## LEGISLATOR'S GUIDE ONE HUNDRED SEVENTH LEGISLATURE

December 2020

This guide, prepared by the staff of the Legislative Fiscal Office, is intended to provide state legislators and interested citizens with basic information about state government in Nebraska. Rather than describing state agencies only in terms of dollars expended or appropriated, this guide includes a synopsis of the services which are provided, describing the ways in which those services impact the lives of our citizens. In doing so, it is hoped that a better understanding will be gained of how state tax dollars are spent. Immediately following this introduction is a summary of state expenditures and receipts.

State agencies are listed in this guide by agency number, similar to the organization of the appropriations bill. Indexes are also included listing state agencies in alphabetical order and grouped by functional areas of government. Indexes of state programs and key words are also included to assist you in locating an agency responsible for a particular program.

At the beginning of each agency description, the guide lists three individuals to contact for more information. These individuals are: the agency director, the staff person from the Legislative Fiscal Office and the staff person from the Executive Budget Office, each of whom is to monitor the agency's operations. As of December 2020, the designation of the key contacts for an agency is current.

Acknowledgement of sources for information contained in this guide may be found on the last page.

The Legislative Fiscal Office appreciates any reactions that you may have regarding the format, content and usefulness of this guide. Your comments will be very helpful in our future efforts to provide a reference guide for state legislators.

# Definitions

Throughout this report, expenditure numbers are broken out by various fund types as well as general expenditure categories. A brief definition of these terms might be helpful.

## FISCAL YEAR

---

The states' fiscal year runs from July 1st through June 30th of the following year. The fiscal year covering the period July 1, 2020 through June 30, 2021 is referred to as FY2020-21, FY20-21, or simply FY21.

## FUND TYPES

---

The State of Nebraska utilizes several different types of funds for appropriating and accounting for revenue sources. This structure is somewhat similar to a bank that has several general categories of accounts such as commercial, individual, and trust accounts while under these general types of accounts are many separate and distinct individual accounts. In the state system, the broad types of funds are listed below:

**General Fund** - This fund accounts for all the receipts not specified by statute to be credited to another fund. The majority of General Fund revenues come from sales and use taxes, and individual and corporate income taxes. Also deposited into the General Fund are liquor taxes, and portions of the cigarette tax and insurance premium taxes. There is only a single General Fund. Since sales and income tax dollars are deposited in this fund, the level of General Fund spending thus determines the level of sales and income tax rates. For this reason, General Fund revenues, expenditures, and balances are of a primary concern. Of the 78 state agencies expending funds, 46 receive some level of General Fund support.

**Cash Funds** - These funds are used to account for the revenues and expenditures of dedicated fees and charges. Unlike the single General Fund, there are more than 250 individual cash funds contained in 73 different agencies. In many instances, an agency has multiple cash funds. For example, the Department of Agriculture has 30 different cash funds. Monies held in these funds generally can only be used for the specific purpose for which the fund was created. Cash funds are used to account for revenues such as University and State College tuition and fees, institution patient revenues, hunting/fishing permits, highway revenues (gas tax and sales tax on motor vehicles), and agricultural commodity check-off fees. In addition, most inspection, regulatory, and license fees and charges, are dedicated to and accounted for through the use of cash funds. The Department of Transportation accounts for 38% of cash fund revenues/expenditures.

**Federal Funds** - Federal funds account for monies received from the federal government either as grants, contracts, or matching funds. Unlike other fund sources, federal fund appropriations are an estimate and agencies are not limited to the amount shown in the appropriation bills though receipts must meet expenditures. Similar to cash funds, there are numerous individual federal funds contained in the accounting system and they are generally limited to specific uses as authorized by the federal program from which the funds came from.

Approximately 61% is expended in the Dept. of Health and Human Services, a large portion for programs such as Medicaid, AFDC/TANF, and other public assistance program. Federal funds in the Dept. of Education accounts for 13% of the total, mostly flow through monies to local K-12 schools for programs such as Chapter 1, School Lunch, and Special Education.

**Revolving Funds** - These types of funds account for transactions where one agency provides goods or services to another agency. For example, the Dept. of Motor Vehicles (DMV) pays DAS-Information Management Services for use of the states' computer system. The expenditure is charged against DMV's budget (be it General, Cash, or Federal) as data processing expenses. DAS-IMS then receives these funds which are credited to a revolving fund from which DAS-IMS pays staff salaries, lease payments on computers, utilities, etc... This in essence double-counts an expenditure; once when an agency pays another for goods/services rendered, the second time when the receiving agency then pays for costs incurred in providing the goods or services. Like cash and federal funds, there are numerous individual revolving funds within the state system. The University of Nebraska and State Colleges also use revolving funds but to account for revenues from dormitories, student unions, agricultural experiment stations, and other "enterprise" operations.

Also included in this type is a very small amount of private donations in capital construction, and the Nebraska Capital Construction Fund (NCCF). The NCCF accounts for cigarette tax that is earmarked for capital construction. Because these amounts are both relatively small, they are combined with Revolving Funds for purposes of this report.

## **OPERATIONS, STATE AID, CONSTRUCTION**

---

Expenditures in this report are also broken down into three categories: operations, state aid, and capital construction. And within the "state aid" category, there are two kinds: state aid to individuals/other and state aid to local governments.

**Agency Operations** accounts for the costs of actually operating state agencies including costs such as employee salaries and benefits, data processing, utilities, vehicle and equipment purchases, fuel and oil, etc...

**State Aid** accounts for state payments made to local governments, individuals and quasi-governmental units.

Aid to Local Governments accounts for aid payments to local governments that have the authority to levy a property tax such as cities, counties, K-12 schools, community colleges, natural resource districts (NRD's), and educational services units (ESU's). This category includes programs such as state aid to schools (TEEOSA), special education, homestead exemption reimbursements and property tax relief through direct aid payments to cities, counties, NRD's, community colleges, and ESU's. State payments to fund part of the K-12 teacher retirement plan are not included under this category as those amounts are credited directly to the teacher retirement fund and are not checks written to school districts nor do those amounts show up as a school revenue or subsequent expenditure.

Aid to Individuals/Other includes programs such as Medicaid, Temporary Assistance to Needy Families (TANF), child welfare services and student scholarships where state funds are provided for the direct benefit of an individual. This area also includes aid to quasi-government units, which are those local agencies that do not have the authority to levy property taxes. This would include entities such as area agencies on aging, mental health regions and developmental disability regions.

**Capital Construction** includes costs for new construction and major repairs and renovation of state-owned facilities. The term "major" is used with respect to repair and renovations as relatively small or on-going projects are routinely done within agencies operating budgets. Highway and road construction and maintenance is not included in this category. This is included under cash fund agency operations.

## **AGENCY AND PROGRAM STRUCTURE**

---

The state uses a program structure to which all appropriations are made. Budget programs are set out in the appropriations bills and are intended to follow functional lines within an agency. Overall there are 279 budget programs within 78 state agencies. A lump sum appropriation is made to each program by fund type. Individual line items of expenditure (i.e... salaries, data processing, equipment, supplies) are identified in the agency request and subsequently during the expenditure of the appropriated funds, but not for purposes of appropriations.

The only legally valid appropriations are made to budget programs with agency totals being for informational purposes only. Funds can only be shifted from one program to another by action of the Legislature. In some cases an entire agency is contained in one budget program. This normally occurs when it is a small agency with basically one purpose. A good example is the Board of Barber Examiners. However, there are some examples of very large agencies that are also contained in basically one program, for example the Department of Correctional Services. In this case, the need for flexibility in terms of reallocating funding among the various institutions dictates a broader budget program. In these instances, more detailed data is available through the use of sub-programs during the request and expenditure process.

## **BUDGET PROCESS AND CHRONOLOGY**

---

The budgetary process is a biennial cycle of submissions, reviews, and appropriations. The full cycle takes almost one complete 12-month period. The following steps basically comprise the cycle as it works during the preparation of a biennial budget.

**Step 1 Budget Request Instructions** By July 15, statutes require the Dept. of Administrative Services (DAS) to issue instructions and forms for state agencies to use in submitting the budget request for the next two fiscal years.

**Step 2 Agency Budget Requests** By September 15, agencies must submit their requests to DAS with a copy to the Legislative Fiscal Office (LFO).

Step 3 Staff Review From September through December, analysts for the DAS Budget Division and LFO review agency requests and collect and analyze information justifying the request levels. The DAS-Budget analysis is conducted for the use of the Governor in developing his/her recommendations, the LFO analysis is provided for the Appropriations Committee and Legislature.

Step 4 Governor's Recommendation By statute, the Governor's budget is due by January 15th of each year. In the first year of his/her term, this time is extended until February 1st.

Step 5 Appropriations Committee Initial Review From the middle of January to mid to late February, the Appropriations Committee reviews agency requests and develops a preliminary recommendation. This preliminary recommendation becomes the basis for the agency budget hearings as well as a Preliminary Report required by legislative rules. This report is due 20-30 legislative days after the Governor's budget is submitted during odd numbered years (15-20 legislative days in even numbered years).

Step 6 Agency Budget Hearings From mid-February to mid-March, approximately 4-5 weeks are used to conduct public hearings on the agency request, the Governor's recommendations and Appropriations Committee preliminary recommendation. During these hearings, agencies, interest groups, and the general public submit requested changes to the Committee preliminary recommendation. Although not done frequently, other standing committees of the Legislature may have hearings on the budgets of those agencies under their subject jurisdiction during this time.

Step 7 Committee Final Recommendation From mid-March to the mid to late April, another four weeks is used to review all requests subsequent to the hearings and finalize the Appropriations Committee recommendation that will be sent to the full Legislature. By rule, the budget bills must be submitted to the Legislature as a whole by the 70th legislative day in 90 day sessions, and the 40th day in 60 day sessions, otherwise the Governor's bills are considered as introduced. When the Appropriations Committee sends their recommendations to the entire Legislature, the other standing committees again have the opportunity to review and/or hold hearings on the recommendations for the agencies under their jurisdiction.

Step 8 General File Like all other bills, budget bills are subject to amendment on the floor of the Legislature. The only difference is that for budget bills, all amendments must have 25 votes where a simple majority of those voting can amend other bills. This is the first of three stages a legislative bill must follow on its way to passage.

Step 9 Select File This is the second stage of floor debate and again the budget bills are subject to debate and amendment.

Step 10 Final Reading The number of votes required for passage of budget bills depends on whether the bill has the emergency clause (i.e., the bill becomes law immediately after signed by the Governor), and whether the appropriation exceeds the Governor's recommendation. Any bill with the emergency clause (including budget bills) requires a 2/3 vote of the 49 members of the Legislature (33 votes). Since the fiscal year starts on July 1, and voting on budget bills normally occurs at the end of May or first part of June, the mainline budget bills will require the emergency clause in order for agencies to have funding available by the start of the new fiscal

year. Some appropriations can go into effect after the fiscal year has begun as the mainline bill provides adequate cash flow until 90 days after the session ends when bills without the emergency clause go into effect. In cases of bills without the emergency clause the number of votes depends on whether the appropriation is in excess of the Governor's recommendation (30 votes) or at or below the Governor's recommendation (simple majority, 25 votes). By legislative rule, all bills which have a General Fund impact (i.e., General Fund "A" bill or General Fund revenue loss) are held on the final stage of consideration until the mainline budget bills have been passed.

Step 11 Governor Vetoes The Governor has five calendar days (excluding Sunday) to sign bills as enacted, let the bill become law without his/her signature, or return the bill with vetoes. In addition to the authority to veto a bill in total, the Governor also has the authority to line-item veto which means the Governor can strike a number and insert a lower number for any specific item of appropriation.

Step 12 Veto Overrides By legislative rule, if more than one item in a bill is vetoed, the Appropriations Committee must make a report to the Legislature within one legislative day. The rules further lay out the order for considering override attempts: (1) the Committee may offer to override the entire bill; (2) the Committee may offer to override selected line item vetoes; (3) any member of the Legislature may then offer a motion to override the entire bill; and (4) any member may then offer motions to override selected line item vetoes. In the Committee report, the Appropriations Committee can either recommend or not recommend overrides, or as in some cases, remain silent on the disposition of vetoes. In all cases, veto overrides require 30 votes.

Step 13 Deficit Appropriations A budget enacted for a fiscal year can be amended or changed up to the last day of that fiscal year. Deficit appropriations are changes made to the originally enacted appropriations. There are several chances to amend a biennial budget once it has been enacted. For example, the FY19-20 and FY20-21 biennial budget is enacted in the 2019 Session. Both years can be changed during the 2020 Session, even though at that time, the state will be nine months into FY19-20. The second year of the biennial budget (FY2020-21) can be subject to change during the 2020 Session and again during the 2021 Session.

**AGENCY 03 LEGISLATIVE COUNCIL  
PROGRAM 001 LEGISLATORS' SALARIES**

**PROGRAM OBJECTIVES**

---To provide compensation for members of the Legislature as provided for in the state Constitution.

**PROGRAM DESCRIPTION**

The Nebraska Legislature is the law-making branch of state government. It consists of one house of forty-nine members elected from single member districts on a nonpartisan ballot. The term of office for each member is four years and the salary is \$1,000 per month.

Prior to 1970 regular sessions of the Legislature were held in odd-numbered years. Subsequent to a constitutional amendment in 1970, the Legislature has met in annual sessions which convene on the first Wednesday after the first Monday in January. Sessions held in odd-numbered years meet for ninety legislative days, and in even-numbered years, for sixty legislative days.

The Legislature conducts its law-making responsibilities through various standing committees and fulfills its administrative responsibilities through select or special committees which are organized for specific purposes.

PROGRAM 03 SUPREME COURT JUDGES' SALARIES**

**PROGRAM OBJECTIVES**

--- To provide compensation for judges of the Nebraska Supreme Court.

**PROGRAM DESCRIPTION**

Salaries and benefits of the Chief Justice and the judges of the Supreme Court are paid from this program. The salary as of July 1, 2020, or as soon as may be legally paid under the Constitution of Nebraska, is \$187,036 (Section 24-201.01).

The Supreme Court's basic responsibility is to hear appeals. It is the highest appellate court in the State of Nebraska. The Constitution provides that certain enumerated original actions, appeals of capital cases, and cases involving the constitutionality of a statute must go to the Supreme Court. Additionally, statutes provide for direct appeals to the Supreme Court by-passing the Court of Appeals, and for further review by the Supreme Court of cases heard originally by the Court of Appeals.

The Supreme Court's decisions are binding on all trial courts as well as the Nebraska Court of Appeals. The Supreme Court is composed of a Chief Justice and six judges representing the six Judicial Districts of the State. The Chief Justice represents the State at large and also serves as the executive head of the Nebraska Judicial Branch.

**PROGRAM DESCRIPTION**

Salaries and benefits of the six judges of the Court of Appeals are paid from this program. The judges are paid an annual salary of 95% of the salary level of the Supreme Court judges as set out in section 24-1101(3). The Court of Appeals is generally the first court to hear appeals of judgments and orders in criminal, juvenile, civil, domestic relations, and probate matters. In addition, the Court of Appeals has appellate jurisdiction over decisions originating in a number of state administrative boards and agencies. Its determination of an appeal is final unless the Nebraska Supreme Court agrees to hear the matter. The Court hears cases in its courtroom on the second floor of the State Capitol but is authorized to hear oral arguments throughout the state, sitting in cities such as North Platte, Omaha, Papillion, Norfolk, and Kearney. The court sits outside of Lincoln 4 to 6 months out of the year.

**PROGRAM OBJECTIVES**

--- To provide compensation for retired judges called back to serve.

**PROGRAM DESCRIPTION**

Pursuant to art. V, § 2 of the Nebraska Constitution, retired judges of either the Supreme Court or the Court of Appeals may be called upon for temporary duty by the Supreme Court. Art. V, § 12 provides that any judge of the district court who has retired may be called upon for temporary duty by the Supreme Court. Section 24-729(1) provides that any retired judge of the Supreme Court, Court of Appeals, or district court, with his or her consent, may be assigned by the Supreme Court to sit in any court in the state to relieve congested dockets or to sit for the judge of any court who may be incapacitated or absent.

PROGRAM 06 DISTRICT AND JUVENILE COURT JUDGES' SALARIES**

**PROGRAM OBJECTIVES**

--- To provide compensation for the judges of the District Court and Separate Juvenile Court.

**PROGRAM DESCRIPTION**

Salaries and benefits for the judges of the District Court and Separate Juvenile Court are paid from this program. The judges are paid an annual salary of 92.5% of the salary level of the Supreme Court judges as set out in section 24-301.01. The salary as of July 1, 2020, or as soon as may be legally paid under the Constitution of Nebraska, is \$173,008.

District courts are trial courts of general jurisdiction and are organized into 12 judicial districts to serve all 93 counties of the state. Until July 1, 2021, there will be fifty-six district court judges to serve these judicial districts. After July 1, 2021, there will be fifty-seven, as an additional judge will be added to the fourth district (Douglas County).

Although the district courts have concurrent jurisdiction with county courts, they primarily hear all felony criminal cases and civil cases involving greater requests for damages. District courts also function as appellate courts in deciding appeals from certain county court cases and various administrative agencies. When acting as an appellate court, the district judges review the county court record of testimony and evidence.

Separate juvenile courts are located in counties having populations of 75,000 or more. There are currently 12 juvenile court judges in three counties: 6 in Douglas, 4 in Lancaster, and 2 in Sarpy. In the remaining counties, juvenile matters are heard in the county courts. Separate juvenile courts are courts of record and handle matters involving neglected, dependent, and delinquent children. The separate juvenile courts also have jurisdiction in domestic relations cases where the care, support, or custody of minor children is at issue.

Salaries and benefits for the judges of the County Court are paid from this program. The judges are paid an annual salary of 90% of the salary level of the Supreme Court judges as set out in section 24-513. The salary as of July 1, 2020, or as soon as may be legally paid under the Constitution of Nebraska, is \$168,332.

There are now fifty-eight county court judges. The jurisdiction of the county court is established by state law which provides for exclusive original jurisdiction in probate matters, actions based on a violation of a city or village ordinance, juvenile court matters without a separate juvenile court, adoptions, preliminary hearings in felony cases, and eminent domain proceedings. The county courts have concurrent jurisdiction in civil matters when the amount in controversy is \$53,000 or less, criminal matters classified as misdemeanors or infractions, some domestic relations matters, and paternity actions. County judges also hear all small claims matters filed within the court system. County judges in all counties except Lancaster, Douglas, and Sarpy have the same duties as judges of separate juvenile courts.

Appeals from the county court are made to the district court, although in certain probate and juvenile cases, appeals are made directly to the Court of Appeals.

PROGRAM 40 STATE LAW LIBRARY**

**PROGRAM OBJECTIVES**

- To provide access to legal research materials for judges, attorneys, agencies, and citizens.
- To preserve legal history
- To keep information and technology current as a working library.

**PROGRAM DESCRIPTION**

The State Law Library is the oldest library in Nebraska. The Kansas-Nebraska Act of 1854 established a territorial library to be kept at the seat of government. In 1871, the library was separated into two sections, law under the supervision of the Nebraska Supreme Court and miscellaneous under the supervision of the Secretary of State. Both collections were placed under the supervision of the Nebraska Supreme Court in 1913. In 1968, the miscellaneous collection was given to other libraries, leaving only the law books in the State Law Library.

The State Law Library houses the oldest legal collections in the state, consisting of statutes and appellate court cases for all 50 states going back from their statehood and colonial laws to the current date. Treatises from the 1800's and legal encyclopedias going back to when they were first published enhance the collection. The collection contains all Nebraska laws, statutes, appellate court cases and attorney briefs, attorney general opinions, and legislative materials. The Nebraska Supreme Court Justices constitute the library's governing board. The State Law Library is primarily a reference and research library as opposed to a circulating library.

PROGRAM 396 COUNTY COURT SYSTEM**

**PROGRAM OBJECTIVES**

- To provide for a county court in each county in the state.
- To pay for the State portion of county court system operating expenses.

**PROGRAM DESCRIPTION**

This program pays the personal services and travel expenses of county court staff and the travel expenses of county court judges. The salaries and benefits of the county court judges are paid in Program 7. Counties are responsible for the costs associated with providing operating expenses, equipment, and facilities.

Clerk magistrates and county court staff provide the public access to the courts. They are responsible for the docketing, calendaring, and monitoring of all the cases filed in the courts. In addition, they handle the financial transactions of the court, and provide administrative and technical support for the judge.

At the head of county court non-judicial staff is a clerk magistrate or judicial administrator who is assigned to act as clerk of the court and court manager. He or she has statutory authority for routine non-contested judicial matters. A clerk magistrate may issue arrest and search warrants, accept guilty pleas in misdemeanor and traffic cases, conduct ex-parte hearings for juveniles removed from their homes, and act as a registrar in informal probate cases. Clerk magistrates also perform marriages. In some rural counties, clerk magistrates work in two or more courts. In the higher-volume courts, they supervise the county court staff in addition to other duties.

**PROGRAM DESCRIPTION**

The salaries and expenses of the court reporters for the district and separate juvenile court judges and the travel expenses for these judges are paid from this program. The salaries and benefits of the district court and separate juvenile court judges are paid in Program 6. Counties are responsible for the costs associated with providing operating expenses, equipment, and facilities.

PROGRAM 67 PROBATION SERVICES**

**PROGRAM OBJECTIVES**

--- Umbrella program includes the appropriations for probation services.

**PROGRAM DESCRIPTION**

Program 67 is a combined appropriation from the Legislature, which is administratively divided among these budget programs:

Program 397 Statewide Probation  
Program 398 Intensive Supervision Probation

Each of the above-noted programs is described in the following pages.

The Nebraska Probation System uses a public safety approach to case management. Probationers are prioritized for supervision and treatment services according to an assessment of their risk of reoffending using a normed and validated, actuarial-based risk assessment tool.

The highest level of supervision while on probation is Community-Based Intervention (CBI), which is equivalent to intensive supervision probation. This supervision combines intensive supervision and treatment resources to maximize community safety.

Probationers supervised at the Community-Based Resources (CBR) level are guided by different responsive case management standards and is equivalent to traditional probation.

PROGRAM 397 STATEWIDE PROBATION**

**PROGRAM OBJECTIVES**

- To provide the delivery of investigative reports to the courts.
- To provide community-based supervision of clients.

**PROGRAM DESCRIPTION**

To carry out its mission, the Office of Probation Administration provides overall direction and supervision for activities and personnel within the Probation System. The Probation System is divided into districts each having a principal office with some having satellite offices. There are 12 Probation districts which match the District Court judicial districts. In districts 3 and 4 there are two Chief Probation Officers, one that is responsible for adult probation and the other for juvenile probation.

Since FY15-16, Program 397 has been the primary budget program for general administrative staff, drug techs, and field staff that support both adult and juvenile programs.

**AGENCY 05 SUPREME COURT  
PROGRAM 398 INTENSIVE SUPERVISION PROBATION**

**PROGRAM OBJECTIVES**

- Through the use of validated risk assessment tools and a highly skilled staff, select clients were deemed appropriate for Intensive Supervision Probation (ISP).
- Evidence-based practices which are used to evaluate program effectiveness include:
  - \* Targeting areas of criminogenic risk with matching referrals
  - \* Building community support networks
  - \* Incorporating pro-social activities such as education, employment and problem-solving programs
  - \* Strong case management
  - \* Techniques to enhance readiness for behavior change
  - \* Involvement in cognitive-based programming

**PROGRAM DESCRIPTION**

In 1990, the Legislature provided for the implementation of an Intensive Supervision Probation (ISP) program. Selected probationers in ISP received the highest level of supervision provided while minimizing any risk to the public. In 2007, the Administrative Office of Probation created a Community Safety Impact Model specifically to incorporate evidence-based practices into intensive supervision. This model addresses four primary elements: targeted assessment, Community-Based Intervention (CBI) which is Probation's approach to intensive supervision, Services and Outcome Evaluation.

In response to this model, Probation has shifted personnel and service resources to those individuals and cases who require the highest level of CBI.

Since FY15-16, Program 398 has been the primary budget program for adult Probation staff. Personnel include line staff probation officers, specialized probation officers, intake officers, support staff, supervision coordinators, chief deputies, and a Chief Probation Officer who is responsible for overall district management.

- To provide non-statutory-mandated probation services to counties.
- To deliver services that are necessary for the implementation of county-designated programs.

**PROGRAM DESCRIPTION**

This program allows counties to contract with the Office of Probation Administration for the provision of certain services those counties deem necessary and are best delivered by way of Probation Administration staff expertise but are not mandated by statute. Program needs and fiscal concerns amongst the parties regarding the operation of these requested county programs are addressed by way of inter-local agreements between Probation Administration and the counties in question.

The services provided include supervision of clients in specialized domestic violence units, adult presentence investigation, juvenile intake services, and juvenile pre-adjudication electronic monitoring.

Personnel costs are for probation officers and drug court coordinators. Operational costs are for electronic monitoring, mileage, and substance abuse testing and treatment.

**AGENCY 05 SUPREME COURT  
PROGRAM 420 STATE SPECIALIZED COURT OPERATIONS**

**PROGRAM OBJECTIVES**

--- To reduce drug use and addiction among clients.

--- To reduce reliance on incarceration.

**PROGRAM DESCRIPTION**

Problem-solving courts were created to interrupt the cycle of addiction and criminal behavior through a model designed to be a proactive, cost-effective alternative to traditional court procedures. These programs seek to address the underlying factors, such as substance abuse, that lead to crime. Problem-solving courts include graduated sanctions and rewards, treatment services, monitoring, and supervision of progress. Educational or vocational counseling is added as appropriate with requirements established by each local jurisdiction.

Problem-solving courts combine common practices such as drug testing, enhanced supervision and judicial monitoring, and substance abuse treatment to better address the needs of the offender, the community, and the justice system. Available resources and professionals within a community require each court to tailor programs and procedures to meet local needs and realities.

