the hearings are not recorded. During panel hearings, limited rules of evidence apply — as required by statute — and the hearings are digitally recorded. Formal hearings are held only upon request of a party and by order of the commission.

Decisions from single commissioner hearings are final unless a rehearing before a panel of the commission is requested. Decisions from panel hearings may be appealed to the Nebraska Court of Appeals. Statewide equalization is conducted each year, primarily in April and May.

The commission has three commissioners, one from each of the congressional districts. The governor appoints the commissioners to six-year terms, and the Legislature confirms the appointments. The governor may remove commissioners from office for cause.

Office Address: 3835 Holdrege St., Lincoln, NE 68583, phone (402) 472-3906, website — www.nebraska.edu

The University of Nebraska Board of Regents has been the university's governing body since the university was established in 1869.¹⁶ The original board had 12 members, including the governor, the state superintendent of public instruction and the university chancellor as ex officio members. The governor appointed the original regents. Succeeding regents were elected by the Legislature until 1875, when the new state constitution reduced the number of regents to six and provided for their election by the voters in odd-numbered years. An amendment adopted in 1912 changed their election to even-numbered years. Regents were elected on partisan ballots until 1917, when the Legislature provided for nonpartisan regent elections starting in 1918. From 1921 to Jan. 7, 1971, one regent was elected from each of the state's six Supreme Court districts for a six-year term.

¹⁶For more information about the University of Nebraska and its four campuses, see Pages 888-896.

The 1969 Legislature increased the number of regents from six to eight and divided the state into eight districts each represented by a regent. At the 1972 general election, two regents were elected, one each from District 1 and District 2, to six-year terms. Two regents were elected to six-year terms at the 1974 general election from District 6 and District 7, and from districts 4, 5, 6 and 8 in the 1976 general election. All elections since have been for six-year terms. Regents are not paid but are reimbursed for expenses.

A constitutional amendment was approved at the 1974 general election to let the three University of Nebraska campus student body presidents sit as nonvoting members on the Board of Regents for one-year terms. The members are the president of the University of Nebraska-Lincoln's Association of Students of the University of Nebraska, president of the University of Nebraska at Omaha Student Senate and president of the University of Nebraska Medical Center Student Senate. The student body president of Kearney State College was added as a nonvoting member after the college became the University of Nebraska at Kearney on July 1, 1991.

Nebraska Wheat Board

Office Address: 301 Centennial Mall South, Fourth Floor, P.O. Box 94912, Lincoln, NE 68509-4912, phone (402) 471-2358, fax (402) 471-3446, email address — wheat.board@nebraska.gov, website — www.nebraskawheat.com

Executive Director: Royce Schaneman

Statutory Reference: 2-2302

The Nebraska Wheat Board was created to protect and foster the economic health of the state's wheat producing areas and wheat economy stated as public policy under the Nebraska Wheat Resources Act. This public policy guides the wheat board in establishing its overall policy, annual marketing plan, goals and objectives and program priorities. The board also evaluates wheat market developments worldwide to meet these goals.

The board takes actions to strengthen the position of Nebraska wheat growers and the Nebraska wheat industry by working in research, international marketing, domestic marketing, education, promotion and federal policy.

Foreign wheat markets are developed and export sales promoted through U.S. Wheat Associates, a partnership of the board and 18 other state wheat commissions, which has 17 U.S. wheat promotion offices throughout the world, and through Plains Grains, Inc., an organization of hard red winter wheat growing plains states. The board works with organizations such as the Wheat Foods Council and the Grain Foods Foundation to educate consumers about the nutritional value of whole wheat to a healthy diet. The board also invests resources with the Wheat Quality Council and the Nebraska Wheat Growers Association to educate producers on high quality end-use varieties and production practices in order to increase profitability and sustainability. By cooperating with the National Association of Wheat Growers, the board is able to address various wheat quality and trade issues as well as the development of transgenic traits in wheat production, particularly as they relate to federal policy.

The board contracts with the University of Nebraska's Institute of Agriculture and Natural Resources wheat breeding team for research on wheat variety improvement in both the hard red and hard white winter wheat varieties. Additional research to combat diseases that affect wheat crop yields and to examine the benefits of biotechnology also is funded. Improving the quality of Nebraska's wheat crop enhances the crop's appeal in foreign markets and increases export opportunities.

The board's programs are financed solely by the state's checkoff of 0.4 percent of the net value of the wheat, assessed on all wheat marketed in the state at the point of first sale.

The board consists of seven wheat growers, including one at-large member and representatives of Nebraska's six districts, who are appointed by the governor to five-year terms. Members must be Nebraska residents, be at least 21 years old, have been growing wheat in the state for at least five years and derive a substantial portion of their income from growing wheat.

The board's nonvoting members are the director of the Nebraska Department of Agriculture and the vice chancellor of the Institute of Agriculture and Natural Resources. The board meets at least once every three months. Members are entitled to expenses while attending board meetings or while performing official responsibilities as determined by the board.

The Nebraska Children's Commission was created by the 2012 Legislature with the passage of LB821. The commission was created to develop a statewide strategic plan to reform Nebraska's child welfare system and to review the Department of Health and Human Services' operations regarding child welfare programs and services.

The commission also oversees committees created by the same legislation to examine state policy regarding prescription of psychotropic drugs to state wards and to examine the structure and responsibilities of the Office of Juvenile Services. The commission may create additional committees as it deems necessary.

In 2013, the Legislature passed LB269, which moved the commission for administrative purposes from the Nebraska Department of Health and Human Services to the Foster Care Review Office. LB269 also added three new members to the commission.

Seventeen members of the commission, who are appointed by the governor, represent a variety of private sector stakeholders in the child welfare system. The commission also includes the director of the Foster Care Review Office and nonvoting, ex officio representatives from all three branches of government.

The Nebraska Environmental Trust Act of 1992 authorized a portion of proceeds from the state lottery to be placed in a fund “for the purpose of conserving, enhancing and restoring the natural, physical and biological environment of the state.” After voters approved the lottery in November 1992, legislation governing the lottery and distribution of proceeds was re-enacted in 1993 under LB138.

Forty-four and one-half percent of lottery proceeds are put into the Environmental Trust Fund after prizes and operating expenses are paid for and the first \$500,000 of proceeds are paid to the Compulsive Gamblers’ Assistance Fund.

The 14-member Environmental Trust Board manages the Environmental Trust Fund and carries out the goals of the trust. The board leverages private funds to support short- and long-term environmental goals and provides funding for proposals according to the priorities of habitat, surface and groundwater, recycling and waste management, air quality and soil management.

The re-enacting legislation specified that land easements obtained through the trust fund may be acquired only on a willing-seller basis.

Board membership includes nine members of the public appointed by the governor, with legislative approval, to six-year terms. Other members include the directors of the Department of Agriculture, Department of Environmental Quality, Department of Natural Resources, Department of Health and Human Services Regulation and Licensure and Game and Parks Commission. Three appointees are chosen from each congressional district. Each citizen member must have demonstrated experience and interest in the state’s environment, and at least two citizen members must have experience in private financing of public-purpose projects. The Game and Parks Commission provides administrative support to the board through contract.

The board meets at least four times a year. Members are not paid but are reimbursed for expenses.

- two ex officio members: the executive director of the Nebraska Future Farmers of America and the state 4-H program administrator of the Cooperative Extension Service, University of Nebraska-Lincoln

Statutory References: Nebraska Constitution, Article IV, Section 13; and 83-1,126

The Board of Pardons receives and considers applications for pardons, reprieves, commutations of sentence, and remission of fines and forfeitures. After a pardon has been granted, the board can empower the governor to authorize those pardoned to own and transport firearms.

The 1911 Legislature created the state Prison Board and an advisory board of pardons. The board also served as the advisory board of parole. These boards' functions were merged with the Department of Public Welfare in 1919.

A constitutional amendment adopted in 1920 created a Board of Pardons and designated the governor, secretary of state and attorney general as its members. The 1937 Legislature passed a uniform act for the supervision of Nebraska prisoners paroled in other states.

The 1969 Legislature, pursuant to a constitutional amendment passed in 1968, created a separate Board of Parole.⁶ Pardon authority remained with the Board of Pardons.

To fund its activities, the council levies a fee on odorized propane sold in the state.

⁶For more information on the Nebraska Board of Parole, see Page 682.

The council consists of nine governor-appointed members, including four representing retail marketers; one representing wholesalers, suppliers and importers; one representing manufacturers and distributors of liquified petroleum gas equipment; one representing the academic or propane research community; one propane user or consumer; and the state fire marshal or his or her designee. Board of Public Roads Classifications and Standards

Statutory Reference: 39-2106

The Board of Public Roads Classifications and Standards oversees annual construction planning and fiscal reporting for state and local highways, roads and streets, as well as the application of minimum design, construction and maintenance standards for functional classifications (categories) of public roadways. The standards ensure that each road can safely handle the traffic pattern and volume it is expected to carry, as part of a policy enacted in 1969 to provide for the efficient management, operation and control of an integrated system of state and local highways, roads and streets.

Nebraska counties and municipalities, as well as the Nebraska Department of Roads, must annually file a one- and six-year plan of highway, road and street improvements with the board. Those jurisdictions also must file a standard annual highway, road and street program fiscal report with the board, including (except for NDOR) certification that they have complied with applicable state standards, matching funds and other operations and reporting requirements. The procedure for such annual reports is the joint responsibility of the board and the auditor of public accounts.

The 11 members are appointed by the Governor, subject to legislative approval, to four year terms. Two members represent NDOR. Three members represent counties, with requirements that one be a licensed highway superintendent, that two be county board members, and that one each be from a small, medium or large (population) county. The three municipal members must be either public works directors or licensed street superintendents, and one each must be from a small, medium or large municipality. The other three members are lay members representing each congressional district. The Department of Roads' Liaison Services Section provides administrative support.

and duties to provide dispute resolution, promulgate rules and enforce compliance to ensure that juveniles subject to the terms of the compact receive oversight. The commission established a system of uniform data collection, access to information on active cases by authorized officials and regular reporting of compact activities to the heads of state councils and the executive, legislative and judicial branches of government in the compacting states.

Terms of the Interstate Compact for Juveniles are further outlined in the compact's rules and bylaws.

All states belong to the compact except Arizona, California, Mississippi, Nevada, Utah and Virginia.

The director of the Nebraska Department of Health and Human Services can either serve as the compact administrator or appoint a state designee.

