BOARDS AND COMMISSIONS IN NEBRASKA, 1998

Introduction

Nebraska has more than 250 statutorily created boards and commissions that perform a variety of governmental functions. Often, boards and commissions serve narrow functions within larger agencies of government (for example, the Alcoholism and Drug Abuse Advisory Committee within the Department of Health and Human Services), and, taken as a whole, they comprise a large segment of what are known as the “noncode” agencies of government (for example, the Corn Board, the Nebraska Liquor Control Commission and the Foster Care Review Board). Their duties include regulatory, licensing, administrative, and oversight functions.

In 1997, the Executive Board of the Legislative Council requested that the Legislative Research Division (LRD) compile and annually update a list of statutorily created boards and commissions. This publication contains that updated list. An updated list of non-statutory boards and commissions is also included. These lists were originally included in an LRD report on the process by which the Legislature confirms gubernatorial appointees. That report, *LR 301 (1997): Legislative Confirmation of Gubernatorial Appointments*, also contained information explaining the appointment process in Nebraska, which has been included in Appendix A.

Two sources greatly aided the development of this list: A report by the Government, Military, and Veterans Affairs Committee, chaired by Senator DiAnna Schimek, entitled *Nebraska Boards and Commissions, December 1994*, and the Governor’s Office, particularly former staff person Tammy Ward, who provided a listing of boards and commissions for which the Governor makes appointments.

1998 Action Affecting Boards and Commissions

In 1998, the Legislature created twelve new boards or commissions, disbanded one, and deleted obsolete statutory language regarding a commission that terminated in 1996. Of the new boards created by the Legislature, seven are permanent entities and five have a limited life. The Governor created three new commissions by executive order in 1998.

The Temporary Panels

Four of the legislatively enacted panels were created to study specific issues and present their findings by a date specified. Another panel was set up to help implement a new regulatory statute. The following five panels are temporary in nature; each was created to undertake a specific task, with no further duties enumerated in statute. However, only one of the five has “sunset” language in its enacting provisions.

The Title XXI Committee (LB 1063). This committee’s mandate is to study the use of private insurers as an alternative to Medicaid for providing health insurance coverage to low-income children as authorized by Title XXI of the Social Security Act (1997), also known as the State Children’s Health Insurance Program. The committee is to submit a report to the Legislature by September 1, 2000.

The Task Force for the Nebraska State Radio Communication System (LB 1120). This task force was to study the development of a statewide emergency radio communication system. Specifically, the task force was to determine what would be necessary to implement such a system. The task force was to present its findings, including any recommendations for legislation, to the Governor and Legislature by January 1, 1999.

The Juvenile Justice Task Force (LB 1073). This task force was to determine legislative and executive actions necessary to address gaps in the organization and delivery of juvenile services. It was to submit its report to the Governor and the Legislature by December 15, 1998.

The Task Force to Study Service Delivery for Mental Illness and Substance Abuse (LB 1354). This task force, in consultation with the Mental Health Planning Council, was to study the financing, appropriate setting for, and delivery of services to persons with mental illnesses or addictions. The task force was to submit its findings to the Governor and the Legislature by December 15, 1998.

The Livestock Waste Management Task Force (LB 1209). This task force was set up to assist the Department of Environmental Quality in implementing the Livestock Waste Management Act created pursuant to LB 1209. By statute, the task force ceased to exist on December 1, 1998, after delivering its report to the Natural Resources Committee of the Legislature.

New Permanent Boards and Commissions

Seven new permanent boards or commissions were created by the Legislature in 1998. They are:

The Propane Education and Research Council (LB 699). LB 699 provides for the structure and duties of the council. Creation of the propane council must be ratified by members of the retail propane industry in a referendum before it can begin operation. The council's function is to educate the public and industry employees about safety procedures in the storage, handling, transportation, and use of propane in residential, commercial, or agricultural applications.

The Nebraska Information Technology Commission (LB 924). This commission was originally created by Executive Order. Its statutory duties are to: develop a statewide technology plan; create an information clearinghouse; establish minimum standards and review procedures; establish technical advisory groups to study and make recommendations on specific topics and projects; and make recommendations regarding technology investments to the Governor and the Legislature. LB 924 also establishes a technical review panel to evaluate any technology project or request for funding recommended by the technology commission.

The Excellence in Health Care Council (LB 1070). This council is established within the Department of Health and Human Services Finance and Support for purposes of awarding grants and providing loan guarantees for public health projects using a trust fund established by LB 1070.

