

**One Hundred Seventh Legislature - Second Session - 2022**

**Introducer's Statement of Intent**

**LB1086**

---

**Chairperson: Senator Steve Lathrop**

**Committee: Judiciary**

**Date of Hearing: February 24, 2022**

The following constitutes the reasons for this bill and the purposes which are sought to be accomplished thereby:

LB1086 would provide for safety regulations of chemical abortion (sometimes called “medication” or “medical” abortion) procedures to protect women from serious adverse health consequences. These regulations include in-person screening of the woman before dispensing abortion-inducing drugs and follow-up after abortion to ensure treatment for serious complications and accurate reporting. LB1086 would also prohibit the sending of abortion-inducing drugs through the mail.
