Summary of purpose and/or changes:

LB 866 is a bill to increase a late fee for persons who fail to file a request for inspection with the State Electrical Board on time. The bill also eliminates a supervisory fee related to such requests.

Section-by-Section Summary:

Section 1: This section amends section 81-2126 by striking the language "a supervisory fee of fifty cents", thereby removing this fee that has been charged at or before commencement of any installation required to be inspected by the Electrical Board. This section requires the licensed electrician or owner making the installation to submit a request for inspection, the supervisory fee and the inspection fees required for the installation. This section would eliminate the currently required supervisory fee.