Problem-solving courts are now meeting the needs of clients who are at a high risk to reoffend and who experience addiction (drug and DUI courts), post-traumatic stress (veterans courts), difficulty integrating back into their community (reentry courts), and young, first-time felons (young adult court). In 2020, funding was provided for a pilot program for problem-solving courts for mental health.

PROGRAM 435 PROBATION COMMUNITY CORRECTIONS**

**PROGRAM OBJECTIVES**

- To develop community-based supervision programs as alternatives to incarceration.
- To prioritize supervision and services for clients according to their risk of re-offending.

**PROGRAM DESCRIPTION**

Probation Community Corrections uses evidence-based practices for managing clients and providing safe communities. Programs have been developed to deal with specialized offender populations. Specialized Substance Abuse Supervision Program (SSAS) was developed as a prison alternative for felony drug clients. SSAS addresses the treatment and supervision needs of clients in risk of recidivism with chronic drug problems and criminal thinking. The Fee for Service Voucher Program provides clients under community supervision financial assistance towards substance abuse treatment.

Day and Evening Reporting Centers are community-based facilities blending high levels of offender supervision with intensive on-site delivery of services. Reporting Centers are available for clients needing services. They are a one-stop shop for the following services: Educational, Vocational, Pre-treatment, Cognitive Groups, and Drug Testing. As of 2019, there are 16 Reporting Centers in the following locations: Bellevue, Nebraska City, Lincoln, Omaha, South Sioux City, Kearney, Lexington, Gering, Columbus, Norfolk, Grand Island, Beatrice, Hastings, and North Platte with an additional reporting center in Omaha and in Lincoln.

Laws 2015, LB605, implements several of the recommendations made by the Council on State Governments and the Justice Reinvestment Initiative working group. This impacts Probation by expanding access to the Specialized Substance Abuse Supervision (SSAS) program, expanding Probation to supervise and provide services to more non-violent clients, using Probation for supervision of clients after release from incarceration, and improving victim restitution.

PROGRAM 437 JUVENILE JUSTICE**

**PROGRAM OBJECTIVES**

--- To utilize the least intrusive and restrictive options for juveniles.

**PROGRAM DESCRIPTION**

**AGENCY 05 SUPREME COURT  
PROGRAM 570 COURT AUTOMATION**

**PROGRAM OBJECTIVES**

--- To develop the Supreme Court's information technology systems.

**PROGRAM DESCRIPTION**

The Judicial User System to Improve Court Efficiency (JUSTICE) system connects all of the trial courts in Nebraska. The County and District Courts share an IBM I-Series mid-range computer in each courthouse. Those computers are networked back to Lincoln via private line or private Internet Protocol (IP) connections.

JUSTICE provides software applications for case management and financial record keeping for the trial courts. JUSTICE produces a variety of court documents including warrants, summons, commitments, garnishments, and executions. It allows for E-filing, E-Payment, and Court Case Calendar Search.

JUSTICE records are transmitted electronically to the Department of Motor Vehicles and the Crime Commission. Electronic interfaces between Criminal Justice Information System (CJIS) and JUSTICE are in place in Douglas and Lancaster Counties; other counties are installing Case Management Systems (CMS) that also interface with JUSTICE. Audit reports are the formal, written, and primary means of communicating the results of our audit efforts. To achieve the widest distribution of our audit efforts, the Auditor of Public Accounts posts copies of its audit reports to its Website at <http://www.auditors.nebraska.gov>. An audit report and its supporting evidence are considered confidential until the report is officially released. Once released, the audit report becomes public information and is available to anyone upon request. The supporting evidence to the audit report remains confidential information.

The Auditor of Public Accounts is required to be reviewed by outside independent experts every three years for compliance with Government Auditing Standards. The most recent National State Auditors Association external quality review noted no impairments affecting the Auditor of Public Accounts Office independence in providing auditing and other attestation services. PROGRAM 475 ABLE SAVINGS PLAN**

**PROGRAM OBJECTIVES**

The objective of the ABLE Savings Plan is to administer market and maintain an efficient and effective ABLE Savings Plan for all Nebraskans, while complying with all the State and Federal regulations. The Treasurer's Office will continue to work closely with the Program Manager to administer the ABLE Savings Plan. As we inform Nebraskans about the benefits of a 529A plan, our goal is to educate eligible individuals on the advantages of the Enable Savings Plan. To accomplish this goal, we will need to develop a strategic marketing and outreach plan that will span all of Nebraska as well as potential account owners nationwide.

The Program Manager contract for the Nebraska ABLE Savings Plan will end June 2021. The Nebraska State Treasurer issued a Request for Information from qualified financial services companies in order to decide the future management of the ABLE Savings Plan.

**PROGRAM DESCRIPTION**

The Nebraska ABLE Savings Plan provides a simple and flexible 529A Savings Plan for Nebraska residents and citizens outside of the state, as directed by Statutes 77-1401 to 77-1409 and IRS Code Section 529A.

PROGRAM 503 TREASURY MANAGEMENT**

**PROGRAM OBJECTIVES**

- Provide for the safekeeping of the State's assets (cash and securities).
- Increase data security of financial transactions.
- Fulfill the fiduciary responsibilities of the office.
- Continually increase electronic means for the State's receipts and disbursements.
- Implement procedures to increase the use of image technologies.
- Prepare legislative transfers and calculate and/or distribute State Aid payments.
- Continually improve cash management processes and procedures.
- To participate in events to aid in the education of state agencies regarding banking service contracts and updates on banking regulations and rules. Treasury Management will continue to work with state agencies regarding their banking needs.
- Provide customer service to state agencies, constituents and partners of the State of Nebraska with payment related questions and other issues as needed.

**PROGRAM DESCRIPTION**

The Treasury Management program is the primary cash management function of the agency and performs banking functions in the most efficient, cost-effective way possible. Treasury Management coordinates services for State agencies. Receipts are collected from departments of state government, deposited locally and concentrated for investment purposes into a single custodial bank. Interest income is maximized by increasing the amount of money available for investment through enhanced cash management procedures and increasing electronic movement of money. The Treasurer's Office is online with four national bank deposit relationships. This provides additional real-time financial information, allowing investment decisions to be made throughout the day. Treasury staff also electronically re-presents insufficient fund checks using the ACH network. Treasury staff manages the funds remitted from two offices in each of the 93 counties to the State via a monthly remittance process. Treasury Management works with the OCIO to coordinate annual data security compliance for the agencies accepting credit card payments. Treasury staff also works with agencies to set up and implement ecommerce solutions. Treasury Management is responsible for many legislative fund transfers and to monitor the session each year for changes to existing transfers and programs as well as new legislation that would require action by Treasury staff.

PROGRAM 505 EDUCATION SAVINGS PLAN**

**PROGRAM OBJECTIVES**

The Nebraska College Savings Program became effective on January 1, 2001. The Program allows citizens inside and outside the State of Nebraska to contribute to investment accounts for their children and grandchildren's education. The earnings on the investment are tax deferred at both the state and federal level, and if the funds are used for a qualified education expense, they come out tax-free at the state and federal level. Nebraska taxpayers receive an income tax deduction up to \$10,000 each year for contributions made to their accounts.

The Nebraska State Treasurer is the Trustee of the Nebraska Educational Savings Plan Trust, which includes four plans, each serving as a distribution channel for Nebraska:

- NEST Direct College Savings Plan
- NEST Advisor College Savings Plan
- TD Ameritrade 529 College Savings Plan
- State Farm 529 Savings Plan

The State Treasurer has entered into a Program Management Agreement with First National Bank of Omaha that began on December 18, 2010. Effective December 2020, under a new Program Management Agreement, Union Bank and Trust will assume program management responsibilities for the administrative and marketing services related to the program. The Nebraska Investment Council oversees the overall investment structures of the plans within the Trust.

PROGRAM 512 UNCLAIMED PROPERTY**

**PROGRAM OBJECTIVES**

- Collect and receive unclaimed or abandoned tangible or intangible property.
- Provide safekeeping and processing of assets in the custody of the office.
- Make a concentrated effort to return misplaced assets to the rightful owner or heirs.
- Educate holders and the public about the program.

**PROGRAM DESCRIPTION**

This program has three functions:

1. Reporting and remittance by holders of abandoned property
2. Claims by owners or heirs of abandoned property
3. Education and awareness of the program and its functions

By law, firms holding assets on behalf of owners, which are dormant or inactive for a period of five years, with exceptions, are required to report these holdings and remit the assets to the Unclaimed Property Division. Upon receipt of unclaimed property, the State Treasurer makes a concerted effort to locate the rightful owner. This is accomplished by mailings to the last known address, advertising names of owners in local newspapers and attending community events like the Nebraska State Fair, Husker Harvest Days, and the Applejack Festival. The Treasurer's Office also uses data matching services to research and locate owners of unclaimed property. Upon request, the Unclaimed Property Division will provide county listings to the County Treasurers. Claim forms are provided to individuals to substantiate their claims as rightful owners. Unclaimed assets are transferred to the Permanent School Fund, and the interest is distributed for support of the local school system. Tangible assets are liquidated at public auction. Administrative expenses of the program are charged to the Unclaimed Property Cash Fund.

PROGRAM 161 EDUCATION INNOVATION/OPERATIONS**

**PROGRAM OBJECTIVES**

---To provide lottery generated cash funds to enhance public education.

**PROGRAM DESCRIPTION**

The operating funds in this program are used to administer lottery aid programs. Staff administer the allocation of grants for the activities authorized in statute to be funded with lottery proceeds. Prior to FY17, lottery funds were primarily allocated for distance education and the Excellence in Teaching Act. Lottery funds were also used in lieu of general funds for two aid programs: high ability learner aid and early childhood education grants from FY12 through FY16. The funds were expended for reorganization incentives for school districts in FY15 & FY16 and the Early Childhood Education Endowment in FY14 – FY16.

Beginning in FY17 through FY21, the allocation of lottery funds is changed. Grants are provided for expanded learning opportunities, the Excellence in Teaching Program, distance education incentives, and competitive innovation grants. Beginning in FY18, the Legislature authorized lottery funding to administer the ACT to all 11<sup>th</sup> graders in public schools.

**PROGRAM OBJECTIVES**

- To provide lottery funds for educational purposes as directed by the Legislature.
- To reimburse schools and educational service units for distance education equipment upgrades and provide incentives for the use of distance education.
- To provide a loan forgiveness program to students who teach in Nebraska after graduation.

**PROGRAM DESCRIPTION**

The Excellence in Teaching Act, a teacher loan forgiveness program, is funded with lottery proceeds beginning in FY07. Lottery funds are also allocated for distance education incentives based upon courses provided.

The Legislature expanded the usage of the proceeds of the Education Innovation Fund beginning in FY13 due to state budget difficulties. New activities initiated with lottery funds include a military child compact in FY13 – FY16 and an ACT Pilot program in FY13 - FY16.

Lottery funds were also used in lieu of general funds for two aid programs: high ability learner aid and early childhood education grants from FY12 through FY16. PROGRAM 351 VOCATIONAL REHABILITATION/OPERATIONS**

**PROGRAM OBJECTIVES**

- To enable eligible persons with disabilities to enter and retain gainful employment consistent with their capacities and abilities.
- To expand and improve services available to persons with severe disabilities.
- To develop and maintain cooperative agreements with state, local, and private agencies and organizations for the coordination and provision of services.
- To evaluate the efficiency and effectiveness of services provided to eligible persons with disabilities.
- To provide assistive technology to persons with significant disabilities that will enable them to work and live independently in their home and community.

**PROGRAM DESCRIPTION** - Vocational Rehabilitation is an eligibility program. It serves persons who have a medically recognized physical or mental disability that creates a substantial barrier to employment. There must be a reasonable expectation that a person will be able to secure and keep employment as a result of the services received from Vocational Rehabilitation, in order to be eligible. An individualized program of vocational rehabilitation is developed for each eligible person. These programs are based on each person's unique needs and goals and are designed to overcome their barriers to employment, independence, and integration into the work place and the community. The Federal Rehabilitation Act of 1998 places an emphasis on services to the most severely disabled.

Staff provides independent living, assistive technology, and career planning and job placement in local communities throughout the state. Vocational rehabilitation staff is located in Lincoln, Omaha, Norfolk, Grand Island, Kearney, Hastings, North Platte and Scottsbluff. Satellite offices are located at O'Neill, Chadron, McCook and Columbus. Staff is linked with the Nebraska Workforce Development One-Stop system to serve persons through schools, mental health facilities and other places where persons with disabilities receive support services. Funding is approximately 79% federal funds with a required state match of about 21%.

PROGRAM 351 VOCATIONAL REHABILITATION/AID**

**PROGRAM OBJECTIVES**

---To purchase vocational rehabilitation services needed by applicants and eligible persons with disabilities.

**PROGRAM DESCRIPTION**

Vocational Rehabilitation provides employment services for people with disabilities through four major programs: (1) Transition Partnership Initiative which promotes transition from school to employment for students with disabilities; (2) Employment program for adults with significant disabilities; (3) Employment Warranty Program which promotes job retention and career advancement and; (4) Nebraska Assistive Technology Partnership which promotes employment and independent living for children, adults and elderly Nebraskans.

When necessary to evaluate the vocational rehabilitation potential of an applicant or to provide services planned in an individualized written rehabilitation program, needed services are purchased from community agencies, organizations, and persons (including employers) through cooperative and purchase of service agreements. These services may include vocational education and training, physical or mental restoration, assistive devices and technology, tools and equipment, and other goods and services directly related to improving the employability of an individual.

DISABILITY DETERMINATIONS/AID**

**PROGRAM OBJECTIVES**

---To provide assistance to applicants in obtaining medical exams for evidence necessary to assess the severity of medical conditions.

**PROGRAM DESCRIPTION**

Aid expenditures for this program are for the purpose of obtaining the medical evidence necessary to assess the severity of the claimants' medical conditions. In most cases, the medical records that exist as part of the treatment that the claimant has received are sufficient to support the disability decision. In some cases, the evidence of record is not sufficient so the agency arranges and purchases special medical examinations to enhance the medical record. The statistics below show the cost of purchasing reports from existing records as well as special supplemental medical examinations. Increases are due to changes in the fee schedule and increased workload.

PROGRAM 401 NEBRASKA SCHOOL FOR THE DEAF/  
SERVICES FOR CHILDREN WHO ARE DEAF AND HARD OF HEARING**

**PROGRAM OBJECTIVES**

---To provide all children who are deaf or hard of hearing a free appropriate public education.

**PROGRAM DESCRIPTION**

The Nebraska School for the Deaf (NSD), which was administered by the State Department of Education through FY1997-98, provided a comprehensive educational program for hearing impaired students up to 21 years old. The school also provided residential services to students requiring such services and vocational education was offered to all students. Beginning in FY99, NSD was closed and four regional/statewide programs were established to provide educational alternatives and options for serving families and children who are deaf or hard of hearing. The programs build upon existing services, promote the creation of new cooperative agreements among service providers and extend and support outreach services in all areas of the state. The State Department of Education entered into an agreement with the Iowa School for the Deaf to provide educational and residential school services as an option for some children. The array of services available include instruction in regular classes; supplemental services, such as resource room; itinerate instruction or consultative services to be provided in conjunction with regular class placement; special classes; special schools; home instruction and instruction in hospitals and institutions. Movement within the options is determined by the child's individual education program.

### **AGENCY DESCRIPTION**

The Public Service Commission (PSC) was created in 1906 by a Constitutional amendment as the Nebraska State Railway Commission. The agency name changed to the Nebraska Public Service Commission in 1972. The Commission consists of five members elected in general elections for a term of six years.

The PSC is charged with the regulation and general control of common carriers and natural gas utilities. Constitutional and specific statutory authority empower the Commission to regulate telecommunications companies, privately owned natural gas utilities, siting of major oil pipelines, rates for private water companies, intrastate transportation of household goods and passengers, grain dealers and warehouses and the manufacture and sale of manufactured homes, modular housing units and recreational vehicles. The Commission administers the Nebraska Relay System, the Nebraska Internet Enhancement Fund, the Nebraska Competitive Telephone Marketplace Fund, the Nebraska Universal Service Fund, the PSC Housing and Recreational Vehicle Fund and the 911 Service System Fund. In addition, grain is tested for moisture content, grain probes are tested for proper functioning, the location of electrical transmission lines is evaluated for safety and non-interference with other utilities, railcars are inspected, and railroad accidents investigated. To perform these duties, the Commission is composed of five Commissioners and administrative staff, field examiners and inspectors.

PROGRAM 019 HOUSING AND RECREATIONAL VEHICLE PROGRAM**

**PROGRAM OBJECTIVES**

The department protects the health and safety of those living in or using manufactured homes, modular housing units and recreational vehicles without placing unnecessary burdens upon manufacturers. In addition, when occasion arises, the department will educate the public in the use of such products and promote state and local agreements for interstate shipment of these products. **PROGRAM DESCRIPTION**

The department is directly responsible for protecting the health and safety of those living in or using manufactured (mobile) homes, modular housing units and recreational vehicles. Such protection is achieved by requiring manufacturers to develop and implement a construction process and quality assurance program. The department also reviews construction drawings and specifications of products. The department monitors manufacturers' quality assurance programs at factories to assure that construction codes and approved drawings are being followed for homes and vehicles produced for the market place. Departmental monitoring of manufacturer's quality assurance programs extends beyond the factories to dealers' sales lots and those products owned by consumers when a consumer complaint arises. Should non-complying products be found in the market place, the department could require manufacturers to make corrections and alter quality assurance program to assure future code compliance.

PROGRAM 064 TELECOMMUNICATIONS RELAY PROGRAM**

**PROGRAM OBJECTIVES**

---Enable hearing and/or speech impaired persons to communicate fully with others using conventional telephone systems 24 hours per day, 7 days a week.

**PROGRAM DESCRIPTION**

LB 240 (1990) created a statewide telecommunications relay system for Nebraska's hearing and/or speech impaired citizens. The Commission administers the system with the assistance of a seven member advisory committee. Funding for the relay is provided by a surcharge to each telephone customer not to exceed \$.20 per access line per month. The surcharge is reviewed annually by the Commission.

LB 530 (2003), changed the public hearing date from October 1 to April 1 each year to determine the surcharge level. In addition, the effective date of the surcharge assessment period changed from January 1 to July 1. The surcharge effective July 1, 2014 is \$.02 per telephone number or functional equivalent, per month. This surcharge is collected from both landline and wireless customers.

LB 146 (1995) established a specialized telecommunications equipment program for qualified hearing impaired or speech impaired persons in Nebraska. The funding for this program is provided from the telecommunication relay surcharge. Households served through the equipment distribution program are as follows.

PROGRAM 583 NEBRASKA ENHANCED WIRELESS 911 FUND**

**PROGRAM OBJECTIVE**

The purpose of this program is to provide funding to help ensure Nebraska has a state 911 system that can adequately process 911 calls and to provide accurate locations for emergency response.

**PROGRAM DESCRIPTION**

This program carries out the responsibilities assigned to the Commission under the Enhanced Wireless 911 Services Act by providing financial assistance to 911 Emergency Communication Centers (aka Public Safety Answering Points or PSAPs) for the on-going costs of enhanced wireless 911 and the 911 Service System Act for implementation and funding of a new Next Generation 911 system in Nebraska.

During the 2018 Legislative session, LB 993 combined these two funds into one, effective July 1, 2018, and it is now known as the 911 Service System fund. Program funding is currently generated by a \$.45 monthly surcharge on wireless access lines in Nebraska and is paid into the fund by wireless carriers on a monthly basis.

The Commission has begun the initial steps of implementing the plan to transition to a Next Generation 911 system. Contracts have been awarded to a consultant to assist with implementation, and a vendor to provide Quality Assurance and Quality Control components of the Geographic Information System (GIS). The Commission has currently released an RFP for a vendor hosted ESInet (Emergency Services Internet Protocol Network), and NG 911 Core Services and is currently in the process of vendor selection.

**AGENCY 14 PUBLIC SERVICE COMMISSION  
PROGRAM 686 UNIVERSAL SERVICE FUND**

**PROGRAM OBJECTIVES**

---Ensure that all Nebraskans have access to quality telecommunications and information services at affordable and comparable rates. To accomplish this goal, the Commission has created five programs within the Nebraska Universal Service Fund (NUSF):

1. Broadband Adoption Program, which supports the provision of broadband telecommunications infrastructure in unserved and underserved areas.
2. NE Telephone Assistance Program (NTAP) provides discounted rates to qualifying low-income Nebraskans.
3. Rural Tele-Health Program, which supports the provision of telecommunications services to a statewide tele-health network.
4. High-Cost Program, which seeks to make telecommunications and information service rates generally affordable and comparable across Nebraska.
5. E-Rate Special Construction Matching Funds program, which seeks to connect libraries and schools with fiber-optic networks by providing funds that are matched by the FCC dollar-for-dollar

**PROGRAM DESCRIPTION**

Broadband Adoption Program: The Commission has designed a support methodology to identify unserved and underserved areas of the State; it also considers the cost, speeds, and number of people that will benefit from the proposed projects.

NTAP: The Commission works with Health and Human Services, area aging agencies, housing authorities and other groups across the state in an outreach effort to enroll more eligible Nebraskans in this program.

Tele-health: The Commission is working to reform the program that assists rural hospitals and hospital consortia with maintaining network connections used for a statewide tele-health network.

High Cost: The Commission has designed a support methodology to identify the high cost areas of Nebraska to ensure that program objectives are met.

E-Rate Special Construction Matching Funds: As part of their E-Rate program, which supports services to schools and libraries, the FCC manages a program that offsets the costs of construction for networks to reach schools and libraries. If a state has a fund that will provide up to 10% of the total costs of construction, the FCC will match that amount dollar-for-dollar. This program was put in place to leverage that federal match.

PROGRAM 790 NATURAL GAS REGULATION**

**PROGRAM DESCRIPTION**

The Natural Gas Department regulates:

- Natural gas public utilities, not including natural gas utilities owned or operated by a city or metropolitan utilities district. The Commission administers the following funds pertaining to natural gas:

- Public Service Commission Regulation Fund: Costs of the Natural Gas Department, including the Public Advocate, are paid by regulated utilities and passed on to customers as a surcharge on natural gas bills, pursuant to Neb. Rev. Stat. § 66-1840 and 66-1841.

PROGRAM 358 BOARD OF PAROLE**

**PROGRAM OBJECTIVES**

- To provide the offender with a successful transition from confinement to responsible citizenship.
- To reduce prison overcrowding, ensure public safety, encourage inmates to participate in needed programming, and to maintain appropriate institutional behavior.

**PROGRAM DESCRIPTION**

The Board of Parole meets daily to hear and review parole cases. The Board reviews the status of committed offenders, determines when committed offenders are released on parole, establishes parole conditions, and may revoke parole and issue warrants to arrest parole violators. The Board also visits and inspects state and local prisons and jails, and recommends parole legislation to the Governor.

Parole is granted when all statutory requirements have been met, when there is a reasonable probability that an offender will remain at liberty without again violating the law or the conditions of parole, and when such parole is believed to be in the best interest of society. Parole is an opportunity for incarcerated offenders to serve the remainder of their sentence under parole supervision in the community. Parole provides a transition period for the offender to return to the community and resume responsibility and obligations of work, family care, and living his or her life within the confines of the law.

Laws 2015, LB598, moved the Office of Parole Administration from the Department of Correctional Services to the Board of Parole on July 1, 2016.

Laws 2018, LB841, changes the name of the Office of Parole Administration to the Division of Parole Supervision, and places the Division within the Board of Parole.

PROGRAM 108 HOMESTEAD EXEMPTION**

**PROGRAM OBJECTIVES**

To provide property tax relief to special categories of homeowners.

**PROGRAM DESCRIPTION**

In 1969, a limited homestead exemption law providing direct property tax relief to certain individual owners of residential property was enacted. The program has gone through numerous changes over the years, with significant changes being made to the program in 1994. Generally, individuals eligible for a homestead exemption are persons over age 65, certain disabled persons, certain disabled veterans, and unremarried spouses of veterans who died during war or of a service-connected disability. Additionally, the law has certain residence and income qualifications. This program provides state funded reimbursements to local governments for property taxes not collected due to homestead exemptions granted.

PROGRAM 109 PERSONAL PROPERTY TAX EXEMPTION**

**PROGRAM OBJECTIVES**

To provide reimbursement from the General Fund to counties for personal property tax exemptions granted under the provisions of LB 259 (2015).

**PROGRAM DESCRIPTION**

Beginning in tax year 2016, every taxpayer timely filing a personal property tax return is granted an exemption from the tax on the first \$10,000 of value reported on that return. County assessors file a personal property abstract with the Property Tax Administrator, which the Department of Revenue uses to calculate a compensating exemption factor for public service entities, railroads, air carriers, and car line companies (centrally assessed). The state provides reimbursements to the counties for property taxes not collected due to the granting of the exemption. Payments are made in two equal installments on the last days of February and June in the year following the tax year for which the locally assessed tax loss occurred. Payment for the centrally assessed property is made on or before February 15. The first exemptions were granted in 2016, and the first reimbursements were made during the 2017 tax year.

The program was eliminated by Laws 2020, LB 1107, beginning in tax year 2020.

PROGRAM 132 PROPERTY TAX CREDIT**

**PROGRAM OBJECTIVES**

To provide for a disbursement of state aid to each county for the reimbursement of taxes levied upon real property by the local political subdivisions.

**PROGRAM DESCRIPTION**

Created by LB 367 in 2007, the Property Tax Credit Act provides a real property tax credit based upon the valuation of each parcel of real property compared to the valuation of all real property in the state. The amount of the credit is determined by multiplying the amount disbursed to the county by the ratio of the real property valuation of the parcel to the total real property valuation in the county. The property tax credit is required to be displayed on the counties' tax lists and tax statements.

Beginning in 2017, land classified as agricultural and horticultural land is valued at 120% of its taxable value for purposes of calculating the credit (LB 958, 2016). The appropriation was increased by \$51,000,000 per fiscal year by Laws 2019, LB 294. Laws 2020, LB 1107, codified the amount of the credit to be at least \$275 million annually.