Based on a 1945 U.S. Supreme Court ruling modified by a 2001 joint settlement, the North Platte River is allocated to parts of Nebraska, Wyoming and Colorado. The decree restricts the number of acres irrigated from surface water and hydrologically groundwater wells, the use of surface and groundwater and the amount of water that can be stored or transferred out of basin. The decree also places regulations on Colorado and Wyoming in order to get water to a critical reach of the river in eastern Wyoming. The water in this critical reach is divided 25 percent to Wyoming and 75 percent to Nebraska from May 1 to Sept. 30. The decree is administered by the North Platte Decree Committee.

Nebraska joined the compact in 1953. Twenty-nine other states are members, and seven more are associate members. Brazil, Egypt, Georgia, Venezuela and the Canadian provinces of Alberta, British Columbia, Labrador, Newfoundland, Nova Scotia, Saskatchewan and the Yukon Territory are international affiliates. States may withdraw from the compact with 60 days' notice.

The governor of each compact state serves on the commission. Each governor may recommend an official representative to serve on the commission in the governor's absence. The commission's chairperson makes appointments for one- to three-year terms.

Nebraska's governor and official representative do not have the authority to put into effect any rules, regulations or decisions affecting the oil industry without public hearings. Commission membership is paid from the Nebraska Oil and Gas Conservation Commission's cash fund.

Statutory References: Appendix 1-106; U.S. May 26, 1943, c. 104

The Republican River Compact apportions the river's virgin water supply of the Republican River and its tributaries among Colorado, Kansas and Nebraska. The compact:

- provides for the most efficient use of Republican River Basin waters for multiple purposes
 - provides for equitable division of such waters
 - removes causes, present and future, which might lead to controversies
 - promotes interstate comity
 - recognizes that the most efficient use of the waters within the basin is for beneficial consumptive use
 - promotes joint action by the states and the United States in the efficient use of water and the control of destructive floods

In 1998, the State of Kansas sued the State of Nebraska alleging that Nebraska was violating the compact by using more than its allocated share of the water. The suit was expanded to include claims of overuse in Colorado and northwest Kansas. A settlement was reached in December 2002.

The three administration members adopt rules and regulations to enforce the compact's provisions. The administration's chairperson is elected at its annual meeting. The chairmanship, support staff and storage files are rotated among the three compact states.

STATE JUDICIAL BRANCH

Nebraska Court Structure*

*Source: Nebraska State Court Administrator's Office.

STATE JUDICIAL BRANCH

The Nebraska court system is consolidated and unified. According to the Nebraska Constitution, judicial authority is distributed among the Supreme Court, Court of Appeals, district courts (general jurisdiction), county courts (limited jurisdiction) and other courts created by the Legislature. The state's other types of courts include the separate juvenile courts in Douglas, Lancaster and Sarpy counties and a workers' compensation court.

In 1970, the judicial article of the state constitution was amended, resulting in several significant changes in the state court system. The amendment gave the Nebraska Supreme Court general administrative authority over all Nebraska courts, eliminated the constitutional basis for the justice of the peace, consolidated the local courts and other courts of limited jurisdiction to form a uniform county court system and created the position of state court administrator. The Supreme Court appointed the first state court administrator in 1972.

The Supreme Court consists of a chief justice and six associate justices. The chief justice is selected by the governor from a statewide list of applicants, while the other six justices are chosen from regional lists. District court judges or selected retired judges may be called upon to help determine cases.

As amended in 1990, the state constitution guarantees the right of appeal to the Supreme Court in cases involving the death penalty, life imprisonment or constitutional questions. The 1990 constitutional amendment also allows all other cases, criminal or civil, to be appealed to the Court of Appeals.

The Court of Appeals consists of six judges appointed by the governor from lists submitted by judicial nominating commissions. The districts from which the Court of Appeals judges are appointed are the same as those used for the six Supreme Court judges. A chief judge of the Court of Appeals is appointed by the Supreme Court to serve a one-year renewable term.

The Supreme Court provides administrative and policy leadership for the state judicial system. The high court regulates the practice of law in Nebraska and appoints and monitors lawyers who serve on local inquiry committees and a state committee on discipline and professional responsibility. The Supreme Court also admits qualified applicants to the Nebraska State Bar Association and administers the state probation system, which handles adult and juvenile cases.

District courts are trial courts of general jurisdiction and serve as appellate courts in deciding some appeals from county courts and various administrative agencies. There are 12 judicial districts in Nebraska and 56 district judges who serve Nebraska's 93 counties. District courts hear felony and civil cases and some misdemeanors. Most appeals from the county courts are decided by judges of the district courts solely on the record. The 1980 Legislature changed the appeal procedure in all but small claims cases, requiring appeals to be heard on the record by a district judge. Small claims appeals are reheard in the district court.

Each county has an elected clerk of the district court who processes judgment records, maintains court dockets, secures transcripts from lower courts and performs other administrative duties.

There are 12 judicial districts in the Nebraska county court system, each composed of one to 17 counties, and 58 county court judges. Each county has a county court. County courts have exclusive original jurisdiction in probate, guardianship, conservatorship, adoption and eminent domain matters. County courts also have original jurisdiction in juvenile matters in counties that have no separate juvenile court. County courts also have concurrent jurisdiction with district courts in misdemeanor cases arising under state law and domestic relations cases. But, in practice, nearly all misdemeanor cases are tried in county courts. While civil jurisdiction is exercised concurrently with district courts, cases involving less than \$52,000 can be filed in county courts.

Each county court has a small claims court division. Small claims courts have jurisdiction in civil cases involving damages or an amount of money of \$3,500 or less. Clerk magistrates, who are hired by county judges, act as local administrators and have limited judicial responsibilities. They may accept pleas in traffic and misdemeanor cases, set bail and perform other judicial services.

Separate juvenile courts are courts of record and handle cases involving neglected, dependent and delinquent children. Juvenile courts can be created with approval of voters in counties with more than 75,000 people. Nebraska has 11 juvenile judges.

The workers' compensation court consists of seven judges who have statewide jurisdiction. They travel statewide to hold hearings in county seats. The workers' compensation court administers and enforces the Nebraska Workers' Compensation Act, and it has original jurisdiction over claims for workers' compensation benefits resulting from job-related injuries or illnesses. Disputed claims for workers' compensation are submitted to the court for finding, award, order or judgment. All industrial accidents must be reported to the court.

Prior to 1964, judges were elected to office. In 1962, voters approved a constitutional amendment providing for a merit plan for selection and retention of Supreme Court and district judges. Today, the governor appoints all judges, who are subject to periodic retention votes.

When a county or district judge dies, retires, resigns, is removed or is not retained in office, or when there is a need for a change in the number or boundaries of the judicial districts or a change in the number of judgeships required by law, a judicial resources commission meets to determine whether a vacancy exists and the location of the vacancy. Commission members include seven citizens, four judges and six attorneys. After the location is determined, a judicial nominating commission meets to accept applications for the available judgeship. The commission then submits the names of at least two qualified lawyers to the governor. Each judicial nominating commission is made up of four lawyers selected by the Nebraska State Bar Association and four nonlawyers appointed by the governor. The chairperson of the judicial nominating commission is a member of the Supreme Court. This judge is a nonvoting member. A commission must have no more than two lawyers or two nonlawyer members from either political party, and members must live in the district in which they serve. Generally, the governor

makes final decisions on who will become the new judge. However, if the governor makes no appointment within 60 days after receiving the list of nominees, the chief justice makes the appointment from the list.

Judges in Nebraska courts must be U.S. citizens, be at least 30 years old, have been lawyers in Nebraska for at least five years before appointment, be admitted to practice before the Nebraska Supreme Court and be residents and qualified electors of the districts to be represented on the date of appointment. District, county and separate juvenile court judges must continue living in their districts while serving. Workers' compensation court judges must live in Lancaster County unless court members vote for a judge to live elsewhere.

A judge must run for retention in office at the first general election held more than three years after his or her appointment and every six years thereafter. Judges may retire at age 65 but are not required to retire at any age. Earlier retirement due to disability may be approved by the Commission on Judicial Qualifications, which also investigates complaints against judges.

In 1966, Nebraska voters adopted a constitutional amendment providing for the Commission on Judicial Qualifications, which reviews complaints from the public about judges' behavior. The commission can reprimand judges and order formal hearings on the matters in question. The 10-member commission is composed of the chief justice, who serves as its permanent chairperson; three judges appointed by the Supreme Court; three lawyers appointed by the Nebraska State Bar Association; and three citizens appointed by the governor. State law says judges may be disciplined for behavior that violates the laws and purposes of their office, misconduct in office, failure to perform their duties, conviction of a crime involving moral turpitude or disbarment.

The Nebraska Supreme Court had its origin in the Organic Act, which created the Nebraska Territory on May 30, 1854. This act declared that the Supreme Court shall consist of a chief justice and two associate judges. The constitutions of 1866 and 1875 provided for three judges. Before the constitution of 1875, the Supreme Court judges also presided over district courts. As the Supreme Court caseload increased, the 1901 Legislature authorized the Supreme Court to appoint nine commissioners to help clear the docket. The 1905 Legislature reduced the number of Supreme Court commissioners to six. By a 1908 constitutional amendment, Supreme Court membership increased from three to seven judges. Legislation passed in 1913 provided for electing judges on a nonpartisan ballot starting in 1914. An amendment submitted by the 1920 constitutional convention called for six judges to be elected by the electors of six districts, with the chief justice to be elected at large.

To speed up the court's work, an amendment submitted by the constitutional convention of 1920 allowed the Supreme Court to sit in division, empowering the chief justice to appoint district judges to sit with the Supreme Court in order to have five judges in each division. Cases involving a statute's constitutionality and all appeals of homicide convictions had to be heard by the undivided court. In 1925 and 1927, the Legislature provided for six Supreme Court commissioners to help with the court's caseload. The 1929 Legislature reduced the number of commissioners to three. Commissioners were no longer used after 1931 at the request of the court.

The Supreme Court consists of a chief justice selected at large and six associate justices selected from six districts in Nebraska. Judges must be at least 30 years old and have lived in Nebraska for at least three years before their selection.

The Supreme Court has original jurisdiction in cases relating to revenue, civil cases in which the state is a party, mandamus, quo warranto, habeus corpus, election contests involving state officers other than state senators, and appellate jurisdiction as may be provided by law. The Supreme Court also hears all appeal cases regarding the death penalty, the sentence of life imprisonment or cases in which constitutional questions are raised. The judges comprise the State Library board of directors.