The Nebraska Pesticide Board (LB 1126). This board is to advise the Nebraska Department of Agriculture in the implementation of the Buffer Strip Act, the use of proceeds from the Buffer Strip Incentive Fund, and the approval of the buffer strip plan as authorized under LB 1126. (Buffer strip is defined in LB 1126 as "a strip of vegetation used to intercept or trap field sediments, organics, pesticides, and other potential pollutants before they reach surface water.")

The Governor's Residence Advisory Committee (LB 1129). This committee is to conduct an inspection of the Governor's residence in June of each year and report on the inspection to the Governor within 30 days. The report is to include any recommendations for major maintenance or repair projects.

The Board of Geologists (LB 1161). This board, to be comprised of professionals in the field of geology, is to administer the Geologists Regulation Act, created pursuant to LB 1161.

The Medical Literature Review Panel (LB 1162). This panel of five medical experts is to advise the Director of Insurance in disputes regarding what is deemed to be acceptable “medical literature” for purposes of recognizing a drug or combination of drugs for treating cancer, HIV, or AIDS under the provisions of LB 1162.

Disbanded Boards and Commissions

Legislation felled two previously existing panels. They were:

The Special Education Accountability Commission (LB 1). The duties of this commission were eliminated during the 1998 Special Session.

The Housing Code Task Force (LB 897). During the regular session, the Legislature removed obsolete language referencing this task force, which terminated on December 31, 1996.

Other Changes of Note

While this annual publication does not purport to chronicle every change affecting existing boards and commissions (such as changes in the number of members or length of their terms of service), there have been some changes in regard to structure, appointment process, and expenses that may be of interest to legislators.

Such changes were made to five previously existing boards or commissions during the 1998 legislative session. They are:

The Niobrara Scenic River Local Management Council is a creation of the federal government, established pursuant to the Niobrara Scenic River Designation Act of 1991, Public Law 102-50. In 1998, the Legislature voted to provide state funding to the council via LB 656. The approved funding is as follows: \$100,000 in FY1998-99; \$50,000 in FY1999-2000; and \$25,000 in FY2000-01.

The Rural Development Commission, previously located within the Nebraska Department of Economic Development, was transformed into a state agency with the adoption of LB 1053. The legislation also made some changes in the commission’s membership structure.

The Technical Advisory Committee, which makes recommendations regarding the Petroleum Release Remedial Action Act, was put under the aegis of the Department of Environmental Quality via LB 1161, and its duties were expanded.

The Task Force for Building Renewal will have its administrator appointed by the Director of Administrative Services under the

terms of LB 1129. Previously, this appointment was made by the Governor.

The Nebraska Hall of Fame Commission will be administered by the Nebraska State Historical Society following the enactment of LB 1129.

Nonstatutory Boards and Commissions

The assorted boards, commissions, task forces, councils, and committees that are not created in state statute come into existence in a number of ways, chief among them, executive order of the Governor. Such groups are also created by state agencies, often to implement a federal governmental program or project. Others come into being as creations of state boards or commissions. By their nature, they are difficult to track. The listing of these entities, therefore, should not be considered exhaustive.

The Governor created three new nonstatutory panels in 1998. They are:

The Human Resources Investment Council, executive order no. 97-5.

The Commission on Housing and Homelessness, executive order no. 98-4.

The Commission on Non-traditional Work Opportunities for Women, executive order no. 98-2.

Expenses

The majority of statutorily created boards and commissions reimburses members for expenses, as provided in statutes creating the boards and commissions. However, even when this language is lacking in the enacting statute, the members of boards and commissions are reimbursed for expenses under Neb. Rev. Stat. sec. 81-1178, which reads:

Any member of any state commission, council, committee, or board which has been created by statute shall be entitled to be reimbursed for expenses in the same manner as provided in sections 81-1174 to 81-1177 for state employees *whether or not specific reference is made to such sections.* (Emphasis added.)

Further, Neb. Rev. Stat. sec. 81-1179 extends authorization to pay expenses for members of “any state commission, council, committee, or board (which) is necessary for the purpose of compliance with acts of Congress. . . .” Generally, the expense funding is

provided by the federal government as part of the grant or act authorizing the panel. Finally, for the members of panels not covered by the above two statutes, Neb. Rev. Stat. sec. 81-1180 entitles them to expense reimbursement

if an appropriation is made for such purpose and if the reimbursement is approved by the Governor or, in cases in which the commission, council, committee, or board has been created to assist the Legislature in the performance of its duties, by the Executive Board of the Legislative Council.