PROGRAM 160 LOTTERY ADMINISTRATION**

**PROGRAM OBJECTIVES**

To: 1) Maximize lottery revenues to designated trust funds; 2) Assure integrity and public confidence in lottery operations; and 3) Provide enjoyable lottery products.

**PROGRAM DESCRIPTION**

In 1991, the Legislature passed LB 849, enacting the State Lottery Act, and LR 24CA, a constitutional amendment to create a state lottery to be placed on the general election ballot in 1992, which voters adopted.

The Constitution directs transfers to certain beneficiary funds, after payment of prizes and operating expenses, as follows: Education, as directed by the Legislature - 44.5%; the Nebraska Environmental Trust Fund - 44.5%; the Nebraska State Fair - 10%; and the Compulsive Gamblers Assistance Fund - 1%, plus the first \$500,000 (LR 209CA, placed on the general election ballot November 2004 and adopted). The Nebraska Lottery is also required to spend at least 5% of advertising expenses on problem gambling prevention, education, and awareness messages, in coordination with the Gamblers Assistance Program.

At least 40% of all Lottery ticket sales are statutorily required to be returned to players as prizes. However, in each of the last three fiscal years, over 58% of total sales were returned as prizes. To beneficiary funds, the Lottery transfers the greater of (a) the amount that was transferred in FY2003 or (b) an amount that is at least 22% and no more than 25% of sales. With the Tax Commissioner's approval, the transfer may exceed 25%.

PROGRAM 164 GAMBLERS ASSISTANCE/OPERATIONS**

**PROGRAM OBJECTIVES**

To: 1) operate a problem gambling program; 2) promote education and public awareness of problem gambling and gambling addiction; and 3) evaluate existence and scope of problem gambling in Nebraska and its consequences.

**PROGRAM DESCRIPTION**

Laws 2013, LB 6 created the Nebraska Commission on Problem Gambling and placed the Commission within the Department of Revenue's Charitable Gaming Division for administrative purposes. The Commission replaced the State Advisory Committee on Problem Gambling and Addiction Services, which was housed within the Department of Health and Human Services, Behavioral Health Division, and transferred the Compulsive Gambler's Assistance Fund from DHHS to the Commission.

The Commission consists of nine members, appointed by the Governor and subject to confirmation by the Legislature for three-year terms.

The activities of the Commission are funded from the Compulsive Gambler's Assistance Fund. The Fund receives the first \$500,000, after payment of prizes and operating expenses, from the Nebraska Lottery and another 1% of the money remaining after payment of prizes, operating expenses, and the initial \$500,000 transfer. In addition, in previous years, the Fund received an annual transfer of \$100,000 from the Charitable Gaming Operations Fund, provided the Charitable Gaming Operations Fund balance is more than \$100,000 at the time of the scheduled transfer. In FY 19-20 and 20-21, this was a quarterly transfer of \$100,000 for an annual total of \$400,000. Beginning in FY 21-22, any transfer is at the direction of the Legislature. The Department of Revenue's Lottery Division is also statutorily required to spend not less than 5% of the lottery's advertising budget on problem gambling prevention, education, and awareness messages. The Gamblers Assistance Program manages the expenditure of these advertising budget dollars pursuant to a memorandum of understanding. A portion of the funds available in the Compulsive Gambler's Assistance Fund is used for state aid, as described on the following page.

PROGRAM 165 CHARITABLE GAMING and ATHLETIC COMMISSION**

**PROGRAM OBJECTIVES**

To regulate charitable gaming and athletic events, including amateur and professional boxing and mixed martial arts athletic competition.

**PROGRAM DESCRIPTION**

The Charitable Gaming Division regulates bingo, pickle cards, lottery, raffle, and county/city lottery (keno) activities in Nebraska, and collects the gaming tax. The Division also provides information to the public on the requirements of conducting legal gaming activity.

With Laws 2019, LB 538, Charitable Gaming began regulating cash devices, a kind of mechanical amusement device capable of awarding cash, cash equivalents, and anything redeemable for cash or equivalents. Each device is required to have a decal to show that the device has properly paid the required fee. Charitable Gaming started collecting the decal fee in December 2019.

The office of the Athletic Commissioner was moved into the Division with Laws 1993, LB 397. The Athletic Commissioner regulates professional mixed martial arts, professional boxing, professional sparring matches and exhibitions, and all amateur mixed martial arts matches and exhibitions held, except contests held by universities, colleges, high schools, the military, and recognized amateur associations for contestants under age 16. Laws 2015, LB 291 removed the authority of the Commission to regulate professional wrestling.

PROGRAM 226 – PIPELINE SAFETY PROGRAM**

**PROGRAM OBJECTIVES**

- Promote public awareness of the safe use, handling, and detection of gas unintentionally released from pipelines
- Decrease the number of unintentional gas releases by inspecting all intrastate gas pipeline companies at least once every three years for compliance with federal pipeline regulations
- Oversee operator qualification and maintenance practices to ensure qualified personnel are performing work in accordance with accepted practices and standards
- Minimize the number or probable violations of safety regulations by gas pipeline operators and reduce the number of reportable releases
- Work closely with stakeholder groups to reduce the number of excavation damages by third party contractors.
- Support the enforcement and public awareness of the One-Call Notification law

**PROGRAM DESCRIPTION**

The Pipeline Safety Program is responsible for decreasing the number of unintentional gas releases that threaten life and property by inspecting all intrastate gas pipeline operators for compliance with Federal pipeline regulations. This includes 31 pipeline operators, 12,600 miles and 600,000 gas meters. The Program strives to minimize probable violations and reduce the number of reportable releases by evaluating gas operator operations, maintenance procedures, and qualification standards of gas company personnel. Records inspections are performed to determine adequacy of gas operator documentation. The Pipeline Safety Division assists the gas pipeline operators in training of public safety officials such as fire departments, law enforcement and emergency response personnel.

The Program is involved in promoting the use of the Nebraska One-Call Notification System, especially by gas operators. A damage prevention program has been implemented to assist in reducing excavation damage to underground pipelines. Staff members participate in damage prevention activities, such as training and outreach, working with the One Call Board of Directors and the Nebraska chapter of the Common Ground Alliance.

PROGRAM 229 REDUCED CIGARETTE IGNITION PROPENSITY**

**PROGRAM OBJECTIVES**

- To reduce the total number of fires caused by the careless mishandling of smoking materials
- To ensure compliance with the fire safe requirements through maintaining a detailed listing of certification requirements
- To ensure enforcement of this program by monitoring and enforcing the rules and regulations to carry out the program

**PROGRAM DESCRIPTION**

The Reduced Cigarette Ignition Propensity (RCIP) Act was established by the Nebraska Legislature in 2009. The purpose of the Act was to require that all cigarettes sold in the State meet the standards needed to be labeled as "Fire Safe Cigarettes". The Act sets out a series of specific requirements that manufacturers must comply with in order to apply for certification with the State. Once these requirements are met, the manufacturer must submit documentation with a fee. A certificate is issued to show compliance with the RCIP Act. This information is made available to the Department of Revenue who ensures compliance with their regulations.

PROGRAM 556 LIQUIDATION OF INSURANCE COMPANIES**

**PROGRAM OBJECTIVES**

- To liquidate insolvent insurance companies.
- To sell and distribute assets of liquidated companies.
- To rehabilitate insolvent companies.

**PROGRAM DESCRIPTION**

This program provides the agency with an appropriation to be utilized on an as-needed basis to undertake corrective actions necessary as a result of an insurance company's insolvency, impairment, or deficiency. The appropriation allows the Department to undertake and maintain an action of conservatorship or liquidation in accordance with statutory provisions.

The program appropriation is restricted and can only be expended in special limited circumstances. Since it is impossible to predict the number of companies, if any, which might require corrective action, the appropriation is to be used only if and when a need arises for such action. This provides a direct accounting of all monies used for this purpose and prevents accelerated spending in other budgeted programs. All expenditures under this program are from the Insurance Cash Fund.

**AGENCY 23 DEPARTMENT OF LABOR  
PROGRAM 31 DIVISION OF EMPLOYMENT**

**PROGRAM OBJECTIVES**

- Provide Unemployment Insurance benefits to Nebraskans unemployed through no fault of their own.
- Provide free employment services to job seekers and businesses.
- Provide training services to unskilled and displaced workers.
- Provide quality labor market information that customers can easily access and use to make informed choices.

**PROGRAM DESCRIPTION**

The Reemployment Services division provides direct services to employers and job seekers statewide through American Job Centers and NDOL locations throughout the state, as well as through the state’s online labor exchange, NEworks.nebraska.gov.

NDOL administers the Reemployment Program, which utilizes one-on-one assistance and NEworks to help unemployment claimants and other job seekers become reemployed as quickly as possible. The NDOL job centers help job seekers search for available jobs, research employers, complete skills assessments, develop resumes and cover letters and prepare for interviews. The job centers also connect businesses with a variety of resources to upskill and diversify their workforce, including USDOL Registered Apprenticeships and worker training programs.

The Unemployment Insurance (UI) division administers Unemployment Insurance benefits per Nebraska Employment Security Law, including the payment of benefits to unemployed workers, and the collection of employer taxes that fund the benefits. The Unemployment Insurance division also administers the Short-Time Compensation program, which helps prevent layoffs by allowing employers to uniformly reduce affected employees’ hours while permitting the employees to receive a prorated unemployment benefit. Quality control programs ensure that benefits are paid accurately and overpayments are recovered.

The Labor Market Information division (LMI) develops and provides comparable, accurate and timely workforce data for local, state and national customers, including monthly employment data and unemployment rates. LMI collects and disseminates information about employment, wages, labor availability, industrial and occupational projections, business staffing patterns and labor force demographics, among others.

MOTOR VEHICLES/OPERATIONS**

**PROGRAM OBJECTIVES**

- To enforce and administer the laws pertaining to motor vehicle titles, registration, and motor carrier registration.
- To enforce and administer the laws pertaining to driver examinations, driver records, and the Safety Responsibility Act of 1949.
- To provide supervision, guidance and central services for the agency.

**PROGRAM DESCRIPTION**

The program contains the department's four service areas plus the support services divisions. Support Services Divisions include the Administration, Information Technology and Legal. The Administration encompasses the office of the director, deputy director, budget and human resources officers, training staff, public information, project manager and support staff. Information Systems is responsible for the development, installation, maintenance and support of all DMV related business applications. The Legal Division is responsible for the overall management of the agency legal affairs. They manage the Administrative License Revocation Program oversee the Safety Training Option Program (STOP), certify ignition interlock providers, administer the lemon law, and conduct reviews of the fifteen year license revocation reprieve applications for the Parole Board.

The four service area divisions, are Motor Carrier Services, Driver Licensing Services, Financial Responsibility, and Driver and Vehicles Records. Motor Carrier Services "One-Stop Shop" administers a variety of programs relating to the trucking industry. These programs include the International Registration Plan (IRP), a vehicle registration program that collects and distributes registration fees between member states; and the International Fuel Tax Agreement (IFTA), an agreement between member states to equitably distribute fuel tax. In 2007, the division began administration of the Unified Carrier Registration (UCR) program which replaced the Single State Registration System (SSRS) and Interstate Application Program (Bingo Card Program). This program ensures proper authority and insurance is maintained by regulated carriers operating through Nebraska and other states and ensures proper insurance has been filed for private and/or exempt carriers.

Motor Carrier Services also issues routine over dimensional permits, particularly the Continuous Safety Permit, which allows legal loads operation privileges on the interstate when registered at over 80,000 lbs. Certificates of title, notation of liens and collection of sales tax and tire fees is also done for apportioned vehicles. Motor carrier fuel and mileage records are audited in accordance with IRP and IFTA agreements.

Driver and Vehicle Records Division (DVR) maintains records of all vehicles registered and titled in the state and is responsible for the administration of title, lien and registration laws relating to motor vehicles. This section manages the help desk for the county Vehicle Title and Registration (VTR) statewide computer system. DVR processes requests for vehicle registration and titling information, handicapped parking permits and specialty license plates. Assistance is provided to county treasurers on the operation of the VTR statewide computer system through the DVR Help Desk. DVR also houses a Fraud Unit that investigates identity theft, fraud and title and odometer fraud.

The Financial Responsibility Division enforces and administers the Safety Responsibility Act of 1949. Staff process and analyze accident reports, assess points for traffic violations, suspend and revoke driver licenses, reinstate suspended or revoked driver licenses, issue employment driving permits and prepare legal transcripts. This division enters and maintains driver record information on the computer database, and processes requests for driving record abstracts.

**PROGRAM 70 ENFORCEMENT OF STANDARDS -  
MOTOR VEHICLES/OPERATIONS, CONT'D.**

The Driver License Examining Division conducts initial, renewal and requested examinations of all motor vehicle operators. Drivers are evaluated as to their physical and mental qualifications, knowledge of traffic safety laws and skill in driving. Driver training schools and safety courses are also approved and audited by staff. The Division is responsible for auditing and ensuring compliance with federal requirement relating to Commercial Vehicle Drivers

The Regional Center System Section includes the two state Regional Centers located in Hastings and Lincoln.

LB 724, passed in 2003, provided a blueprint for behavioral health reform in Nebraska. LB 1083 followed a year later and focused on lessening dependence on state-operated regional centers. The Health and Human Services System (HHSS) created a plan to implement LB 1083 by reducing services at Regional Centers and encouraging development of community services for adults through the Behavioral Health Regions.

### **Developmental Disabilities**

The Division of Developmental Disabilities performs a multitude of tasks, including: a) contracting with, and providing general oversight of, community-based developmental disabilities service providers to provide specialized services for Nebraskans with developmental disabilities; b) developing and implementing a comprehensive and integrated statewide plan for services for Nebraskans with developmental disabilities; and c) administering five Home and Community-Based Medicaid Waivers.

Beginning in FY 13 and the passage of LB 561, passed in the 2013 Legislative Session, the Office of Juvenile Services is responsible only for Youth Rehabilitation and Treatments Centers at Kearney and Geneva. The YRTC at Geneva historically provided treatment for female juveniles and the YRTC at Kearney served only males. In 2019, the girls were moved to the YRTC at Kearney due to the conditions of the housing units on the Geneva campus. In 2020 the YRTC – Geneva was changed to serve only girls transitioning out of the system. The department contracted with Lancaster County for a treatment facility at the Lancaster County Detention Center for boys and girls with high acuity behavioral needs. The YRTC – Kearney continues to serve both boys and girls.

PROGRAM 344 CHILDREN'S HEALTH INSURANCE/AID**

**PROGRAM OBJECTIVES**

- To provide health care coverage to uninsured children in the state.
- To enable access to timely and appropriate health care in order to prevent disease, treat problems, and maintain good health and development.

**PROGRAM DESCRIPTION**

Title XXI of the Social Security Act, enacted in 1997 by the Balanced Budget Act, authorized federal grants to states for provision of child health assistance to uninsured, low-income children. The program is jointly financed by the federal and state governments and administered by the states. Within federally appropriated amounts, CMS provides states an enhanced federal match for Children's Health Insurance Program (CHIP). Within broad federal rules, each state decides eligible groups, types and ranges of services, payment levels for benefit coverage, and administrative and operating procedures. Program 344 is the budget unit that directly supports the reimbursement and prospective payment of health care services for eligible CHIP members. CHIP operates using the same delivery system, benefit package, and regulations as Medicaid. A Separate CHIP (SCHIP) was established in 2012 to implement LB599 (2012). The SCHIP provides medical coverage for unborn children of pregnant women who are not Medicaid eligible.

**Eligibility**

Children from birth up to age 19 in households with adjusted incomes up to 213% of the Federal Poverty Level and unborns in households with adjust incomes up to 197% of the Federal Poverty Level are eligible for payment of medical care. Program 344 includes the children whose income falls between the standards in effect prior to the implementation of CHIP and 213% of the FPL. Program 348 includes the children who meet the earlier income standards. No resource test is applied in determining eligibility.

**Services**

The benefit package for SCHIP is the same as for the core Medicaid Program. The primary services utilized by the SCHIP population are inpatient hospital services, physician care, dental treatment, and prescribed drugs. Early and Periodic Screening, Diagnosis, and Treatment (EPSDT), which provides necessary preventive and treatment services to children, is federally mandated.

**Service Delivery**

Medicaid services are delivered through an integrated managed care program called Heritage Health. Heritage Health encompasses physical health, behavioral health and pharmacy into a single comprehensive and coordinated delivery system for Medicaid, CHIP, and SCHIP enrollees. The three contractors are Nebraska Total Care, UnitedHealthcare Community Plan and Wellcare of Nebraska, an Anthem Company. Dental services are provided under a separate prepaid ambulatory health plan (PAHP) contract with MCNA Dental.

PROGRAM 347 PUBLIC ASSISTANCE/AID**

**PROGRAM OBJECTIVES**

Program objectives are to help children, youth, and families:

- To support them in obtaining employment
- To meet their basic subsistence needs
- To avoid or prevent unnecessary institutionalization
- To find access to health care, support services and health support information when they have special health care needs

**PROGRAM DESCRIPTION**

Child welfare-related programs were moved to a separate budget program 354 beginning in FY 13. The following programs are included in Program 347:

Supplemental Nutrition Assistance Program (SNAP) (formerly the Food Stamp Program): provides food assistance benefits to low income households in Nebraska. The benefits of this program are 100% federally funded.

SNAP Employment and Training: provides job search training and support services for unemployed or under-employed SNAP recipients. This program is funded mostly by federal funds with some state matching funds.

Aid to the Aged Blind and Disabled (AABD): provides direct cash assistance to needy persons in addition to the Federal SSI Program to bring the income of the aged, blind or disabled individual up to the need standards in Nebraska. This is a state funded program.

The Temporary Assistance for Needy Families (TANF): Administered as Aid to Dependent Children (ADC) and Employment First (EF). Provides assistance to needy families so that children may be cared for in their own homes or in the home of relatives, and encourages the formation and maintenance of two-parent families. This program has a mix of state and federal funds.

- Aid to Dependent Children (ADC): provides a cash grant to families who meet state promulgated financial and non-financial eligibility requirements. The purpose of ADC is to provide assistance to needy families so that children can be cared for in their own homes and to reduce the dependency of needy parents by promoting job preparation, work, and marriage.
- Employment First (EF): provides temporary, transitional support for Nebraska families so that economic self-sufficiency is attained in as expeditious a manner as possible through the provision of training, education and employment preparation.

Community Services Block Grant: ensures that federal dollars are designated to provide the base funding for nine Community Action Agencies to assist low-income persons and families to become economically self-sufficient. This program is federally funded.

Child Care Subsidy: assists families in becoming self-sufficient by providing child care options for their children that are accessible, affordable and of quality. The program also assists families in understanding, identifying, and selecting quality child care options for their children; and implements a coordinated early care and education delivery system which supports quality care environments for children. This program has a mix of state and federal funds.

**AGENCY 25 DEPARTMENT OF HEALTH AND HUMAN SERVICES  
PROGRAM 347 PUBLIC ASSISTANCE/AID, Cont'd.**

Emergency Assistance: provides financial assistance to needy families who have at least one minor child in the home, who are threatened with unforeseen crises, such as discontinuation of utilities, imminent eviction from the family home, or lack of food. The Emergency Assistance program provides help through assistance payments that alleviate the crisis situation. Support is also available for home furnishings, moving expenses, transportation and medical expenses not covered by Medicaid. Assistance is available once in a 12 month period. The maximum amount is equal to the ADC payment standard for the family's size.

Low Income Home Energy Assistance Program (LIHEAP): provides assistance payments on behalf of vulnerable low income Nebraskans for assistance with fuel bills for heating and cooling and also with weatherization costs. This program is funded by federal funds.

Medically Handicapped Children's Program (MHCP): provides family-focused service coordination/case management, specialty medical team evaluations for children in local areas, access to specialty physicians and payment for treatment services. This program is funded by a combination of federal and state funds.

Disabled Person and Family Support Program: coordinates and purchases services and items to encourage employable disabled people who live independently to remain or become employed and assist disabled adults who reside in an independent living situation to maintain their maximum level of independence and prevent out of home placement. This program is funded by state funds.

Social Services Block Grant: provides supports to enable clients; 1) to experience the optimal level of health, safety and independence in a healthy and safe home environment; 2) to be able to receive ongoing support from unpaid caregivers; and 3) to prevent, reduce or eliminate the risk of abuse, neglect and exploitation. Services to the elderly and persons with disabilities include adult day care, chore services, home-delivered and congregate meals and transportation. This is a federal and state funded program.

Refugee Assistance: provides assistance to refugees who are not eligible for a categorical program to achieve self-sufficiency as quickly as possible and to assist with financial and medical assistance during initial resettlement in the United States. This program is federally funded.

Nebraska Homeless Assistance Program: provides funding to ensure that individuals and families who are homeless or at-risk of homelessness have safe, appropriate housing and services. This program is funded by a mix of cash and federal funds. The cash is generated as a result of fees collected from the documentary stamp tax and deposited into the Homeless Shelter Assistance Trust Fund.

Respite Subsidy Program Across the Lifespan: provides short-term relief to primary family caregivers from the demands of ongoing care for an individual with special needs. The Respite Subsidy Program Across the Lifespan provides assistance to help families with loved ones with special needs (from birth through death) to pay for respite care. Families choose their providers and service setting, decide how much to pay per hour or per day, and set their own schedules. This program can help only those families who do not receive respite services from any other governmental program. This is a cash program funded from the Nebraska Health Care Cash Fund.

**AGENCY 25 DEPT OF HEALTH & HUMAN SERVICES  
PROGRAM 348 MEDICAL SERVICES/AID**

**PROGRAM OBJECTIVES**

- To establish policies for the medical assistance program that will effectively address the health care and related needs for eligible recipients.
- To establish policies to effectively moderate the growth of medical assistance expenditures
- To integrate Medicaid assistance with other public and private health care coverage
- To establish initiatives to improve access to health care and related services to Nebraska residents
- To emphasize self-sufficiency and personal responsibility in the development of health care policies

**PROGRAM DESCRIPTION**

Congress created the Medicaid Program in 1965, which is a program operated in joint partnership between the federal government and the states. It is an entitlement program that pays for medical care for qualified low-income persons meeting the eligibility requirements.

The statutory basis of the Medicaid Program is Title XIX of the Social Security Act. At the federal level, it is administered by the Centers for Medicare and Medicaid Services (CMS). CMS provides federal funding to states based upon a formula that is calculated and adjusted annually. CMS also pays a portion of the state's administrative costs. The percentage is 50% or more depending upon the specific administrative function.

Program 348 is the budget unit that directly supports the reimbursement and prospective payment of health care services for eligible Medicaid members.

**Eligibility**

Nebraska provides Medicaid coverage to qualified low-income individuals in the following categories: Children, parent/caretaker relatives, expansion adults, individuals over the age of 65, and individuals with disabilities.

- Eligibility for children is based on income and varies by age.
- Pregnant women are eligible for Medicaid up to 194% of the federal poverty level (FPL).
- Medicaid expansion begins providing coverage in October 2020 to adults age 19 through 64, whose income is at or below 138% FPL.
- Parent/Caretaker relatives are eligible for Medicaid with up to 58% of the federal poverty level.
- Individuals who are aged (over the age of 65), blind, or have been determined disabled by social security administration are eligible with income up to 100% of the federal poverty level. Resource limits are applied to this group.
- Individuals who are age 65 and older who have been determined disabled by the Social Security Administration and are receiving a social security income (SSI) payment, or who qualify for State Supplement cash benefits are automatically eligible for Medicaid.

Modified eligibility criteria apply to certain specialty populations, such as employed individuals who are disabled and women with breast or cervical cancer.

**AGENCY 25 DEPT OF HEALTH & HUMAN SERVICES  
PROGRAM 348 MEDICAL SERVICES/AID, Cont'd.**

**Services**

CMS requires states to cover specific services commonly referred to as "mandatory" services. States may also elect to cover additional services from an array of "optional" services.

However, many services defined in statute as "optional" such as home and community-based waiver services have become mandatory in practice due to legal interpretations and court rulings. The services provided by Nebraska Medicaid are governed by the Medicaid State Plan. To be eligible for federal matching funds, a service must be approved by CMS in the State Plan. Services can be added to the state Medicaid program through an amendment process with CMS.

States are further allowed to expand services beyond the traditional array to encompass non-medical health-related services through a waiver process. Waivers govern services delivered to specific populations and must be approved by the federal government every few years.

**Service Delivery**

The majority of Medicaid clients are receiving physical health, behavioral health, and pharmacy services through three integrated health plans in a program called Heritage Health. The three contractors are Nebraska Total Care, United Healthcare Community Plan and WellCare of Nebraska. Dental services are provided under a separate Prepaid Ambulatory Health Plan (PAHP) contract with MCNA Dental. Long-term care services are not included in managed care.

Home and Community Based Waivers (Aged and Disabled and Traumatic Brain Injury) are service systems whereby eligible persons are offered the choice of receiving home and community-based services or entering a nursing facility. These waivers allow Medicaid funding to be used to purchase services that are not considered "medical". Depending on the waiver, services available include: Adult Day Health Care, Assisted Living, Assistive Technology, Extra Care for Children with Disabilities, Chore, Home Delivered Meals, Home Modifications, Independent Skills Building, Nutrition, Respite, and Non-Medical Transportation, Personal Emergency Response System and Services Coordination.

**Medicaid Expansion**

In November 2018, Nebraska voters passed a ballot initiative referendum providing for the expansion of Medicaid to residents aged 19 through 64, whose income is at or below 138% of the federal poverty level (FPL), commonly referred to as Medicaid Expansion. Coverage through Medicaid Expansion begins in October 2020 for those who apply and are found eligible.