The mediation centers can handle all types of civil cases, such as family and juvenile matters, landlord/tenant, employer/employee, community, environmental, welfare, business, education, public policy and small claims disputes. The mediation centers receive referrals from courts, agencies, legislatures, government agencies, organizations and individuals. Regional mediation centers serve all counties in Nebraska.

State Librarian: Marie Wiechman

The state library is the oldest public library in the state. The Kansas-Nebraska Act of May 30, 1854, established a territorial library to be kept at the seat of state government, then in Omaha, for members of the government and others as prescribed by law.

The Legislature created the office of territorial librarian in March 1855. The library's collection grew to about 4,000 books by 1860. The territorial auditor and later the secretary of state served as librarian. In 1868, the library was secretly moved in the middle of the night from Omaha to the new Capitol in Lincoln. In 1871, the library was separated into two sections: law and miscellaneous. The clerk of the Supreme Court was responsible for the law books. The secretary of state retained the miscellaneous collection. Both collections were put under the supervision of the Supreme Court clerk in 1913. In 1968, the miscellaneous collection was given to other libraries, leaving only law books in the state library.

There are about 140,500 volumes housed in the library's quarters. The Supreme Court judges constitute the library's governing board.

Office of Probation Administration

Office Address: Room 1209, State Capitol, P.O. Box 98910, Lincoln, NE 68509-8910, phone (402) 471-2141

Probation Administrator: Ellen Fabian Brokofsky

Statutory Reference: 29-2249

In 1957, under LB568, Nebraska adopted a general statewide system that provided for a planned, uniform system of presentence investigations, case studies and coordinated supervision of offenders eligible for probation under court suspension of sentence. Organizationally, the Nebraska District Court Judges Association was initially granted power to exercise general supervision over probation in all district courts. District judges within each probation district appointed chief probation officers who served at the pleasure of the judges. From 1958 to 1971, the statewide probation system functioned primarily for adult felons, and supervision of misdemeanants from the county courts was performed as a courtesy.

In 1971, the Legislature passed LB680 which: provided for administration of probation in district, county and juvenile courts, except for the separate juvenile courts; created the Office of Probation Administration and outlined the office's duties; created the Field Probation Service and outlined its duties as well as the procedures for discharging offenders from probation; and provided a mechanism for the supervision of offenders through the Interstate Compact. In 1972, LB1032 created a unified county court system and formally allowed for supervision of probation cases from the county court. In 1978, LB624 was enacted which prohibited county courts from appointing probation officers. In that same year, LB625 was enacted, creating the Nebraska Probation System Committee, which assisted the Office of Probation Administration and the Probation Administrator in developing policies and standards for Field Probation Service. In 1985, the Legislature passed LB13, which merged the municipal courts of

Lincoln and Omaha into the county court systems of Lancaster and Douglas counties and placed the probation personnel of these courts under the supervision of the Office of Probation Administration. The probation personnel of the separate juvenile courts of Douglas, Lancaster and Sarpy counties also were placed under the Office of Probation Administration.

By virtue of LB529, the Legislature placed probation for district courts under the authority of the Nebraska Supreme Court effective July 1, 1986. The bill called for the Nebraska Probation System Committee to serve as an advisory committee until its duties were taken over by the Nebraska Probation Advisory Committee on July 1, 1988. The committee's role was to provide advice to the Probation Administrator and Supreme Court regarding probation matters. This committee was abolished by the Supreme Court on May 14, 1998, when the court alternatively elected to designate a Supreme Court judge to serve as liaison to the probation system.

In 1990, the Legislature provided for the implementation of the Intensive Supervision Probation (ISP) program. ISP is designed to serve as an intermediate sanction between traditional probation and jail or prison for adults or state commitment for juveniles. Through utilization of a targeting tool, select offenders who have been deemed appropriate for this sanction may be sentenced to ISP. Organizationally, the state is divided into six ISP regions. Each region is staffed by a coordinator, line field staff and support personnel. Twenty officers were hired as part of the initial program in 1990. An additional five juvenile ISP officers were added in 1991 and five more ISP officers were added in July, 1995.

In 1997, the Legislature passed LB881, directing the Department of Correctional Services to develop and implement an incarceration work camp no later than Jan. 1, 2005, where adult criminal offenders can be placed as a condition of a sentence of probation (statutory reference: 83-4,142 through 83-4,147). LB881 outlined the work camp's structure and core programming and directed the court to target certain types of eligible felony offenders. Probation Administration's responsibility centers on assisting the court in identifying and assigning appropriate offenders to the work camp, responding to acts of noncompliance while offenders are in the work camp and performing an after care role once the offender completes the work camp and transitions back into the community. After several years of collaboration between the Department of Correctional Services and the probation system, the Nebraska Department of Correctional Services Work Ethic Camp became operational April 30, 2001.

In 2001, the Legislature passed LB451 to streamline the practice of juvenile intake and create a consistent and uniform method of decision making when law enforcement requests post-arrest detention/placement (statutory reference: 43-250, 43-253 and 43-260). The legislation solidified juvenile intake as an exclusive probation function. Seven juvenile intake probation officers were added to strengthen the Probation Administration's ability to successfully implement this new function statewide.

The practices of juvenile intake were further clarified in 2003 with the passage of LB43. The bill clarified that a peace officer retains temporary custody over a juvenile pending a probation officer's detention decision (statutory reference: 43-250). The law also was clarified so that a peace officer contacts the Department of Health and Human

Services, not the Office of Probation Services, when seeking temporary placement of a juvenile (statutory reference: 43-248).

The 2003 Legislature passed LB46, referred to as the Community Corrections Act, which created a number of criminal justice reforms that directly affected the administration of probation services. Key components of LB46 included:

- establishment of a Community Corrections Council within the Nebraska Crime Commission to oversee and ensure that a continuum of community corrections is developed for probationers and parolees (statutory reference: 47-1619 through 47-634)
- establishment of probation and parole enrollment and monthly programming fees to support enhanced programming and services, as well as establishing procedures and criteria for determining ability to pay and a Probation Program Cash Fund (statutory reference: 29-2262.06, 29-2262.07)
- establishment of a procedure and method of allowing probation officers to impose administrative sanctions for technical offender violations (statutory reference: 29-2266)
- elimination of presentence investigations in Class 3A misdemeanors and lower-class offenses and related traffic and city ordinances (statutory reference: 29-2261)
- development of sentencing guidelines by the Supreme Court. Guidelines for felony drug offenses are to be developed first and delivered to the Court by July 1, 2004 (statutory reference: 47-630)
- creation of a Community Corrections Uniform Data Analysis Fund that is administered by the executive director of the Nebraska Crime Commission, funded by the assessment of an additional \$1 in court costs and used to support data integration efforts among criminal justice entities (statutory reference: 47-632)
- adoption of the Interstate Compact for Adult Offender Supervision (statutory reference: 29-2639)
- alignment of probation districts with judicial districts as of July 1, 2009

Depending on the respective field division involved, probation serves several functions for courts, offenders and communities.

Within the juvenile intake field division, probation officers are statutorily obligated to respond to law enforcement requests 24 hours a day, seven days a week, to make decisions regarding detention, alternative placement or release of a juvenile held in temporary custody. This is accomplished through an assessment of the juvenile's background using a standardized instrument.

In the traditional probation field division, probation officers have a dual responsibility to provide thorough presentence and readjudication investigative reports to the courts and community-based offender supervision. Such supervision entails appropriate offender intervention and redirection, victim restitution, community service and regulated monitoring of offender behavior to ensure that offenders who are not in compliance with their probation orders are returned to court and held accountable for their actions. Within the supervision arena, probation officers are assisted by case managers who are responsible for a higher caseload of low-risk offenders.

In the intensive supervision probation (ISP) field division, probation officers provide a community-based intermediate sentencing sanction that is programmatically more restrictive than traditional probation. This sanction appropriately targets and intensely

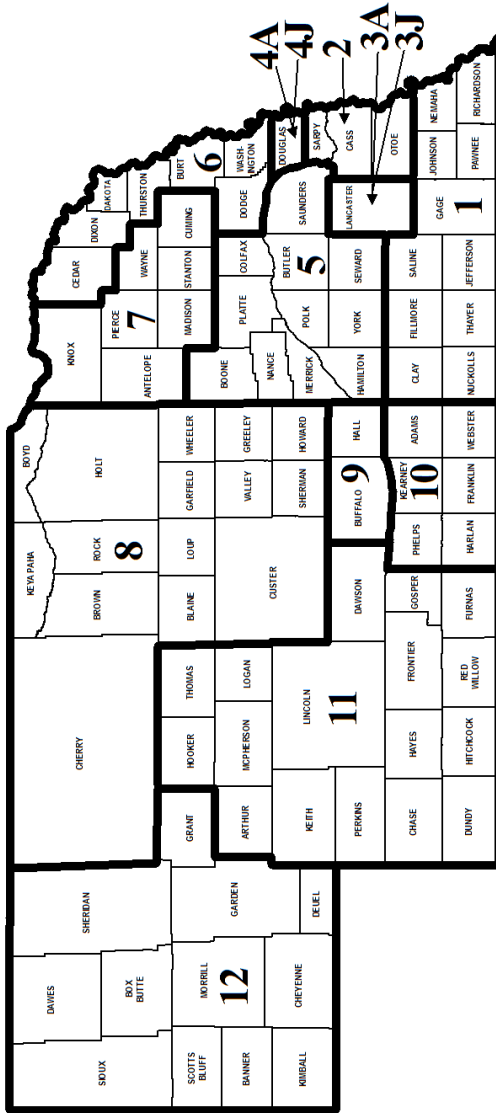

supervises both adult and juvenile moderately high-risk offenders who might otherwise be incarcerated or committed to state custody.

NEBRASKA COURT OF APPEALS

Statutory References: Nebraska Constitution, Article V, Section 1; and 24-1101

The Nebraska Court of Appeals, an intermediate appellate court, was established on Sept. 6, 1991, as a result of a constitutional amendment approved by voters in the 1990 general election. The 1991 Legislature passed enabling legislation that determined the specifics of the court. The court was created to alleviate the increasing backlog of appeals pending before the Supreme Court and, ultimately, to expedite appellate review of decisions of lower courts and tribunals.

Criminal and civil appeals filed after Sept. 6, 1991, are heard by the Court of Appeals, except for cases involving a death sentence or life imprisonment or cases involving the constitutionality of a statute. Parties to the appeal may file a petition with the Supreme Court to bypass review by the Court of Appeals for direct review by the Supreme Court. Following a decision by the Court of Appeals, any party to a case may petition the Supreme Court for further review of the decision.