These latter panels are usually advisory committees created by statutorily created boards and commissions.

Neb. Rev. Stat. secs. 81-1178, 81-1179, and 81-1180 were enacted via Laws 1977, LB 365, as a result of a situation in which members of the Nebraska Commission on the Status of Women and the State Personnel Board were receiving expenses despite the absence of statutory language authorizing such expenditures. An Attorney General's opinion held that statutory language was needed to authorize payment for expenses. The lack of statutory language was considered an oversight, since similarly situated boards and commissions were authorized to pay expenses to members engaged in the business of the board or commission and the practice of paying expenses had been "traditional" (floor debate, LB 365). Also during floor debate, it came to light that an additional 20 to 25 boards or commissions were in the same situation of reimbursing expenses without statutory authorization. Therefore, the statutory language was broadened beyond the initial two boards. Additionally, LB 365 permitted the retroactive payment of expenses. This is codified at Neb. Rev. Stat. sec. 81-1181.

Nebraska Boards and Commissions Tables

The following tables list the statutorily created boards and commissions in Nebraska, whether legislative confirmation is required for appointees, the per diem rate if paid, and whether expenses are authorized within the statute creating the board or commission. The first chart, the 1998 Update, lists only those boards and commissions created during the 1998 legislative session. Appendix C provides a list of the nonstatutory boards and commissions. The boards and commissions on this latter list do not require legislative confirmation and are generally the creation of the Governor or a state department or agency in concert with a federal program.

TABLE 1

Nebraska Boards and Commissions Created by the Legislature in 1998

Legislative Confirmation and Statutorily Authorized Per Diems/Expenses

Board/Commission	Statute	Legislative Confirmation Required	Per Diems	Expenses Authorized In Statute ¹
Board of Geologists	81-3520 et seq.		---	Y

Task Force to Study Service Delivery for Mental Illness & Substance Abuse	71-5054			
Title XXI Committee	68-1037.6			

Endnotes

1. A "Y" in this column indicates that a provision authorizing expenses exists in the statute creating the board or commission; an "N" indicates the enacting statute makes no mention of allowing expenses. However, Neb. Rev. Stat. secs. 81-1177, 81-1179, and 81-1180 provide that all statutory boards and commission are entitled to expense reimbursement. See the text for a more detailed explanation.
2. LB 1161 states, "Each member of the board shall receive as compensation the same per diem and travel expenses as other state employees for each day actually spent in traveling to and from and while attending sessions of the board and its committees or authorized meetings of the National Association of State Boards of Geology, or their subdivisions or committees, and all necessary expenses incident to the performance of his or her duties under the Geologists Regulation Act as provided in sections 81-1174 to 81-1177." However, those sections make no explicit mention of a per diem.
3. LB 1162 does not give this panel a name; rather it simply refers to them as a "panel of five medical experts."
4. The Niobrara Scenic River Local Management Council was actually created pursuant to the federal Niobrara Scenic River Designation Act of 1991, Public Law 102-50, which outlined management alternatives for the federally designated portion of the river corridor and recommended a local council created pursuant to the Interlocal Cooperation Act. Via LB 656, the Legislature provided state funding for the council.

Endnotes

General note: As per Neb. Rev. Stat. sec. 71-112, the Boards of Examiners in the various health-related fields receive expenses as well as a per diem not to exceed \$30. Additionally, the per diem and expenses cannot be greater than "is received in fees from the applicants taking the examination in any particular profession." Each individual board sets its own per diem within those parameters. Additionally, these boards may set per diems and pay the expenses up to this rate for any subcommittees they create. The per diems listed here were provided by the Health and Human Services Department of Regulation and Licensure Credentialing Division.