Services for this group are available on a two-tiered basis, called Basic and Prime. The Basic benefits package includes medical, behavioral health, and prescription drug coverage and is available to all adults the expansion group. The Prime benefits package additionally includes dental, vision, and over-the-counter medication coverage only for pregnant women, medically frail adults, and adults 19 to 20 years of age. Additional people covered through Expansion will be able to receive Prime benefits at a later date.

PROGRAM 354 CHILD WELFARE/AID**

**PROGRAM OBJECTIVES**

Program objectives are to help children, youth, and families to:

- be safe from abuse, neglect and exploitation
- experience stability and predictability in their living arrangements
- reach their physical and mental developmental potential
- live in communities that are responsible, supportive and free from crime

**PROGRAM DESCRIPTION**

Beginning July 1, 2012, child welfare-related programs were moved from Program 347 to a separate budget program. The following programs are included in Program 354:

Child Welfare: provides services that work to ensure that the abused, neglected, dependent, and/or delinquent children are safe from harm or maltreatment living in a permanent healthy nurturing and caring environment with a stable family and that the effects of harm to the child or youth are diminished, and communities are safe from harm by these children or youth. This is a state and federally funded program. In the Eastern Service Area, case management services are contracted with St. Francis Ministries. The case management costs for the Eastern Service Area are included in this appropriation. In the balance of the state, those services are provided by state employees and those cost are in Program 033.

Subsidized Adoption & Guardianship: provide ongoing financial and health care supports to families that establish permanency for children who were in foster by obtaining a guardianship or adoption.

Domestic Violence: provides services to individuals to assist them in breaking free of their abuser and to establish a healthy and safe environment for themselves and their children. Funding is provided to community-based programs to provide comprehensive support services shall include, but not be limited to: (1) emergency services for victims of abuse and their families; (2) support programs that meet specific needs of victims of abuse and their families; (3) education, counseling, and supportive programs for the abuser; (4) programs to aid in the prevention and elimination of domestic violence, which shall include education and public awareness; and (5) assistance in completing the standard petition and affidavit forms for persons who file a petition and affidavit for a protection order.

Educational Assistance to State Wards: provides school districts reimbursement by the state for the cost of educational services and transportation for children who are state or court wards when those services are provided outside the child's resident school district and the child is in out-of-home care other than foster family care.

Post Adoption/Guardianship: provides support on a voluntary basis after a family has adopted or agreed to be a guardian for a child or teen who had previously been in the state's care. Families are helped to address any issues that come up so the adoption or guardianship remains strong. Families who have adopted or are guardians for youth who were state wards can access assistance 24-hours a day, seven days a week. Families can be connected to respite care, mentoring, counseling, classes, support groups and more.

Protection and Safety Programs: includes funding for the coordinators at the child advocacy centers, training for law enforcement and medical professionals on child abuse and neglect issues, public education and awareness, and home visitation programs.

PROGRAM 365 MENTAL HEALTH - REGIONAL CENTERS/OPERATIONS**

**PROGRAM OBJECTIVES**

- To implement the Public Behavioral Health System's Strategic Plan.
- To provide the most restrictive and secure level of treatment in the continuum of behavioral health services for adults who are court ordered or committed by the Mental Health Board (MHB).
- To provide secure inpatient mental health treatment services at the Lincoln Regional Center and the Norfolk Regional Center for persons committed per the Sex Offender Commitment Act.
- To provide Psychiatric Residential Treatment Facilities (PRTF) services for adolescent males with substance use disorder (SUD) or co-occurring disorders or who have sexually harmed others (Whitehall).

**PROGRAM DESCRIPTION**

The LRC provides short-term inpatient mental health services and psychosocial rehabilitation to adults with serious and severe and persistent mental illness. The Forensic Mental Health Program at LRC serves adults from the entire state who are in need of the most restrictive treatment. LRC conducts outpatient evaluations for competency and sanity and inpatient services for those found not responsible by reason of insanity, convicted sex offenders, court ordered inpatient evaluations, and those committed by MHB, deemed to be of danger to themselves or others who cannot be treated in a less restrictive environment.

The Norfolk Sex Offender Treatment Program (Program 870) operates a sex offender treatment program to serve persons who have completed their sentences at the Department of Corrections, but who continue to pose a threat of harm to others. As individuals progress through a phase program, they may be transferred to LRC for the final phases of treatment.

The Hastings Regional Center (HRC) provides psychiatric residential treatment for male adolescents with SUD or co-occurring disorders. Many youth have interfaced with the justice system and received previous SUD treatment or serve youth who are unable to be served in a community based SUD program.

The Whitehall Program in Lincoln, also a PRTF, services adolescent males who have been adjudicated and have sexually harmed others.

Beginning in FY2004-05, Regional Center services were discontinued if appropriate community-based services or other regional center services were available. Funding provided to regional centers (Hastings and Norfolk) was reallocated for the development and provision of community-based services pursuant to LB1083 (2004).

The primary sources of cash and federal funds for the Regional Centers for adults (LRC & NRC) are from patients, county payments, private insurance, and some Medicare funds. The primary sources for youth facilities (Whitehall & HRC) are payments by Medicaid, parents, schools, counties, State Probation, and private insurance.

PROGRAM 502 PUBLIC HEALTH GRANTS/AID**

**PROGRAM OBJECTIVES**

- To organize county or district health departments in all counties of the state
- To foster collaboration with other health-related organizations (e.g., hospitals and community action agencies)
- To provide the core functions of public health, which include assessment, policy development, and assurance, as recommended by the Centers for Disease Control and Prevention
- To provide access to health and medical services to underserved populations
- To implement a minority health initiative among counties with a minority population equal or exceeding 5% which may target, but shall not be limited to, infant mortality, cardiovascular disease, obesity, diabetes.

**PROGRAM DESCRIPTION**

This budget program contains funding for public health departments, minority health and federally-qualified community health centers.

The Public Health Grant Program was enacted in 2001 as part of LB 692. The intent of this program is to ensure that all people in Nebraska are covered by a county or district health department. All public health departments funded under this program must provide the following: 1) assessing the health needs of the population, 2) developing policies and formulating strategies to address these needs, and 3) assuring that services are available to meet the health needs of the entire population.

Each local public health department shall include the essential elements in carrying out the core public health functions to the extent applicable within its geographically defined community and to the extent funds are available. The essential elements include, but are not limited to, (a) monitoring health status to identify community health problems, (b) diagnosing and investigating health problems and health hazards in the community, (c) informing, educating, and empowering people about health issues, (d) mobilizing community partnerships to identify and solve health problems, (e) developing policies and rules that support individual and community health efforts, (f) enforcing laws, rules, and regulations that protect public health and the environment and ensure safety, (g) linking people to needed medical and mental health services and assuring the provision of health care when not otherwise available, (h) assuring a competent workforce within the health care industry and the public health departments, (i) evaluating effectiveness, accessibility, and quality of services within the health care industry and the public health departments, and (j) researching to gain new insights and innovative solutions to health problems.

Funding is also provided to federally qualified community health centers to improve access to underserved populations. Funds are distributed to each of the seven centers in the state. Minority health funding provides services to counties with a minority population exceeding five percent in the first and third congressional districts and to the federally qualified health clinics in the second congressional district.

PROGRAM 519 NEBRASKA VETERANS' HOMES**

**PROGRAM OBJECTIVES**

- To provide long-term care to wartime military veterans and their eligible dependents.
- To operate long term care facilities at Scottsbluff, Grand Island, Norfolk and Bellevue.
- To assist members to maintain wellness and maintain or improve their levels of functioning, unless clinically unavoidable.
- To provide management and oversight of the Veterans Home System.

**PROGRAM DESCRIPTION**

The Nebraska Veterans' Homes are long term care facilities providing health services to geriatric and chronically ill military veterans and their eligible dependents (i.e., spouses, widows, parents) at four campuses across the state: the Western Nebraska Veterans' Home, Scottsbluff; the Grand Island Veterans' Home; the Norfolk Veterans' Home; and the Eastern Nebraska Veterans' Home, Bellevue. The primary purpose is to provide a level of care to each member that meets their individual physical and/or mental health needs by providing skilled nursing, intermediate nursing or assisted living (domiciliary) care.

The federal Veterans Administration provides per diem federal fund reimbursement for veterans in the Nebraska Veterans' Homes and the members pay fees based upon their ability to pay. Application for admission to a Veterans Home is made to the County Veterans Service Officer. The Service Officer forwards the completed application to the Board of Inquiry and Review for determination of eligibility. Beginning in FY2017-18, the veterans' homes are transferred to the Department of Veterans' Affairs, Agency 28.

PROGRAM 559 CARE MANAGEMENT/AID**

**PROGRAM OBJECTIVES**

The objective of the Aging Care Management program is to help older persons in Nebraska reside in living situations that meet their needs and support independence by:

- To provide assessment and care planning services
- To implement the care plans
- To develop home and community-based services to meet the long-term care needs of older persons in Nebraska
- To provide regular follow-up to prevent the escalation of more costly services

**PROGRAM DESCRIPTION**

The State Unit on Aging administers the Nebraska Care Management program. The Care Management Program is operated at the local level by care management units of the eight Area Agencies on Aging. Care managers assess the functional level and needs of the older individual. In consultation with the individual, the care manager develops a plan of care to meet identified needs, and arrange services to facilitate independence. Care managers complete a re-assessment of the individual each year and modify the care plan as needed. Persons receiving services are charged a fee based upon their ability to pay. Agencies are reimbursed for actual expenses less program income. A similar federally funded program served clients beginning in 2019, which reduced the client numbers in the state program.

PROGRAM 571 AGING SERVICES/AID**

**PROGRAM OBJECTIVES**

- To distribute federal, state and private funds to Area Agencies on Aging for the development of programs and services for the elderly in all areas of the state
- To provide social, nutritional, recreational, and health services to older persons

**PROGRAM DESCRIPTION**

The State Unit on Aging distributes federal and state funds to the eight Area Agencies on Aging for the development of comprehensive and coordinated community-based services for older adults. Services which may be provided include:

- (a) In-home services (e.g., personal care services, homemaker services, chore services)
- (b) Access services (e.g., transportation, information and referral, outreach)
- (c) Health promotion services (e.g., health clinics, nutrition education and counseling)
- (d) Meals (congregate meals and home-delivered meals)
- (e) Caregiver services
- (f) Other services such as legal services and adult day care.

Federal Older Americans Act funds for services are distributed to the area Agencies on Aging on a formula basis. State funds are allocated to the Area Agencies on Aging through the Nebraska Community Aging Services Act which requires that a minimum of 25 percent of the actual costs of agency operation be generated from local resources with the remainder coming from state and federal funds.

The Aging and Disability Resource Center (ADRC) is for Nebraskans aged 60 years or older, people with disabilities of all ages, family members, caregivers and advocates. Local ADRCs provide information, referral and assistance for accessing community services and long-term care options. The ADRC started as a pilot project in July 2016 and was made permanent in April 2018. Each Area Agency on Aging (AAA) has the option to provide ADRC services. The program requires partnership with organizations that serve the disability community.

PROGRAM 621 STEM CELL RESEARCH/OPERATIONS**

**PROGRAM OBJECTIVES**

---To facilitate stem cell research by development of a process to award grants to Nebraska institutions or researchers for the purpose of conducting non-embryonic stem cell research.

**PROGRAM DESCRIPTION**

The Stem Cell Research Act was created in 2008 by LB 606. The bill directed the creation of a Stem Cell Research Advisory Committee. The committee consists of the dean of every medical school in Nebraska or his or her designee. There are additional members to be appointed to the committee. They will be appointed in the following manner: (a) The dean of every medical school in Nebraska nominates three scientists from outside Nebraska conducting human stem cell research with funding from the National Institutes of Health of the United States Department of Health and Human Services; and (b) the chief medical officer selects two scientists from each set of nominations to serve on the committee. Appointments by the chief medical officer will be approved by the legislature.

The committee will establish a grant process to award grants to Nebraska institutions or researchers for the purpose of conducting non-embryonic stem cell research. The committee will annually report to the Legislature the number of grants awarded, the amount of the grants, and the researchers or institutions to which the grants were awarded.

**PROGRAM OBJECTIVES**

- To assure that proposals conform to the intent of the legislation
- To evaluate the scientific merit of the proposals
- To maintain a cancer registry

**PROGRAM DESCRIPTION**

All applications for cancer research grants are evaluated using a peer review process. The criteria to evaluate the proposals are in compliance with the intent of the legislation and scientific merit.

In 1986, the Legislature approved funding for a cancer registry. Funds for the registry cannot exceed \$200,000 annually. The purpose of the cancer registry is to provide a central data bank of accurate, precise and current information which medical authorities can use to assist in research for the prevention, cure and control of cancer.

PROGRAM 622 CANCER RESEARCH/AID**

**PROGRAM OBJECTIVES**

- To provide funding for research to further investigations of cancer and smoking diseases
- To build institutional cancer and smoking disease research capacity at all campuses of the University of Nebraska and Creighton University

**PROGRAM DESCRIPTION**

The cancer and smoking disease research program was created by the Nebraska Legislature in 1981 to provide funds for research related to cancer and smoking disease. Financial support was provided through a one-cent per pack tax on cigarettes sold in the state. Part of the one-cent tax was earmarked for the Eppley Cancer Research Center and to support the Cancer Registry. The remaining revenue generated from the one-cent tax is distributed on a competitive basis to colleges and universities in Nebraska doing cancer and smoking disease related research. In 1993, the legislature increased the state's cigarette tax, designating an additional two cents per pack sold toward similar research activities. Funds are divided evenly between the University of Nebraska Medical Center and Creighton University Medical Center. Applications for proposed research projects are made through the Department of Health and Human Services and a nationwide panel reviews the applications.

PROGRAM 569 CONSTRUCTION**

**PROGRAM OBJECTIVES**

- To implement the one and five-year highway construction program.
- To implement the National Highway Safety Act of 1966.
- To reduce traffic fatalities and accidents within Nebraska.

**PROGRAM DESCRIPTION**

This program provides for the replacement or improvement of those state highways that have completed their normal life cycle or have experienced increased traffic demands. The primary goal and emphasis of the Construction Program is preservation and restoration of the State Highway System. Resurfacing and rehabilitation will become the keystone in the Department of Roads' strategy to protect these state assets. In order to accomplish the Department's goal, many tools are used. One of the tools that the Department uses in determining the optimum time and type of maintenance and improvement to be done to our highway system is a Pavement Management System. Through this system, the roadway is monitored providing data that allows the Department to systematically and consistently program maintenance activities and resurfacing and reconstruction actions so as to safeguard the state's highway investment at the lowest possible cost.

The Highway Safety Office implements the federal highway safety program in Nebraska which helps state agencies, counties, and communities develop traffic safety programs. Examples of projects include programs to reduce drunken driving, enforce the speed limit, reduce road hazards, and safety belt promotion and education. The projects are outlined in the annual Nebraska Highway Safety Plan. Funds are allocated on a project basis. The division staff assists with the auditing and oversight of agency approved driver training schools, driver safety courses, and traffic offense pretrial diversion programs (STOP).

PROGRAM 511 NEBRASKA VETERANS' HOMES**

**PROGRAM OBJECTIVES**

- To provide long-term care to military veterans and their eligible dependents.
- To operate long term care facilities at Scottsbluff, Grand Island, Norfolk and Bellevue.
- To assist members to maintain wellness and maintain or improve their levels of function unless clinically unavoidable.

**PROGRAM DESCRIPTION**

The Nebraska Veterans' Homes are long term care facilities providing health services to geriatric and chronically ill military veterans and their eligible dependents (i.e., spouses, widows, parents) at four campuses across the state: the Western Nebraska (Scottsbluff) Veterans' Home; the Kearney Veterans' Home; the Norfolk Veterans' Home; and the Eastern Nebraska (Bellevue) Veterans' Home. The Grand Island Veterans' Home moved to Kearney in FY2018-19. The primary purpose is to provide a level of care that meets each member's individual physical and/or mental health needs by providing skilled nursing, intermediate nursing or assisted living (domiciliary) care.

The federal United States Department of Veterans Affairs provides per diem federal fund reimbursement for veterans in the Nebraska Veterans' Homes and the members pay fees based upon their ability to pay. Application for admission to a Veterans Home is made to the County Veterans Service Officer. The Service Officer forwards the completed application to the Veterans' Home Board for determination of eligibility. Beginning in FY2017-18, the veterans' homes were transferred from the Department of Health and Human Services to the Department of Veterans' Affairs, Program 519.

PROGRAM 304 NEBRASKA WATER CONSERVATION FUND/AID**

**PROGRAM OBJECTIVES**

- To promote efforts by landowners to better manage and conserve the State's natural resources
- To provide financial assistance to private landowners to help offset the costs of implementing soil and water conservation practices

**PROGRAM DESCRIPTION**

The Soil and Water Conservation Fund was created in 1977 to provide financial assistance to private landowners for the installation of soil and water conservation practices. Various conservation practices are eligible for cost-share assistance of up to 75 percent. The Natural Resources Commission determines the list of eligible practices, establishes operating procedures, and annually allocates the funds among the 23 Natural Resource Districts (NRDs). **AGENCY 29 DEPARTMENT OF NATURAL RESOURCES  
PROGRAM 306 WATER WELL DECOMMISSIONING FUND/AID**

**PROGRAM OBJECTIVES**

- To encourage landowners to properly decommission unused water wells to eliminate the potential for ground water contamination and other hazards including safety hazards;
- To provide financial assistance through local natural resources districts to private landowners to help offset well decommissioning costs and thus encourage proper decommissioning.

**PROGRAM DESCRIPTION**

The Water Well Decommissioning Fund was established by LB 981 of 1994. The fund provides state cost-share funds for decommissioning illegal or unused water wells. The Natural Resources Commission administers the fund, which is available to natural resources districts (NRDs) that have implemented qualified well decommissioning programs. The funds are allocated to NRDs that administer qualified decommissioning programs, and distributed to them based on actual decommissioning claims paid to landowners. The source of funds for this program is a portion of each well registration fee collected by the Department, currently established at \$21.50 of each well registration fee.

The trend in numbers of wells decommissioned has declined somewhat over the past several years, but activity is expected to continue at recent levels.

PROGRAM 307 NEBRASKA RESOURCES DEVELOPMENT FUND/AID**

**PROGRAM OBJECTIVES**

- To promote local conservation projects that include flood damage reduction, sediment and erosion control, recreational development, groundwater recharge, improved irrigation water management and fish and wildlife enhancement;
- To provide grants and/or loans to political subdivisions for the construction of water conservation and development projects in Nebraska.

**PROGRAM DESCRIPTION**

With the passage of LB106 in 2014, no new projects can be approved for funding through this program. LB657 (2015) included intent language to continue appropriations through 2018-2019, but once allowed reimbursements have been made, this program will cease to operate.

The Fund provided grant and/or loan funds to political subdivisions for natural resources projects. Natural resources districts are the most common project sponsors, but cities, counties and irrigation districts have also been sponsors. Projects must be economically and financially feasible, and development plans must be satisfactory and minimize impact to the natural environment.

No new applications are being approved for this program, and it will be closed out when current projects are completed.

PROGRAM 309 NATURAL RESOURCES ENHANCEMENT/AID  
NATURAL RESOURCES WATER QUALITY FUND/AID**

**PROGRAM OBJECTIVES**

- To help offset costs incurred by natural resource districts (NRDs) in their efforts to implement and manage a variety of surface and ground water quality-related measures;
- To distribute available funds among NRDs based on proportionate fertilizer sales and the extent of areas designated for ground water quality management and/or clean water lakes within their jurisdictions

**PROGRAM DESCRIPTION**

The Natural Resources Water Quality Fund was established by the Legislature in 2001. The Fund receives revenue from pesticide registration fees and the pesticide applicators license fees administered by the Nebraska Department of Agriculture. The Department of Natural Resources administers the fund, within parameters set by the Natural Resources Commission. The Commission is responsible for approving rules and regulations governing the program and approving any necessary amendments, and for annually reviewing the distribution formula to determine if any changes are needed.

Funds are distributed to Natural Resources Districts based on the prescribed formula. NRDs receiving grants from the Department must provide a match of \$3 of their own funds for every \$2 received from the Natural Resources Water Quality Fund. Projects carried out by the natural resources districts must be used to meet state-mandated water quality improvement and monitoring responsibilities.

**STATISTICS**

All available funding is distributed to natural resources districts for their use in district water quality programs. Distributions made or projected by fiscal year are shown in the below budget data information.

PROGRAM 313 WATER SUSTAINABILITY FUND/AID**

**PROGRAM OBJECTIVES**

- Increasing aquifer recharge, reduce aquifer depletion, and increase streamflow;
- Remediating or mitigating threats to drinking water;
- Promoting the goals and objectives of approved integrated management plans or ground water management plans;
- Contributing to multiple water supply management goals including flood control, reducing threats to property damage, agricultural uses, municipal and industrial uses, recreational benefits, wildlife habitat, conservation, and preservation of water resources;
- Assisting municipalities with the cost of constructing, upgrading, developing, and replacing sewer infrastructure facilities as part of a combined sewer overflow project;
- Providing increased water productivity and enhance water quality

**PROGRAM DESCRIPTION**

The Water Sustainability Fund was established by the Legislature in 2014 with the passage of LB1098. The goals of this program are to provide financial assistance to a variety of programs, projects, or activities directed at balancing the many demands for the State's water resources with the supply. The statute also designates a specific funding level to assist municipalities with the cost of constructing, upgrading, developing, and replacing sewer infrastructure facilities as part of a combined sewer overflow project. Funding for this purpose is to be based on a demonstration of need and shall equal ten percent of the total annual appropriation to the fund.

PROGRAM 314 CRITICAL INFRASTRUCTURE FACILITIES FUND/AID**

**PROGRAM OBJECTIVES**

- To meet the projected financial need of protect and enhance critical infrastructure facilities.
- To act on a project application in a timely manner.
- To administer the program in a fair and efficient manner.
- To ensure that all reimbursements made through the program are correct and properly documented and authorized.
- To continually monitor project progress to ensure that project progress it is being made and that projected benefits are being achieved.

**PROGRAM DESCRIPTION**

The Critical Infrastructure Facilities Cash Fund was established in 2016 to be used by the Department to provide a grant to a natural resource district (NRD) to offset costs related to soil and water improvements intended to protect critical infrastructure facilities within the NRD which includes military installations, transportation routes, and wastewater treatment facilities.

A total of \$13,700,000 was transferred from the General Fund into the Critical Infrastructure Facilities Fund in FY15-16, and a \$13,700,000 cash fund appropriation was approved for FY15-16. Unused appropriations are carried forward until the project has been paid out. The Department of Natural Resources accepted an application from the Papiio-Missouri Natural Resources District for a grant to help fund a project to extend and upgrade levies near the Offutt Air Force Base.

In 2020, legislation was adopted to expand the use of the fund to allow for to provide a grant to an irrigation district for reimbursement of costs related to temporary repairs to the main canal and tunnels of an interstate irrigation system which experienced a failure. A transfer of \$3,800,000 was made from the General Fund to the Critical Infrastructure Facilities Fund for the purpose of funding a project to repair structures owned by the Gering-Fort Laramie Irrigation District.

**AGENCY 29 DEPARTMENT OF NATURAL RESOURCES  
PROGRAM 334 SOIL AND WATER CONSERVATION/OPERATIONS**

**PROGRAM OBJECTIVES**

- To effectively and efficiently administer and enforce regulations and policies affecting the use of Nebraska's water and soil resources;
- To provide the scientific, technical, and administrative resources and information needed to reach defensible policy decisions, while working cooperatively with other committed stakeholders to find a sustainable balance among competing demands for water resources
- To provide Nebraska's leaders and citizens with the information and analyses needed to make wise resource decisions for the benefit of all Nebraskans, both current and future.

**PROGRAM DESCRIPTION**

The twenty-one subprograms within this program area make up the core of the NeDNR's business and administrative functions, and these encompass all agency personnel. Operating functions include: integrated water management, statewide water planning, surface water permits and adjudications, groundwater well registrations, stream gauging, flood plain management, dam safety, field surveys, agency administration, and natural resources data bases, as well as support for the several funds administered by the NeDNR and the Natural Resources Commission. Memberships and participation as the State's representatives on various compacts, decrees, agreements, commissions, councils, and task forces are also funded from this program.

In light of the implications of recently settled interstate disputes, recently passed legislation (particularly LB 962 the Nebraska Groundwater Management and Protection Act), the challenges of recent climate variability, and increased requests for water rights administration, NeDNR work priorities and limited staff resources have been realigned to assure closest attention is given to its more critical duties. While no responsibilities are disregarded, areas identified as having the highest priorities include:

- Serving as the State's official representative for interstate compacts, decrees, and agreements related to water quantity issues, including the South Platte River Compact, the Blue River Basin Compact, the Republican River Compact, the Upper Niobrara River Compact, the North Platte Decree, the Platte River Recovery Implementation Program, and the Missouri River Association of States and Tribes. NeDNR staff use all resources of the department, as well as external consultants, to determine actions necessary to meet the requirements of these compacts, decrees, and agreements, while also protecting the State's interests and minimizing negative impact to the citizens of Nebraska.
- Making annual determinations on whether a basin, subbasin or reach is fully appropriated as required by The Ground Water Management and Protection Act. For those areas declared fully appropriated or overappropriated, the NeDNR and local natural resources district(s) must develop and implement integrated management plans. NeDNR modelers and analysts direct their efforts to the essential data collection and analysis necessary to meet information needs for river basins that have been, or are most likely to be, designated as fully or overappropriated or have a request to complete a voluntary IMP pursuant to LB 764 of 2010.
- Recent drought conditions have generated requests to perform water rights administration in almost every river basin in the state. Also, requests for the NeDNR to conduct field investigations for purposes of adjudicating surface water rights have remained at a higher level when compared to years in the past.