The Court of Appeals consists of six judges, with one judge appointed through merit selection from each Supreme Court judicial district. Court of Appeals judges are subject to the same terms relating to selection, filling of vacancy, term of office, discipline, removal from office and retirement as other judges covered by Article V of the Nebraska Constitution. From the six Court of Appeals judges, a chief judge is appointed by the Supreme Court to serve a one-year renewable term. Each Court of Appeals judge may choose any site within the state for his or her office. Court of Appeals judges receive an annual salary totaling 95 percent of a Supreme Court judge's salary.

For purposes of hearing and deciding appeals, Court of Appeals judges sit in panels of three. The membership of the panels is regularly rotated by the chief judge in order to provide each judge an opportunity to serve a proportionate amount of time with every other judge. Although the principal administrative office and courtroom for the Court of Appeals is in the State Capitol, the enabling legislation provides that the court also hears arguments at sites throughout the state by designation of the chief judge.

The enabling legislation for the Court of Appeals provides that the clerk of the Supreme Court and the reporter of the Supreme Court also acts in such capacity for the Court of Appeals. Rules of procedure before the Court of Appeals are to be promulgated by the Supreme Court.

The initial group of Court of Appeals judges took office in 1992 and began hearing cases the third week of February. The court typically schedules arguments for the third week of each month, except during August, when the court is in recess.

The written opinions of the court are available to the public in printed format in *The Decisions of the Nebraska Court of Appeals* and at the court's website — www.supremecourt.ne.gov. Those decisions which are permanently published are published in a bound volume entitled *Nebraska Appeals*.

DISTRICT COURTS

Statutory Reference: Nebraska Constitution, Article V, Section 1

The Organic Act of May 30, 1854, provided for three judicial districts in the newly created Nebraska Territory. These districts' courts were presided over by the Supreme Court judges, who were required to live in the districts they served. The first district covered Douglas and Dodge counties, the second district covered the territory south of the Platte River, and the third district covered Washington and Burt counties.

In 1855, the first session of these courts took place. In the same year, legislation redrew and enlarged district boundaries. The courts' functions were further defined in 1857.

The constitution of 1875 provided for six judicial districts and relieved the Supreme Court judges of district court duties. A 1920 constitutional amendment approved by voters provided that district judges must assist the Supreme Court when required. The 1961 Legislature provided that the Supreme Court may assign district judges to other districts when their services are needed. Nebraska has 12 districts served by 56 district judges.

District judges are selected to serve a specific district. The state establishes judges' and court reporters' salaries. The 1981 Legislature authorized the state to pay district judges 92.5 percent of the annual salary received by Supreme Court judges.

Clerks of the district court are county officers, elected and paid by the counties. District courts are trial courts of general jurisdiction and also rule on appeals from the county courts.

The 1965 Legislature passed the Conciliation Court Law to protect the rights of children, promote the public welfare by preserving and protecting family life and the institution of marriage, and to provide ways for spouses to reconcile and friendly ways to settle domestic and family problems. The law applies to counties in which the district court determines that the social conditions and number of domestic relations cases in the courts necessitate the consideration of such cases.

COUNTY COURTS

Statutory References: Nebraska Constitution, Article V, Section 1; and 24-502

A county court serves each Nebraska county. The court has:

- civil jurisdiction in cases involving less than \$52,000
- criminal jurisdiction in all misdemeanor cases, including violations of city and village ordinances
- jurisdiction in all probate, estate administration and guardianship matters
- exclusive jurisdiction in juvenile cases, except in Douglas, Lancaster and Sarpy counties
- jurisdiction in domestic relations cases

The present county court system, established in 1972, combines the previous functions of the 93 county courts, several hundred police courts and several hundred justices of the peace. The 1972 change was the first major restructuring of Nebraska's courts of limited jurisdiction since statehood was attained.

The 58 county judges serve in Nebraska's 12 county court judicial districts. Judges were elected to four-year terms on a nonpolitical ballot in 1972. The 1974 Legislature included county judges in the merit plan system of judicial selection. County judges each receive an annual salary totaling 85 percent of a Supreme Court judge's salary.

A clerk magistrate is appointed in each county, except in Douglas, Lancaster and Sarpy counties, where judicial administrators are appointed. In most counties, the clerk magistrate is not a lawyer.

The state pays county judges and county court employees. Each county pays for the cost of facilities, supplies and equipment.

Appeals from the county courts are taken to district court, based on the record made in county court, except when the county court is acting as a juvenile court.

WORKERS' COMPENSATION COURT

Office Address: State Capitol, P.O. Box 98908, Lincoln, NE 68509-8908, phone (402) 471-6468, toll-free phone (800) 599-5155, email address — newcc@wcc.ne.gov, website — www.wcc.ne.gov

Administrator: Glenn W. Morton

Statutory Reference: 48-152

Publications: Annual Report; court rules; annual Occupational Safety and Health Survey; various information pamphlets.

The Workers' Compensation Court administers and enforces the Nebraska Workers' Compensation Act, including original jurisdiction of claims for workers' compensation benefits resulting from industrial accidents or occupational diseases. All disputed claims must be submitted to the court for finding, award, order or judgment. Appeals may be taken to the Court of Appeals.

The first Nebraska Workers' Compensation Law was passed in 1914. From then until 1917, several state district courts administered the act. In 1917, the Legislature created the Compensation Division in the Department of Labor, and the commissioner of labor was designated compensation commissioner. The 1935 Legislature transferred Compensation Division functions to the Workers' Compensation Court.

Compensation court judges are selected and serve terms pursuant to a merit plan. Each judge's salary is 92.5 percent of the salary set for the chief justice and judges of the Supreme Court. Compensation court judges have statewide jurisdiction and travel throughout the state to hold hearings in county seats in disputed cases. The

court administers the Workers’ Compensation Court Trust Fund (formerly the Second Injury and Vocational Rehabilitation Trust fund). The court reviews qualifications of employers who want to be self-insured. Other court duties include certifying vocational rehabilitation providers, administering the medical, surgical and hospital fee schedules, providing the independent medical examiner system, certifying managed care plans, creating publications and providing informal dispute resolution. The court also maintains a statewide toll-free information line. To perform its duties, the court is organized into two operating divisions and seven operating sections. The adjudication division, under the direction of the presiding judge, includes the judges and the Office of the Clerk of the Court. The administration division, under the direction of the administrator, includes Administration, Rehabilitation, Legal, Public Information Services and Coverage and Claims sections.

All reportable industrial accidents and occupational diseases are required to be reported to the court. The court maintains a computer database of work-related injuries and all payments reported, as well as employers’ insurance coverage.

When a district or county judge dies, retires, resigns, is removed from office or is not retained in office, or if there is a need to change the boundaries or number of district or county judicial districts or the number of judgeships, the Judicial Resources Commission holds a public hearing in the affected district or districts. The commission determines whether a judicial vacancy exists and the location of that vacancy, whether the judicial district boundaries or number of districts should be changed or whether the number of district or county judges should be changed. After reaching a decision, the commission makes a recommendation to the Legislature.

Commission members include:

- a district judge, a county judge, a juvenile judge and a Supreme Court judge, all of whom are appointed by the Supreme Court. The Supreme Court judge serves as commission chairperson.
- six members of the Nebraska State Bar Association, one from each of the six Supreme Court districts, who have practiced law in the state for at least 10 years and who are appointed by the association's executive council
- seven governor-appointed citizens, one from each of the six Supreme Court districts and one appointed at large, who are not judges (active or retired), Nebraska State Bar Association members or immediate family members of any other member

All members of the commission serve six-year terms. Members are reimbursed for expenses.

Judicial Nominating Commission

Once a determination is made that a judicial vacancy exists and a location is selected for the judge's home court, a judicial nominating commission holds a public hearing to interview candidates for the position.

Judicial nominating commissions are local bodies composed of four lawyers selected by the Nebraska State Bar Association and four nonlawyers appointed by the governor. No more than two lawyers may be from the same political party. Commission members serve four-year terms.

After each judicial nominating commission public hearing, the commission selects at least two qualified candidates for consideration by the governor. Generally, the governor selects the new judge. If the governor does not make an appointment in 60 days, the chief justice of the Supreme Court makes the appointment from the commission's list of candidates.

By Sept. 1 of each year, the clerk of the Supreme Court determines whether vacancies exist on any commission and reports the status of each commission to the governor. The governor must promptly fill vacancies of members that he or she appointed. Vacancies of commission lawyer members must be filled promptly by a special election, conducted by the Supreme Court clerk.

Commission on Judicial Qualifications

The 1967 Legislature created the Commission on Judicial Qualifications pursuant to Article V, Sections 28 to 31 of the Nebraska Constitution, as adopted at the 1966 general election.

Any citizen may file a complaint with the commission about judges' acts, activities or qualifications. The commission conducts investigations after receiving complaints or requests for action. The commission can subpoena witnesses, hold hearings, require the judge to submit physical or mental examination findings by medical experts, appoint special masters to conduct hearings and conduct special investigations. The commission may recommend to the Supreme Court that a judge be either reprimanded, disciplined, censured or suspended. Actions calling for such punishment include:

- willful misconduct in office
- willful disregard of or failure to perform duties
- habitual intemperance
- conviction of a crime involving moral turpitude
- disbarment from the legal profession
- conduct that harms the administration of justice and the integrity of the judicial office

office

A constitutional amendment adopted in 1980 provides that commission membership include:

- a district judge, a county judge and a judge of any other court except the Supreme Court, all of whom are appointed by the chief justice
- three members of the Nebraska State Bar Association who have practiced law in the state for at least 10 years and who are appointed by the association’s executive council
- three citizens who are not judges or Nebraska State Bar Association members and who are appointed by the governor
- the chief justice, who serves as the commission chairperson

Members serve four-year terms. The commission meets three to five times a year. Members are not paid but may be reimbursed for their expenses.

LOCAL GOVERNMENT

LOCAL GOVERNMENT IN NEBRASKA

COUNTIES

Nebraska's 93 counties operate under organized county governments that receive their powers from the state constitution and state statutes. Sixty-seven counties are commissioner counties and are governed by a board of commissioners. Counties with township government are governed by a board of supervisors. The 26 counties with supervisors are Adams, Antelope, Boyd, Buffalo, Burt, Butler, Clay, Cuming, Custer, Dixon, Dodge, Fillmore, Franklin, Gage, Hall, Harlan, Holt, Kearney, Knox, Merrick, Nance, Platte, Saunders, Thurston, Valley and Washington.