1. A "Y" in this column indicates that a provision authorizing expenses exists in the statute creating the board or commission; an "N" indicates the enacting statute makes no mention of allowing expenses. However, Neb. Rev. Stat. sec. 81-1177, 81-1179, and 81-1180 provide that all statutory boards and commission are entitled to expense reimbursement. See the text for a more detailed explanation.
2. The University of Nebraska Board of Regents serves as the Bessey Memorial Fund Commission. Nothing in state statute indicates the regents receive expenses expressly for this purpose.
3. LB 1161 states, "Each member of the board shall receive as compensation the same per diem and travel expenses as other state employees for each day actually spent in traveling to and from and while attending sessions of the board and its committees or authorized meetings of the National Association of State Boards of Geology, or their subdivisions or committees, and all necessary expenses incident to the performance of his or her duties under the Geologists Regulation Act as provided in sections 81-1174 to 81-1177." However, those sections make no explicit mention of a per diem.
4. Compensation for the Task Force for Building Renewal members is "established by the Governor on a per diem basis. . . ."
5. As host state for the central interstate waste facility, Nebraska has two at-large voting members and one nonvoting member from the county in which the facility is located. However, until the compact is ratified (Kansas is the hold out), Nebraska is prohibited from appointing the two at-large voting members.
6. Claims Board members are the Director of Insurance, Commissioner of Labor, and the Director of Administrative Services, who shall "receive no compensation for their services except that provided by law for the offices they hold. . . ."
7. Five members are appointed by the Executive Board of the Legislative Council and four members are appointed by the Governor.
8. Although the Legislature created the Gaming Commission in 1991, the statute (sec. 9-1,102) provides no details on who is to comprise such a commission nor how it is to operate, and no such commission was ever created, according to Jim Bogatz of the Revenue Department's Charitable Gaming Division.
9. The Liquor Control Commission members are salaried. Neb. Rev. Stat. sec. 53-112 states this annual salary is "not to exceed" \$12,500.
10. The Livestock Auction Board is a three-person board with one appointed member, who receives expenses.
11. The Managed Care Commission statutorily was to sunset on April 1, 1997.

12. LB 1162 does not give this panel a name; rather it simply refers to them as a "panel of five medical experts."
13. There are six; one for each mental health service region in the state.
14. Each regional mental health governing board can appoint one advisory committee.
15. See footnote 15.
16. The Board of Nursing statute authorizes up to a \$100 per diem.
17. The Parole Board chair receives an annual salary of \$55,900; the other four members receive an annual salary of \$45,900.
18. PSC members receive an annual salary of \$42,000.
19. The chairman of the Real Estate Commission is the Secretary of State and does not receive a per diem.
20. Three of the seven members of the Review Incentives Program Committee are appointed by the Executive Board, a fourth is a legislative staffer appointed by the Executive Board upon recommendation of the committee.
21. Four of the seven members of the panel are chosen by the Legislature.
22. In 1995, the Legislature passed LB 434, which essentially laid the groundwork for transferring the duties of the Soybean Board to a private nonprofit corporation as allowed under the federal Soybean Promotion, Research, and Consumer Information Act of 1990 (7 U.S.C. 6301 et seq.) See Neb. Rev. Stat. secs. 2-3325 and 2-3326 for further information.
23. According to statute, this task force was to cease to exist on Dec. 31, 1997. However, it remains in statute.
24. By statute, the members of the Tax Equalization and Review Commission are considered employees of the state.
25. The Technical Advisory Committee, implemented to help the Department of Environmental Quality carry out the provisions of the Petroleum Products and Hazardous Substances Storage Act was extended to 2000 as per Laws 1997, LB 590.
26. Only members who are not state employees receive a per diem.
27. Membership is comprised of the State Board of Education.

APPENDICES

APPENDIX A

The Appointment Process in Nebraska

The procedures in Nebraska by which an appointee goes from nomination by the Governor to confirmation by the Legislature is standard and somewhat perfunctory. The rules governing the confirmation process can be found at Rule 3-4(e)(ii)-(v) and Rule 3-13 of the *Rules of the Nebraska Unicameral Legislature*. A copy of the pertinent rules has been placed in Appendix B. Additionally, Article IV, secs. 10 and 12 of the Nebraska Constitution define the parameters for appointments to boards and commissions. Sec. 10 applies to initial appointments by the Governor of officials whose appointment or election is not otherwise provided for by law and sec. 12 applies to vacancies in nonelective state offices.

Once the Governor's appointees have been forwarded to the Legislature, the Executive Board sitting as the Reference Committee refers all appointees to the appropriate standing committee in the same manner it handles bills and resolutions. Subject matter determines the committee to which appointees are referred; for example, appointees to the Motor Vehicle Licensing Board would be referred to the Transportation Committee.