PROGRAM 334 SOIL AND WATER CONSERVATION/STATE AID**

**PROGRAM OBJECTIVES**

- To obtain technical studies and research and to provide financial assistance in support of statewide water planning and implementation of water resource management actions by natural resources districts.
- To fund actions needed to help assure Nebraska's compliance with interstate water compacts, decrees and agreements

**PROGRAM DESCRIPTION**

LB 701 of 2007 established the Water Resources Cash Fund, which could be used to aid management actions to reduce consumptive water uses in basins deemed overappropriated or fully appropriated. These funds have been used to acquire water rights from irrigation districts in the Republican River Basin to assure compliance with the Republican River Compact. The majority of current and planned uses of the Fund are tied to Platte River basin recovery efforts. Significant commitments have been made to meet state obligations related to interlocal cooperative agreements with federal, local and other state government entities for planning and implementation of several large water resources management projects. The projects include construction of streamflow retiming and groundwater recharge projects aimed at mitigating impacts from various water use activities. In 2012, the General Fund transfer was increased to \$3.3 million per year, and this amount is matched with grants from the Nebraska Environmental Trust.

### **AGENCY DESCRIPTION**

The State Electrical Board, established in 1969, is a seven-member regulatory board, which enforces the State Electrical Act. The Governor appoints members. The Board licenses electricians by written examination, inspects electrical installations of new wiring or equipment, and investigates electrical fatalities and accidents.

A Director, 2 Staff Assistant I and an Administrative Assistant I staff the Lincoln office. A Chief Inspector oversees 16 field inspectors located throughout the state. The agency also monitors all municipal electrical inspection programs for compliance with the State Electrical Act & Board Rules. An on-line system is in place to provide access to permit and license applications, and to provide information to contractors, engineers, and the public.

We are members of the National Electrical Reciprocal Alliance, which consists of Alaska, Arkansas, Colorado, Iowa, Minnesota, Montana, Nebraska, New Mexico, North Dakota, South Dakota, Texas, Utah, and Wyoming. The group is made up of states that have similar electrical licensing programs, and the purpose is to allow Journeyman Electricians to reciprocate their electrical license between participating states. This is a great service to the industry as it allows journeyman electricians to travel state to state providing a valuable work force to the states that may not have enough local electricians to fill the need.

Electrical examinations are given through an online testing center called Pearson Vue and the test is being conducted by International Code Council (ICC), This test can be conducted anywhere across the State of Nebraska. This state wide network makes it possible for all citizens to have electrical examination at or near their home to prevent them from having to travel great distances for this service.

**PROGRAM OBJECTIVES**

---To provide, as authorized by the Governor, fiscal support to the state and its political subdivisions for the public health emergency response to the Coronavirus Disease 2019 (COVID-19).

**PROGRAM DESCRIPTION**

The Governor's Emergency Program – COVID-19 was created via LB1198 (2020) as a separate budget program from Program 192 to allow for transparency and ease in tracking expenditures related to COVID-19. A one-time Cash Reserve Fund transfer of \$83.6 million to the Governor's Emergency Cash Fund and equal appropriation in FY20 accompanied the creation of the program. Additionally, the program is the mechanism for which expenditure of the federal Coronavirus Aid, Relief, and Economic Security (CARES) Act funding is made pursuant to Section 257 of LB294 (2019) that allowed for the Military Department to be designated as the expending agency of CARES Act funding.

**PROGRAM OBJECTIVES**

---To provide, as authorized by the Governor, fiscal support to the state and its political subdivisions for emergency response and disaster assistance.

**PROGRAM DESCRIPTION**

The Governor's Emergency Program was created to assist the state and its political subdivisions in responding to and recovering from natural and man-made emergencies. The primary purpose is to assist in restoring essential public services, but the program may also be used to pay for emergency response personnel, services, and equipment or as the required state matching funds for federal assistance programs. It is intended that assistance from the Governor's Emergency Program be supplemental to local efforts and not the primary source of assistance.

Personnel in Program 544 provide administrative services to the Army and Air National Guard and Nebraska Emergency Management Agency. These services include command and control, personnel, fiscal, printing, public relations, purchasing, transportation, and administration of the tuition assistance program. The Department supports operational and maintenance costs for numerous state buildings, including local community armories that provide space for unit administration, training and equipment. Local individuals and groups may rent these armories, and the funds derived from the rentals are deposited in the Department's Cash Fund to be used to defray operation and maintenance costs. The Department also provides funds and employees for the operation and maintenance of various structures at the Lincoln Air Base. Sixty-eight logistics facilities for the Army Guard and the 3 training sites at Camp Ashland, Mead and Hastings are supported with funding derived from agreements with the federal government in a 50 percent, 75 percent or 100 percent federal share. One hundred percent federal funding also supports employees who provide fire protection at the Lincoln Air Base and employees who provide Air Base security.

## AGENCY DESCRIPTION

When Nebraska became a state in 1867, it received approximately 2.9 million acres in trust from the federal government for support of the public schools. About 1.65 million of these acres have been sold, approximately 80% of these prior to 1900. The Board of Educational Lands and Funds is now the constitutionally established trustee of these lands. The Board consists of five persons, appointed by the Governor and confirmed by the Legislature, who serve as trustees in a non-partisan and non-political manner.

The primary duty of the Board is to manage the 1.254 million acres now held in trust for Nebraska's public schools. The net income received from surface and subsurface leasing of this land is distributed to the K-12 public school districts. The income is also used to meet the cost of managing the land. Proceeds from mineral royalties and land sales are deposited in the Permanent School Trust Fund.

The agency also houses the office of the State Surveyor. The State Surveyor prepares any opinions or instructions on questions or disputes involving school lands. The office reviews all school land condemnations and provides mapping of school lands for the Board of Educational Lands and Funds. A circular of instructions is sent to guide county surveyors and establish surveying rules. Missouri River surveys are kept in the event of a border dispute in this area. In 1982, a repository was established for surveys completed and filed by land surveyors.

PROGRAM 582 SCHOOL LAND TRUST**

**PROGRAM OBJECTIVES**

---To maximize the return and preserve the assets of the School Land Trust.

**PROGRAM DESCRIPTION**

The board serves as both owner and manager of School Trust Lands. As land owner, the board expends funds for maintenance, conservation and land improvements. As land manager, the board issues and services both surface leases, primarily for agricultural uses, and subsurface leases permitting exploration for and extraction of oil and gas, minerals and other natural resources. The board has also entered into a number of leases for the development of wind and solar energy. The board sets and collects rentals on, issues, and manages about 3,200 leases.

The primary sources of revenue generated from School Trust Lands are rental and bonus for agricultural leases, rental, bonus and royalty for minerals leases and rental and royalty for wind leases. The board also processes land trades and sales. The net income from surface and subsurface leases, less the costs of administration, are distributed annually to public schools. Proceeds from mineral royalties and land sales are deposited into the Permanent School Trust Fund, which is managed by the Nebraska Investment Council. Trust Fund earnings (interest and dividends), less investment management costs, are annually distributed to public schools.

The boards pays full real estate taxes on school lands directly to the counties. The tax payment is pursuant to LB 271 (1999) which makes public land taxable. Taxes will be approximately equal the in-lieu of school land tax previously received by schools from the Temporary School Trust Fund.

### AGENCY DESCRIPTION

In his 1879 message to the Nebraska Legislature requesting creation of a fish commission, Governor Albinus Nance remarked: "It is an established fact that an acre of water devoted to pisciculture will yield a very much higher profit than an acre of land in the highest state of cultivation." Although fish production is still an important part of the Commission, the duties and responsibilities have increased greatly from that early beginning to include such activities as law enforcement; wildlife management; communications to include the Nebraskaland magazine, hunter safety training, aquatic resource education and outdoor education; boating; acquisition, development and management of wildlife management areas and fisherman and motorboat access sites; a state park system that includes major state parks, recreation areas, historical parks, and trails; and all of the necessary support functions. Also assigned to this agency for administrative purposes is the Nebraska Environmental Trust, which receives proceeds from the state lottery for use on projects which enhance the state's environmental qualities; and the Niobrara Council, which coordinates the planning and management of those portions of the Niobrara River designated as part of the national wild and scenic rivers system.

PROGRAM 330 HABITAT DEVELOPMENT/AID**

**PROGRAM OBJECTIVES**

---To preserve or develop wildlife habitat on private lands.

**PROGRAM DESCRIPTION**

A significant portion of the receipts from the sale of habitat stamps is utilized for development of wildlife habitat on private lands. This is very important, since about 97% of Nebraska is in private ownership. The vehicle for delivery of habitat to private lands is through technical assistance and the Open Fields and Waters Program. The WILD Nebraska program, administered in cooperation with Natural Resources Districts and other public and private partners has diminished significantly in recent years in favor of technical assistance and the Open Fields and Waters Program (OFWP). OFWP is administered with Pheasants Forever and the Natural Resources Conservation Service. Other efforts continue with our many partnerships with organizations and agencies that include Pheasants Forever, The Nature Conservancy, The Natural Resources Conservation Service, Ducks Unlimited, The Rainwater Basin Joint Venture, The National Wild Turkey Federation and others. The purpose of these partnerships and programs is to bolster wildlife habitat management and access on private lands.

## **AGENCY 34 NEBRASKA LIBRARY COMMISSION PROGRAM 252 STATEWIDE LIBRARY AND INFORMATION SERVICES**

### **PROGRAM OBJECTIVES**

Statewide Library and Information Services, Program 252, comprises all of the operations for the Library Commission and includes the following major functions:

- Agency Support Services provide the resources necessary for the efficient operation of the Library Commission.
- Information Services provide state agency personnel, librarians and citizens with the information needed to improve their professional productivity.
- Library Development Services assist libraries of all types in improving their operations and services to the public.
- Technology and Access Services facilitate the efficient sharing of information and materials among Nebraska libraries.
- Talking Book and Braille Service provides recorded books and magazines to Nebraskans with a visual or physical condition or a reading disability which limits use of regular print.

### **PROGRAM DESCRIPTION**

**Agency Support Services** include the following functions: program planning, budget and fiscal control, accounting, property and records management, supply and equipment requisition, personnel management, grants and contract management, program evaluation, statistical information and forms management, computer services, facilities planning and operation, public information and other staff services.

**Reference and Information Services:** The Library Commission develops, maintains and makes accessible a collection of resources (state and federal documents, books, journals, electronic databases, book club kits, etc.) in order to provide reference, research and information services for state agency personnel and librarians. The Library Commission also operates the Nebraska Publications Clearinghouse to collect, index and provide access to state government publications, and to provide convenient public access to print and electronic state and federal government publications.

**Library Development Services** provide assistance to libraries of all types and library-related organizations in planning, developing and implementing library services; provide continuing education, training and materials; and develop guidelines, processes and procedures to administer state and federal grants and contracts. Library development administers state and federal library aid programs for public and institutional libraries, as well as multi-type library service systems. Support and coordination are provided for the four regional multi-type library systems, which provide services to local libraries in each area. Aid is provided in developing library services to citizens without local library services.

**Technology and Access Services:** The Library Commission provides administrative and technical support to libraries for online and technology-related resources. Through statewide subscriptions, all Nebraska residents may use NebraskaAccess to access thousands of full-text magazine, journal and newspaper articles, biographical and business information, and genealogical resources. Technology and Access Services negotiates discounts for group purchases of other online and print resources for all types of libraries. It also coordinates a consortium of public libraries sharing a collection of downloadable audiobooks and eBooks for which the Legislature provided funding through the Nebraska eReads project in 2013. Since 2010, the Commission has provided website hosting, training, and technical support for Nebraska public libraries. Infrastructure and training are provided for statewide digitization initiatives, specifically Nebraska Memories. Libraries receive training and support for the Federal E-rate program to receive aid for telephone and Internet services. Training is also provided on other technology and library-related issues through NCompass Live, a weekly one-hour webinar; Big Talk from Small Libraries, an annual full-day webinar; and other webinar and in-person sessions.

**PROGRAM 252 STATEWIDE LIBRARY AND INFORMATION SERVICES  
CONT'D.**

**Talking Book and Braille Service (TBBS):** The Library Commission operates the Talking Book and Braille service as the regional library for Nebraska in the Library of Congress national network of cooperating libraries. The federal government provides specially designed playback equipment, as well as recorded materials. Additional materials of special interest to Nebraskans are read by volunteer readers and produced in the Library Commission studios on flash memory cartridges. Braille readers are served through contract with the Utah State Library as well as through an in-house Braille browsing collection of children's and young adult titles. All materials and equipment are sent postage-free through the mail as "Free Matter for the Blind or Handicapped." The audio production center provides personnel, equipment and facilities for the production of audio materials that support NLC programs and services and limited audio production for various state agencies.

The Government Aid Program provides state and federal aid funds to improve local library services by increasing access to library service through expansion and improvement of library service units, encouraging cooperation and partnerships among all types of libraries and strengthening the operations, facilities and resources of libraries.

### **PROGRAM DESCRIPTION**

- (1) **Regional Library System Services.** Implementation of the Commission's long range plan is achieved, in part, through state and federal funding of staff and operations for Nebraska's four regional multi-type library systems. The library systems provide services to Nebraska libraries based on biennial agreements with the Library Commission. These agreements relate to established needs, goals and objectives outlined in the long range plan.
- (2) **Aid to Public Libraries.** State aid is distributed annually to accredited public libraries, using a formula that includes a base grant plus a per capita allocation. These state funds are typically used for a variety of purposes by local libraries such as, to meet the guidelines for public library service, to expand library service to a broader population, to purchase materials, to automate processes, and to implement other improvements in local library service.
- (3) **Nebraska Lender Compensation.** Support of resource sharing among Nebraska libraries is achieved in part through reimbursement of a portion of the cost incurred by Nebraska libraries lending materials to other Nebraska libraries. Quarterly payments are made to libraries based on the number of transactions. A combination of state and federal monies is used to fund this aid package to libraries of all types across the state.
- (4) **Statewide Electronic Databases.** State funding supports contracts for online databases, negotiated on a statewide basis, allowing all Nebraska academic, public, institutional, school, and special libraries to provide access to commercial online resources for the public as well as primary, secondary and postsecondary education. In 2004, NebraskAccess was introduced as a gateway for Nebraska residents to access state-licensed online databases (some of the databases are restricted to use in libraries). Approximately 1,000 Nebraska libraries currently have access to the electronic resources licensed through state-funding in the NebraskAccess program.
- (5) **Continuing Education and Training Grants.** State funds are used to provide competitive grants for continuing education and training, and library internships for high school and college students.
- (6) **Youth Grants for Excellence.** Grant funds are provided on a competitive basis for innovative projects to serve children and youth in public libraries. Children's librarians, young adult librarians, or librarians whose responsibilities include children's services are eligible to apply. Schools or other service agencies may be involved through collaborative planning and programming with public libraries.

**LEGISLATIVE** Doug Nichols  
**FISCAL OFFICE:** 402-471-0052

**EXECUTIVE** Joe Wilcox  
**BUDGET OFFICE:** 402-471-4178

**AGENCY DESCRIPTION**

The Workers' Compensation Court is a trial court created in 1935 in recognition that industrial relations between employers and employees within the State of Nebraska are affected with a vital public interest and because impartial and efficient administration of the Nebraska Workers' Compensation Act is essential to the prosperity and well-being of the state. [See Nebraska Revised Statutes § 48-152.] The court adjudicates, administers, and enforces all aspects of the Nebraska Workers' Compensation Act.

The judges and staff of the court are organized into an adjudication division and an administration division. The presiding judge is charged with overall responsibility for the functioning of the court. The adjudication division, under the direction of the presiding judge, includes the judges and the Office of the Clerk of the Court. The adjudication division receives court filings, such as petitions and motions concerning workplace injuries, and determines the rights and obligations of employees, employers, and insurers under the Nebraska Workers' Compensation Act.

The Administrator serves as the chief administrative officer for the court. The administration division includes the following sections: Business and Human Resources, Legal, Regulatory Programs, Vocational Rehabilitation, Public Information, and Information Technology. Program 530 Court Administration describes the programs administered by each of these sections and/or the activities performed in support of the court's statutory duties.

The court is funded through annual assessments against workers' compensation insurers, self-insured employers, and intergovernmental risk management pools. The assessments are received only once each year in March or April and are then needed to support court operations until the next annual assessment. The Compensation Court Cash Fund was created in 1993 to provide for expenses incurred in administering the Nebraska Workers' Compensation Act and salaries and expenses of judges and other court employees. Contributions to the Compensation Court Cash Fund abate if the balance in the fund as of June 30 of any year is equal to or exceeds three times the sum expended and encumbered in the fiscal year then ending. No General Fund monies have been appropriated for the operations of the court since 1996. Since matters adjudicated before the court involve workers who may have been injured at work, the only filing fees charged are for settlements filed with the court.

PROGRAM 526 JUDGES' SALARIES**

**PROGRAM OBJECTIVES**

--- To provide compensation for Workers' Compensation Court judges.

**PROGRAM DESCRIPTION**

Salaries and benefits for the judges of the Workers' Compensation Court are paid from this program. The judges are paid an annual salary of 92.5 percent of the salary level of the Supreme Court judges as set out in Nebraska Revised Statutes § 48-159. The salary as of July 1, 2020, or as soon as may be legally paid under the Constitution of Nebraska, is \$173,008.

The Workers' Compensation Court has original jurisdiction in the adjudication of cases under the Nebraska Workers' Compensation Act, which provides benefits for employees injured in accidents arising out of and in the course of employment. The court is composed of seven judges who are initially appointed by the Governor and who then remain on the bench for successive six-year terms upon approval of the electorate. Every two years one of the judges is elected as presiding judge by the judges of the court, subject to approval of the Supreme Court.

The court maintains offices in Lincoln and Omaha, but a judge will travel to any county in the state where an accident occurred to hear a dispute regarding workers' compensation benefits. A case is first heard by a trial judge. Appeals may be taken to the Nebraska Court of Appeals and/or Supreme Court of Nebraska according to the same procedures as appeals from the district courts.

PROGRAM 075 ENFORCEMENT OF STANDARDS**

**PROGRAM OBJECTIVES**

- To record livestock brands utilized in the state.
- To determine the rightful ownership of cattle sold or transported from or within the brand inspection area.
- To investigate reported livestock thefts.
- To determine rightful ownership of estrays.
- To administer registered feedlot and registered dairy program.

**PROGRAM DESCRIPTION**

Livestock brands utilized in the state must be recorded with the Brand Committee. The Committee reviews each application for a brand considering factors such as legibility on a branded animal and the similarity of the applied for brand with other recorded brands. A book containing facsimiles of all recorded brands is distributed to brand inspectors and law-enforcement officers for livestock identification purposes.

All cattle transported from or within the brand inspection area are inspected to determine that persons in possession of the animals are the rightful owners. Cattle sold or offered for sale by private treaty or at public sales are inspected. Staff investigate reported thefts or missing livestock, and attempt to identify the owners of estrays or cattle with an unknown owner. An animal is sold if the rightful owner is not located, and the proceeds are credited to the School Trust Fund.

### **AGENCY DESCRIPTION**

The Nebraska Department of Correctional Services (DCS), established as a separate agency in 1973, develops policies and programs for the custody, study, care, management, training, and treatment of persons in state correctional institutions in the State of Nebraska.

All of the programs and institutions of DCS are accredited by the American Correctional Association (ACA). The accreditation process involves being in compliance with a set of standards that were developed by nationally recognized correctional professionals. Benefits of the accreditation process include improved management and conditions of confinement, increased accountability and enhanced public credibility for administrative and line staff, and a safer and more humane environment for personnel and offenders. The process has assisted DCS by establishing criteria for upgrading programs, personnel, and physical plant on a continuing basis. Compliance with the ACA standards also aids in successfully resisting Federal Court intervention or liability from inmate-generated litigation.

PROGRAM 213 WORKFORCE RECRUITMENT AND DEVELOPMENT**

**PROGRAM OBJECTIVES**

---To meet current and future workforce needs.

**PROGRAM DESCRIPTION**

A new budget program was created in the Nebraska Department of Correctional Services (DCS) by LB1008, 2020, called “Corrections Workforce Recruitment and Development”.

DCS is partnering with Peru State College (PSC) to enhance the criminal justice program with a corrections focus called the “Corrections Workforce Development Pathways” (CWDP). DCS will provide start-up, recruiting, and scholarship funding for PSC to develop this program. Housing will be available in Peru.

During school, besides doing coursework, students will work at Tecumseh State Correctional Institution (TSCI) as Corporals, Caseworkers, and eventually as Sergeants and Case Managers. Upon graduation, they may be offered positions as Lieutenants or Unit Managers.

CWDP received initial funding in 2020. In the second year of CWDP, it is estimated to cost \$748,465, which includes operations, recruiting, training, and 30 student scholarships.

In the third year and thereafter, CWDP is estimated to cost \$973,465, which includes operations, recruiting, training, and 45 student scholarships.

PROGRAM 214 VOCATIONAL AND LIFE SKILLS PROGRAM**

**PROGRAM OBJECTIVES**

---To provide for reentry programming, including behavioral health, inside DCS facilities, and to provide for aid that will be used for vocational training.

**PROGRAM DESCRIPTION**

Laws 2014, LB907, created the Vocational and Life Skills Program (VLS), which developed a reentry program for individuals incarcerated in a correctional facility, individuals who have been discharged from a correctional facility within the prior eighteen months, and parolees. The purpose of the reentry program is to facilitate a standard systemwide program of reentry for individuals leaving correctional facilities or transitioning off community supervision. The objectives of the reentry program are to reduce recidivism, to identify, assess, and provide treatment options for individuals with mental illness, to increase public safety, and to improve the overall transition of the individual from the criminal justice system into the community.

Aid funds are to be used to provide grants to community-based organizations, community colleges, recognized Indian tribes, or nonprofit organizations that provide vocational and life skills programming and services to adults and juveniles who are incarcerated, who have been incarcerated within the prior eighteen months, or who are serving a period of supervision on either probation or parole. In awarding grants, DCS shall give priority to programs, services, or training that results in meaningful employment.

In 2020, an additional \$500,000 was appropriated to be awarded as grants to organizations that provide paid preparatory training programs, pre-apprenticeship programs, or other paid training that leads directly into a Federal Registered Apprenticeship Program. The grants require a minimum one-to-one cash or in-kind matching contribution.

PROGRAM 260 NEBRASKA CORRECTIONAL YOUTH FACILITY**

**PROGRAM OBJECTIVES**

---To teach youthful offenders accountability, responsibility, and socially acceptable behavior.

---To return the offender to society as a productive citizen.

**PROGRAM DESCRIPTION**

The Nebraska Correctional Youth Facility (NCYF), located in Omaha, came into existence in 1994 with Legislative Bill 988 which created the Office of Juvenile Services under HHS and established the requirement to plan for the construction of a Secure Youth Confinement Facility. Subsequently the operation of the facility was transferred to the Department of Correctional Services. The NCYF received its first inmates in August 1998. The building is approximately 54,000 square feet with a construction cost of approximately \$10.8 million.

NCYF is a maximum, medium, and minimum security facility designed for youthful offenders from early adolescence up to age 21 years, 10 months. NCYF serves as an intake facility for offenders ages 17 and younger. The offender is placed on orientation status for approximately 30 days for acclimation to prison life, testing, and assessment for classification to general population. Inmates ages 17 and younger are housed separately from those 18 and older.

All inmates who do not have a high school diploma or General Educational Development (GED) diploma shall be enrolled in the Community High School. While in school, the inmate may be assigned High School coursework or GED preparation coursework. Adult Basic Education (ABE) is also offered to those inmates needing to improve their current educational level.

In the spring of 1998 a site two miles north of Tecumseh was selected for the institution and ground was broken in December of the same year. Hiring of initial staff commenced in late spring 2000. TSCI began accepting inmates in December 2001. The death penalty is administered at the Nebraska State Penitentiary but all inmates sentenced to the death penalty are housed at TSCI.

Programs available include Adult Basic Education (ABE)/GED classes, college correspondence courses, Challenge Program, Thinking for Change (T4C), Moral Recognition Therapy (MRT), Alcoholics Anonymous (AA), self-betterment clubs, volunteer activities, pre-release programs, English as a Second Language (ESL) classes, and Vocational Education Programming. Work programs include traditional facility work programs, Health Porters, Cornhusker State Industries (CSI) operations (Laundry and Woodshop), and the canine handler program.

PROGRAM 368 COMMUNITY CORRECTIONS CENTER – LINCOLN**

**PROGRAM OBJECTIVES**

- To assist in an effective and progressive transition from institutional to community life.
- To provide work opportunities that offer skills, competitive wages, and stable employment that will enhance the individual’s ability for successful reentry into the community.

**PROGRAM DESCRIPTION**

Laws 1967, LB569, created the Work Release Program. It allowed certain inmates to be employed in the community and housed in the institutions during non-working hours. The 200-bed, four-housing unit Lincoln Community Corrections Center opened in July 1993. In September 2017, a 100-bed housing unit for men opened, and in April 2019, a 160-bed housing unit for women opened.

Community custody is the lowest custody level and the least restrictive environment. Individuals assigned here participate in "work detail" or "work release." The first several weeks after arrival are spent on work detail - a job in the community supervised by corrections staff or community staff with specific corrections training. Work detail assignments are generally for NDCS or other state agencies and can include cleaning and road crews, maintenance, or administrative office work.

Following a time on work detail, individuals are provided an opportunity to go into the community to look for jobs. Once a job is secured and community corrections staff have been in contact with the employer, individuals can be assigned to work release. Individuals on work release are employed in the community, receive competitive wages, and pay applicable taxes. Also available is educational release, where individuals attend school (vocational, technical, business, community college, or university). Individuals are responsible for their own transportation and are expected to adhere to a pre-approved schedule. They are responsible for their own clothing and personal items and pay room and board of \$12 per day.

---To return inmates to their communities as responsible and productive citizens.

**PROGRAM DESCRIPTION**

On October 23, 1967, the enactment of Legislative Bill 569 established the Work Release program. This program allowed a select group of inmates to be employed in the community but housed in correctional facilities during non-working hours. On July 2, 1985, the Community Corrections Center-Omaha was constructed at a cost of \$1.2 million dollars.