The county boards under each system have similar powers and tenure. The primary difference between commissioner and supervisor forms of government is that supervisor counties have township boards and officers. Boards of commissioners have either three, five or seven members who are elected to four-year terms. Boards of supervisors have seven members who also are elected to four-year terms.

Each county has an elected clerk, sheriff and treasurer. Other elected county offices may include an assessor, attorney, clerk of the district court, register of deeds and surveyor. The population of the county generally determines whether additional officials are elected. In some cases, the offices are appointed. Appointed county offices may include: emergency managers, health directors, highway superintendents, planning and zoning directors, transportation officials, veterans service officers and weed control superintendents.

Executive Director: Larry Dix

The Nebraska Association of County Officials was organized in 1894 and formally incorporated as a nonprofit organization in 1968. Ninety-three member counties belong to the organization. NACO's objective is to stimulate and contribute to the continuing improvement of county government in Nebraska by promoting increased efficiency and economy, augmenting a higher standard of public service and protecting the common good and general welfare of Nebraska county residents. To achieve this objective, NACO regularly sponsors continuing education programs, conducts research, publishes educational materials, administers cost-saving programs and represents the interests of Nebraska counties before state and federal governments, agencies and courts.

MUNICIPALITIES

State law classifies Nebraska’s incorporated cities and villages, or municipalities, into five categories based on population.¹

Class	Population
Metropolitan Class City.....	300,000 or more
Primary Class City.....	100,001 to 299,999
First Class City.....	5,001 to 100,000
Second Class City.....	801 to 5,000 ²
Village	100 to 800 ²

Omaha is the state’s only metropolitan class city, and Lincoln is the only primary class city. Nebraska has 30 first class cities and 117 second class cities. The remaining 381 incorporated municipalities in Nebraska are classified as villages. Although the minimum population required for incorporation is 100, many villages that have lost population have fewer than 100 people. Residents of a city or village may decide to retain a classification if census figures indicate its population has changed.

Most Nebraska municipalities have a mayor-council form of government. Exceptions include Nebraska City, which has a commissioner form of government, and several others with a council-manager system. Each village is governed by a board of trustees. Lincoln and Omaha operate under their own charters of government, an option granted in the state constitution.

SCHOOL DISTRICTS AND EDUCATIONAL SERVICE UNITS

Nebraska's elementary and secondary school districts are classified based on the population of the district. All school districts are governed by elected boards. The district classifications are as follows:

- Class II: K-12 districts with a population of 1,000 or less
- Class III: K-12 districts with a population of 1,001 to 149,999
- Class IV: K-12 districts with a population of 100,000 or more and having a primary class city within the district (Lincoln Public Schools is the only Class IV district)
- Class V: K-12 districts with a population of 200,000 or more and having a metropolitan class city within the district (Omaha Public Schools is the only Class V district)

Nebraska statutes also provide for educational service units, which provide supplemental services to local school districts. Educational service units also are accredited by the State Board of Education. These units are governed by elected boards.

All public school districts and private schools in Nebraska are listed by county in the following pages. The schools labeled as public school districts in the following pages are both locally and state funded; state-supported schools are listed separately. For more information about schools, see the *Education Directory*, available from the website — www.education.ne.gov.³

³For more information about the State Department of Education see Page 612 and for the State Board of Education see Page 602. For elementary and secondary school statistics, see Page 884.

Nebraska Educational Service Units*

*Source: Nebraska State Department of Education. Map shows boundaries of ESUs by county. However, school district participation determines actual ESU boundaries. Some districts have removed themselves from one ESU and joined another. ESU No. 12 and ESU No. 13 merged in 1998, and ESU 14 merged with ESU 13 in 2005.

NATURAL RESOURCES DISTRICTS

Natural resources districts, or NRDs, are responsible for conserving and developing the state's natural resources. NRD activities include managing surface water and groundwater resources, constructing and operating flood control structures and administering land management plans to prevent soil erosion and sediment problems. NRDs also are responsible for drainage and stream channel improvement, forestry and range management, management of fish and wildlife habitat, recreational and park facility management, and solid waste disposal and sanitary drainage.

The Nebraska Legislature created NRDs in 1969 by combining 154 special-purpose districts, such as soil and water conservation districts and watershed districts, into 24 multipurpose natural resources districts. These NRDs became operational in 1972. A merger in 1989 reduced the number of NRDs to 23.

The boundaries of NRDs were established along Nebraska's natural river basin boundaries. The Nebraska Natural Resources Commission created the original NRD boundaries and approves boundary alterations.¹

Each NRD is governed by a locally elected board of directors. These directors serve four-year terms. NRDs have the authority to levy a local property tax to fund their programs. They also receive state funds for certain programs.

METROPOLITAN UTILITIES DISTRICT

President and Board Secretary: Scott L. Keep

Senior Vice President and General Counsel: Ronald E. Bucher

Senior Vice President, COO: Ron Reisner

Senior Vice President, CFO: Debra A. Schneider

Senior Vice President, CIO: Mark E. Doyle

The Nebraska Legislature created the Metropolitan Water District in 1913. Five years later, state senators authorized the city of Omaha, which had acquired the gas system by condemnation, to assign the responsibility of gas system operation to the Metropolitan Water District. The name was changed to Metropolitan Utilities District in 1921. The district serves one-third of Nebraska and is the fifth-largest public gas utility in the United States.

M.U.D. is a political subdivision of the state. The district may enter contracts, promulgate regulations, set water and natural gas rates, buy, sell or lease land and issue revenue bonds.

M.U.D. provides natural gas and water service to the metropolitan Omaha area. The district serves more than 221,023 gas customers through 2,771 miles of gas mains and more than 205,250 water customers through 2,866 miles of mains. The district also maintains more than 28,000 water hydrants throughout its service area for fire protection. Cities and villages receiving gas service include: Omaha, Fort Calhoun, Bennington, Yutan, Springfield and 85 percent of Bellevue. The district provides retail or wholesale water service to Omaha, Bellevue, Bennington, Ralston, La Vista, Waterloo, Carter Lake, Iowa, and the Papio-Missouri River Resources District, which supplies water to Fort Calhoun.

The district may act as a billing agent to collect sewer use fees and other utility charges for other government agencies in areas it serves.

The district's governing body is a seven-member board of directors publicly elected to six-year terms on a nonpartisan basis. The board meets the first Wednesday of every month. All meetings are open to the public.

ELECTRIC POWER SYSTEMS

Electric service in Nebraska is supplied by state government subdivisions called public power districts, electric cooperatives and municipal electric systems. Nebraska is the only state without private power companies. All electric facilities are publicly owned or member-owned. Public power districts are governed by boards of directors elected during general elections. Cooperatives elect directors at their annual meetings.

Public Power Districts

The 1933 Legislature passed a law which, as amended, created all public power districts in the state. The Loup River Public Power District, Central Nebraska Public Power and Irrigation District, Nebraska Public Power District and Omaha Public Power District were organized under this law. A number of rural power districts also operate under this law.

Nebraska's public power districts serve as governmental subdivisions and public corporations. They can sue and be sued, enter contracts, fix rates and buy, lease and sell property. They cannot levy taxes or issue bonds secured by tax funds.

Each public power district is governed by a board of directors, which sets policies and rates. The boards must have at least five members and no more than 21, except in districts with 25 or more cities or villages. Board members were originally designated by petition or by the governor. Subsequent members are elected on a nonpartisan basis to six-year staggered terms.

Board members are paid and are reimbursed for expenses. When a public power district has gross revenue of less than \$40 million a year, board members' pay must not exceed \$6,720 per year. The board chairperson, however, may be paid up to \$7,560 per year. When a public power district grosses more than \$40 million a year, board members' pay cannot exceed \$13,440 annually. The chairperson can be paid up to \$15,120. Board membership is not a full-time job. Each board appoints a full-time manager who performs the district's administrative functions.

General Manager: Don Kraus

The Central Nebraska Public Power and Irrigation District, formed in 1933, has two operational divisions, the Irrigation Division and the Hydro Division.

The district's main storage reservoir is Lake McConaughy in Keith County. The lake is formed by Kingsley Dam, a hydraulic fill dam across the North Platte River. Water released from Lake McConaughy can be diverted at the Nebraska Public Power District's Keystone Diversion Dam into the Nebraska Public Power District canal system.

The diversion dam, located 50 miles east of Lake McConaughy below the confluence of the North and South Platte rivers, can divert water into the district's supply canal. The 75-mile supply canal delivers water to the district's three main irrigation canals, E65,

E67 and Phelps. These three canals serve more than 105,000 acres in Gosper, Phelps and Kearney counties, and an additional 7,500 acres in Lincoln and Dawson counties receive irrigation service directly from the supply canal.

The district’s project generates electricity at four hydroplants, one at Kingsley Dam and three on the supply canal. These plants are unmanned and operated by remote from the Gothenburg Control Center. The district sells power at wholesale price to NPPD for distribution.

President and CEO: Neal D. Suess

The Loup River Public Power District, created in 1933 as the first public power district in Nebraska, provides electric service to Boone, Colfax, Nance and Platte counties and a portion of Madison county. The district serves 21 communities at retail rates and two communities at wholesale rates. The district buys its electric power from the Nebraska Public Power District and maintains approximately 800 miles of transmission and distribution lines.

The district owns and operates the Columbus Powerhouse and the Monroe Powerhouse, two hydroelectric power generating facilities. The powerhouses are located on Loup’s 35-mile canal, which starts west of Genoa at the Loup River and ends southeast of Columbus at the Platte River.

President and CEO: Pat Pope

The Nebraska Public Power District (NPPD) is Nebraska's largest electric utility, with a chartered territory including all or parts of 86 of Nebraska's 93 counties. It was formed on Jan. 1, 1970 by merging the Consumers Public Power District, Platte Valley Public Power and Irrigation District and the Nebraska Public Power System. NPPD is a public corporation and political subdivision of the state of Nebraska. The utility is governed by an 11-member board of directors who are popularly elected from NPPD's chartered territory.

NPPD revenue is mainly derived from wholesale power supply agreements with 51 towns and 25 rural public power districts and rural cooperatives. NPPD also serves 80 municipalities at the retail level. Over 5,000 miles of transmission lines make up the NPPD electrical grid system, which delivers power to more than 600,000 Nebraskans.