The Clerk's office is responsible for collecting and disseminating to the appropriate committee all the paperwork regarding a nomination as required by Rule 3-4(e)(iii). This paperwork consists of: (1) the nomination letter from the Governor, which is also printed in the Journal; (2) a certificate of appointment; (3) the nominee's resume or, lacking that, a copy of the executive application form which the nominee has completed for the Governor; and, (4) a financial disclosure statement, if required. The first three items are provided by the Governor's office; the latter comes from the Accountability and Disclosure Commission. All of this material is then forwarded to the relevant committee.

Once received by committee, the respective committee clerks are responsible for contacting the appointees to schedule a hearing and notifying the Clerk of this hearing date. All appointees are required to attend this hearing, unless "waived for good cause" (Rule 3-4 (e)(iv)) by a majority vote of the committee. Several committee clerks with whom we spoke indicated that their committee chairs were more likely to waive appearances by reappointees rather than persons appearing for the first time. Page 3 of the Committee Clerk's Manual addresses these duties and the manual also provides a list of sample questions for conducting confirmation hearings. Appointment hearings, as are all hearings before committees, are governed by Appendix "A" to Rule Three, Model Committee Rules.

Once the hearing is completed, the committee generally votes on the appointees in executive session and then forwards a copy of the Standing Committee Report for Gubernatorial Appointments with its recommendation, including a record vote of each senator on the committee, to the Clerk. If approved by the committee, the appointment is then scheduled for a vote by the full Legislature. Appointment letters received by the Clerk in the last eight calendar days of any regular legislative session are deferred until the next regular or special session. The Clerk's Office does not keep a tally of those appointees who have been rejected, but this is apparently a rare phenomenon.

The Legislature shall then have the opportunity to accept or reject the report of the committee.

(v) Any appointment letter received by the Clerk of the Legislature during the last eight calendar days of any regular legislative session shall not be acted upon. Acknowledgement of receipt of the appointment shall be deferred until the next regular or special session of the Legislature.

(f) Rules Committee.

All proposed rules changes shall be set for public hearing within five legislative days after their referral to the committee. The hearing shall take place within fifteen legislative days after the referral, and the committee shall take final action on the proposal within ten legislative days after the hearing.

(g) Investigating Committees.

The Committee on Committees may appoint other select committees when authorized by the Legislature. No investigating committee of the Legislature shall be created except by resolution which shall set forth, with supporting statements, the reasons for and the purposes of the investigation, and no committee thus established shall function except during the interim between legislative sessions.

Sec. 5. Special Committees. (a) Special committees shall include all authorized committees other than standing and select committees. Unless otherwise specifically provided, special committees shall not have jurisdiction over legislative bills, but shall be subject to the same procedural rules as standing committees, insofar as they are applicable.

(b) The special committees authorized by statute as of January 1, 1980 are as follows:

- Building Maintenance. RRS 81-185 6 members
- Education Commission of the States.
RRS 79-2504 3 members
- Executive Board of the Legislative Council.
RRS 50-401.01 9 members
- Intergovernmental Cooperation. RRS 81-816 5 members
- Legislative Program Evaluation. RRS 50-1204 5 members

(c) The following special provisions shall be in force with regard to the following special committees:

(i) Intergovernmental Cooperation Committee.
In addition to the members of the Intergovernmental Cooperation Committee chosen in accordance with Section 81-816, the Executive Board may appoint temporary members to serve on such assignments as the chairperson shall direct.

(B) To underscore or remove underscoring, as the case requires, in standing committee reports and in General File, Select File, and specific amendments.

(C) When an amendment to add the emergency clause, the severability clause, or provide an operative date is adopted on Select File which does not spell out the standard clause or section and make the necessary change in the title, the Chairperson of Enrollment and Review shall also have the authority to add to the engrossed bill the standard clause or section, assigning to it the appropriate section number, and make the necessary change in the title as a matter of course without including such action in his or her reports and recommendations to the Legislature or making any special record thereof.

(D) To add and/or delete names of introducers to reflect action on the bill while the bill remains in the possession of the Legislature at any stage of consideration.

(E) To reflect votes on Final Reading as they may occur pursuant to Rule 6, Section 10 and Rule 6, Section 15.

(e) Reference Committee.

(i) The Executive Board shall constitute the Reference Committee. The Reference Committee shall review each bill and resolution and either refer the matter to the appropriate committee or to General File. The appropriate committee is that committee which has subject-matter jurisdiction over the issue or which has traditionally handled the issue.