Community custody is the lowest custody level and the least restrictive environment. Individuals assigned here participate in "work detail" or "work release." The first several weeks after arrival are spent on work detail - a job in the community supervised by corrections staff or community staff with specific corrections training. Work detail assignments are generally for NDCS or other state agencies and can include cleaning and road crews, maintenance, or administrative office work.

Following a time on work detail, individuals are provided an opportunity to go into the community to look for jobs. Once a job is secured and community corrections staff have been in contact with the employer, individuals can be assigned to work release. Individuals on work release are employed in the community, receive competitive wages, and pay applicable taxes. Also available is educational release, where individuals attend school (vocational, technical, business, community college, or university). Individuals are responsible for their own transportation and are expected to adhere to a pre-approved schedule. They are responsible for their own clothing and personal items and pay room and board of \$12 per day.

**PROGRAM OBJECTIVES**

- To protect the public and provide a safe and secure environment for both staff and inmates.
- To provide programs to enhance chances for successful community adjustment upon release.

**PROGRAM DESCRIPTION**

The Nebraska State Penitentiary (NSP) located in Lincoln, Nebraska, opened in 1869 and is the oldest state correctional facility in Nebraska. Until after World War I, it was the only adult correctional facility in the state.

The NSP provides for the care, custody, and program needs of multiple-offense male inmates classified as maximum, medium, or minimum custody levels. The inmate population consists primarily of inmates aged 21 and above who are serving sentences of varying length.

The NSP offers a variety of education/rehabilitation programs designed to enhance an inmate's chances for successful community adjustment upon release. These include: Educational Relationship Building and Vocational Programs, Residential Substance Abuse Treatment, Religious Programming, Self-Betterment Activities, and Support Services.

NSP is the site of major components of the Cornhusker State Industries (CSI) program, which includes Braille, furniture, metal fabrication, license plates, soap and detergent manufacturing, and laundry. CSI products and services are available to governments and not-for-profit organizations. There are several Private Venture companies located on prison grounds which employ inmates. The inmates, in turn, pay State and Federal taxes and contribute to the costs of their room and board at the facility. Part of their income goes into a Victim's Reparation Fund, as well as towards financial support of their families or in savings.

PROGRAM 375 DIAGNOSTIC AND EVALUATION CENTER**

**PROGRAM OBJECTIVES**

- To provide intake, evaluation, and classification for incoming adult male inmates.
- To provide assistance to county facilities in the areas of housing and evaluation services.

**PROGRAM DESCRIPTION**

The Diagnostic and Evaluation Center (DEC) was opened in August of 1979 as a maximum custody, reception, diagnostic, evaluation, assessment, classification, and assignment facility. All adult males sentenced to DCS are received into the correctional system at DEC. In addition, the institution houses ninety-day evaluators sentenced by the court for assessment, interstate transfers, and returned parolees and escapees. It also serves as a holding facility for county prisoners at the expense of the respective county (county safe keepers).

The single structure, two-story institution consists of nine inmate housing units and a skilled nursing facility, which includes fourteen licensed beds and a fully staffed initial admission clinic. Administrative offices are located on the upper level of the institution. All other inmate housing, as well as programming areas, including a gymnasium and custody and case management offices, are located on the lower level.

Due to the short length of stay at the institution, there are no industry programs and limited education programs. Each newly admitted inmate begins participation in an intensive medical, psychological, and social assessment process. This process culminates in the finalization of an individual classification study and specific programming recommendations to the classification committee relative to custody status and institutional placement. Program services include recreation, library, Alcoholics Anonymous, religious programming, TRADE, & a reentry program.

**PROGRAM OBJECTIVES**

- To receive and sell surplus federal property.
- To procure equipment for counter-drug and counter-terrorism activities.

**PROGRAM DESCRIPTION**

The purpose of Federal Surplus Property (FSP) is to screen, receive, and distribute federal surplus property to eligible state and local government subdivisions and certain non-profits.

The Federal Surplus Property Manager is appointed by the Governor to administer and coordinate the transfer of excess federal property to Law Enforcement Agencies.

Service charges received from eligible donees (government or non-profits) and Law Enforcement Agencies (LEA's) make FSP self-supporting through its revolving fund, while still providing significant tax savings to the donees and LEA's.

The Nebraska Department of Correctional Services, through Cornhusker State Industries (CSI), operates the program. FSP does not receive a General Fund appropriation.

**PROGRAM OBJECTIVES**

- To ensure DCS supplies are received as ordered and delivered.
- To provide a single delivery point in the Lincoln area for DCS vendors.
- To provide stock items to various DCS locations.

**PROGRAM DESCRIPTION**

The Nebraska Department of Correctional Services (DCS) established a centralized warehouse in FY2000. The centralized warehouse established a method for the ordering, purchasing, delivering, and billing to facilities and programs of items stocked in the central warehouse system.

Commodities are delivered to a single location in the Lincoln area which aids in the security of the Lincoln facilities by limiting the number of delivery trucks entering the facilities each day. By stocking commonly used items at the DCS Central Warehouse, the Purchasing Department within DCS is able to benefit from the efficiencies of bulk buying and a decrease in the volume of procurement documents.

The warehouse continues to direct its focus on opportunity purchases of foods, which helps reduce the inmate per diem food costs by providing quality one-time purchases of foodstuffs at significant savings.

## AGENCY 47 NEBRASKA EDUCATIONAL TELECOMMUNICATIONS COMMISSION

---

**DIRECTOR:** Mark Leonard

Lincoln, NE 68503  
402-472-3611

**LEGISLATIVE** Bill Biven, Jr.  
**FISCAL OFFICE:** 402-471-0054

**EXECUTIVE** Gary Bush  
**BUDGET OFFICE:** 402-471-4161

**AGENCY DESCRIPTION** - The 11-member Nebraska Educational Telecommunications Commission, established in 1963, is responsible for the administration of a statewide noncommercial educational television network, a noncommercial public radio network and an internet streaming system through which these and other telecommunications services are available to Nebraskans. These services operate under the umbrella organization, Nebraska Educational Telecommunications (NET) which includes the University of Nebraska-Lincoln Department of Television, as well as two non-profit support organizations—the NET Foundation for Television and the NET Foundation for Radio.

In providing the public television service, the Commission operates an interconnected network of 8 transmitter stations and 15 translators in cooperation with the Board of Regents of the University of Nebraska, which is the licensee of Channel 12, the ninth station in the network. Channel 12 serves as the primary programming station of the network. By written agreement, the Commission reimburses the University for its Channel 12 transmission costs and the University makes Channel 12 programming available at no charge to the Commission for transmission to the other stations in the network. National, regional and local educational and public television programming is distributed from the Terry M. Carpenter and Jack G. McBride Nebraska Educational Telecommunications Center in Lincoln or a production studio at the University of Nebraska at Omaha.

The NET Radio Network was launched in 1986 when the Legislature directed the Commission to establish statewide public radio service. Nebraska citizens contributed sufficient matching start-up funds for the network which is comprised of nine interconnected stations and five translators. In 2001, the NET Radio Network began broadcasting 24-hours a day.

The Commission operates a satellite and optical fiber telecommunications systems capable of delivering additional NET services through the internet such as streaming content that originates from the Capitol, distance learning providers and the remaining video conferencing sites across Nebraska. NET also provides administrative and operational support for some state agencies and the CIO's office.

The Network also produces other programs of statewide interest, plus encourages production of programs for and about specific regions of the state. The Nebraska Educational Telecommunications Commission develops and operates a system of interconnected stations.

In June 1988, the FCC license for public radio station KUCV (FM) was transferred from Union College to the NETC. KUCV (FM) serves as the originating station for the statewide system.

Four radio stations were activated in May-June 1990: KTNE (FM) serving Alliance/Scottsbluff, KLNE (FM) serving Lexington/Kearney, KHNE (FM) serving Hastings/Grand Island, and KXNE (FM) serving the Norfolk area. Four additional stations were activated in July-August 1991: KPNE (FM) serving North Platte, KCNE (FM) serving Chadron, KRNE (FM) serving Merriman, and KMNE (FM) serving Bassett. There are also five network translators serving Columbus, Culbertson, Falls City, Harrison and Maxwell.

The Commission currently operates a 365-day per year over-the-air digital broadcast schedule of 168 hours per week (24 hours per day). In addition, to its main channel of service NET Radio (news/music), the Commission also programs NET Radio 2 on its HD radio broadcast channel (news/jazz). Programs are acquired through national distribution centers or are locally produced. The Commission staff provides engineering and technical support for the network operations center, transmitter sites, satellite installation and translators.

The Coordinating Commission for Postsecondary Education, in its current form, was created in 1991 following adoption of a constitutional amendment by the voters in 1990. The Commission is composed of 11 citizen members appointed by the Governor with approval of a majority of the Legislature. Its purpose, powers and duties were established and are defined by Article VII, Section 14, of the Constitution of Nebraska and the Coordinating Commission for Postsecondary Education Act.

The purpose of the Commission is to coordinate higher education within the state's public institutions by 1) developing a comprehensive statewide plan for the operation of an educationally and economically sound, vigorous, progressive and coordinated system of postsecondary education, 2) identifying and enacting policies to meet the educational, research and public service needs of the state and 3) effecting the best use of available resources through the elimination of unnecessary duplication of programs and facilities among Nebraska's public institutions.

The Commission is vested with authority to administer the state's Nebraska Opportunity Grant (NOG), Access College Early (ACE), and Community College Gap Assistance student financial aid programs, the Guaranty Recovery Cash Fund, and two higher education data systems—the Integrated Postsecondary Education System (IPEDS) and the Nebraska Educational Data System (NEEDS). The Commission is also charged to administer interstate reciprocity agreements for postsecondary education conducted across state boundaries.

The Commission's responsibilities and goals are to 1) develop a comprehensive statewide plan and statewide facilities plan to coordinate higher education within the state's public institutions, 2) review new and existing instructional programs to meet educational goals, assure efficiency, and prevent unnecessary duplication, 3) review capital construction and operating budget requests submitted by institutions to ascertain compliance with the comprehensive statewide plan, 4) conduct studies and surveys it finds appropriate for the purposes of the Coordinating Commission for Postsecondary Education Act, 5) review public institution participation in education centers and off-campus instruction, 6) facilitate access to quality postsecondary education without unnecessary duplication, 7) review requests of out-of-state institutions to offer classes and programs of study within the state, 8) administer certain federal and state student financial aid programs, 9) maintain information systems to provide the Commission and others with information pertinent to the exercise of their duties and 10) recommend to the Governor and Legislature legislation it deems necessary or appropriate to change role and mission provisions.

PROGRAM 690 NEBRASKA OPPORTUNITY GRANT PROGRAM**

**PROGRAM OBJECTIVES**

- To enhance access to the state's higher education institutions in the public, independent and private career school sectors.
- To provide scholarships to eligible Nebraska residents who demonstrate substantial financial need by virtue of Pell grant eligibility and who attend approved Nebraska postsecondary institutions.

**PROGRAM DESCRIPTION**

In 2003, the Legislature enacted the Nebraska Scholarship Act. The act subsequently was renamed the Nebraska Opportunity Grant Act. Under the related program, scholarship awards are provided to Nebraska residents who attend approved Nebraska postsecondary institutions and who meet certain federal Pell grant eligibility criteria. The program is administered by the Commission in cooperation with financial aid officers at participating institutions. In accordance with relevant statutes and the rules and regulations of the Commission, identification of target fund levels to be allocated by participating institutions is based on prior year Pell grant activity. Institutions must submit the names of potential award recipients to the Commission for approval prior to award of the funds.

In 2018-19, awards were given to 12,753 students. Of those students, 34.9 percent were from families with incomes of less than \$20,000 and 63 percent were from families with incomes below \$40,000.

PROGRAM 691 ACCESS COLLEGE EARLY SCHOLARSHIP PROGRAM**

**PROGRAM OBJECTIVES**

--- To provide financial assistance to low-income Nebraska students taking courses for credit from postsecondary education institutions in the state while still enrolled in high school.

**PROGRAM DESCRIPTION**

This program is statutorily established under the state's Access College Early (ACE) Program Act. Under the act, certain income criteria establish student eligibility to receive financial aid. Eligible high school students applying to take one or more courses from an accredited Nebraska postsecondary education institution may apply for ACE scholarships. Aid awarded under the program is to equal the lesser of tuition and mandatory fees incurred by the student after any applicable discounts or the tuition and fees that would have been incurred by the student for the same number of credit hours if the student were taking the course as a full-time, resident, undergraduate student from the University of Nebraska-Lincoln. Scholarship amounts are forwarded directly to the relevant postsecondary education institution as payment of the eligible student's tuition and mandatory fees.

PROGRAM 692 COMMUNITY COLLEGE GAP ASSISTANCE PROGRAM**

**PROGRAM OBJECTIVES**

--- Objectives of the Gap Assistance program are to provide aid to low-income students to enroll in courses associated with in-demand occupations identified by the Legislature, including financial services; transportation, warehousing, and distribution logistics; precision metals manufacturing; biosciences; renewable energy; agriculture and food processing; business management and administrative services; software and computer services; research, development, and engineering services; health services; and hospitality and tourism; and education.

**PROGRAM DESCRIPTION**

The Community College Gap Assistance Program provides financial aid to community college students enrolled in programs that could lead to jobs in high-need fields. These students, who meet certain income criteria, are not eligible for federal financial aid because, although they are enrolled in college, they are not enrolled in courses for credit that lead directly to a degree. Gap Assistance Program funds are to be distributed to the state's six community college areas, which are to recruit and select eligible students for eligible programs to receive grants. Eligible students must have a family income at or below 250 percent of federal poverty guidelines. Student grants can be used for tuition, direct training costs, required books and equipment, and fees, including those for industry testing services and background check services.

PROGRAM 695 GUARANTY RECOVERY CASH FUND**

**PROGRAM OBJECTIVES**

---This program is designed to provide greater financial protection for Nebraska students who attend a for-profit institution that closes at a point other than at semester or term end. Ideally, the Guaranty Recovery Program will offer students an opportunity to recoup tuition and fees that would otherwise be lost when the institution they are attending closes.

**PROGRAM DESCRIPTION**

The Guaranty Recovery Cash Fund was established pursuant to provisions of LB512 (2017) to reimburse any student injured by the termination of operations of a for-profit postsecondary institution on or after September 1, 2017, for the cost of tuition and fees. To support this program, Nebraska for-profit institutions are to contribute one-tenth of 1 percent of their annual tuition revenue to the fund until the balance of the fund reaches \$250,000.

## **AGENCY DESCRIPTION**

The Board of Trustees of the Nebraska State College System is the governing board for the State Colleges at Chadron, Peru and Wayne. The seven-member board is composed of six persons appointed by the Governor and ratified by the Legislature for six-year terms. The seventh member is the State Commissioner of Education. Student representatives, one from each college, serve one-year terms on the board in a non-voting capacity. They share their opinions on the issues facing the board, communicating the student's perspective and concerns. The members of the board receive no compensation but are reimbursed for their expenses.

The board annually elects a chairperson and a vice chairperson from its membership. The board appoints a chancellor, who administers the System, and a president for each of the State Colleges. The chancellor is the chief executive of the System. The presidents report to the chancellor and have responsibility for direction of the colleges within policies and guidelines established by the board. The board meets regularly and considers budget requests and other financial matters, physical plant operations, academic and student service programs, enrollment and marketing, and other matters as recommended by the chancellor. Standing committees of the Board include Academic and Personnel; Student Affairs, Marketing and Enrollment; Fiscal, Facilities and Audit; and the Executive Committee.

The colleges provide instruction, research and public service in their respective service areas, which are generally defined as the state's western region for Chadron State College, the southeastern/central region for Peru State College and the northeastern/central region for Wayne State College. The State Colleges offer baccalaureate programs of study in a number of academic disciplines and selected programs at the master's and specialist's level. Additionally, the colleges represent the source of various public services provided throughout the regions they serve.

The educational and general operations of the colleges are largely supported by State General Fund appropriations and college-generated cash funds (primarily tuition and fees). The colleges utilize available federal funds to support operations; however, the majority of federal funds reflected in the respective State College budgets represent awards received by students through federal financial aid programs. Student financial aid is also achieved through a variety of tuition waiver programs administered under policies of the Board of Trustees, and by several state supported programs. Auxiliary operations, including residence halls and student centers, are fully supported by revolving funds generated by student fees and charges.

Nebraska State College System expenditures and appropriations are accounted for and monitored according to the NCHEMS-Program Classification Structure. A description of programs within this structure follows at subsequent pages.

### **AGENCY DESCRIPTION**

The University of Nebraska, the state's only public University, has as its mission to educate students at the undergraduate, graduate, professional, and postdoctoral levels; acquire and disseminate knowledge through basic and applied research; and extend knowledge and service to the citizens of Nebraska through continuing education, extension, and cultural outreach programs. The University is home to more than 52,000 students and more than 12,000 faculty and staff members across its four campuses in Omaha, Lincoln, Kearney and divisions and programs across the state.

The University conducts its operations through four major administrative units: the University of Nebraska-Lincoln, the University of Nebraska Medical Center, the University of Nebraska at Omaha, and the University of Nebraska at Kearney. Each unit is administered by a Chancellor who functions both as the chief operating officer of a campus and as a Vice President of the University.

The Nebraska College of Technical Agriculture (NCTA) is under the control and management of the Board of Regents as established by legislation. The two-year degree granting institution is administered by the Vice President for Agriculture and Natural Resources and Vice Chancellor for the Institute of Agriculture and Natural Resources (IANR).

The Nebraska Wheat Development, Utilization and Marketing Board was established by the 1955 Nebraska Legislature and today is a non-code agency of the State of Nebraska.

The seven member Board of Directors are appointed by the Governor and must be engaged in growing wheat in the state and derive a substantial portion of their income from growing wheat and serve a five year term. The Agency Executive Director and staff execute the programs and policies adopted by the Board. There are two full-time and one part-time staff positions.

The Board's program is funded by the state's wheat growers through an assessment on all wheat marketed in the state. The assessment had been established at 1 1/4 cents per bushel until the passage of LB 905 in 2012, which modified the assessment to .004 of market value, effective October 1, 2012.

The Wheat Board members, the Director and staff assume an active hands-on approach in all program areas of research, education, market development, and promotion on behalf of the wheat producers of Nebraska. Research includes all aspects of wheat production from variety development, management practices, production methods, food product development and industrial uses of wheat and wheat by-products. Education and promotion programs are geared for consumers and producers benefit. Market development programs are both international and domestic in nature and are geared towards bulk wheat sales, specialty wheat markets and to value-added products made from wheat. The Nebraska Wheat Development, Utilization and Marketing Board has the ability to use up to 25% of its budget to influence federal legislation to protect and foster the health, prosperity and general welfare of the people of the state by protecting and stabilizing the wheat industry and the economy of the areas producing wheat.

**BUDGET OFFICE:** 402-471-4174

### **AGENCY DESCRIPTION**

The Oil and Gas Conservation Commission was created in 1959 to encourage and promote the efficient development, production, and utilization of Nebraska's oil and gas resources by effectively and fairly regulating the exploration and production industry. The Commission consists of three Governor-appointed members. The major fund source is the Oil and Gas Conservation Tax. The Commission applies annually for a federal grant from the USEPA and receives federal funds to administer the Underground Injection Control program.

Oil and gas is produced in three geologic provinces of the state: the Forest City Basin in the southeast, the Cambridge Arch in the southwest, and the Denver-Julesburg Basin in the panhandle. Well files, containing information for each well, are maintained by the Commission and are a valuable source of information to both the industry and the public. Through 2019, 20,441 oil and gas wells have been drilled in Nebraska. The Commission requests that samples of drill cuttings from selected wells be saved by operators and delivered to the Geological Survey in Lincoln for preservation and analysis.

Oil and gas drilling activity is driven by commodity prices and opportunity. The collapse of oil and gas prices in 2020 continues to hinder drilling activity. During 2019, the Commission permitted 47 new oil wells. Through August 2020, only 18 permits have been issued. No gas wells have been permitted since 2008 due to low prices.

The Commission continues to make great strides in the electronic receipt and delivery of oil and gas information. Information contained in every well file, now numbering over 22,000, has been scanned. New drilling permits are scanned and presented for the public with daily updates. Using our website, the public can access the Geographic Information Systems (GIS) page and the data for wells, production and injection volumes, and lease information may be obtained. Overlays and links for the location of registered water wells and wellhead protection areas are available. Overlays showing secondary recovery units and field areas can also be displayed. Scout tickets can be generated as well as graphs of historic production data. Schematic diagrams of well bores showing the mechanical configuration and geological formations penetrated by the well can be viewed. In 2019, the Commission website was modified so that scanned documents from the case files can be viewed and printed. All Commission orders have been scanned and cross-referenced with the case files, appropriate well files, and legal descriptions in the electronic database.

All of these data elements are housed in the Risk Based Data Management System (RBDMS) which was developed by the Ground Water Protection Council. RBDMS has been utilized by the Commission for over 20 years; an upgrade of the current system and conversion to a newer version was begun in 2019 and continues.

**AGENCY 57 OIL AND GAS CONSERVATION COMMISSION  
PROGRAM 335 ADMINISTRATION**

**PROGRAM OBJECTIVES**

- Ensure that all drilling operations are conducted in a proper and safe manner with minimum potential for environmental damage.
- Ensure that all wells are cased, cemented, and properly plugged to prevent migration of fluids.
- Ensure efficient production operations that protect correlative rights of all owners.
- Maintain geologic information, well records, and petroleum engineering data for dissemination to the public.

**PROGRAM DESCRIPTION**

The Commission authorizes and regulates the drilling, producing, plugging, and spacing of oil, gas, and injection wells, and the disposal of wastes associated with oil and gas. The Commission has the quasi-judicial authority to establish pooling by order to assure that each owner receives a just and equitable share of oil and gas from a reservoir. Physical inspections of drilling and producing sites are conducted to assure compliance with the laws of the state and rules and regulations of the Commission.

**PROGRAM OBJECTIVES**

---To monitor the Public Safety Cash Fund and the Drug Control and Education Cash Fund.

**PROGRAM DESCRIPTION**

This is the budgetary program through which funds from the Public Safety Cash Fund and the Drug Control and Education Cash Fund may be expended. As funds become available, the Superintendent of Law Enforcement and Public Safety is to submit a proposed list of projects in writing to the Budget Division of the Department of Administrative Services, which forwards them to the Governor for approval or rejection.

Items purchased under this program include equipment, training, aircraft, and computers. Funds were also appropriated so the Patrol could update various Sergeant Area Facilities (duty stations) throughout the state and collocate them with the Department of Roads.

- To prevent illegal drug use through anti-drug abuse education in schools.

**PROGRAM DESCRIPTION**

The purpose of Byrne Grants is to assist states and units of local government by funding specific programs which offer a high priority of improving the criminal justice system in the areas of drug arrests, drug activity, and violent crime.

Byrne funds are used by the State Patrol for the Mid and Upper Level Enforcement (MULE) Task Force. MULE provides for statewide drug and violent crime enforcement. Efforts are coordinated with multijurisdictional task forces comprised of local law enforcement agencies which are also funded with Byrne funds.

The number of employees listed below is an extrapolated amount based on payroll costs. Historically, 1.5 employees are paid from this program. Amounts listed below are less than this due to delays in federal funds being provided. Therefore, a portion of these employees payroll costs were paid under a different program.

PROGRAM 101 OFFICE OF THE CHIEF INFORMATION OFFICER**

**PROGRAM OBJECTIVES**

The purpose of the Office of the Chief Information Officer (OCIO) is to provide leadership and coordination in the area of information technology (IT). Advances in IT have the potential to improve government efficiency, broaden educational opportunities and enhance service to Nebraska communities and citizens. In order to implement the IT policies of the Governor and Legislature, and support the work of the Nebraska Information Technology Commission (NITC), Program 101 was established, providing funding for the NITC, its councils, and staff support.

The NITC was established by the Legislature in 1998 to provide advice, strategic direction, and accountability on IT investments in the state. The NITC publishes an annual Statewide Technology Plan. The plan (available at <http://www.nitc.ne.gov/>) identifies nine strategic initiatives of focus. The initiatives are: Network Nebraska; Community IT Planning and Development; eHealth; Public Safety Communications System; Digital Education; State Government Efficiency; E-Government; Security and Business Resumption; and Nebraska Spatial Data Infrastructure. The NITC relies on coordination and collaboration to influence a wide range of IT issues. The NITC has neither operational authority nor enforcement powers for implementing its policy directives. The NITC has adhered to the legislative directive in Neb. Rev. Stat. § 86-513 to “coordinate the state’s investment in IT in an efficient and expeditious manner.”

In addition to Program 101, the CIO is also responsible for the Intergovernmental Data Services Program, the Information Management Services Division, the Division of Communications, and the Public Safety Communications System.

Program 101 provides staffing and operational support for the NITC and five councils that coordinate policies and activities. The five councils are the Community Council, Education Council, eHealth Council, GIS Council, and State Government Council.

**Objectives of the NITC include:**

- Support the development of a robust statewide telecommunications infrastructure that is scalable, reliable, and efficient;
- Support IT use to enhance community and economic development;
- Promote the use of IT to improve the efficiency and delivery of governmental and educational services, including homeland security;
- Ensure the security of the State’s data and network resources and the continuity of business operations;

PROGRAM 170 OFFICE OF THE CHIEF INFORMATION OFFICER --  
NEBRASKA INTERGOVERNMENTAL DATA SERVICES PROGRAM**

**PROGRAM OBJECTIVES**

- Provide an efficient and reliable statewide network that connects county government to the state network to improve the service and efficiency of data exchange between state and local government;
- Provide cost-effective IT computing solutions and IT support services to state agencies and county offices;
- Facilitate shared services through IT solutions and field support services;
- Drive operational efficiency through the use of new technologies, consolidation, virtualization and innovative processes.