NPPD uses a mix of generating facilities including the Cooper Nuclear Station near Brownville; steam plants located at Canaday Station near Lexington, Gerald Gentleman Station near Sutherland and Sheldon Station near Hallam; a combined-cycle natural gas facility at Beatrice Power Station; a wind generation facility in Ainsworth; nine hydro facilities; nine diesel plants and three peaking units. NPPD has a participation agreement with Omaha Public Power District for electricity purchases from Nebraska City and power purchase agreements with six privately owned wind farms. NPPD also purchases electricity from the Western Area Power Administration,⁴ which is operated by the federal government.

Omaha Public Power District

Office Address: 444 S. 16th St. Mall, Omaha, NE 68102, phone (402) 636-2000, website — <http://www.oppd.com>

President: W. Gary Gates

The Omaha Public Power District was established in 1945 by amendments to public power and irrigation law. The district bought the Nebraska Power Company in 1946 and consolidated with the Eastern Nebraska Public Power District in 1965.

⁴For more information about the Western Area Power Administration, see Page 136.

OPPD provides electric service in Burt, Cass, Colfax, Dodge, Douglas, Johnson, Nemaha, Otoe, Pawnee, Richardson, Sarpy, Saunders and Washington counties. The service area also includes Carter Lake, Iowa. The district serves 48 towns at retail price and five towns at wholesale. OPPD sells about half of the electricity used in Nebraska.

OPPD produces most electricity sold to customers at its own facilities. The district's main power-generating stations include the North Omaha Power Station, which consists of five coal-powered generating units; the Fort Calhoun Nuclear Station; and two coal-powered units at Nebraska City Station. The district has oil- and natural-gas powered units that operate during emergencies and peak power periods. The district also produces electricity with a wind turbine and landfill gas-to-energy plant. OPPD buys electricity from the Western Area Power Administration⁵ and other suppliers. OPPD also has wind purchase agreements with a number of wind energy suppliers, the largest being Prairie Breeze Wind Farm near Elgin, Nebraska, which produces 200 megawatts of generation. OPPD has more than 15,000 miles of transmission and distribution lines.

RURAL ELECTRIC SYSTEMS

Thirty rural electric retail distribution systems have headquarters in Nebraska. Twenty-seven distribution systems are public power districts and the remaining three are membership cooperatives. Two cooperatives from South Dakota, three from Wyoming and one from Colorado serve border areas of Nebraska. Altogether, the distribution systems serve approximately 300,000 farmers and ranchers and many communities. Many rural electric systems are financed by the U.S. Rural Utilities Service⁶ and other sources.

MUNICIPAL ENERGY AGENCY OF NEBRASKA

Executive Director: J. Gary Stauffer

Director, Wholesale Electric Operations: Tim Sutherland

The 1981 Legislature passed the Municipal Cooperative Financing Act, which encouraged cities and villages to work together to supply, treat and distribute water; generate, transmit and distribute electric power and energy; and collect, treat and dispose of sewage and solid waste. The Municipal Energy Agency of Nebraska was created to help communities cooperate in these goals through financing, acquiring and operating electric supply and transmission facilities.

MEAN is a political subdivision of the state and a public corporation governed by a board of directors. The board has one director from each member community, appointed by the mayor or top local government official with approval of the respective governing body.

As of January 2014, MEAN serves one joint action agency and 68 other participating municipalities in Nebraska, Colorado, Iowa and Wyoming.

OTHER LOCAL GOVERNMENTS

Other government units in Nebraska include airport authorities, cemetery districts, community college areas,⁸ drainage districts, fire protection districts, groundwater conservation districts, hospital districts, irrigation districts, noxious weed control districts, reclamation districts, road improvement districts, rural water districts, sanitary and improvement districts and townships.

⁸ For more information on community college areas, see Pages 899-908.

NEBRASKA EDUCATION AND INFORMATION RESOURCES

EDUCATION

The Nebraska Constitution requires the Legislature “to provide for the free instruction in the common schools of this state of all persons between the ages of five and twenty-one years.” Attendance is compulsory for children ages 7 through 16 years of age.

Besides grade and high school education provided by the state’s school districts, a network of two-year community colleges offer vocational technical education, two-year academic programs and community service programs. Nebraska has state colleges in Chadron, Peru and Wayne. The University of Nebraska has campuses in Lincoln, Omaha, Kearney and Curtis.

Nebraska also has private schools for all educational levels and postsecondary trade schools. Exempt schooling is an option for parents with children at elementary and secondary levels.

Interim President: James Linder, M.D.

The University of Nebraska, a state-supported institution, was chartered at Lincoln in 1869 as a land-grant college. The university is governed by a Board of Regents composed of eight voting members elected on a nonpartisan basis and four nonvoting student members, each representing a campus.¹

Each of the university's four campuses is led by a chancellor responsible to the president. The university is composed of the University of Nebraska-Lincoln, the University of Nebraska at Omaha, the University of Nebraska Medical Center and the University of Nebraska at Kearney. UNL includes the Institute of Agriculture and Natural Resources. The Nebraska College of Technical Agriculture in Curtis operates under the authority of the Board of Regents and is administered by the Institute of Agriculture and Natural Resources.

The University of Nebraska-Lincoln (UNL) is Nebraska's state university and land-grant university. When the university was chartered in 1869, the Legislature subscribed to the federal government's Morrill or Land-Grant College Act, which committed the university to include instruction in agriculture, mechanic arts and military tactics, besides a liberal arts and sciences academic program.

By the mid-1880s, the university began offering graduate courses, the first graduate program west of the Mississippi River. The university was a member of the Association of American Universities from 1909-2011. UNL is accredited by the Higher Learning Commission/North Central Association of Colleges and Schools. The Carnegie Foundation for the Advancement of Teaching ranks UNL as RU/VH: a doctoral/research university with very high research activity, reflecting UNL's level of federal funding for research and high-quality graduate education leading to the doctoral degree.

The university's missions are teaching, research and public service. Approximately 25,000 students matriculate through its nine colleges: Agricultural Sciences and Natural Resources, Architecture, Arts and Sciences, Business Administration, Education and Human Sciences, Engineering, Hixson-Lied Fine and Performing Arts, Journalism and Mass Communications and Law.

A new curriculum, Achievement-Centered Education, launched in 2009, ensures graduates are competent in writing, communications and mathematics; have knowledge of diverse peoples and cultures and of the natural and physical world; understand ethics and social responsibilities; and are able to integrate these abilities to adapt to a changing world. Among UNL's signature undergraduate programs are the Jeffrey S. Raikes School of Computer Science and Management, the UNL Honors Program and the

Undergraduate Creative Activities and Research Experiences program.

UNL students participate in comprehensive programs of research as well as scholarly and creative activities. UNL offers 138 undergraduate majors, 69 master's degree programs under 15 separate degree titles and 36 doctoral programs leading to the degrees of doctor of philosophy, doctor of education and doctor of musical arts. One associate degree program, six professional degree programs and four educational specialist programs also are available.

UNL's colleges and other university facilities are on two campuses in Lincoln and at other locations throughout the state. UNL's City Campus is just north of Lincoln's downtown business district, and East Campus is about two miles northeast of City Campus. UNL's Institute of Agriculture and Natural Resources, from its headquarters on East Campus, extends the university's services to all Nebraskans through its statewide research and extension programs in agriculture and home economics. The Nebraska College of Technical Agriculture in Curtis is a division of IANR.²

In 2010, UNL acquired 249 acres that formerly hosted the Nebraska State Fair to create the Nebraska Innovation Campus. The land is contiguous to the university's city campus. The Nebraska Innovation Campus is a public/private research and technology development center meant to attract business and industry interested in leveraging university research.

Agricultural research and extension centers are located across the state and Nebraska counties receive county or area extension services. District and state specialists provide leadership for programs in agriculture, home economics and family living, 4-H youth and community development.

Nearly 100,000 people each year are served through extended education programs that deliver courses across Nebraska and worldwide. The university also operates one of the nation's major accredited high school and college correspondence programs.

Other university facilities include the 9,500-acre Agricultural Research and Development Center near Mead; the Gudmundsen Sandhills Research Center, a 12,800-acre beef cattle, range and forage studies center on a ranch northeast of Whitman; the Nine-Mile Prairie, a virgin prairie northwest of Lincoln; and the Cedar Point Biological Station near Ogallala, used for biological science research and instruction.

UNL is a comprehensive research university that provides students the opportunity to work with faculty who are leaders in their disciplines. Leading research programs include agriculture, climate and drought, digital humanities, energy, food safety, high-intensity lasers, plant science and genetics, materials science, nanotechnology, natural resources, redox biology, transportation, virology and water. These diverse research strengths help UNL expand knowledge to address state and national problems. In 2010, a \$50 million pledge from the Robert B. Daugherty Foundation established the Robert B. Daugherty Water for Food Institute, where scientists and others will work to find solutions to the problem of limited water resources and the challenge of a growing world population. A 2011 gift from Omaha philanthropist Susie Buffett established the Buffett Early Childhood Institute to transform child development and education.

UNL also serves the state through cultural, educational and technical outreach

programs. City Campus is home to the Sheldon Museum of Art, the Lied Center for Performing Arts and the University of Nebraska State Museum. The Sheldon Museum of Art has one of the nation's best collections of 20th century American art and also features a sculpture garden with works by more than 30 artists including Claes Oldenburg, Mark di Suvero, Richard Serra and David Smith. The Lied Center, opened in 1989, showcases major regional, national and international events.

The University of Nebraska State Museum has an outstanding collection of fossil mammals and is world-renowned for its Elephant Hall, home of Archie, an ancient mammoth whose skeleton is thought to be the largest on display in the world. The museum houses galleries of Nebraska wildlife, zoology, geology and anthropology and the Mueller Planetarium. The museum also operates Ashfall Fossil Beds State Historical Park near Royal, Neb., and Trailside Museum of Natural History at Fort Robinson State Park.

In spring 2008, UNL opened the International Quilt Study Center and Museum. It houses the largest public collection of historic quilts from around the world, attracting researchers and quilt lovers to its galleries, research laboratories and digital galleries.

The Christlieb Collection of Western Art is part of UNL's Center for Great Plains Studies. Students and faculty in the School of Music, the Johnny Carson School of Theatre and Film and the Department of Art and Art History present or create performing and fine arts that enhance cultural life. UNL also is home base for The Nebraska Repertory Theatre, Nebraska's only professional live theatre. Film buffs and historians make use of the Mary Riepma Ross Media Arts Center. The University of Nebraska Press also is at UNL.