(ii) All nominations made to the Legislature by the Governor, requiring confirmation by the Legislature shall be referred to the appropriate standing committee and the same procedure shall be followed as governs the handling of other matters before standing committees, unless the Legislature shall otherwise direct by unanimous vote.

(iii) The Clerk of the Legislature's office shall be responsible for the collection of pertinent information on gubernatorial appointments. That information will be distributed to the appropriate standing committee prior to the time of the confirmation hearing. The Clerk's office shall be the "depository" for background information on the individual, a statement of financial interests if applicable, and other biographical information that the committee chair feels is appropriate for the committee to have before it during the confirmation process.

(iv) The committees to which a gubernatorial appointee has been referred for confirmation shall conduct a confirmation hearing. Each appointee shall be required to appear in person before the committee conducting the confirmation hearing. The appearance of the appointee may be waived for good cause shown by a majority vote of the members assigned to the committee conducting the hearing.

The committee shall prepare a report either approving or rejecting the appointment. Said report shall be filed with the Clerk of the Legislature.

conducts an executive session within the hearing room assigned to that committee for such purpose, unless the committee by a vote of the majority, with all the members present, taken at least once a session, decides otherwise.

(b) The use of any mobile, portable, or wireless communication device, other than those authorized by the Legislative Council or used by licensed medical persons on duty, is prohibited in legislative hearing rooms during a meeting of a legislative committee.

Sec. 11. Temporary Appointments. (a) When a member is unable to serve, the chairperson of the committee, after a majority vote of the remaining members, shall request that such vacancy be filled by the Committee on Committees unless such vacancy is on the Appropriations Committee in which case the vacancy shall be filled by the Executive Board pursuant to Rule 3, Section 2(c).

(b) A temporary appointment may be made by the Chairperson of the Committee on Committees, or in the case of the Appropriations Committee, the Executive Board, for only one day when requested by a chairperson of a standing committee which lacks a quorum. When a member is appointed from an eight-member committee, the consent of the member to be appointed shall first be obtained. The temporary appointee shall have the right to vote only on the bill or bills that actually have been heard by the appointee and provided that the vote is taken on such bills on the day the bill or bills are heard. When such appointment is made in case of an incapacitated member, such appointee shall cease to be a member of such committee upon the return of the incapacitated member for whom he or she was appointed.

Sec. 12. Consideration and Correlation of Bills and Resolutions. (a) Committees shall consider and report without unnecessary delay all bills and resolutions referred to them. Committees shall be authorized to combine and to correlate the provisions of different bills and resolutions referred to them and related to the subject matter jurisdiction of the committee. Committees may, before taking final action on any bill or resolution, adopt amendments thereto, for the consideration of the Legislature.

(b) The chairperson of each committee shall set for hearing all bills and resolutions referred to the committee, except as provided for in Rule 1, Section 17.

Sec. 13. Public Hearing, Notice. Before taking final action on a bill, resolution, or gubernatorial appointment, a committee shall hold a public hearing thereon and shall give at least seven calendar days' notice, after the bill or pronouncement of the appointee shall have been printed, by

(ii) The Executive Board is authorized to exercise jurisdiction over legislative bills and resolutions and hold hearings regarding such legislation when the issue presented by the legislative bill or resolution is one of general import to the Legislature and its operations as a whole. Such legislative hearings shall comply with the provisions in Rule 3, Sec. 13.

(iii) The Legislative Program Evaluation Committee is authorized to hold hearings, at the committee's discretion, to receive testimony regarding topics it has selected for review. Such hearings shall comply with the provisions in Rule 3, Sec. 13.

Sec. 6. Meeting Times. (a) After consultation with the Speaker, the Committee on Committees shall publish a schedule of standing committee meetings, in such manner as to avoid, as far as possible, conflicts in the assignment of members to committees. Standing committees shall meet at 1:30 p.m. on weekdays, unless otherwise approved by the Legislature, except for the Nebraska Retirement Systems Committee, which shall meet as called by the chairperson.

(b) A standing committee which decides not to hold meetings on the appointed day shall report that decision to the Clerk of the Legislature.

(c) Any legislative committee shall be subject to the call of its chairperson or to the call of a majority of its members, in accordance with the notice and procedural requirements set forth in its committee rules.

Sec. 7. Chairperson, Vice Chairperson. (a) The chairperson of each standing and select committee shall be selected by secret ballot on the floor of the Legislature.