**PROGRAM DESCRIPTION**

The Intergovernmental Data Services Program (IDSP), under the Office of the Chief Information Officer (OCIO), operates and manages a statewide network infrastructure that links county governments and state agencies, including two IBM AS/400s. The primary purpose of this shared network is to improve the quality of data and access to information, streamline agency operations and reduce costs. For many years the IDS Program operated a statewide network made up of over 100 IBM AS/400 servers, serving all counties, and supporting multiple applications of state agencies and counties. Taking advantage of the advancements in networking technologies, the IDS Program undertook a three-phase project that replaced the distributed system with a two pairs of centralized, consolidated IBM AS/400 servers, working across the two data centers. This has produced sizeable cost savings in hardware, software, and maintenance. Savings from consolidation have resulted in reduction in rates for the state agency as well as the counties. It has also greatly improved service reliability, data backup and disaster recovery capabilities.

Two major applications the IDSP Program supports are the Nebraska Department of Motor Vehicles' Vehicle Title and Registration (VTR) and the Supreme Court's automated case management system (JUSTICE) that serves County and District Courts.

Major services include:

- The IBM AS/400 centralized systems connected to the State's data communications network and mainframe computers. Specific uses of the system include:
  - Issue and collect taxes and fees for 100% of vehicle titles and registrations in the State, with instantaneous update to a central database.
  - Automate the County and District Courts via the implementation and use of the Judicial Users System to Improve Court Efficiency (JUSTICE) system.
  - Support multiple third-party essential applications in use by counties.
  - Support interfaces that provide current information to the State's child support enforcement efforts at DHHS, vehicle data to DMV for use by law enforcement across the State, and driver's license images for use by law enforcement.
- Support for the Department of Motor Vehicles with its IT needs, including computing devices, network connectivity, etc.
- Support for the Nebraska Supreme Court with its IT strategic initiatives, including court case access and management, computing devices, courtroom trial-digital recordings and video conferencing,
- Imaging/scanning of court filings, e-filing, e-payment, desk video conferencing and webinars for distance learning and training, etc.

This includes leading the Shared Service effort to offer appropriate business continuity and disaster recovery services for all agencies, boards and commissions. This area assists in the statewide effort to determine business priorities for recovery. Security includes efforts related to an enterprise view of information technology security, including development of policies, better integration of operations and policy, and building relationships with other entities for joint security efforts. Security assessments, assistance with security problems, and coordinating security audits are other activities.
- The Office of the CIO offers State agencies the opportunity for professional management of agency IT teams from staff of the OCIO. This arrangement allows the agency to have professional IT management that is overseen by the Office of the CIO, while maintaining the agency's control of IT priorities and projects. The manager assigned reports to the director or deputy director of the agency where the assignment is made and works on the priorities of the agency head, while keeping an eye to the enterprise strategy and shared service offerings.

**PROGRAM OBJECTIVES**

- Develop efficient and reliable telecommunications network systems for joint use by state agencies and political subdivisions.
- Effect consolidation and joint use of existing network facilities owned by the state.
- Coordinate all network functions and activities of state government.
- Develop and identify opportunities in the field of telecommunications and networking.

**PROGRAM DESCRIPTION**

Major services include:

- Data Networks - The Network Team is responsible for specialized services including network security, Virtual Private Network (VPN) support, Domain Name Server (DNS) support, wireless, firewalls, switches, routers, encryption and network design and architecture for agencies. The team also manages the state's wide area network (connections across the city and state), as well as the core campus network. This includes enterprise services for data transmission facilities and equipment. This group provides access to the Internet for State government and other eligible entities.
- Open Systems - The Open Systems Team is responsible for the management of the statewide enterprise email system and related services, backups, storage, active directory, managed domain services, virtualization, InternetFax, multi-factor authentication, video conferencing, SFTP and server support for state agencies.
- Distance Education - LB 1208 (2006), which establishes a statewide distance education network for K-12 schools and higher education, is a responsibility for this functional area. This network is named Network Nebraska.
- Cabling Services - Cabling Services is primarily responsible for the installation and maintenance of "cabling facilities" for State agencies. These facilities are used for the transmission of voice and data, and local area network cabling. Our involvement in cable related matters range from simple advice to the complete installation of new facilities. The installations can involve one agency of small size to an entire building, and sometimes, to campus distribution systems. This team is heavily involved in the Capitol HVAC replacement project. As a part of an on-going effort to ensure that the design and construction of new state building facilities, and the renovation and remodeling of existing facilities, meet the needs of in-house wiring and distribution systems of voice and data, Network Services maintains its membership in organizations designed to meet these needs.
- Public Safety Wireless – Functions include radio, frequency spectrum management and annual radio contracts, as well as project management for statewide radio systems.
- Voice and Wireless Services - Voice and Wireless Services is responsible for the voice network including Interactive Voice Response (IVR) services, long distance, voice mail, local service, VoIP, unified messaging and telecommunications equipment purchases. This team is also responsible for wireless services including cellular, as well as the management of the Federal GETS and WPS programs for State agencies.

PROGRAM 173 OFFICE OF THE CHIEF INFORMATION OFFICER –  
DIVISION OF COMMUNICATIONS, CONT'D**

- Site Support - The Site Support team operates from eight regional IT centers throughout the State of Nebraska to support agency desktop needs. This business model was formed by modeling IT best practices with the intention to put support staff closer to where there services are needed. IT Consolidation has allowed the OCIO to take advantage of knowledge that already existed within the State, but wasn't utilized efficiently as support previously couldn't cross agency lines. This new model eliminates those restrictions, leading to reduced travel and staffing, with increased levels of support.

PUBLIC SAFETY COMMUNICATIONS SYSTEM**

**PROGRAM OBJECTIVES**

- Establish an integrated, interoperable, scalable system of statewide communication that meets the needs of the State’s public safety agencies.
- Insure interoperability between the statewide system and regional communications systems.

**PROGRAM DESCRIPTION**

The NE Public Safety Communications System Act (Sections 86-401 to 86-418.01) establishes the Public Safety Communications System as a responsibility of the OCIO. Section 86-418 directs the OCIO to develop and adopt technical and operational standards for any communication system acquired, developed, constructed, or replaced by any state agency, city, county, village, public power district, or political subdivision. Develop incentives to encourage regional cooperation in public safety communication throughout the state. Assist local communities and public safety agencies which desire to connect with a network of regional communication systems.

Section 81-1120.29 establishes the Nebraska Public Safety Communications Revolving Fund for the purposes of sections 81-1120.01 to 81-1120.28 for communications services provided to any agency, department, political subdivision, or other user to pay for administering, operating, and maintaining the system.

The OCIO provides support for all uses of the system, technology refresh and enhancements that benefit the users of the system and their ability to communicate. The Public Safety Communications Program budget also maintains interconnections to towers, backup generators, HVAC and other components to ensure high availability.

During the last biennium, the OCIO added the City of Lincoln system to improve metro area coverage and communications for the state and improved rural coverage to Lincoln/Lancaster users. The City of Norfolk partnered with the OCIO for the same purpose of achieving the mutual benefits of system sharing and communications interoperability.

PROGRAM 535 ADMINISTRATION - OFFICE OF  
RISK MANAGEMENT/STATE CLAIMS BOARD**

**PROGRAM OBJECTIVES**

- To expeditiously process all claims against the State.
- To fully inform all parties of their rights under the various processes.
- To identify and manage the State’s risk exposures from all sources and of all types.
- To recommend and implement methods of eliminating, reducing and funding the costs of these exposures.
- To partner with state agencies and employees to ensure the State is mitigating its risks, adequately protecting its resources, efficiently processing claims against the State, and continually planning for recovery of its resources should something go wrong.

**PROGRAM DESCRIPTION**

**Administration:** By statute, this Program administers all claims against the State unless other specific claim or appeal provisions have been made in statute. This includes workers’ compensation, tort, contract, employee indemnification, insurance (including motor vehicle, property, and employee fidelity), miscellaneous, agency write-off, and other claims. The Division implemented a new Risk Management System on July 1, 2019. The new system reduces manually tracking of open claims and allows agencies the ability to review open claims and provide recommendations within the system. The system also provides greater ability to create and run reports.

**State Claims Board:** The various Claims Acts and the State Claims Board provide the processes by which all claims against the State can be reviewed, approved, disapproved or compromised and certain kinds of state action may be audited. Through board review, public grievances may be heard and settled or sent on to judicial or legislative review depending on the type of claim.

**Insurance/Self-Insurance:** The State has a policy of retaining its risk and purchasing insurance only when certain criteria are met. These criteria include but are not limited to a low cost/high risk balance, some non-general fund sources of payment or a legal requirement by statute, lease or contract.

PROGRAM 536 MISCELLANEOUS CLAIMS**

**PROGRAM OBJECTIVES**

---To efficiently and effectively process all miscellaneous claims filed against the State.

**PROGRAM DESCRIPTION**

Miscellaneous claims are claims against the State for which there is no other specific provision of law or contract claims where neither the claimant nor the state agency object to the jurisdiction of the State Claims Board. Claims under \$5,000 may be approved by the Risk Manager if the agency agrees to such payment. Claims under \$50,000 approved by the State Claims Board may be paid directly by the agency if funds are available. All other claims that an agency cannot or will not pay, all claims over \$50,000 and claims which are denied by the Board and appealed by the claimant are sent to the Legislature. Those claims, if funded by the Legislature, flow through this program.

PROGRAM 560 BUILDING DIVISION**

**PROGRAM OBJECTIVES**

- To review, coordinate, monitor, and manage capital facilities planning, construction and space utilization.
- To provide maintenance and repair for certain state buildings and facilities.
- To provide centralized procurement, operation and management of office space, both state-owned and leased.
- To implement the intent of the Legislature that responsibility for certain state office buildings and laboratory facilities, as well as the operations and maintenance budgets for the Department of Health and Human Services and the Department of Veterans' Affairs 24-hour care facilities, be centralized within the Building Division.
- To prepare a Statewide Comprehensive Capital Facilities Plan.
- To implement orders of the Vacant Building and Excess Land Committee.

**PROGRAM DESCRIPTION**

The State Building Division provides centralized procurement, operation, maintenance and management of office space and independent review, analysis, and oversight of capital construction projects to insure appropriate facilities are provided for the efficient functioning of state government. In fulfilling its purpose, the Building Division: 1) leases all privately-owned office and storage space on behalf of state agencies and provides space planning and coordinates space assignments within such leased space as well as state-owned space; 2) coordinates statewide comprehensive facility planning, reviews capital construction requests, program statements and related contracts and provides reports and recommendations to the Governor and Legislature; 3) manages and maintains certain state-owned buildings and properties including central office buildings and laboratory facilities as well as the operations and maintenance budgets for 24-hour care facilities; 4) manages and maintains related parking facilities; and 5) implements orders of the Vacant Building and Excess Land Committee on the sale, demolition or other disposition of vacant buildings and excess state property.

Centralized facility operations and maintenance budget responsibility prescribed by the Legislature in LB 530 (1995) for certain state facilities, was intended to provide for separation of facility operations and maintenance budgets from agency programmatic budgets. This separation was intended to provide greater stability and consistency in facility operations and maintenance and greater ability to adequately plan for maintenance activities and projects.

LB 439 (2004), created the Office of the Capitol Commission where the State Building Division's responsibilities and staff relating to the Capitol were transferred. LB439 also transferred Lincoln security responsibilities and staff from the State Building Division to the State Patrol.

PROGRAM 573 - TASK FORCE FOR BUILDING RENEWAL/OPERATIONS**

**PROGRAM OBJECTIVES**

Pursuant to the Deferred Building Renewal Act and within funding resources appropriated for state building renewal:

- To address the highest priority deferred repair projects.
- To address the highest priority fire and life safety projects.
- To address the highest priority projects to bring facilities into compliance with the Americans with Disabilities Act (ADA) of 2010.
- To address the highest priority energy conservation projects.
- To provide building maintenance training to assist state agencies with their responsibility to maintain existing facilities and prevent building system failures.
- To provide scans and moisture analysis of state building roofs in order to prioritize roof replacement projects.

**PROGRAM DESCRIPTION**

Program 573 represents the operations program for the “309” Task Force for Building Renewal, a division of the Department of Administrative Services created in 1977 by LB309 following a special legislative review of the condition of state buildings. The Task Force addresses the state’s significant deferred building renewal needs by evaluating eligible projects proposed by state agencies and then determining the highest priority projects for which to allocate available state funds. The program supports staffing costs and other expenses necessary to carry out provisions of law regarding operation of the Task Force. The first four objectives noted above are achieved through systematic, careful, and professional analysis of project requests to determine the highest priority building renewal projects for which to allocate funds. The objectives are also achieved through oversight of funded projects to successful completion. The fifth objective noted above, building maintenance training, is achieved through researching, selecting, funding and administering the best training available.

By law, the Task Force can only address existing buildings and utility systems. All state agencies (with facilities) are eligible for Task Force funding with the exception of the Nebraska Department of Roads. Currently, funds available to undertake building renewal projects are derived from earmarked cigarette tax receipts and rent surcharge assessment revenue (paid by tenants in DAS managed facilities). Task Force staff, comprised of an administrator, three full-time staff and three part-time building renewal consultants, undertakes and supports review of all state agency requests for building renewal projects and oversees several hundred individual projects funded at any given time.

PROGRAM 593 WORKERS' COMPENSATION CLAIMS**

**PROGRAM OBJECTIVES**

---To fund all state workers' compensation costs.

**PROGRAM DESCRIPTION**

This program provides statutory benefits for state officials and employees, including the University and State Colleges, who are injured while performing duties within the course and scope of their state responsibilities.

Workers' compensation claims are self-funded through assessments on an agency basis including the University and State College.

The state presently self-insures for workers' compensation losses. The division is assisted in claims administration by a third party administrator (TPA). Every claim is investigated and accepted or denied. For accepted claims, payments are made for medical, hospital and related expenses and wage losses. Payments and program activities are governed by Nebraska workers' compensation law. The program goals focus on providing medical care to injured employees and returning them to employment goals quickly, reviewing and making payment of all claims in a timely manner, and working cooperatively with the agency personnel, the Attorney General's office and treating professionals.

PROGRAM 594 STATE INSURANCE**

**PROGRAM OBJECTIVES**

- Determine the State’s insurance requirements and identifying the most appropriate methods of funding or transferring the risk.
- Contract for a broker of record to work with Risk Management to set specifications and go directly to the market for the best price.
- To provide a financing mechanism for losses, to stabilize the impact of losses to agencies and to minimize the cost of insurance by retaining an appropriate portion of losses.

**PROGRAM DESCRIPTION**

This program is funded through agency assessments for the purchase of insurance. Continuing funds in the account are reserves on claims which have already occurred and are awaiting settlement, judgment or resolution. The current high self-insured retentions allow the state to retain reserves and keep the benefit of any interest until the claim must be paid.

The costs of insurance purchases and claim payments are funded through this program. The division is assisted in claims administration by a third party administrator (TPA). The office has no direct funding to purchase insurance but is authorized to bill each agency and pay the premiums from this fund. Coverage under this program includes automobile liability, real property, insurance equivalent to an employee blanket surety bond, crime and foster parents. Agencies have the option to purchase coverage for their stationary or moveable personal property or automobile comprehensive and collision coverage. Motor vehicle liability is currently insured under a high self-insured retention program with an even higher retention for hot pursuit related claims.

With the exception of the University and State Colleges, all purchases of insurance are through this office.

PROGRAM 537 COMMISSION ON LATINO-AMERICANS**

**PROGRAM OBJECTIVES**

- To act as an information and referral service on Latino issues
- To research problems of Latinos.
- To stimulate public awareness of the problems of Latinos.
- To propose solutions to those problems
- To evaluate the results of the solutions implemented.

Systemic issues may not be apparent; subjects such as progress on economic development, educational achievement, and access to healthcare and health status are better defined by trends based on specific variables. The commission endeavors to gather the data necessary for this analysis.

Educational Summit where between 600-900 middle and high school Latino students are exposed to motivational speakers, education experts, college admission and scholarship experts, diverse colleges and universities that promote their programs, etc. This is the only opportunity that the students have of coming face to face with all these opportunities. The Hispanic Heritage Month celebration is another venue for the Commission to educate the public on the accomplishments of the Latino community and the impact of those accomplishments on Nebraska.

The commission collaborates with Nebraskaland and the City of Lincoln during the Day of The Dead event. The Hispanic Chamber of Commerce regularly communicates with the Commission regarding Latino issues, other partners include the Centro Hispano Comunitario in Columbus, Centro de Las Americas in Lincoln, Latino Center of the Midlands and Heartland Workers Center in Omaha, and Unity in Action in South Sioux City.

#### **Foster Care Review Office (FCRO)**

The Foster Care Review Office (FCRO) was established in 1982 as the Foster Care Review Board. The governance and name was changed to the FCRO per LB 998 in the 2012 Legislature. The FCRO operates a statewide register (database) of all children/youth in out-of-home care as defined under statute through the Department of Health and Human Services and Office of Probation Administration; selects and trains volunteers to serve on local foster care review boards; completes a case file review process for each child/youth; issues the required case-specific reports with recommendations to the courts and legal parties; analyzes and disseminates data; provides recommendations for system improvements through an annual report, three quarterly reports, and specific data requests; and provides other services as required in the Foster Care Review Act. The FCRO is the designated state agency to conduct the federally required Title IV-E reviews. A five-member, governor-appointed and legislatively confirmed, Advisory Board provides input to the operations of the agency.

As of July 2020, there were 53 local review boards that meet in the following Nebraska communities: Bellevue, Columbus, Fremont, Grand Island, LaVista, Lexington, Lincoln, Norfolk, North Platte, Omaha, Papillion, Scottsbluff, Seward and York. There are over 350 volunteers actively serving on the local review boards. Agency staff who facilitate the reviews are located across the state.

#### **Nebraska Children’s Commission**

**AGENCY 70 FOSTER CARE REVIEW OFFICE  
PROGRAM 116 STATE FOSTER CARE REVIEW OFFICE**

**PROGRAM OBJECTIVES**

- Independently track all children in out-of-home care under the jurisdiction of the Department of Health and Human Services and the Office of Probation.
- Review children and youth in out-of-home care to assure they have appropriate permanency plans, timely and appropriate services and placements, make required findings and recommendations regarding identified issues.
- Recruit, train, staff and support local foster care review boards throughout the state.
- Collect and verify information regarding children in out-of-home care and trial home visits.
- Evaluate, analyze, and disseminate data on children through quarterly and annual reports, special reports, and fact sheets, to the Legislature, and other means.
- Increase public knowledge and understanding of child welfare and juvenile justice issues.
- Promote safety and security of children through tracking, review, touring child caring facilities, legal standing and other actions to promote permanency.

**PROGRAM DESCRIPTION**

The FCRO operates a statewide database of all children/youth in out-of-home care as defined under statute; selects and trains volunteers to serve on local foster care review boards; issues the required case-specific reports with recommendations to the courts and legal parties following reviews; analyzes and disseminates data and provides recommendations for system improvements through a variety of means including an annual report, three quarterly updates, and specific data requests; and provides other services pursuant to the Foster Care Review Act. The FCRO is the designated state agency to conduct the federally required Title IV-E reviews.

FCRO local boards from across Nebraska review the cases of individual children in out-of-home care based upon information gathered by FCRO staff. These individual reviews include children in HHS/CFS custody; children in HHS/CFS trial home visits; youth on juvenile probation through the Office of Probation Administration; and young adults receiving Bridge to Independence funds. As part of the review process, the FCRO local boards make recommendations to legal stakeholders on a case regarding the child's/youth's permanency plan; services currently offered to the child/youth and family; safety and appropriateness of the placement; identification of barriers to permanency regarding all stakeholders; and case-specific recommendations as to alleviation of these barriers. These recommendations and findings are sent to the court, the agency responsible for the child, the child's guardian ad litem, the county attorney, the parent's attorney and any other legal party. After submission of the recommendations, FCRO staff continue to advocate with all stakeholders to ensure that the best interest of children/youth are being met. This advocacy can take numerous forms which could include the FCRO statutory authority to visit foster care facilities/placements and the ability to take legal standing in order to participate in court proceedings concerning cases reviewed by the agency.

As part of the individual reviews, FCRO staff also collect data for each child/youth reviewed. This data, along with data from HHS/CFS and Office of Probation Administration, is collected into the FCRO database. The information in the FCRO database is analyzed and used as the foundation for the FCRO Annual and Quarterly Reports. Based upon the analysis of the data, these Reports also contain key recommendations for systemic improvement by all stakeholders.

### **AGENCY DESCRIPTION**

The Power Review Board was created in 1963 under the Department of Water Resources as a regulatory and quasi-judicial administrative agency with jurisdiction over Nebraska's electric power industry. In 1980, the Board became independent. The Board consists of five members appointed by the Governor and confirmed by the Legislature. The Board is required to include one attorney, one engineer, one accountant and two lay persons. Statutes authorize the Board to hire an executive director, staff and consultants to carry out the Board's activities. The Board currently has three staff members: an executive director/general counsel, a business manager, and a paralegal.

One of the Board's primary functions is to act in a quasi-judicial capacity to resolve disputes between Nebraska's publicly-owned electric utilities. The Board has limited authority to resolve disputes between power suppliers and customers. The Board's duties include the following:

1. Approve petitions to create public power districts and any amendments to the existing charters of public power districts;
2. Approve electric utility service areas and designating who shall serve in these areas;
3. Approve amendments to service areas;
4. Conduct hearings and approve applications to construct generation and transmission facilities;
5. Approve creation of agencies for joint financing for municipalities;
6. Approve creation of joint agencies for the purpose of rural public power district financing;
7. Approval of microwave communication facilities constructed by public power utilities;
8. Act as the official repository for numerous documents, including wholesale and retail service area agreements, public power district petitions for creation and all amendments, and agreements transferring ownership of assets from one utility to another;
9. Conduct hearings on rate disputes between power suppliers, and between power suppliers and customers in rate discrimination cases or failure to provide electric service.
10. Although not a statutorily mandated duty, the Board has a designated representative on various committees, working groups and task forces as Nebraska's regulatory agency that participates in the activities of the Southwest Power Pool (a regional transmission organization that oversees the transmission grid in Nebraska) and on the Western Interconnection Regional Advisory Body that serves as an advisory body on transmission reliability issues in the western U.S., including a portion of Nebraska's panhandle.

PROGRAM 150 JUVENILE SERVICES ACT/OPERATIONS & AID**

**PROGRAM OBJECTIVES**

---To increase the number of communities establishing alternatives to detention programs and prevention programs which involve family support, monitoring, and after-school programs.

**PROGRAM DESCRIPTION**

The Juvenile Services Act appropriates general funds to assist local communities with programs that provide alternatives to juvenile incarceration. Funds are awarded on a competitive basis. Each community applying for Juvenile Services funds is required to develop and submit to the Crime Commission a comprehensive community juvenile services plan with their grant application. The plan must have the input of citizens within the community and must identify the gaps, needs, and plans to address those needs. Grant funding may be used to implement and operate programs addressing such issues as the prevention of delinquent behavior, diversion and other alternatives to detention, detention programs, shelter care, intensive juvenile probation services, restitution, and family support services.

The Nebraska Coalition for Juvenile Justice (NCJJ) is responsible for the awarding of the grant funds. To help focus efforts across the state and because funding is limited, NCJJ selects priority areas for funding. The NCJJ is also responsible for developing a uniform statistical data collection system and for developing a statewide system to monitor and evaluate the effectiveness of community plans to rehabilitate juvenile offenders and to prevent juveniles from entering the juvenile and criminal justice system.

Eligible applicant means a community-based agency or organization, political subdivision, school district, federally recognized or state-recognized Indian tribe, or state agency.

A renovation and expansion of the Training Center facility was completed in 2005 for \$11,385,000. This project added classrooms, a gymnasium, weight room, dormitory rooms, office space, a firearms simulator, a vehicle inspection building, and a dog kennel. The dining and kitchen facilities were also expanded, and improvements were made to the firearms range, driving track, and student lounge. The State Patrol training academy is now co-located at the expanded Training Center facility. Laws 2012, LB817, requires the Training Center to create and maintain the continuing education records for each law enforcement agency in Nebraska.

**PROGRAM DESCRIPTION**

The Crime Commission has the statutory responsibility to provide for crime victims faster and more complete recoveries from the effects of crime by establishing centers for victim and witness assistance. The federal Victims of Crime Act (VOCA) makes federal funds available to states for victim assistance programs if the funds are not used to supplant state and local funds. The funds are intended to enhance or expand services. VOCA funds come from fines and penalties from defendants of federal cases. There is also a General Fund appropriation.

The funds partially support local victim/witness centers across Nebraska. A General Fund appropriation in Program 198 funds VINE (Victims Information Notification Everyday). VINE is a statewide computerized victims' notification system. Victim/witness centers provide direct services to victims of crime (crisis intervention and criminal justice advocacy).

The Crime Commission provides technical assistance and training for victim/witness centers. The centers are also monitored to ensure the quality of services.

PROGRAM 203 JAIL STANDARDS BOARD**

**PROGRAM OBJECTIVES**

- To establish standards for construction, maintenance, and operation of all Nebraska jails.
- To inspect adult jails and juvenile detention facilities to ensure compliance with the standards and to provide technical assistance to jails and juvenile detention facilities.

**PROGRAM DESCRIPTION**

A twelve-member Jail Standards Board appointed by the Governor is responsible for the promulgation and enforcement of minimum standards for the maintenance, operation, and construction of adult and juvenile criminal detention facilities. The Board has the authority to petition the district court for closure of facilities failing to comply with the Standards. Staff support to the Board is provided by the Jail Standards Division of the Crime Commission. The Crime Commission also provides budgetary and administrative support.

The minimum jail standards have been in effect since 1980. The minimum juvenile detention facility standards have been in effect since 1993. Staff conducts annual inspections of each detention facility to monitor compliance with the standards. Written reports of such inspections are prepared and submitted to the Jail Standards Board for review and official action. The state's 68 operational jail facilities, three juvenile detention facilities, and three staff secure facilities receive an annual inspection. The Jail Standards Board meets quarterly to review reports and take action.