The university provides enrichment programs for elementary and secondary students through activities such as annual Math Days, annual Foreign Language Fair and the College of Engineering's annual E-Week. The university also sponsors lectures and other public programs including the series of E.J. Faulkner and Lewis E. Harris lectures, the new Heuermann lectures as well as the E.N. Thompson Forum on World Issues lecture series, all of which bring distinguished speakers from around the world to Lincoln.

UNL works to commercialize the products of its research to enhance Nebraska's economy. Major centers have been established at UNL to help Nebraska businesses and industries. The Food Processing Center in the Institute of Agriculture and Natural Resources operates through cooperation among the state, university and private sector. This center provides technical services to new and established industries and helps develop new products and processes. The Industrial Agricultural Products Center assists companies in developing and commercializing bio-based products and processing techniques, primarily focused on biopolymers, biochemical, biofuels and biopower. The University of Nebraska Medical Center (UNMC) is the state's only academic health science center. UNMC's award-winning educational programs have trained more health professionals practicing in Nebraska than any other institution. Of the nearly 3,700 students at UNMC, more than 80 percent are Nebraska residents.

Accredited by the North Central Association of Colleges and Schools, UNMC is recognized nationally and internationally as a leader in patient care, research, education and community outreach. Together with its clinical partner, Nebraska Medicine, UNMC is one of the country's leading centers in cancer, transplant biology, bioterrorism preparedness, neurodegenerative diseases, cardiovascular diseases, genetics, biomedical technology and other areas.

UNMC's primary care program is ranked sixth in the nation by U.S. News & World Report and the rural health medicine program is tied for ninth. The university's physician assistant, physical therapy, pharmacy and nursing master's programs also rank among the top in the country.

UNMC's research funding from external sources now exceeds \$90 million annually and has created thousands of highly skilled jobs in the state. UNMC investigators conduct research in areas relating to national security and defense as part of the University-Affiliated Research Center (UARC), which is housed in the University of Nebraska National Strategic Research Institute at UNMC.

UNMC is home to the colleges of Dentistry, Medicine, Nursing, Pharmacy, Public Health and the School of Allied Health Professions. UNMC also is home to the Fred & Pamela Buffett Cancer Center and the Munroe-Meyer Institute for Genetics and Rehabilitation. Many students at UNMC also study as part of the University of Nebraska's Graduate College.

The College of Medicine offers the doctor of medicine degree and graduate medical education in 18 specialties and 15 subspecialties. The College of Dentistry, a regional source for the doctor of dental surgery degree, offers four specialties and a hospital-based general practice residency program. It also offers the state's only bachelor's degree in dental hygiene program through the Lincoln campus and at the west division in Gering.

The College of Nursing has trained more of the baccalaureate nurses in the state than any other institution and prepares nurse practitioners and master's degree nurses. It also offers the only doctoral nursing program in Nebraska. The College of Nursing offers coursework at its five divisions in Omaha, Lincoln, Kearney, Scottsbluff and Norfolk. Courses also are offered via distance technology. The college operates nurse-managed health centers, school nursing and employee health programs.

The College of Pharmacy was one of the first colleges in the nation to offer the doctorate of pharmacy degree. Its doctor of pharmacy professional program is ranked among the top colleges of pharmacy in the United States and its graduate program in pharmaceutical sciences offers educational opportunities that lead to master's and doctorate degrees.

The College of Public Health, UNMC's newest college, delivers high quality education, research and public service emphasizing the following areas: biosecurity/biopreparedness; biostatistics; environmental, agricultural and occupational health sciences; epidemiology; ethics and humanities in health; health disparities; health policy analysis; health services administration; health services research; health promotion/disease prevention; rural health; and toxicology.

The School of Allied Health Professions offers educational degrees in 13 areas: cardiovascular interventional technology, clinical laboratory science, clinical perfusion, computed tomography, cytotechnology, diagnostic medical sonography, magnetic resonance imaging, medical nutrition education, nuclear medicine technology, physical therapy, physician assistant, radiography and radiation therapy.

UNMC's Munroe-Meyer Institute (MMI) provides services and support for persons with genetic disorders and developmental disabilities. As an academic unit of UNMC, the institute provides advanced disciplinary and interdisciplinary educational programs

to students in 17 disciplines and programs. MMI is a federally designated University Center of Excellence for Developmental Disabilities Education, Research and Service.

Basic and clinical cancer research and educational programs, including cancer prevention and outreach, are coordinated through the Fred & Pamela Buffett Cancer Center. A National Cancer Institute Clinical Cancer Center, the Fred & Pamela Buffett Cancer Center is one of the founding members of the National Comprehensive Cancer Network, an alliance of 25 leading cancer centers in the United States. Members of the network work together to develop treatment guidelines for most cancers and are dedicated to research that improves the quality, effectiveness and efficiency of cancer care.

UNeMed Corporation is an independent technology management company that provides value-added commercialization services to UNMC. UNeMed commercializes technology by licensing from UNMC and sublicensing to private industry for further development. The corporation was established in 1991 as a for profit entity that was wholly owned by UNMC. In 2002, ownership of UNeMed was transferred to the Nebraska Technology Development Corp., with UNMC maintaining shareholder privileges by proxy.

Much progress has been made in the past two decades to bring UNMC's health education, research and patient care facilities and programs into the 21st century. Nearly all of the construction on campus during that time has been paid for through philanthropy.

In 2009, a \$77 million research tower - Durham Research Center II - opened alongside the Durham Research Center, which opened in 2003. The buildings are dedicated to the research of cancer, cardiovascular disease, neurosciences, eye disease, gastrointestinal and liver diseases, regenerative medicine, transplantation and developmental biology, genetics and molecular genetics, neurobiology and other diseases.

In 2008, UNMC opened the \$52.7 million Michael F. Sorrell Center for Health Science Education. The center - home to the College of Medicine - features clinical skills laboratories that resemble hospital and exam rooms, as well as large amphitheatres, small-group interaction rooms, conference space for continuing education and student interaction space that will provide enhanced interdisciplinary educational opportunities.

The Weigel Williamson Center for Visual Rehabilitation became the nation's only low vision center situated on a university campus when it opened in 2008. The center, the only one like it in the region, provides comprehensive visual rehabilitation for adults and children with low vision.

The Hixson-Lied Center for Clinical Excellence, which opened in 2005, is a four-story clinical facility that connects the former University Hospital and Clarkson Hospital. Those hospitals merged in 1997 to form UNMC's hospital partner, known today as Nebraska Medicine.

The Lied Transplant Center, which opened in 1999, is one of the largest and most successful transplant centers in the world. With patients from around the world, the center's state-of-the-art transplant program provides comprehensive treatment for diseases of the kidney, pancreas, liver, small intestine, heart and lungs.

In recent years, the Omaha campus also has opened the Home Instead Center for Successful Aging, the Harold M. and Beverly Maurer Center for Public Health,

the Center for Nursing Science and the Stanley M. Truhlsen Eye Institute. It also has dedicated the Ruth and Bill Scott Student Plaza, which includes an architectural feature by world-renowned architect and artist James Carpenter. State funding has provided for the renovation of Poynter, Bennett and Wittson Halls, three of the oldest buildings on UNMC's campus. Future openings and project completion dates include a \$35 million College of Pharmacy building, a \$6 million redevelopment and expansion of the campus fitness facility and, in Kearney, a new nursing and allied health education facility, all in 2015; a new ambulatory care facility in 2016, and a \$323 million cancer campus in 2017.

UNMC's history dates back to 1881, when Nebraska's first medical college opened. Reorganized and renamed the Omaha Medical College the following year, the school became affiliated with the University of Nebraska in 1902. Dental instruction was added in 1903, and by 1919 the school became the College of Dentistry. The School of Pharmacy became part of the professional curriculum in Lincoln in 1908, and the School of Nursing was established in 1917 and became a college in 1972. The training of allied health professionals began in the early 1930s with classes in medical technology and radiologic technology. By the end of World War II, the university had established programs in all healthcare disciplines.

Since the restructuring of the University of Nebraska in 1968, the Board of Regents has consolidated the university's major healthcare programs under UNMC. The College of Pharmacy and the College of Dentistry joined UNMC in 1972 and 1979, respectively.

Located in the heart of Omaha, the University of Nebraska at Omaha (UNO) is a premier metropolitan university. Since its inception in 1908, UNO has been firmly anchored in the community, forging partnerships with business, education, government, arts and civic organizations. UNO offers an academically rigorous experience to a diverse student body of over 15,000 students.

With global reach and vision, UNO is large enough to provide the opportunities students seek, yet with student to faculty ratios of 17:1 (undergraduate) and 13:1 (graduate), personal enough to provide the mentorship they need to achieve academic excellence, creativity and engaged learning at competitive tuition rates.

Academic emphasis is placed on the following priority areas: STEM, early childhood, sustainability, global engagement and doctoral/research. UNO's six colleges are dedicated to providing rigorous undergraduate and graduate academic programs, taught by faculty who are national or international experts in their fields. All of UNO's colleges offer unique opportunities for undergraduate and graduate research and hands-on experiences that are critical to a competitive global marketplace. Colleges include: Arts and Sciences; Business Administration; Communication, Fine Arts, and Media; Education; Information Science and Technology; and Public Affairs and Community Service.

Two new unique buildings recently opened on campus: the Biomechanics Research Building and the Barbara Weitz Community Engagement Center, each the only of its kind in the world. Growth continues with the new on-campus UNO/Community arena planned to open in fall of 2015.

UNO students have the opportunity to be involved on campus in over 120 student groups and organizations. UNO student athletes compete in 15 men's and women's Division I sports. Student research opportunities are cultivated through the Office of Research and Creative Activity, with over 200 undergraduate and graduate students presenting at the 2014 research fair.

UNO is committed to and engaged with the city of Omaha, allowing students unique hands-on learning opportunities, internships, service learning, applied research and other collaborative activities that enhance time in the classroom.

UNO is recognized by U.S. News and World report as having one of the top 20 online bachelor's programs and nationally ranked graduate programs; recognized as the top public four-year university for military friendliness by Military Times; the first Nebraska school in the Clinton Global Initiative University global research network; listed on the President's Higher Education Community Service Honor Roll since the inception of the award; and receives millions of research dollars from national funding agencies including National Institutes of Health, U.S. Department of Defense, National Science Foundation and NASA.

The North Central Association of Colleges and Schools and various specialized accreditation boards accredit the university.