(b) The chairperson of a special committee shall be selected in the manner provided by the act authorizing the committee, or if not specified, by the Executive Board.

(c) Each committee shall elect from its membership a vice chairperson to serve in the absence of the chairperson.

Sec. 8. Committee Quorum. A majority of the members of a committee shall constitute a quorum. A quorum must be present for the transaction of any committee business except a public hearing.

Sec. 9. Quorum at Committee Hearings. A quorum of committee members should be maintained throughout all committee hearings.

Sec. 10. Conduct During Committee Hearing. (a) No member, staff, media representative, or individual shall smoke or otherwise consume tobacco products during a committee hearing or while the committee

publication in the Legislative Journal. No bill or resolution having been set for public hearing shall be withdrawn nor the hearing cancelled within seven calendar days of the date set for said public hearing.

Sec. 14. State Officials Appearing Before Committees. State officials and department heads or their designees and state employees are encouraged to appear before any legislative committee to comment upon bills having an impact on the operations of the administrative agency or department for which they work.

Sec. 15. Executive Sessions and Closed Meetings. (a) Executive session shall mean any meeting or portion of a meeting which is closed to the general public, and the proceedings of which are not electronically recorded and transcribed, unless the committee so provides, but the records of which shall be available for public inspection. Executive sessions shall be open to members of the news media who may report on action taken and on all discussions in executive session.

(b) All other meetings of a committee shall be public unless the committee, by a majority vote of all of its members, determines that a meeting should not be open to the public, including members of the news media, in a particular instance, due to rare and extraordinary circumstances. The meeting shall be reconvened in open session before any formal action may be taken.

Sec. 16. Report of Bill to Legislature. (a) In reporting a bill to the Legislature, whether with or without amendments, a committee shall by vote of a majority of its members, recommend that the bill be placed on General File or that the bill be indefinitely postponed.

(b) A report on a bill or resolution must be made to the Legislature within eight calendar days after the committee has taken final action upon the particular measure. Final action shall mean an affirmative vote of a majority of the committee members to advance a bill to General File with or without committee amendments or an affirmative vote of a majority of the committee members to indefinitely postpone the bill. A committee may reconsider any final action prior to the committee making a report on the bill or resolution to the Legislature, provided the reconsideration takes place within eight calendar days of the final action.

(c) No bill shall be reported by the committee to be placed on General File unless the amendments, if any, are approved as to form and draftsmanship by the Bill Drafter.

Sec. 17. Indefinitely Postponed Bills. If the committee action on a bill be to postpone indefinitely, the bill shall stand indefinitely postponed; except that such bill may be placed on General File or referred back to the

committee by a three-fifths vote of the elected members upon motion made within three legislative days after the committee makes its report to the Legislature, or by a two-thirds vote of the elected members upon motion made more than three legislative days after such committee report. Not more than one bill shall be raised from committee on any one motion. A motion to raise cannot be amended to include any other bill or subject matter. A motion to raise must be disposed of by the Legislature within five legislative days after the motion is available for consideration or it shall be deemed defeated.

Sec. 18. Committee Statement. (a) The chairperson of each committee with the assistance of the legislative staff shall, when reporting a bill, submit with such bill a committee statement which shall contain, but need not be limited to, the following information:

- (1) the one-line title and number of the bill;
- (2) a roll call vote of final committee action taken on the bill;
- (3) the date of the public hearing on the bill;
- (4) a list of all individuals testifying for and against the bill and any organization they represent;
- (5) a summary of the bill's purpose and a description of all major provisions for change in the bill as written and as amended by the committee;
- (6) if committee amendments are to be introduced, a copy of the amendments and an explanation thereof.

(b) A copy of the proposed statement shall be distributed to each committee member within five days after final action on the bill has been taken by the committee. A minority or concurring statement bearing the signature or signatures of its proponents and setting forth objections to the bill, to proposed amendments, or to the majority statement may be filed by its author(s) with the Clerk of the Legislature at any time prior to the first hearing of the bill on General File.

(c) A copy of the committee statement and any minority statements submitted shall be distributed to each senator after filing with the Clerk of the Legislature. Copies of such statements shall be made available to the public.

Sec. 19. Request From Committee, Bills Held. (a) Except for the general appropriation bills necessary for the support of the state government for the biennium, the Legislature may, by vote of a majority of the elected members, request a status report from any committee at any time after said committee shall have been in possession of a bill or resolution for twenty legislative days.

APPENDIX C