Laws 2011, LB390, exempted correctional facilities that are accredited by a nationally recognized correctional association from the authority of the Jail Standards Board. Such facilities shall show proof of accreditation annually to the Jail Standards Board. The only county exempt is Douglas County.

In addition to conducting jail and juvenile detention inspections, the Jail Standards Division provides technical assistance to local jails and juvenile detention facilities in such areas as training, policy and procedure development, and facility planning. The Division maintains a statewide database pertaining to the number of inmates held in local jails.

PROGRAM 204 OFFICE OF VIOLENCE PREVENTION/OPERATIONS & AID**

**PROGRAM OBJECTIVES**

--- To aid in the development, growth, and overall assessment of violence prevention programs throughout the State of Nebraska.

**PROGRAM DESCRIPTION**

Laws 2009, LB63, established the Office of Violence Prevention (OVP) (Sections 81-1447 to 81-1451). OVP consists of a director appointed by the Executive Director of the Crime Commission, and a six-member advisory council appointed by the Governor. The advisory council members serve without compensation but may be reimbursed for their expenses. OVP and its director are responsible for developing, fostering, promoting, and assessing violence prevention programs.

The advisory council's duties include receiving applications for violence prevention funds, evaluating such applications, and making recommendations to the Crime Commission regarding the merits of each application and the amount of any funds that should be awarded. If funds are awarded to a violence prevention program, the advisory council monitors how such funds are being used, conducts periodic evaluations of such programs, assesses the progress and success regarding the stated goals of each program awarded funds, and recommends to the Crime Commission any modification, continuation, or discontinuation of funding.

Priority for funding shall be given to communities and organizations seeking to implement violence prevention programs which appear to have the greatest benefit to the state and which have, as goals, the reduction of street and gang violence and the reduction of homicides and injuries caused by firearms. Laws 2015, LB167, included the creation of youth employment opportunities in high-crime areas as an additional priority focus.

PROGRAM 210 STATE AGENCY BYRNE GRANTS**

**PROGRAM OBJECTIVES**

- To increase the level of effort and resources against drug abuse and trafficking.
- To reduce drug and violent crime and to distribute funds to implement anti-drug programs.

**PROGRAM DESCRIPTION**

The purpose of the Edward Byrne/Justice Assistance Block Grant Program (Byrne grant) is to assist states and units of local government by funding specific programs which offer a high probability of improving the criminal justice system in the areas of drug arrests, drug activity, and violent crime.

Program 210 was established by the DAS Budget Division to provide a separate accounting for Byrne federal funds awarded to state agencies. An estimated amount of federal funds are appropriated to Program 210 of the Crime Commission's budget. When the Crime Commission awards these funds, they are transferred to Program 575 for each state agency that received a Byrne Grant.

State agencies that have received Byrne grants include the State Patrol, Department of Correctional Services, Attorney General, and the Crime Commission.

Agencies seeking these federal funds had been required to provide a match of 25%. The match requirement was eliminated in FY2013-14.

PROGRAM 215 CRIMINAL JUSTICE INFORMATION SYSTEM**

**PROGRAM OBJECTIVES**

---To improve the automation and sharing of information within the criminal justice system.

**PROGRAM DESCRIPTION**

NCJIS (Nebraska Criminal Justice Information System) refers to a cooperative effort hosted by the Crime Commission with the participation of 27 state and local agencies or associations. NCJIS is a secure data-sharing portal that allows access to various databases for authorized agencies. The primary purposes of NCJIS are (1) to promote the sharing and availability of data among agencies, (2) to implement programs and systems that assist state and local agencies in the performance of their duties, and (3) to provide an inter-agency forum for issues.

Projects include:

- Victim Information and Notification Everyday (VINE) – a system allowing victims, the public, and law enforcement access to information on people held in jail or prison.
- Electronic citations issued at the roadside and sent to prosecutors and courts.
- Juvenile Diversion Case Management System.
- Jail Management software is provided to more than 60 jails that meet VINE’s needs and provide full functionality for jail operations.
- Pilot project of a protection order portal with submission of data to NCIC (National Crime Information Center) for national access.
- Nebraska State Patrol’s Combined DNA Index System (CODIS) – for entering and searching DNA samples.

PROGRAM 220 COMMUNITY CORRECTIONS DIVISION**

**PROGRAM OBJECTIVES**

- To develop and monitor a comprehensive community corrections strategy and to emphasize offender culpability and accountability.
- To reduce incarceration of low-risk offenders without jeopardizing public safety.
- To provide funds to eligible justice stakeholders from the Uniform Data Fund for technology projects to enhance the collection and analysis of justice data.

**PROGRAM DESCRIPTION**

In September 2001, the Governor created the Community Corrections Working Group to address the impending offender population crisis without constructing a new prison. The Working Group was mandated to propose policies to control the prison population, maintain and enhance justice, reduce taxpayer cost, and ensure public safety. In December 2002, the Working Group developed a proposal which became Laws 2003, LB46, legislation that created the Community Corrections Council and established a statutory framework to promote the use of community-based alternatives to incarceration.

Laws 2011, LB390, created the Community Corrections Division of the Crime Commission. It eliminated the Community Corrections Council and transferred the Council's duties and staff to the new division. LB390 also moved the General Fund appropriation for the community corrections programs from the Crime Commission to the Supreme Court.

The primary mandate of the Division is to support the continued development and implementation of a statewide network of community corrections programs as a means to reduce prison overcrowding. The role of the Division in this effort is to evaluate and recommend improvements to existing community corrections programs, and provide objective research and information on community corrections issues.

## **PROGRAM OBJECTIVES**

- To operate a comprehensive and coordinated program designed to assist individuals who are blind to gain remunerative employment, enlarge economic opportunities for blind persons, increase the range and diversity of available occupations for blind persons, stimulate other efforts enabling blind persons to become self-supporting, and provide services promoting greater independence for blind persons at home and in the community
  
- To supervise vending units operated by blind persons.
  
- To provide services with two major areas of emphasis: VOCATIONAL REHABILITATION SERVICES: provide services reasonable and necessary to achieve an employment outcome to eligible individuals who are blind; and INDEPENDENT LIVING: services to assist blind individuals whose visual impairment or other disabling condition makes competitive employment extremely difficult to obtain but for whom independent living goals are feasible or for otherwise eligible blind persons for whom competitive employment is not a goal.

## **AGENCY DESCRIPTION**

Nebraska Commission for the Blind and Visually Impaired (NCBVI) operates the vocational rehabilitation program for the blind in Nebraska. A governing board, the majority of whom are persons who are blind or visually impaired, appointed by the Governor of the State of Nebraska serves to assure the agency is consumer-controlled. NCBVI undertakes to review and analyze the effectiveness of services and consumer satisfaction with services provided by the Commission, vocational rehabilitation services provided by other state, public and private entities, and employment outcomes achieved by eligible individuals receiving vocational rehabilitation services from NCBVI, to assure high quality, career track employment outcomes, with health and other employment benefits, wages comparable to state wages for non-disabled persons, and equity for persons of minority status.

NCBVI is committed to the provision of rehabilitation services to blind and visually impaired children and youth and their families as early as possible in the child's development. Transition-aged clients are encouraged to elevate their expectations for personal achievement. This can translate to higher education, often delaying their ultimate employment. It may take more years to reach that goal, but when they do, it will be in a career that will pay well, have benefits, and the chance for promotions. Our field supervisors, the Transition Services Specialist and counselors are strengthening the relationship between NCBVI and schools statewide on behalf of blind and visually impaired students and also their parents/guardians. Transition-aged clients are encouraged to elevate their expectations for personal achievement. This can translate to higher education, often delaying their ultimate employment. It may take more years to reach that goal, but when they do, it will be in a career that will pay well, have benefits, and the chance for promotions.

NCBVI has two physical offices and staff on other four rural areas throughout the State of Nebraska, to reach blind and visually impaired persons in their home communities. Vocational

AND VISUALLY IMPAIRED, cont'd.**

Rehabilitation staff travel around their areas to meet with referrals and clients, to educate the public and employers, and to reach out to individuals who may need our services. NCBVI counselors and technology specialists attend IEP meetings at the school as well as are in constant communication to promote our services. We continue to provide staff with trainings to further educate on ways to include all clients in group activities and provide the necessary supports. Our districts have also started to provide workshops for Pre-Employment Transition students to attend and learn skills in a fun and educational environment with their fellow peers.

NCBVI provides assistive technology services throughout the state of Nebraska to blind and visually impaired consumers. NCBVI's team of technology specialists provides assessment, consultative support, and training on mainstream and access technology products. The specialists participate in trainings and research to discover technology solutions and provide consumers the ability to weigh the pros and cons of specific technologies to support their informed choice. We also contract with third parties to make software accessible and with others to provide training when additional consultation is needed. NCBVI collaborates with the Assistive Technology Partnership (ATP) throughout the state.

NCBVI staff collaborates with other components of the workforce system to assure there is knowledge of and access to providing services to persons who are blind or visually impaired. The agency website is updated continuously and provides information to the public about available services and resources, avenues to apply for services, and ask questions, and so forth. Our field supervisors had develop partnership with their local businesses and local governments to educate them about our agency and the capability of the blind in the workforce. NCBVI has also developed workshops for clients that give a jump-start toward competitive employment. They also serve to educate business people about the features and benefits involved with hiring blind job candidates, the capabilities of blind individuals, and technology related to blind persons in the workplace. These events have been highly effective in the short term and are expected to garner additional benefits over time.

The mission of NCBVI is "Empowering Blind Individuals, Promoting Opportunities, and Building Belief in the Blind." NCBVI's primary priority is to enable persons who are blind and visually impaired, including those with multiple disabilities (i.e., hearing impairment, brain injury, mental illness) to achieve their individual goals for competitive integrated employment (including supported employment). A secondary priority is to enable persons who are blind and visually impaired, including those who also have multiple disabilities, to achieve their individual goals to live independently and to be full participants in their home communities. Clients are encouraged to examine whether, if not for blindness, he or she would still be in the workforce. If so, counselors help individuals to understand blindness and to raise personal expectations and aspirations. This process often leads to employment goals for individuals who otherwise would not have believed that they could be successful in the job market as a blind or visually impaired person.

### **AGENCY DESCRIPTION**

Nebraska's Community Colleges provide both full-time and part-time occupational and applied technology education, access to postsecondary education for non-traditional students and industrial development job training and retraining in the state. The colleges also provide foundations education, including remedial and developmental, adult basic education, general education development, English as a second language, compensatory education and refresher courses. General academic transfer programs, designed for transfer of college credits to baccalaureate institutions, are offered at most campuses. In addition, avocational and recreational courses, public service, and economic development activities are delivered as part of the colleges' role and mission.

The State is divided into six community college areas, each representing an independent political subdivision. The Nebraska community college system is not a state agency per se. The six community college areas comprise a group of political subdivisions for which state aid is appropriated. Each area is governed by an elected 11-member board, of which 2 members are elected from each of 5 districts within the area, while the 11th member is elected from the area at large. Area boards employ administrators, faculty and staff, approve all capital construction projects and budgets, establish tuition and fee rates, levy local property taxes to support the institutions and establish area operational policies. Areas receive their principal financial support through local property taxes, state aid, and charges for tuition and fees. Section 85-1502 recites the intent of the Legislature that coordination of the community colleges by the Coordinating Commission for Postsecondary Education be conducted as provided in Article VII, section 14, of the Constitution of Nebraska and the Coordinating Commission for Postsecondary Education Act. Additionally, section 85-1502 provides that membership in any boards or associations of community colleges be voluntary. Presently; the Central, Mid-Plains, Northeast, Southeast and Western Community College Areas comprise membership of the Nebraska Community College Association.

**AGENCY 83 AID TO COMMUNITY COLLEGE AREAS  
PROGRAM 151 AID TO COMMUNITY COLLEGES**

**PROGRAM OBJECTIVES**

- To promote quality postsecondary education and to avoid excessive and disproportionate taxation upon the taxable property of each community college area.
- To join with local governing bodies in a strong and continuing partnership to further advance the quality, responsiveness, access, and equity of Nebraska's community colleges and to foster high standards of their performance and service.

**PROGRAM DESCRIPTION**

State aid for 2011-12 and 2012-13 was distributed according to proportions of total state aid appropriations as specified for each community college area in section 90-517. For 2013-14 and subsequent fiscal years, distribution of state aid among community college areas has been governed by provisions of the Community College Aid Act which is codified in sections 85-2231 to 85-2237. For 2013-14 and subsequent fiscal years, the act provides that the initial \$87,870,147 of community college aid is to be allocated in the same proportion as was specified for 2011-12 and 2012-13. If the amount appropriated for state aid to community college areas for 2013-14 or future years is less than the \$87,870,147 appropriated for 2012-13, the amount appropriated is to be allocated in the same proportions as was the case for 2011-12 and 2012-13. If the amount appropriated for 2013-14 and future fiscal years is greater than the \$87,870,147 appropriated for 2012-13, the excess amount is to be allocated as follows:

- (a) Up to but not to exceed \$500,000, is to be allocated as aid or grants as determined by the Nebraska Community College Student Performance and Occupational Education Grant Committee according to provisions of section 85-1539.
- Of the excess amount remaining after (a) above,
- (b) 25% is to be divided equally among the six community college areas;
  - (c) 45% is to be allocated based on each community college area's most recent three-year average full-time equivalent enrollment; and,
  - (d) 30% is to be divided based on each community college area's most recent three-year average reimbursable educational units. Reimbursable educational units (as defined in Sec. 85-1503) represent a weighted measure of full-time equivalent enrollment that weights enrollment in applied technology courses more heavily than enrollment in general academic courses.

The Community College Aid Act assigns responsibility to the Coordinating Commission for Postsecondary Education with respect to certification and administration of aid distributed according to provisions of the act.

The Remediation Section is responsible for corrective action activities for the Integrated Solid Waste Management, RCRA Hazardous Waste, Superfund, and the Remedial Action Plan Monitoring Act programs. These programs oversee the investigation, monitoring, and cleanup of pollution found at landfills, industrial sites, dry cleaners, grain bins, etc. The Waste Management Section issues permits and enforces requirements for disposal areas, processing facilities, hazardous waste management and scrap tire management. The Planning and Aid Section administers solid waste grants.

**The Water Quality Division** develops water pollution control standards and monitors state water quality. The Division regulates injection into wells and exploration of minerals except oil and gas; develops the state's TMDL, accomplishes water monitoring, and manages the non-point source pollution programs. The Water Quality Division provides support for and administers wellhead protection, source water protection, agricultural chemical secondary containment, groundwater management areas, and leaking petroleum storage tank programs to protect ground water.

**The Water Permits Division** issues permits to entities discharging effluent into the state's waters, provides training and certification for wastewater treatment operators, is responsible for permitting and inspecting agricultural livestock waste control facilities, and operates the state's chemigation, secondary containment and on-site wastewater system programs. This Division offers construction grants and state revolving loan programs for wastewater facilities and drinking water systems.

**The Management Services Division** provides the Department with information management, budget and fiscal services, human resources, contracting and grants support, records management, public information coordination, the Title III Community Right to Know Program and emergency response activities.

---To assist public water supply systems in achieving compliance with the Federal Safe Drinking Water Act.

**PROGRAM DESCRIPTION**

The Drinking Water State Revolving Fund provides low-interest loans to owners of public water supply systems for construction of these systems. The Drinking Water State Revolving Fund was created by Congress to assist public water supply systems in attaining compliance with the federal Safe Drinking Water Act. Program staff work in cooperation with the Department of Health and Human Services Division of Public Health staff to manage the program, and with the Nebraska Investment Finance Authority (NIFA) to develop bond issues to provide the state's 20 percent match to federal capitalization grants. Projects are monitored during construction for compliance with construction and administrative requirements. ## **AGENCY DESCRIPTION**

The Public Employees Retirement Board was created in 1971 to centralize and combine the administration of retirement systems for public employees. The eight-member board (after January 1, 2005), appointed by the Governor and confirmed by the Legislature, serves five-year terms and administers the following retirement plans:

- State Employees Retirement Plan
- Retirement System for Nebraska Counties (except Lancaster & Douglas)
- State Patrol Retirement System
- Judges Retirement System
- School Employees Retirement System
- State Deferred Compensation Plan

The State Investment Officer serves as an ex officio, non-voting member.

A pre-retirement education program was initiated in 1987 for all plan members age 50 or more. In 1991, State law authorized the board to conduct Financial Management seminars for state and county plan members and their spouses under the age 50.

The board's administrative expenses are funded through a cash fund utilizing a portion of investment income earned with the investment of funds from each retirement system. General funds are used to fund normal costs and unfunded liabilities of the defined benefit plans.

Effective July 19, 1996, the investment responsibility for the Deferred Compensation Plan was transferred to the Nebraska Investment Council.

Effective January 1, 1997, the investment responsibility for the State Employees and County Employees Retirement Plans was transferred to the Nebraska Investment Council.

An employer education program was initiated in 2001 to educate employers on retirement plan requirements.

### **AGENCY DESCRIPTION**

With the passage of the Dry Bean Resources Act in 1987, the Dry Bean Development, Utilization Promotion and Education Fund was created by the Legislature. The Act is administered by the Dry Bean Commission, which is authorized to work in the areas of research, education, advertising, publicity and promotion with the goal of increasing per capita consumption of dry beans on a state, national and international level.

The commission consists of nine members: four grower representatives and three processor representatives appointed by the Governor and two at-large grower representatives appointed by the commission. The dry bean producing region is divided into districts based on production and each district is represented by one Governor-appointed grower representative plus one at-large grower representative for Districts I and II and one at-large grower representative for Districts III and IV.

**AGENCY 86 DRY BEAN COMMISSION  
PROGRAM 137 DRY BEAN COMMISSION**

**PROGRAM OBJECTIVES**

- To develop, implement and participate in programs which provide for the promotion of Nebraska-grown dry beans with the goal of increasing per capita consumption world-wide.
- To foster cooperation with and participate in organizations of dry bean producing areas.
- To identify and support research to maintain and to improve the quality of Nebraska's dry bean production and to find new food product uses for that production.
- To serve as a forum for and solicit input from producers and processors of dry beans.
- To develop, implement and participate in programs which provide for the continuing education of Nebraska's dry bean growers.

**PROGRAM DESCRIPTION**

Promotion is considered to be an area of emphasis to the Commission. Past surveys of Nebraska's producers and processors, as well as continual yearly public comment sessions, indicates the industry supports investment of check-off funds on promotion of dry beans on a state, national and international level. The Commission continues to participate in the U. S. Dry Bean Council (USDBC), an association of dry bean producing state agencies devoted solely to promotion and advertising. The USDBC also administers the Market Access Program (MAP) funds through which the Commission undertakes programs of international market development.

Research contracts with the University of Nebraska and other independent contractors provide funding for project areas of new product development, education and production research, which helps keep Nebraska dry bean industry competitive in the work marketplace. To provide timely information to the state's dry bean growers, the Commission purchases subscriptions to the Bean Bag, a newsletter published quarterly by the Nebraska Dry Bean Growers Association. The Commission also has pertinent information for dry bean growers and consumers on the Commission website.

Research projects that consider new food and industrial uses of corn are pursued. Education and promotion programs are developed for both the producers' and consumers' benefit. Market development programs are both international and domestic in nature and are geared towards bulk corn sales and value-added products made from corn. The Board is the leading spokesperson for the Nebraska corn industry which represents over 26,000 corn producers. The Nebraska Corn Development and Marketing Board has the ability to use up to 25% of its budget to influence federal legislation that will impact corn producers.

The Grain Sorghum Program was created in 1981 to fund market development, promotion, education and research programs related to grain sorghum. In 1985, the Board's statutory authority was broadened to allow up to 25% of the budget to be used to influence federal legislation. Effective July 1, 1992, the Nebraska Grain Sorghum Board was granted separate non-code agency status. Prior to that time, the Board was included as a sub-division of the Nebraska Department of Agriculture.

A seven-member board has the responsibility to administer, supervise and operate the program. Six of the Board members are appointed by the Governor to three-year terms on a district basis. The seventh member, serving in an at-large capacity, is elected by the Board. Board members must be citizens of Nebraska who are at least 21 years old and are actually engaged in grain sorghum production. The Director of the Department of Agriculture and the Vice Chancellor of the University of Nebraska's Institute of Agriculture and Natural Resources serve as ex-officio members of the Board. ## AGENCY DESCRIPTION

The Tax Equalization and Review Commission was created January 1, 1996, subsequent to the passage of Laws 1995, LB 490 and the adoption of LR 3CA in 1995. The original Commission was made up of three commissioners: one appointed by the Governor from each congressional district. An at-large commissioner position was created by Laws 2001, LB 465, and the Commission had four commissioners until October 1, 2011. Laws 2011, LB 384 reduced the number of commissioners to three again; one commissioner appointed by the Governor from each congressional district. Each commissioner serves a staggered six-year term, and the office of chair rotates every two years. One commissioner must be a licensed real estate appraiser, and one commissioner must have been engaged in the practice of law for at least five years and must be admitted to practice before the Nebraska Supreme Court. Each commissioner must complete certain training requirements, and the commissioners' salary is set by the Governor.

A filing fee is required for each appeal filed with the Commission, except if the appeal is filed by a county assessor, the Tax Commissioner, the Property Tax Administrator, or a county board of equalization. The fee is placed in the Tax Equalization and Review Commission Cash Fund, which was created by Laws 1997, LB 240. Laws 2020, LB 4 increased the filing fee for appeals from \$25 to a sliding scale based on the taxable valuation of the property at issue in the appeal. The fee scale is as follows:

- \$40 if the taxable value is less than \$250,000;
- \$50 if the taxable value is at least \$250,000 but less than \$500,000;
- \$60 if the taxable value is at least \$500,000 but less than \$1,000,000;
- \$85 if the taxable value is at least \$1,000,000; or
- \$40 for any other appeal or petition.

Laws 2020, LB 4 also authorized payment of mileage for round-trip travel from the commissioners' residence to the state office building, hearing location, or any other location of official commission business, due to the domicile requirements for each commissioner, from the TERC Cash Fund.

## **AGENCY 94 COMMISSION ON PUBLIC ADVOCACY**

 Lincoln, NE 68508

**LEGISLATIVE** Doug Nichols  
**FISCAL OFFICE:** 402-471-0052

**EXECUTIVE** Joe Wilcox  
**BUDGET OFFICE:** 402-471-4178

### **AGENCY DESCRIPTION**

The Commission on Public Advocacy was created in 1995, pursuant to LB646, to provide property tax relief to counties by having the state pay a majority of the legal costs for indigent defendants, including juveniles, who are charged with first-degree murder, violent felonies, or drug offenses at trial, on direct appeal, and in post-conviction actions. The commission represents indigent defendants in counties that have no public defender or that have a conflict in their public defender's office. The commission continues to be funded by court fees with no reliance upon any General Funds to operate. Counties pay nothing for legal services when the commission is appointed, which in turn results in property tax relief to such counties.

The commission consists of nine members appointed by the Governor from a list of attorneys submitted by the Nebraska State Bar Association. Members must have substantial experience in criminal defense work. They may not be prosecutors, law enforcement officials, or judges during their terms of office. Members serve six-year terms and are reimbursed for expenses.

PROGRAM 430 RURAL PRACTICE LOAN REPAYMENT ASSISTANCE**

**PROGRAM OBJECTIVES**

---To provide educational loan forgiveness to lawyers employed in qualified areas.

**PROGRAM DESCRIPTION**

The Legal Education for Public Service Loan Repayment Act was created by LB1014 in 2008. Laws 2014, LB907, expanded the loan repayment program for public service to include rural legal profession shortage areas, and renamed the Act the Legal Education for Public Service and Rural Practice Loan Repayment Assistance Act.

LB907A transferred \$500,000 from the General Fund to the Legal Education for Public Service and Rural Practice Loan Repayment Fund. The Fund provides a maximum award amount of \$6,000 per year per recipient but can be increased on an annual basis to adjust for inflation.

Laws 2018, LB945, included a transfer of \$125,000 in FY2017-18 and \$150,000 in FY2018-19 from the State Settlement Cash Fund to the Legal Education for Public Service and Rural Practice Loan Repayment Assistance Fund. LB944, 2018, then appropriated these amounts.

LB1008, 2020, authorized a transfer of \$150,000 in FY2020-21 from the State Settlement Cash Fund to the Legal Education for Public Service and Rural Practice Loan Repayment Assistance Fund. The bill also stated that it is the intent of the Legislature that the transfers from the State Settlement Cash Fund to the Legal Education for Public Service and Rural Practice Loan Repayment Assistance Fund be ongoing as authorized by section 59-1608.04.

**AGENCY 94 COMMISSION ON PUBLIC ADVOCACY  
PROGRAM 455 DNA TESTING**

**PROGRAM OBJECTIVES**

---To accept appointments to represent qualifying indigent prisoners.

---To pay for DNA testing of indigent prisoners.

**PROGRAM DESCRIPTION**

The DNA Testing Act was authorized by Laws 2001, LB659. The Act allows offenders, any time after conviction, to file a motion in the court that entered the original judgment requesting forensic DNA testing of any biological material that meets the following conditions:

- The material is related to the investigation that led the inmate to be incarcerated;
- The material is under the control of the state or others under conditions likely to safeguard the integrity of the materials; and
- The material was not previously subjected to DNA testing or could be subject to retesting with newer DNA techniques.

The Act requires that after a motion is filed, the county attorney of the original prosecuting county has a duty to inventory and preserve existing biological material from the case. The court must order DNA testing based on the following determinations:

- The testing was not available at the time of the trial;
- The biological material was held under circumstances that could ensure its integrity; and
- The testing could produce evidence of a wrongful conviction or sentencing.

The Act requires that the commission represent indigent prisoners and pay for DNA testing. The commission pays for such testing from cash funds appropriated in its operating budget.