Nebraska State College System

Nebraska's state colleges were established in 1867 when Nebraska achieved statehood. Peru State College became Nebraska's first public postsecondary institution. The Legislature provided for three additional teacher education schools (Normal Schools) at Kearney in 1903, Wayne in 1910 and Chadron in 1911. In 1963, the Legislature designated these schools as Chadron State College, Kearney State College, Peru State College and Wayne State College. Kearney State College became part of the University of Nebraska system in 1991.

The three state colleges are governed by a constitutional board, known as the Board of Trustees of the Nebraska State College System.³

President: Randy Rhine

The 1909 Legislature provided for a new higher education institution in northwest Nebraska. The Board of Education of State Normal Schools selected Chadron as the location of its fourth institution in January 1910. The school opened in June 1911.

Chadron State has evolved into a comprehensive college with a wide range of

programs. It is the only four-year and graduate degree-granting college in western Nebraska and is fully accredited by the Higher Learning Commission of the North Central Association of Colleges and Schools and subject-oriented accrediting agencies.

The college offers undergraduate programs in 72 majors or endorsements and has numerous professional studies options. Many preprofessional programs in the health sciences are available, including the Rural Health Opportunities Program, conducted jointly with the University of Nebraska Medical Center, and the High Plains Health Opportunities Program, offered with Creighton University in Omaha.

Chadron State confers the following advanced degrees: master of arts in education, master of business administration, master of education and master of science in organizational management.

Approximately 2,800 students are enrolled at Chadron State. On-campus housing is available in five residence halls or a family apartment complex. The 281-acre campus includes 24 buildings, five of which are listed in the National Register of Historic Places.

Chadron State has long been a pioneer of distance education. Many courses and programs are available over the Internet. Twelve degree options are available online. A large number of courses and workshops are offered during the summer.

In 2002, the college renovated its former library into the Mari Sandoz High Plains Heritage Center, which pays tribute to the author and includes exhibits on the development of the region. Laboratory and research facilities are available in seven classroom buildings and the Reta E. King Library.

The conferencing office facilitates many activities on campus, including group gatherings, Elderhostels, youth camps and contests, professional association meetings, legislative hearings, and state and national workshops.

The college serves as a regional center for the arts, humanities and economic development. The Galaxy Series, which sponsors exhibits, concerts and presentations by nationally and internationally known performers, is among the cultural opportunities available.

Chadron State's intercollegiate athletic teams participate in the NCAA Division II and belong to the Rocky Mountain Athletic Conference. The college also has a rodeo team that has produced numerous national champions in the past decade.

There are more than 60 student clubs and organizations on campus.

Peru State College was established as Peru Normal School in 1860 under a charter granted by the territorial Legislature. The school opened in 1866 as Mt. Vernon Seminary. In 1867, the Legislature accepted the school as a gift from the Board of Trustees and it was renamed the Nebraska State Normal School. The school was the first college or university in Nebraska and the third teacher training institution west of the Missouri River.

Until 1905, Peru Normal School was the only state college. In 1921, the Legislature

made normal schools four-year colleges and authorized the granting of bachelor of arts, bachelor of science and bachelor of fine arts degrees in education. The school was known as the Nebraska State Teachers College at Peru. In 1949, the Legislature authorized liberal arts degrees. In 1963, the Legislature changed the college's name to Peru State College.

Teacher education is one of the largest programs at Peru State College, including a graduate-level teacher education program. The college also offers preprofessional programs and participates in the Rural Health Opportunities Program conducted jointly with the University of Nebraska Medical Center. The administration of PSC includes the School of Arts and Sciences, the School of Professional Studies and the School of Education. All programs are accredited by the HLC of the North Central Association of Colleges and Schools.

Peru State College offers coursework throughout its 19-county service area in southeastern Nebraska. Distance learning technology and online coursework make up a growing portion of the approximately 2,400 students served by the college.

Peru State College is governed by the Board of Trustees of the Nebraska State College System.

Wayne State College

Wayne State College is a four-year school that offers a variety of degrees, including bachelor of arts, bachelor of science, master of business administration, master of science in education and education specialist in school administration. The college also offers preprofessional programs and participates in the Rural Health Opportunities Program, conducted jointly with the University of Nebraska Medical Center.

Students select from areas of study in four schools: the School of Arts and Humanities, the School of Business and Technology, the School of Education and Counseling and the School of Natural and Social Sciences. The college's continuing education program offers undergraduate and graduate courses at various locations in northeast Nebraska.

The College Center in South Sioux City is a unique higher education partnership between Wayne State College and Northeast Community College. The partnership allows students to take all of the necessary classes at the College Center to earn certificates, diplomas and associate, bachelor's and master's degrees in a variety of areas including elementary education, business administration and criminal justice. In addition to classrooms, laboratories and staff and faculty offices, the \$12 million facility features study areas, meeting and conference rooms, a community meeting room, bookstore and a student center with computers, printers, copiers and other resources. The 39,600 square-foot building opened for classes in March 2011.

Wayne State College has about 3,600 students (3,000 full-time equivalent). The college's 128-acre campus encompasses the Northeast Nebraska Arboretum and Nature Center and includes 22 major buildings. All programs are accredited by the North Central

Association of Colleges and Schools and the National Council for the Accreditation of Teacher Education.

Wayne State was founded by educator James M. Pile in 1891 as a private college known as the Nebraska Normal College. The Legislature authorized purchase of the college in 1909, and it opened as a state normal school in September 1910, offering two-year programs in teacher education.

The 1921 Legislature added “Teachers College” to the normal school name and authorized the granting of bachelor of arts in education degrees. The 1949 Legislature dropped normal school from the name to create the Nebraska State Teachers College at Wayne. At the same time, it granted authority to offer bachelor of arts degrees in liberal arts. The graduate program leading to a master’s degree was authorized in 1955, and in 1963, the Legislature changed the college’s name to Wayne State College. The education specialist in school administration and master of business administration degrees were approved by the State College Board of Trustees in 1981 and 1991, respectively.

Community College System

A statewide system of locally governed community colleges was created in 1971 when the Legislature combined all public two-year schools in Nebraska. Five junior colleges (Fairbury, McCook, Nebraska Western at Scottsbluff, Platte at Columbus and Northeast Nebraska Technical College at Norfolk), five area vocational technical schools (Omaha, Lincoln, Central Nebraska at Hastings, Mid-Plains at North Platte and Northeast at Norfolk), and two state schools (Nebraska Technical at Milford and Western Nebraska at Sidney) formed the Nebraska Technical Community College Areas.

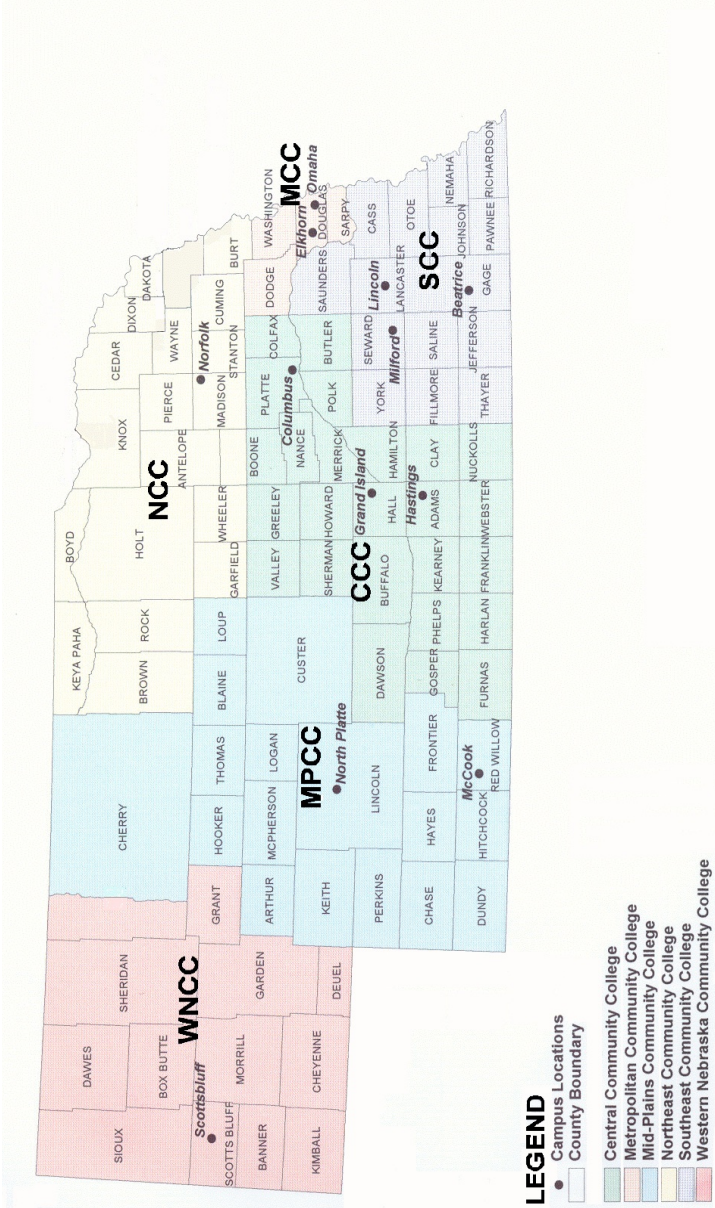

The six community college areas have 13 campuses and several off-campus sites. The Central Community College Area has campuses at Columbus, Grand Island and Hastings and centers at Holdrege, Kearney and Lexington. The Metropolitan Community College Area has campuses at Elkhorn Valley, Fort Omaha and South Omaha and centers at Fremont, Offutt Air Force Base and La Vista. The Mid-Plains Community College Area has McCook Community College, two campuses at North Platte Community College and extended campuses at Broken Bow, Imperial, Ogallala and Valentine. The Northeast Community College Area has one campus in Norfolk and centers at O’Neill, South Sioux City and West Point. The Southeast Community College Area has campuses at Beatrice, Lincoln and Milford. The Western Nebraska Community College Area has one campus at Scottsbluff and centers at Sidney and Alliance.

Control over financing of the state’s community colleges is vested in area boards of governors. The colleges are financed by local property taxes, which are levied in the area by each board; state general fund appropriations; and tuition and fees set by each area board. The state general fund appropriations are distributed to the six areas based primarily on two formulas: an enrollment-driven formula and an equalization formula.

The role and mission priorities of Nebraska’s community colleges are:

- applied technology and occupational education, and when necessary, foundations education
- transfer education, including general academic transfer programs, or applied technology and occupational programs that may be applicable to the first two years of
